PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

123-1-10 (WT1).

Ottawa, October 3, 1946.

Mr. E.B. Goodman, Indian Agent, Norway House, Manitoba.

With reference to your letter of September 16th and also your letters of September 20th and 25th, the Department approves the admission of the under-mentioned children to the Cross Lake Indian Residential School, providing that the admission of these pupils are not in excess of the number allowed:

Henry Trout,
Therese Hastings,
Maggie Chubb,
Alexander Ross
Effie Okimaw
Muriel Burge,
Marie(Mary) Scratch
Andrew McKay
Robert Maxell Chubb,
Francis Chubb,
Jonas Yellowback,
Jimima Ross,
Joseph A. Hamilton,
Thomas A. Trout
Dorothy Thomas
Rosalie Flett
Adelaide B. Miswaggon.

The majority of the children's parents are both living and it is possible that most of the children, if not all, should attend the new school at Cross Lake about which you are being advised.

When submitting applications, the original copy only is required by this office, therefore, the duplicates are being returned.

Philip Phelan,
Chief, Training Division.

Re: Louisa Muswagon #731 Norway House Band

Enclosed please find Application for Admission to Cross Lake Indian Residential School of the above named. There has been some delay in submitting this application as the mother was still living but away in hospital and I endeavoured to get her signature. However she died in St Boniface Sanitorium before returning original application which became lost.

This second application had to be submitted and a fresh physical examination taken.

This child who is an orphan entered the Cross Lake Indian Residential School at commencement of present academic year. I therefore recommend that the per capita grant be made retro-active to September 1st 1947.

E. B. Goodman.

MINES AND RESOURCES

FILE

Norway House, Nov 8/48.

Indian Affairs Branch, Dept of Mines & Resources, Ottawa.

I am enclo sing herewith the application of Milton Garnet Queskekapow, #551 Norway House Band for admission to the St Joseph Residential School.

The home life of this boy is not g ood and his attendance at Day School is poor owing to the fact that his parents take hime away from the Reserve when going hunting or to the fishing groumds.

I would recommend that this application be approved.

Yours truly,

F. M. Hughes,
Act Supt.

Mr. F.M. Hughes,
A/Supt. of Indian Agency,
Norway House, Manitoba.

With reference to your letter of the 8th instant, the Department approves the admission of Milton Garnet Queskekapow to the Cross Lake Residential School.

In your letter you refer to the "St. Joseph Residential School". The official name of this school is the "Cross Lake Residential School" and in future correspondence you should refer to it by that name.

As we only require one copy of the application form, the duplicate is returned.

Bernard F. Neary,
Supt. of Indian Education.

Norway House, Manitoba
3 March 1949.

Indian Affairs Branch, Dep't Mines & Resources, Ottawa

I am enclosing 8 applications for Admission of children who are already attending the Cross Lake Residential School.

These applications were left at this office just recently by Father Trudeau. He states that the reason these applications are so late is due to the fact that he had some difficulty in getting the Medical Examination completed. Apparently on several occasions when he has asked the Doctor to complete these applications, he found the Doctor was travelling by aircraft and was just ready to leave the reserve.

F.M. Hughes,
A/Superintendent,
Indian Agency.

Ilford, Manitoba.
22nd March, 1949.

Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ont.

Dear Sir:

Attached please find six Applications for admission to St. Joseph's Indian Residential School, Cross Lake, Manitoba.

These have just been submitted to this office from the Norway House Agency which was formerly in charge of God's Lake reserve.

You will note the applications are all dated August 25th, 1948.

The children concerned are at the present time attending the school mentioned.

In a covering letter Norway House Agency explains they had some difficulty in getting the examination completed, thus causing the delay in submitting the applications.

Your obedient servant,

J.H. Stanton,
Supt., Nelson River Agency.

September 29th, 1949.

Mr. J. Waite,
Field Agent,
Norway House Indian Agency,
Norway House, Manitoba.

We have received an enquiry from Reverend Gilbert C. Johnson, United Church Mission, Norway House, which reads as follows:

"I would also appreciate information concerning the admission of Milton Queskekapow to the Jack River Branch of the Catholic Residential School. I have inquired at the local Indian office and they have no record of his admission. I would appreciate your forwarding me a copy of his admission presuming this is available. He was admitted on Oct. 1, 1948."

Our records show that application form for this boy was forwarded to us under cover of a letter from Acting Superintendent Hughes, dated November 8th, 1948, requesting his admission to the Cross Lake Residential School. The reason given us was that "home life of this boy is not good and his attendance at day school is poor, owing to the fact that his parents take him away from the Reserve when going hunting or to the fishing grounds".

The application form stated that the boy's religion was Roman Catholic and was signed by his father. Please let me have your comments.

Philip Phelan,
Chief, Education Division

Re: Applicationfor Admission Indian Residential School

Dear Sirs,

Attached please find application for admission covering Jacob Albert Yellowback NO. I39 Gods Lake Band.

This application was received from Norway House Agency with an accompanying letter stating thyy had received it from the Dept at Ottawa under cover of a letter, File 577-10(3.6) Aug. 6th 1949. However there was no copy of letter enclosed.

I presume it was forwarded to me for my signature.

Please note I was unable to contact the parents to ascertain why the mother signed instead of the father.

I assume the father was not available at the time.

Your obedient servant,

J.H. Staunton,
Supt. Nelson River Agency.

Indian Agency,
Norway House, Manitoba,
December 28, 1949.

Mr. Philip Phelan,
Chief, Education Division,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Sir:

Please refer to your letter of September 29th last, your file 577-10 (E1).

I have today interviewed Rev. Father Chamberland, Principal of the Jack River School, in connection with the admission of Milton Queskekapow to that establishment. Father Chamberland informed me that he had received repeated requests from the boy's parents to have him admitted to the Roman Catholic Church. These requests were made upon the parents' own volition as they appeared anxious to have the boy a regular attendant at the school and were completely agreeable to having him baptized in the Roman Catholic faith.

I trust this information will enable you to dispose of the matter.

Yours truly,

J. D. Minnis,
Supt. of Indian Agency.

OFFICE OF THE INDIAN AGENT

CANADA
DEPARTMENT
MINES AND RESOURCES
INDIAN AFFAIRS BRANCH

2535 PLEASE QUOTE FILE A-A (123)

Indian Agency,
Norway House, Manitoba,
January 5, 1950.

Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Canada.

Gentlemen:

I enclose herewith, for your consideration, applications covering the admission of four (4) pupils to St. Joseph's Residential School, Junior Section - Jack River, as handed me by Rev. Father Chamberland, Principal of that institution and which I have approved. These are as follows:-

(1) Nancy-Jane Balfour,
Norway House Band #531.

(2) Elisabeth Collon,
Norway House Band #676.

(3) Joe Allan Harper,
Island Lake Band #244.

(4) Henry Lawrench Miswagan,
Norway House Band #641.

Upon reference to our Agency records I find that the parents of the first two children named are listed as adherents of the United Church of Canada. Father Chamberland tells me that these children were admitted to his faith and to the school after repeated requests from the parents. The third named child resides at Island Lake and I am unfamiliar with the circumstances attending the child's conversion. The parents of the last named are listed as Roman Catholic.

Indian Affairs. (RG 10, Volume 6261, file 577-10, part 3)

Mr. J.D. Minnis,
Superintendent, Indian Agency,
Norway House, Manitoba.

Re: Cross Lake R.C. Indian Residential School, Your File 4-A (123)

With reference to your letter of the 5th instant, the Department approves the admission of Joe Allan Harper and Henry Lawrence Miswagan to the above school.

We have noted your remarks regarding Nancy-Jane Balfour and Elisabeth Collon. You should obtain a written statement from Father Chamberland with regard to his reasons for submitting applications for their admission to the Cross Lake School, in view of your statement that the Agency records have them listed as adherents of the United Church of Canada.

If the parents have joined the Catholic Church, the date of their admission to that Church should be stated. You should also point out to Father Chamberland that in the case of children whose religious affiliations are doubtful, all the facts should be placed before the Department through your office before such children are admitted to the Cross Lake Residential School.

I feel certain that he will co-operate with us in the manner just mentioned, as it has been a long standing rule with the Department that the procedure outlined in the preceding paragraph must be followed.

As one copy of the application forms is all that is required by us, the duplicates are being returned for your file.

Bernard F. Neary,
Supt. of Indian Education

Mr. Neary,
Department of Mines & Resources,
Indian Affairs Branch,
Ottawa, Ont.

Dear Sir:

I have been notified by Mr.Minnis, Indian Agent, that you required more information about the admissions into the St.Joseph Ind.Res. School of Elizabeth Colon and Nancy Jane Balfour. I am glad to explain these cases.

Re: Elizabeth Colon

The child was admitted into our Residential School on account of the persisting wish of her parents to have her Catholic and educated in our school. She had been attending ouf day-shhool for three years. I can say emphatically that ~~in no way whatsoever were her~~ parents or herself solicited by any one of the school staff in this regard. On the contrary, I had refused to take her in the Res.School for two years before. This last fall, as her parents were insisting again, I tought it was fair to grant their demand. The child has been admitted into the Church and is now R.Catholic according to the wishes of the parents.

Re: Nancy Jane Balfour

The same statement applies to Nancy Jane Balfour. I had delayed the admission of this child to have more certitude about the parents'real intentions. As themselves persisted and as the mother had freely decided a year ago to join the R.C.Church, I did not hesitate to admit this girl into the Church and into the Res.School. father?

I hope these informations will be satisfactory,

Yours very truly,
Albert Chamberland, O.M.I.

Re: Cross Lake R.C. Indian Residential
School. Your file 577-10 (E1)

Receipt is acknowledged herewith of your letter of January 13th requesting a written statement from Father Chamberland with regard to his reasons for submitting applications for admission of Nancy-Jane Balfour and Elizabeth Colon to the m/n school, in view of the fact that the Agency records have listed them as adherents of the United Church.

I enclose herewith letter of explanation from Father Chamberland, which I believe covers this matter, also applications for approval.

J.D. Minnis.,
Superintendent,
Indian Agency.

1/ E. Aside from denominational arguments the question really requiring an answer is:
Why are these children boarders?
They live close enough to be day pupils
U.C. adherents requiring residential facilities have to send their children to far-off Portage or Brandon.
We shall again have to face the wrath of those who regard this branch of the Cross Lake schools as an extension of their duties. CAFC - 3 March 50

Indian Affairs. (RG 10, Volume 6261, file 577-10, part 3)

, March 7, 1950.

Mr. J.D. Minnis,
Supt. Indian Agency,
Norway House, Man.,

Nancy Jane Balfour
[redacted]

Ref. your 4-A (123) of Feb. 6

The main point at issue, aside from denominational arguments, is the question "Why are these children boarders?".

They live close enough to be attending as day school pupils. As you are aware, all United Church children now have to be sent to Portage or Brandon Residential Schools. They have been agitating strongly for the re-erection of the Norway House Residential School and such instances as this will only make our position here more difficult.

How far do these children live from the schools now existing? Why can they not attend as day school pupils?

Bernard F. Neary,
Supt. of Indian Education.

Re: Nancy Jane Balfour & Elizabeth Colon,
Your letter March 7/49, file 577-10 (E).

In reply to yours re m/s - Investigation discloses that the reasons the m/s children are attending the Boarding school are mainly economic. The parents of Nancy Jane Balfour are resident in this settlement only about half the year, being engaged in fishing and trapping activities in areas remote from Norway House. At the moment of writing, the parents of Elizabeth Colon are in Winnipegosis, Man, where they have been most of the winter, I am informed, and, as the father and mother work at various fish-camps around Lake Winnipegosis, it would be most difficult for them to take the child along.

I have discussed the matter of admissions to Residential School with both Father Chamberland at Jack River and Father Trudeau at Cross Lake, especially where children of other faiths are concerned, and I do not anticipate any re-occurrence of a situation such as we are now dealing with. Both have agreed to submit applications for admission to Department through this office before admitting the child or children.

Mr. Neary points out (in his letter of Jan. 19th to me) that the above procedure has been a long- standing rule of the Department. However, as this procedure was not followed by Father Chamberland in the case under discussion, (applications being received by the writer late in December, while children were admitted at opening of term) it might be helpful if Department were to circularize principals of the

(over please)

E. Child could go to Cross Lake rather than Jack River when parents would not protract their stay at Norway House from which we ought to plan to disperse the Indians. Re. Dare anticipate a relief community if we do not arrange employment elsewhere.

Residential Schools to this effect, particularly just prior to opening of the Fall term. In fact, the time and correspondence devoted to the case under discussion could all have been avoided had the Principal adhered to the rule. I feel that if, in future, this procedure is not followed, then the explanation should be demanded of the Principal involved, and not the Indian Superintendent.

I trust that the reasons outlined for the presence of the m/m children in Residential School instead of Day School are considered sufficient, and I am sure that reasonable cooperation between Residential Schhol Principals and this office will obviate the necessity of explaining such instances as this in the future.

Memorandum:

SUPERINTENDENT OF EDUCATION

Jack River Indian School

This institution has become a significant outpost of the Cross Lake Residential School and its existence is used to support a demand for replacing the United Church Indian Residential School at Norway House. The late Mr. Superintendent Goodman intended to review the necessity of providing residential facilities for a number of the children who have been admitted as boarders. He maintained that the previous Superintendent had been unnecessarily generous in his recommendations for admission. As the Department is now encouraging the day division organization in residential schools, Mr. Superintendent Minnis might be requested to undertake a study of the situation.

I get the impression that the teaching staff is better than that of the parent institution at Cross Lake, and I sugrest an inquiry whether this condition will continue. It seems to me that the parent institution ought to be better staffed.

The scattering of pupils through the grades suggests that some transfers of pupils might be made to the parent institution [redacted], thus reducing the number of grades taught and releasing a much needed teacher for duty elsewhere. Mr. Inspector Moffat stresses the fact that the classroom

..2

is congested and lacks good lighting and ventilation.

It is notable that there has been considerable correspondence on file 577-10 regarding admission of Norway House children to a residential school which they formerly attended as day pupils. There is a letter on file 577-10 from Mr. Superintendent Minnis in which he suggests that residential school Principals be requested to adhere more strictly to the Department's wishes in the matter of admission procedure.

Re: Admission of Pupils, Cross Lake R.C.
Indian Residential School.

Please refer to my letter to you of April 5, 1950, under cover of which quarterly return and Statement of Admissions and Discharges of Pupils pertaining to the c/n School were submitted.

A letter setting forth the circumstances under which Emily Menow, #740, and Marion Menow, #767, Norway House Band, were admitted to Residential School has been received from Rev. A. Chamberland, O.M.I., Principal of the Hawk River Section of the school, a copy of which is enclosed for your information.

In view of the cooperative attitude evinced by Father Chamberland in his explanation of the admissions of these children to his school, I am pleased to enclose approved applications covering these children.

Application of Muriel Sinclair to Cross Lake Res. school has not yet been received from Father Trudeau. This application was delayed awaiting medical examination, and it is possible that same will arive in first mail after break-up.

Norway House, April 15, 1950

Mr J.D. Minnis.,
Superintendent Indian Agency,
Norway House, Man.

Dear Mr. Minnis:

I acknowledge yours of April 5th about the Applications for Admission to Residential School of Marion Menow and Emily Menow.(File 123/25-2-577)

I regret not to have followed the procedure you wanted me to follow. I did not understand you when the other cases were talked about. For the present Admissions it would have been very convenient to submit them to you and I would have done so with pleasure if I had realized it was your desire.

In the past, I have usually sent the Applications to the Principal of Cross Lake School. I have no doubt that it has been the ruling of the Department to have the Applications submitted to the Superintendent before admitting a child to a Residential School, and I understand it is more regular. The fact is that it was not frequently done and I don't remember that we have been requested to do so. I have looked over the past correspondence I had with the Department about this subject and I have found no mention of this ruling. I state this to have you understand why I did not realize just what you meant.

For future Applications, I can assure you that I will do my best to comply with the requirements of the Department in this matter. However, I can foresee cases where this way of doing will be very embarrassing if not completely impossible. Parents very often decide to put their children in the school just when they are about to leave for their camps or in such circumstances. The greatest difficulty arises from the medical examiration. Quite often we have to wait quite awhile before the children are examined; the doctor or the technician are away, the weather is not permitting etc ... It is not so simple as one might think. Practically the children must be in the school. In any case, I would like you or the other officers of the Department to feel free to give your approval or refusal even if already the child is in the school. We do so at our own risks.

Re: Marion Menow

She is an illegitimate child, adopted by her grandparents: Mr & Mrs J Charles Menow. Her mother is married with David Ross of Grand Rapids. The reasons given by them when they asked to put her in school was their old age (both are 70 and over), the actual state of health of J. Charles. Under such conditions they felt that they could not keep this child properly.

Re: Emily Menow

Twice this winter I have been asked by Johnnie Menow, her grand-father and guardian, to take this girl in our school. I could not give him a favorable answer until a few children from Cross Lake School would be discharged.

She was received in the Catholic Church at her entry in the school. Her admission was not the reason but the occasion to join the Church. It had been their intention to have her Catholic prior to their demand to put her in a Residential School. But she had to be instructed first. I don't think that it is surprising as all the Menows at the exception of a few, are Catholics and among these most of them will eventually join the Catholic Church.

This child is ten years old and had just a few days of school. Johnnie and his family, under ordinary circumstances, are away from the reserve the greatest part of the year: from October to January and from March to the middle of May on his trap line, from June to August at the Landing for fishing.

Again I apologize to have given you this trouble. I hope that I have answered to all you wanted to know.

Yours very truly,

(signed) A. Chamberland, OMI

Norway House, Man., April 5/50.

Rev. J. Chamberland, O.M.I.,
Jack River M.C.Mission,
Norway House, Man.

Dear Father Chamberland:

I am in receipt of applications for admission to Residential School in respect of Marion Menow and Emily Menow (Dixon), as enclosed with quarterly return of St. Joseph's Residential School, Cross Lake.

I note that these application forms are dated, respectively, Feb.6/50, and Feb.28/50; and that Doctor's examination of the children took place Feb.28/50.

In correspondence with Education Division of this Department recently, I was advised that it has been a long-standing rule of Department that applications such as these should be submitted to the Superintendent of the Agency, and thence to Department, Before the children are admitted to the school. In fact, at the time we discussed the matter of two previous admissions which required correspondence with Department, I felt that you would follow that procedure in future.

Concerning the two outlined in first paragraph- I would like your advice as to the circumstances under which Marion Menow was admitted to the school. This child is of your faith, but could she not attend Day School?

Our records show that Emily Menow (child of Jemima Dixon) is of the Anglican faith. Please let me know when she became an adherent of your Church, and also why she is a boarder instead of attending Day School.

The reason for which these applications were not
(over, please.)

submitted prior to admission of the children to School is also required.

Frankly, I can see no reason why the applications cannot be submitted to this office before the children are admitted, except in cases of orphans left without care or of children returned from hospital or sanitarium, and it is not my intention to recommend admission to Residential School unless applications are submitted prior to the children entering the school.

Yours very truly,

J.D.Mimmis,
Superintendent Indian Agency.

Ottawa, Ontario.

Please find attached quarterly Return of Cross Lake Indian Residential School for quarter ending March 31, 1950. Statement of Admissions and Discharges for this period is also attached, plus letter (copy) sent Father Chamberland concerning admission of two children shown on report. No application for admission of Muriel Sinclair was received in this office, and the matter will be discussed with Father Trudeau at Cross Lake in the near future.

Applications for admission referred to in copy of letter sent Father Chamberland are being held pending his reply, and have not been recommended by the undersigned. Quarterly return is submitted in the meantime as a matter of convenience to Department at year end while question of admissions is being taken up with the Principals concerned.

J.D.Minnis,

APR 15 1950 REGISTERED RECORDS INDIAN AFFAIRS

Norway House, Manitoba,
April 8, 1950.

Indian Affairs Branch, Education Division,
Dept. Of Citizenship & Immigration,
Ottawa, Ontario.

Further to my letter of April 5/50 enclosing Quarterly Return of Cross Lake Indian Residential School for period ending March 31/50, I am advised by Father G.E.Trudeau that application for admission of Muriel Sinclair to the institution is being held pending the Doctor's examination.

Father Trudeau further advised me that this procedure is almost always followed at Cross Lake. The child is admitted almost invariably prior to both the Doctor's examination and the Superintendent's approval of admission application. About the only exceptions to this procedure occurs when the Doctor is able to examine children during the summer on the various reserves, when it is known definitely that these children will enter Residential School in September.

In view of the difficulties inherent in the transportation field in this part of the country, it would seem that, in the past at least, Departmental regulations concerning applications for admission to Cross Lake School have been relaxed somewhat, for good reason, as otherwise, a long period of time might elapse before a child's admission to School could be approved.

I would appreciate your views on the permissibility of this relaxed procedure insofar as this School is concerned.

J.D.Minnis,
Superintendent Agency.

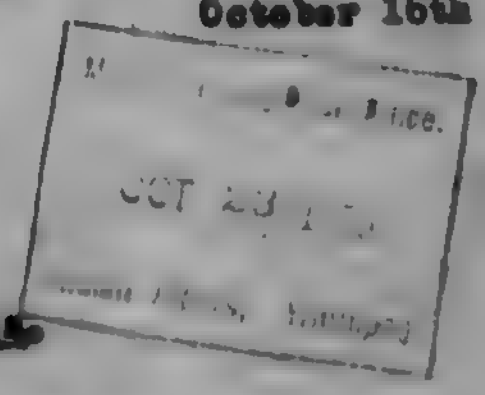
October 16th 1950.



Indian Affairs Branch,
Dept. Citizenship & Immigration,
Ottawa, Ont.

Re- Admissions To Residential Schools.

Attached please find Applications For Admission to Cross Lake Roman Catholic Indian Residential School.

I wish to point out to the Department that several of these children are not of this faith according to our records here, I would therefore request the Department to advise this office as to what action we shall take if any.

For the Departments information this Religious War has been going on since 1936 when the writer was Post Manager for The Hudsons Bay Company at that point from 1933 to 1937.

These children are all in attendance at the above school and applications have only been received here yesterday.

DEPARTMENT
CITIZENSHIP AND IMMIGRATION
INDIAN AFFAIRS BRANCH

537 Dominion Public Bldg.,
Winnipeg, Manitoba,
October 31, 1950.

1117

Indian Affairs Branch,
Department of Citizenship and Immigration,
Ottawa, Ontario.

I am enclosing, herewith, applications for admission to the Cross Lake Indian Residential School for the following children:

Bill Martin, #196 Gods Lake Band
Jude Martin James, #66 Gods Lake Band
Stanley Okimaw, #132 Gods Lake Band
Barnabus Okimaw, #132 Gods Lake Band
Joseph Carlson Chubb, #145 Gods Lake Band
Lawrence Chubb, #145 Gods Lake Band

The above children were taken and placed in the Residential School and their applications submitted to the Superintendent later.

I am also attaching applications for the following children:

Marion Okimaw, #218 Gods Lake Band
Louis Watt, #127 Gods Lake Band
Victoria Osborne, #215 Gods Lake Band
Job Ross, #148 Gods Lake Band
Ananias Ross, #148 Gods Lake Band

NOV 6 1
REC

On the application the Principal states the children are Roman Catholic. Superintendent Gowans advises that these children are United Church faith. Therefore, he has not signed the forms. I have advised all Superintendents not to sign an admission form unless they are certain of the child's religious denomination.

I am having Mr. Waite visit Gods Lake on the next regular flight in order to investigate the above mentioned cases. If these children are as Mr. Gowans states they should be returned to their homes at once.

Mr. R.S. Davis,
Regional Supervisor of Indian Agencies,
537 Dominion Public Building,
Winnipeg, Manitoba.

Re: Cross Lake Indian Residential School

With reference to your letter of the 31st ultimo, we approve the admission of the undermentioned children to the above school:

Bill Martin
Jude Martin James
Stanley Okimaw
Barnabus Okimaw
Joseph Carlson Chubb
Lawrence Chubb

With reference to the other five children mentioned in your letter, we will await a further report from you before considering their applications. These children should not have been accepted at the school before all the facts had been placed before the Department and our decision given.

November 7th.1950.

Mr. R.S.Davis, Regional Supervisor, Indian Affairs Branch, Winnipeg.

Regarding the applications for the admission of the following pupils to the Cross Lake R.C.School, the following report is submitted.

Mary Ann Okimaw
Louis Watt
Victoria Osborne
Job Ross
Ananias Ross

Mary Ann Okimaw. The parents of this child are on their trap-line in the vicinity of God's River. There is no actual record of the location of their camp and it would be a useless trip to try and find them. They may return to the Mine at Christmas.
Mr. Gibson, the United Church Minister, was interviewed, and he stated that the father, Henry Okimaw is Protestant, married into a Roman Catholic family. The children would be educated in a Roman Catholic School. This statement was corroborated by Rev. Fr. Rivard.

Louis Watt. This family is on their trapline located between God's Lake and Norway House. Will not return to God's Lake until open water, sometime in June.
Rev. H.Gibson claims Watt the father of the above boy married a Roman Catholic woman. He made application for one girl to be admitted to Brandon Residential School two years ago, but as nothing further was heard concerning the application, the girl and her sister were admitted to Cross Lake last summer and the family, with the exception of the male parent, is now Roman Catholic. This statement was also corroborated by Rev. Fr. Rivard.

Victoria Osborne. The family is trapping at Grassy Narrows. If trapping is good, the family will not return until June or open water. If trapping is poor, then the family will return for the fishing after Christmas.
Rev. Gibson, in this case claims that the man is United Church married into a Roman Catholic family, and the wife and family are Roman Catholic. Statement corroborated by Rev. Fr. Rivard.

Job and Ananias Ross. Father Simeon Ross. In this case the father is United Church and the woman believed to be Roman Catholic. Rev. H.Gibson claims this is a mixed family, but the two above noted boys were baptised in the Roman Catholic Church and should attend the Roman Catholic School. This case also was corroborated by Rev. Fr. Rivard. The Ross camp is 20 miles west of Grassy Narrows near Norway House. This family may return to the reserve for Christmas. Again this depends on the trapping; they did not return to the reserve last year until open water.

Mr. Gibson claims he has a close watch on the pupils going to Cross Lake School and would report if there was any injustice. Fr. Rivard claims that there are enough Roman Catholic families on the reserve without encroaching on other preserves.

I am reasonably satisfied that the children at Cross Lake R.C. School from God's Lake Reserve were baptised in that faith. I feel that the Superintendent has obtained his information from the Family Record, which would show religion of the parents. In most cases the father collects the treaty and the record would show his religion, which in the cases above would be incorrect. There is a tendency on God's Lake Reserve among some of the Protestant family's to give one or two children to the Roman Catholic Church, and the Family Record to be correct should show the religion of every child.

Further to my letter of the 31st ultimo, regarding the children of the God's Lake Reserve, who were assumed to be non-Catholic - I have to advise that Mr. Waite investigated these cases, and without exception, he is of the opinion that the five children are Catholic and should be in attendance at the Gross Lake Residential School.

A copy of Mr. Waite's report is attached hereto.

DEPARTMENT OF CITIZENSHIP AND IMMIGRATION
INDIAN AFFAIRS BRANCH

1951 MAR 27 AM 9:30

INDIAN AFFAIRS

Norway House, Manitoba,
March 15, 1951.

Dept. of Citizenship & Immigration,
Indian Affairs Branch, Education Division,
Ottawa, Ontario.

I attach hereto applications for admission to Cross Lake Indian Residential School in respect to the following children:

Sarah Osborne - Born 5 Nov. 1936.
James Osborne - Born 9 Dec. 1939.
Murray Osborne - Born 1942.
Joseph Osborne - Born 15 July 1945.

Thes children are the sons and daughter of Thomas and Priscilla Osborne, No. 656 Norway House Band. The father has been confined to Sanatorium for the past three years, and the children have been at Norway House in care of their mother. About the end of January the attached applications were submitted to this office along with a note from the mother approving their adoption of the Roman Catholic faith and their entry to Residential School. At that time, I advised Father Kerebin of the local R.C. Mission that I was not prepared to approve the applications until written consent had been received from their father. This has now been secured by the clergyman, and is attached.

While awaiting this approval from the father, I discussed the matter with Rev. K. McLeod of the local United Church Mission, as this family is shown in our records to be of that church affiliation. Rev. McLeod stated that the family has never shown any interest in church attendance, and that he would not protest their adoption of the R. C. faith nor their entry to Cross Lake School.

Since the father entered sanitorium, their mother Priscilla has been leading an immoral life. She has had certainly one, and possibly two children fathered by other than her legal husband since his departure to San. Last fall she appeared in court on charges of disturbance of the peace, found guilty and fined.

(over, please)

Indian Affairs. (RG 10, Volume 6261, file 577-10, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

It was strongly suspected that she was indulging in considerable home-brewing and drinking, but evidence was insufficient to support such a charge. However, a young man found under the influence of liquor at her home received a three month sentence at the time.

Joseph, Murray and James Osborne were in sporadic attendance at Rossville H.C. Day School this term. After repeated warnings given the mother, I was forced to suspend Family Allowance payments in respect of these children for reason of continued poor attendance, which action was taken in December of 1950.

This woman is employed at Norway House Hospital, and has also been receiving assistance under T.B.Rehab Vote on account of her husband's hospitalization. This aid has now been suspended. I have no doubt that some expedience on her part was concerned in the conversion of her children and their application to enter Residential School; However, I feel that the environment these children were exposed to at home was of the worst, and that they will be immeasurably better off at Residential School. I have since received a letter from the father in which he deplores the life he hears his wife is leading and evinces his satisfaction at their entry into the Residential School.

With the above facts in mind, I must overlook completely the childrens' hypothetical United Church affiliation, and unreservedly approve their applications for admission to Cross Lake R. C. Residential School as attched, in which action I trust you will concur.

J. D. Minnis,

Encl. Superintendent, Indian Agency.

INDIAN AFFAIRS

Norway House, Man., Oct. 11, 1951.

Dept. of Citizenship & Immigration,
Indian Affairs Branch, Education Div.,
Ottawa, Ontario.

Enclosed you will find the following, as received from Rev. G. E. Trudeau, Principal, Cross Lake Indian Residential School:

Indian Residential School Quarterly Return

Statement of Admission and Discharge of Pupils

Both of the above reports are applicable to the quarter ended September 30th, 1951.

May I direct your attention to the discharge of No. 250, Joseph Jack Miller. This child attended the school untilthe end of the 1949-50 term. He was carried on the roll by Father Trudeau during 1950-51 term in the expectation that his parents would return him to school, but this was not done, nor did the child return at the beginning of the present term. Father Trudeau advises that per capita grant was not paid on behalf of this pupil during 1950-51 term, so I trust this late report of discharge will not affect that matter.

I trust that, in all other respects, this report may be found in order.

Norway House, Manitoba,
November 26, 1951.

Dept. of Citizenship & Immigration,
Indian Affairs Branch,
Ottawa, Ontario.

Re: Your 577-10 (E6) of Nov. 13, 1951.

The above noted letter approved the discharge from Cross Lake Indian Residential School of 21 pupils, whereas 22 were shown as discharged on Principal's Report of Sept. 30/51.

Approval of No. 265 is listed in your letter - should this read 264? There is no number 265 listed on quarterly return.

Discharge of No. 269, Ananias Ross, appears on Principal's report, but that number does not appear on approved list. Kindly indicate your approval of discharge.

In respect of applications not yet received by Department and mentioned in this letter as above noted; these applications were handed to Dr. Millar, Medical Supt., Norway House Hospital on October 10th last. In spite of repeated requests, medical portion of applications has not been completed and returned to this office. They will be forwarded when completed by the Doctor.

J. D. Minnis,

Superintendent,
Norway House Agency.

DEPARTMENT OF CITIZENSHIP AND IMMIGRATION
INDIAN AFFAIRS BRANCH

1951 DEC 20 AM 11:07

INDIAN AFFAIRS

Norway House, Manitoba,
December 10, 1951.

Dept. of Citizenship & Immigration,
Indian Affairs Branch,
Ottawa, Ontario.

Enclosed for your consideration are Applications for Admission to Cross Lake Indian Residential School on behalf of the following Indian Children:

Name	Band & No.	Date of Birth.
Scotch, Ellen	Cross Lake - 434	14/6/46
Robinson, Ralph	do. - 483	2/1/43
Ross, Happy Jack	do. - 505	23/1/43
Sinclair, Jean Margaret	do. - 433	9/9/44
Wood, Jack Thomas	Island Lake- 307	29/10/42
Flett, Joseph	do. - 393	12/2/44
Flett, Kenneth	do. - 26/11/42	349
Harper, Emile	do. - 306	1/10/43

Although submitted to the Superintendent of Norway House Indian Hospital early in September for his approval, the enclosed were received in this office today.

May I direct your attention to application of Ellen Scotch, No. 434, Cross Lake. You will note this child is only five and a half years of age. However, the child's father is dead, while the mother works at Norway House Hospital, but is unable to maintain a home on her earnings. The mother is of excellent character, and it is believed that admission to the school is in the best interest of the child. Accordingly, I would ask that minimum age regulation be waived in this case.

The parents of all the above noted children are recorded as adherents of the Roman Catholic Church, and your approval of admissions is requested.

J. D. Minnis
Supt. Norway House Agency.

Winnipeg, Man.

Dear Mr. Davis:

Enclosed herewith is an application for admission to Cross Lake Residential School for Marguerite Moose, Nelson House Band No. 103.

COPY

This is an adopted child of Elizah Tobacco, the mother deceased. The father, Elizah is an employee on the C.N. Railways, and this child is not being cared for in the proper manner, therefore application is submitted for approval.

Yours truly,

E. Law,
Supt. Indian Agency.

INDIAN AFFAIRS BRANCH

INDIAN AFFAIRS

Norway House, Man.,
January 10th, 1952.

Mr. Philip Phelan.,
Superintendent of Education,
Indian Affairs Branch,
Ottawa, Ontario.

I have for acknowledgment your letter of the 28th ultimo, file 577-10 (E6), in which you state that applications for admission to Cross Lake Residential School had not been received by your office for 0295 Marquerite Moose, 0296 Albina Wood and George Crane.

In this regard I wish to advise that no applications were received for Albina Wood and George Crane of Oxford Band, however on January 4th, an application was received from Mr. Eric Law, of The Pas Agency, for Marquerite Moose of Nelson House Band, which was turned over to Dr. Royds, January 5th. Marquerite Moose was examed the same day having made the trip from Cross Lake with Father Trudeau.

Father Trudeau took the application to Cross Lake and I trust that he will mail same to Mr. Law for his approval.

As for the other two girls, applications have been prepared for them, and medical examanation will be taken soonest.

J. D. Minnis,
Superintendent,
Norway House Agency.

Mr. G. Marcoux,
Regional Inspector, Indian Day Schools,
Winnipeg.

The attached applications were received here at this office this am. The reason for the delay is unknown as these applications were received from Mr. Minnis, Supt., Norway House Agency.

It would appear from Mr. Minnis' letter that instructions were received from Mr. Phelan, Superintendent of Education Division that these applications be forwarded to this office for attention.

Attached therefore please find these applications signed and checked to the best of our knowledge.

According to our agency records both of these children are of the United Church Faith.

This will be left for your office to decide.

Yours truly,

Wm. Gowans,
Supt., Indian Agency.

Attn. Mr. P. Phelan, Superintendent of Education

I am enclosing, herewith, applications and a copy of a letter from Superintendent Gowans for the following children, who are at present in the Cross Lake R. C. Residential School:

George Crane, #22 Oxford House
Rubena Wood, #156 Oxford House

Mr. Gowans according to his letter claims that these children are United Church faith. I am taking this matter up with Mr. Gowans and to have the cases investigated. It may be that the parents of these children have changed their religion. However, this can hardly seem possible as Mr. Gowans took census last year of all Indians.

R. S. Davis,
Regional Supervisor of Indian Agencies.

Mr. J.D. Minnis,
Supt. Indian Agency,
Norway House, Man.,

In our letter of December 28th we requested you to arrange for the application for admission to the Cross Lake Indian Residential School for Albina Wood and George Crane. We have now received the applications for these children through Mr. Davis' office, however, it is found that there is some dispute regarding the religious denomination of the children concerned.

It would be appreciated if you would contact the Principal of the Cross Lake school advising him to delete the names of the two children from future Quarterly Returns as their admissions have not been approved by the Department, consequently the Department is not prepared to pay Per Capita Grant for them until such time as their admissions have been approved.

Philip Phelan,
Superintendent of Education.

Your file 138/25-2

With reference to your letter of February 27th regarding the admission of George Crane and Rubena Wood to the Cross Lake Indian Residential School, the contents of your letter have been noted and it appears evident that there is some dispute regarding the religious denomination of the children.

We are, therefore, requesting Mr. Minnis to instruct the Principal to delete the names of these children from future Quarterly Returns until the admissions have been approved.

We are taking no further action on these applications until we hear further from you regarding the religious denomination.

Philip Phelan,
Superintendent of Education.

April 5th, 1952.

Department of Citzenship and Immigration,
Mr. Philip Phelan,
Superintendent Education Division,
Ottawa, Ontario.

Please refer to change of correspondence under your file 577-10 (E6) regarding admission to Cross Lake Indian Residential School of Albina (Rubenna) Wood, and George Crane both of the Oxford House Band. I conveyed to the Principal the advice contained in your letter to me of March 7th, but in a reply dated April 4th, Father Trudeau stated that he had received a letter from Superintendent Gowans of the Nelson River Agency advising that the admission of the two children had been approved by the Department.

Your clarification of this confused situation is requested with definite advice to Department's stand in regard to the admission of these children. It is noted that George Crane, #222 Oxford House Band, Register Number 300 was discharged from the school on February 20th last. Albina (Rubenna) Wood, #156 Oxford House Band, Register Number 0296 is still in attendance at the school and appears on the quarterly return for period ended March 31st, 1952.

Mr. J.D. Minnis,
Supt. Indian Agency,
Norway House, Man.,

With reference to the June Quarterly Return for the Cross Lake Indian Residential School, you are advised that the Principal has claimed grant for pupils # 279 and 291 and indicated in the Remarks Column that these children were in the Norway House Hospital during the quarter. However, he has neglected to indicate the dates ~~on~~ which these children were admitted to hospital and later returned to school if they did return.

In order to avoid delaying the payment of the per capita grant for this quarter, we are disallowing any grant for the two children.

Please advise the Principal in this regard instructing him that he may claim this grant for these children on the September Quarterly Return with the necessary explanation of the dates when these children left the residence and later returned.

Norway House, Man.

Dear Mr. Minnis: Re: Titus Robinson

I received only to-day your letter of June the 30th regarding the admission of Titus Robinson to our Residential School.

One of the main reasons for the parents of Titus Robinson to put him in the school is that the father has a large family and on account of health conditions is having a hard time to provide for the needs of the whole family.

Many a times also the child had to miss school as the father would need him to help him on his trap line. Also when the father would be away with the canoe the child could not attempt to come to school. As the parents wanted to give him a better education to their boy and seeing they could not do so by keeping him home to attend only day school they decide to put him in the Residential School.

These are the reasons which made me accept the boy in our Residential School.

Yours very truly,

G. E. Trudeau, O. M. I.
Principal

Dept. of Citzenship & Immigration,
Indian Affairs Branch,
Education Division,
Ottawa, Ontario.

Your 577-10 (E6) of June 13th, 1952, Re: Titus Robinson

With reference to your letter as above noted, please find attached a copy of a letter received from Father Trudeau at Cross Lake explanatory to the reasons for admission of this boy to Cross Lake Indian Residential School. I trust you will find the Principal's reasons sufficient, and I can certainly vouch for the fact that it is extremely difficult for the children from this portion of the Reserve to attend the Day School regularly. They live across the bay from the Day School, are often unable to travel on account of weather conditions and ~~this is~~ as pointed out by Father Trudeau, when the family canoe is being used for other purposes, it is impossible for the child to get to Day School.

I trust the reasons given will enable you to approve admission of this boy to Cross Lake Indian Residential School.

J. D. Minnis,
Superintendent Indian Agency,

Re: Application for Admission to Cross Lake Indian Residential School. George Muskego. #604 Cross Lake

Please find enclosed application as above noted. Question of this child's admission to Residential School was discussed by the writer with the boy's father, Thomas Muskego, and with the Principal of the School.

My reasons for approving this application are the nomadic existence led by this child's family and the distance he lives from any Roman Catholic Day School-2½ miles across the water. For the short periods during which the family are in the settlement, school attendance is difficult. The father is a War Veteran and a good trapper, and is very anxious for his son to secure at least a little bit of education, which, under the family's circumstances, he can only secure through attendance at Residential School. The boy, now age 13, has only about a Grade 2 or 3 standing by reason of his broken schooling.

Although I am reluctant to approving admission of children of his age, under ordinary circumstances, I feel that, in this case, if the boy is to receive any education at all, he should attend Residential School, and Department approval of his admission is requested.

Re: Cross Lake Residential School.

We have your letter of August 25th, enclosing application for the admission of George Monroe to the above-named residential school.

In view of the contents of your letter, the admission of this boy to the Cross Lake School is approved. Please inform the Principal.

With reference to your letter of the 5th instant, the admission of the following children is approved:

Elizabeth Monroe,
Edward Monroe,
Andrew Monroe,
Eva Wood,
Alice Knott,
Elias Taylor.

Please inform the Principal accordingly.

Philip Phelan,
Superintendent of Education.

Admissions - Residential Schools

With reference to your letter of the 5th ultimo, file 577-10(M6) regarding admission of children to Cross Lake Indian Residential School, an application for admission of Joseph Grieves, son of Mary Grieves #200 Oxford House Band was enclosed with the eight other applications, but your above referenced letter did not include his name approving admission to this school. May we have approval for his admission, please.

Your letter of the 14th ultimo, file 656-10(M6) gave approval for the admission of 35 pupils to Lac La Ronge Indian Residential School, however, the applications were for admissions to Prince Albert Indian Residential School, and the Principal escorted these pupils to the P.A. Residential school. We trust Lac La Ronge was inserted in the letter in error.

We have just received application for admission to Cross Lake St.Joseph's Residential School, for Bella Spence, daughter of Benjamin and Corinne Spence #101 Gods Lake Band which is enclosed herewith for your approval.

Also enclosed are applications for admission to Portage La Prairie Residential School for Mary, Eliza, and Ethel Grieves, daughters of Charlie and Lena Grieves #177 Oxford House Band, for your approval.

T.A.Bowman,
A/Supt. Nelson River Indian Agency.

Mr. T.A. Bowman,
A/Superintendent,
Nelson River Indian Agency,
Ilford, Manitoba.

Your File 138/25-2

With reference to your letter of September 3rd regarding admissions to the Cross Lake and Lac la Ronge Indian Residential Schools, it is regretted that the application for the admission of Joseph Grieves was overlooked. His admission to the Cross Lake Indian Residential School is approved.

With reference to the second paragraph of your letter, you are advised that the official name of the Indian residential school at Prince Albert, Saskatchewan, is "Lac la Ronge Indian Residential School". It would be appreciated if in all future correspondence you would refer to this school by its official name.

The admission of Bella Spence is approved to the Cross Lake Indian Residential School.

The admission of the three Grieves children to the Portage la Prairie Indian Residential School is also approved.

As we have individual files for the admission of pupils to each residential school, it would be appreciated if, in future, you would write separate letters, quoting our file number wherever possible, rather than refer to several schools in the one communication.

Dept. of Citzenship & Immigration,
Indian Affairs Branch,
Ottawa, Ontario.

Please find enclosed completed application for admission to the Cross Lake Indian Residential School of George Arthur Moore, # 527 Cross Lake Band, born February 1st, 1944. This application has been approved by the undersigned on account of the nomadic existence led by the child's parents which precludes him from receiving any education at Day School.

I trust Departmental approval will be afforded this admission and Department's approval conveyed to the writer in the usual manner.

577-10
(E6)

, October 22,1952.

Mr. J.D. Minnis,
Supt. Indian Agency,
Norway House, Man.,

With reference to the September Quarterly Return for the Cross Lake Indian Residential School, the Department approves the discharge of the following pupils:

# 221	# 0288
301	0234
0229	0236
0280	0241

The Principal claimed thirty-five days grant for each of the following pupils: # 0299, 0300 and 0301 indicating that these pupils were admitted to school on August 28. If these pupils were admitted on the date indicated by the Principal the school is entitled to thirty-four days grant. We are consequently allowing thirty-four days for each o f them.

It is noted that many of the pupils returned to school after summer holidays September 1. The Principal has claimed less than the prescribed number of days grant for them, however, he has neglected to indicate in the Remarks Column the date these pupils actually returned to school.

We are attempting to have this per capita grant return paid as presented without this information, however, in future we will be obliged to return the document for full particulars.

re: Applications for admission to
Cross Lake Residential School.

I enclose completed applications to the a/n school on behalf of Betsie and Andrina Menow, No. 796, Norway House Band.

These children have been in the care of their mother alone since the admission of the husband to Sanatorium almost two years ago. There are two ther children of this family, ages 7 and 5, and the care of the four seemed to be beyond the ability of the mother. Delay in submitting these applications was due to sending them to Sanatorium for the father's approval, and I trust the applications may now be approved.

Actual admission of the children to school took place early in February, when vacancies arose, so the names of these children will appear on Quarterly Return of the school of March 31st.

J. D. Minnis,

Superintendent,
Norway House Agency.

The Asst. Deputy & Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Sir;-

Re Seats, Clocks and Teacher's Desks, And Blakk-board for Cross Lake Residential School.

In your letter, date and number as marginally noted above, I am instructed to purchase the 2 Teacher's Desks, 2 Teachers chairs and 4 visitor's chairs. Also 3 inexpensive wall clocks.

I addition to this I am referred to official letter of April 21st, 1926, about extra desks required. I beg to state that I made the purchase of the seats ordered in this letter, and voucher 3728, covering Invoice of E.N.Moyer Company Ltd. dated the 21st June, 1926. I am enclosing herewith a copy of the Invoice and the abstract of prices quoted. This will indicate that I have carried out the instruction of official letter of 21st April, 1926, and the goods went forward as soon as they possibly could do so.

The list of seats given in the list accompanying my letter of the 15th March, 1927, is a different lot entirely.

I will purchase the items mentioned in the first paragraph of this letter as directed. My explanation about the pupil's desks and Black board shows that these [illegible] to be disposed of.

I have the honor to be,
Your obedient servant,

Inspector of Indian Agencies.

Sir:

Replying to your letters of the 6th instant, I beg to say with reference to the high pressure boiler for the use of the Cross Lake Indian Residential School that I am returning herewith as requested the catalogue giving the dimensions and style of the high pressure boiler which it is proposed to obtain for the school. You should obtain, if possible, competitive prices for the type of boiler required and arrange to have same forwarded to the school as soon as possible.

Relative to the extra school desks requested in the list accompanying your letter of the 15th of March, last, I beg to say that we are writing direct to the Principal to ascertain the necessity for the supplying of a further number of desks. When we have a report from him as to the necessity for this extra number, and if it is decided to authorize the purchase of same, you will be further instructed. You should, however, arrange for the purchase and forwarding of the 2 teachers' desks, 2 teachers' chairs and the 4 visitors' chairs authorized in our letter of the 6th ultimo.

You will be advised in a separate communication regarding the purchase of the quantity of cement required for the construction of the septic tank.

Your obedient servant,

J. D. McLEAN

Ottawa, May 11th, 1927.

Rev. Sir:

In March, last, Mr. Inspector Bunn forwarded a requisition from you for school desks, teachers' desks and chairs for the use of the Cross Lake Indian Residential School. We have instructed Mr. Bunn to purchase the two teachers' desks, two teachers' chairs and the four visitors' chairs and arrange to have them forwarded to the school.

Before placing the order for the school desks and front and rear seats, I shall be pleased if you will state the necessity for the extra number asked for. In June, 1926, Mr. Bunn purchased and forwarded twelve double desks and two front and two rear seats, which would provide seating accommodation for 26 pupils. Please state why the fourteen double desks and four front and four rear seats asked for in your requisition are now required. When we have your report as to the necessity for this extra number of desks, consideration will then be given to authorizing the supplying of same, and Mr. Inspector Bunn will receive the necessary authority.

Your obedient servant,

J. D. McLean

Reply to No 123-1-5
May 11th 1927,

Cross Lake Indian Residential School.

Dear Sir,

Referring to the requisition of school desks forward to you March, last by Mr. Inspector Wunn I am sending you the explanationsyou require, 1- the school desks and front and rear seats forwarded to the school in June 1926 were required for an additionnal class room for beginners as it was impossible to the teachers to accomodate 110 pupils in two rooms having a sitting capacity of each 40 and 44 was out of this we had to deduct the broken desks which after having been repaired finally have to be put away being in use ever since the opening of the school. 2- The fourteen double desks asked for are to replace the ones that are out of use and the front and rear seats are to complete for there has never been any given for the two former class rooms.

Hoping these explanations to be satisfactory and deserve your consideration in giving Mr. Inspector Bwnn the authority necessary for the purchase of the school desks we are in need of.

I remain

Yours very truly.

Ottawa, June 22nd, 1927.

Rev. Sir:

I have your letters of the 11th ultimo, relative to school desks and other supplies required for the use of the Cross Lake Indian Residential School.

In reply I beg to inform you that Mr. Inspector Bunn was authorized in April, last, to purchase 3 wall clocks and eastors for 100 beds.

We are placing an order with the Government Stationery Office here to forward to you 3 desk blotting pads, 3 desk bells and a total of 78 feet asbestoslate blackboard, with chalk trough and moulding. I may add that we do not supply waste paper baskets to Indian schools.

Regarding the extra desks asked for, we are authorising Mr. Inspector Bunn to purchase and forward 14 double desks of the sizes required. It is noted from your letter that these desks are required to replace broken desks and to fit up the additional classroom. It is hoped that they will be ample to meet the requirements at this school.

Your obedient servant,

J. D. McLean

Sir:

The Principal of the Cross Lake Indian Residential School, referring to requisition which was forwarded under cover of your letter of the 15th of March, last, states that he requires the extra number of desks mentioned in his requisition to replace the broken desks and to complete the fitting up of the additional classroom. I have, therefore, to request that you will arrange to purchase from the E. N. Moyer Co. Ltd., Winnipeg, at their lowest price, the following desks:

6 - [illegible] New Empire Double Desks, Cherry Top & Plain Maple
4 - [illegible] : : : : (Finish,
4 - [illegible] : : : :
4 - [illegible] Rears,
4 - [illegible] Fronts.

Ink wells should be supplied with each desk, and these desks should be shipped in a knocked down condition.

I shall be pleased if you will arrange for the purchase and forwarding of these desks at an early date, and you should forward an account, in duplicate, covering the cost.

It is presumed that you have arranged for the purchase of the various supplies as authorized by official letter of April 6th, last. Accounts, in duplicate, properly certified, should be forwarded at an early date covering all purchases made by you for this school.

Your obedient servant,

SCHOOLS BRANCH
APR 23 1 29

Sir;-

On a recent visit to St.Joseph's Residential School at Cross Lake,my attention was drawn to the need for some new sewing machines.All the clothing used in the Institution are made at the school.

I would recommend that 2 Singer sewing machines,common, and 1 Singer,Tailor's sewing machine, be furnished for this school.

I was also asked if the Department would supply a piano for use in the concert hall in the attic of the new addition. The school have no instrument for this hall,and it certainly would be a great advantage to have one.

The Sister Superior also asked me if the Department had any more of the blue convalescent suits on hand.They were furnished with a supply of these a couple of years ago,and they ripped up the suits,dyed the material a navy blue,and made up excellent suits for the boys.If any more can be secured for this purpose,they will be much appreciated.

Your obedient servant

Wm Gordon

Ottawa, April 25, 1929.

Gentlemen:

I have to request that you will arrange to supply, from your branch office in Winnipeg, the Singer sewing machines mentioned hereunder for the use of the Cross Lake Indian Residential School, Cross Lake, Man. -

2 No. 2 - 5 Drawer Machines, 127 - 3 G.O.,
1 Tailor's Machine, No. 31-15 on Table No. 5412.

Please have your Agent in Winnipeg notify Mr. John R. Bunn, Inspector of Indian Agencies, Commercial Building, St. Boniface St., Winnipeg, Man., when these machines will be available, and he will then give full shipping directions. Mr. Bunn is being informed of the order placed with you.

The account, in duplicate, covering the cost of the machines should be forwarded to Mr. Bunn. This account should show the retail price and discount of 50% allowed off the 90 day list price "on which terms purchase is made". When shipment has been made, Mr. Bunn will certify the account and send it to the Department for payment.

Yours very truly,

J. H. Paget.

Ottawa, April 25, 1929.

Sir:

I have to inform you that the Department is today placing an order with the Singer Sewing Machine Company to supply form their Winnipeg branch the following sewing machines for the use of the Cross Lake Indian Residential School:

2 No. 2 - 3 Drawer Machines, 127 - 3 G.O.,
1 Tailor's Machine, No. 31-15 on Table No. 5412.

We have advised the above Company to notify you when these machines will be available, and I have to request that you will then furnish them with full shipping directions and arrange for the forwarding of the machines to Whiskey Jack Portage. You should inform the Principal when shipment of the machines is being made in order that he can arrange to take them from that point to the school.

The above Company have been requested to forward to you their account, in duplicate, covering the cost of these machines. This account will show the retail price and discount of 50% allowed off the 90 day list price, "on which terms purchase is made". After shipment of the machines has been made, please certify the account in the usual manner and send it to the Department for payment.

I wish to thank you for any trouble you may take in the matter.

Ottawa, April 25, 1929.

Sirs

I have your letter of the 20th instant, relative to the supplying of Singer sewing machines and one tailor's machine for the use of the Cross Lake Indian Residential School.

In this connection I have to inform you that we are today placing an order with the Singer Sewing Machine Company to supply the above equipment. This Company have been requested to inform Mr. Inspector Bunn, Winnipeg, from their nearest branch office when these machines will be available, and Mr. Bunn will arrange for the forwarding of same.

The Department does not supply pianos for the use of Indian residential schools, and it is, therefore, regretted that we will be unable to comply with the request for a piano for the Cross Lake School.

The supply of blue convalescent suits which the Department had in stock has been issued, and we are, therefore, unable to furnish the Rev. Sister Superior with any further quantity of these suits.

Your obedient servant,

A. D. McLEAN

Re Implements for the Cross Lake Indian School

THRESHER -

As per instructions received from the Department, Brother Ménard made inquiries concerning a moderately priced thresher which might suit the needs of the School. He has fixed his choice on one manufactured by Doré and Son of Laprairie,Que.. The order sheets herein inclosed give a description of the machine. The price is $528.00 delivered at Winnipeg.

The Légaré Company of Quebec,Que. offered for sale a smaller thresher at the price of $548,00,delivered also at Winnipeg,but the machine was not as highly recommended by users as the other was.

As the transportation of the thresher will take quite a long time,it might be well to place the order as soon as possible.

BINDER - FAN MILL -

Bought from the John Deere Plow Company,Winnipeg. Invoice to hand. Brother Ménard saw the Binder and found it to be light and easy to operate.

He forgot to order twine for the binder. Would the Department order the same for about 25 acres.

Potato DIGGER -

The School needs a potato digger. About 1.000 bushels of potatoes are going to be sown this year. The digging up of the potato crop has always been done under great difficulties. It must be done inside of a couple of days,for there is almost continuous rain in those regions in the fall. In some cases the potatoes could not be left to dry on the field; they had to be taken to the house,spread on the floors to dry,and then be carted to the root-house.This work occupied about two weeks. With a machine,the potatoes might be dug up on the morning of a clear day;they would dry up on the field in the afternoon and they might be picked up in the evening and be carted directly to the root-house.

Per J.A.Lajeunesse, OM.I.

Ottawa, April 21, 1920.

Sir:

I am enclosing an account, in triplicate, which has reference to a binder and a fanning mill, ordered by Brother Menard, for the use of the Cross Lake Residential School. I may say that Brother Menard was authorized to select this equipment. When shipment is made, you should certify to this account, in duplicate, and return it to the Department for payment.

Your obedient servant,

A. F. MacKenzie
Acting Asst. Deputy & Secretary.

MADE IN CANADA.

E. DORÉ & FILS, LAPRAIRIE, QUÉ.

4.42 "Doré" Undershot Thresher | Batteuse "Doré" 24x42 alimentée par en-dessous.

DORE Undershot Thresher Complete On steel Truck, with wheel turning under frame, fan with Stalk and long poles, for Tractor and Horses.

Fournis sur demande une pale longue pour chevaux ou une courte pour tracteur
Batteuse **DORE** complète avec table pour en dessous sur roues tournant en dessous du Plateau.

"DORE" thresher has improvements that you will not find on others, it operates with very small power, well balanced and light running.

"DORE" thresher are built in the following sizes :

24 " cyl. x 34" rear. — Capacity from 40 to 60 bushels an hour Power 6 to 8 H P

24" cyl. x 42" rear. — Capacity from 60 to 90 bushels an hour Power 8 to 10 H P.

OVERSHOT

22" cyl. x 29" rear. — Capacity from 35 to 45 bushels an hour Power 4 to 6 H.P.

24" cyl. x 34" rear Capacity from 40 to 60 bushels an hour Power 4 to 6 H.P.

When a straw blower is required add 2 to 3 H.P.
When a self feeder is required add 2 H.P.
Capacities stated above are in oats.

We do not guarantee any specified quantity of grain that threshers will thrash, but one thing sure our machines, type for type and size for size, will thrash as much as any other

PLEASE NOTE that the working capacity of a thresher depends absolutely on the quality of the grain. On well ripe and dry grain, the capacities shown above can be exceeded, in a bad grain the capacities will be lowered.

DESCRIPTION

FRAME. — Which is the foundation of a good lasting machine is made of birch with well made mortise and tenons. The whole is well put together by heavy draw bolts and rods.

CYLINDER. — Of the open bar type. Heavy bars and heads are used. Self-oiling boxes are used to avoid binding of cylinder shaft, no cash running in the failure of the "DORE" cylinder.

TEETH. — Are heavy, well secured to the bars with spring steel lock washers. They may bend but are guaranteed not to break.

CONCAVES. — Nothing better, made of steel bars with 2 " grate between each bar so 80 % of the grain is separated at the cylinder where no chaff or straw can prevent grain from going into the pan. Overshot machines have steel concaves.

STRAW DECK. — Well made. A long grate is right at back of cylinder. The other part is made of perforated galvanized iron with deep grooves so that the straw can not block the free passage of the grain.

ECCENTRIC. — Two well turned eccentrics of 44" x 14" with babbitted straps are used to operate the straw deck and the shoe, assuring smooth running and long wear.

RAKES. — The separation of the grain from the straw is made by the action of these rakes. The throw is 7" lifting, tossing and carrying the straw. No other mechanism could give as thoughly a shaking to the straw.

Turned pointed prongs 3/4", toss and carry the straw. They are placed every 8" on the width of the thresher and every 6" on the length. There are 3, 4 and 5 of these rakes in each machine according to its width. Some manufacturers use lifting fingers in connection with these rakes. We have discarded these fingers years ago for the reason that if two mechanisms are used to raise the straw one is bound to pack it on the other so the shaking is partly prevented, if not wholly eliminated. Reducing the efficiency of the operation and adding unnecessary parts to the machine.

THROW CRANK THAT OPERATES THE RAKES. — Every bearing is turned with shoulder assuring a right action of the rakes and preventing side motion, as they will still perform their work after years of service. Oiling once a day will keep them well lubricated.

Shields to prevent straw from winding on the shaft are used.

THE HOOD OR CLEANER. — The cleaning is almost perfect as grain will be thrown from it clean grain delivered to the bags. — Adjustment of screen to regulate the blast is made from the outside, and it is not necessary to stop, to change the position of the screen. The device is simple and will keep the screen well in place.

HANGERS "DORE" IMPROVEMENT. — Cast iron hangers to support the straw deck and shoe have been discarded. We have replaced them with spring steel hangers, eliminating 16 joints, 32 wearing parts, the oiling and maintenance. These hangers are warranted for the life of the machine.

STRAW BLOWER with "NEW WAY" Grain Saver. — "DORE" NEW WAY grain saver is the most wonderful improvement ever put into a thresher.

Thresher manufacturers have used every kind of separating devices to take out grain from straw, but have not been able yet to find a way to save all the grain.

Thousands of dollars, to prevent grain from entering the blowers, have been spent without success.

"DORE" engineers, after long research, have succeeded to make a grain, which is placed at the bottom of the blower housing that will save the grain coming from the straw deck.

Area of the grate used.

Thresher 22 x 29	432 in.
Thresher 24 x 34	540 in.
Thresher 24 x 42	648 in.

No grain that is left in the straw by falling 40" below the deck on the Grate is sure to pass through and be saved. The action of the grate is like a second straw deck.

No knocking of straw or blocking of grate is possible. A steel web is used to clean it and carry the straw into the blower, on its return it takes the grain into the cubing elevator.

A very simple and effective device.

La batteuse "DORE" possède des améliorations que vous ne trouverez pas dans aucune autre.

La batteuse "DORE" est construite dans les dimensions suivantes

AVEC TABLES POUR ALIMENTER PAR EN-DESSUS DU CYLINDRE

24" cyl x 34" arr — Capacité de 40 à 60 minots à l'heure. Pouvoir requis de 6 à 8 forces.

24" cyl. x 42" arr — Capacité de 60 à 90 minots à l'heure. Pouvoir requis de 8 à 10 forces.

AVEC TABLES POUR ALIMENTER PAR EN-DESSUS DU CYLINDRE

22" cyl x 29 " arr. — Capacité de 35 à 45 minots à l'heure. Pouvoir requis de 3 à 6 forces.

24" cyl x 34" arr — Capacité de 40 à 60 minots à l'heure. Pouvoir requis de 4 à 6 forces.

Quand le souffleur est requis ajoutez 3 forces.
Les capacités données ci-dessus ont été prises dans l'avoine
Quand le soigneur automatique est requis ajoutez 2 forces.

Nous ne pouvons pas garantir la capacité de travail de nos batteuses, mais une chose certaine, c'est que ces batteuses, grandeur pour grandeur ont une capacité aussi grande qu'aucune batteuse du même genre.

Nous prions ceux qui nous feront le plaisir de lire cette description, de bien se mettre dans l'idée, que la capacité du travail d'une batteuse dépend absolument de la qualité du grain, et dans un grain à point, les capacités données ci haut peuvent être dépassées de beaucoup, tandis que dans un mauvais grain, les capacités seront diminuées.

DESCRIPTION

LA CHARPENTE. — On sait la base d'une bonne machine est faite de merisier avec de bonnes mortaises et tenons.

LE CYLINDRE. — Est du genre ouvert construit avec barres d'acier, et recouvert aux bouts.

Des boîtes à graissage automatique sont employés pour éviter toute pression le côté sur l'axe du cylindre.

LES TAMIS. — Sont faits de barres d'acier avec grilles de 2 " entre chacune ce qui fait que 80% du grain est séparé au cylindre où est la balle et la paille ne peuvent empêcher le grain de tomber dans la drille de retour.

Les batteuses avec tables en dessous, ont des tables en acier.

LA GRILLE. — Est bien faite. Un long gerbage est placé juste en arrière du cylindre l'autre partie est faite de tôle galvanisée, et perforée avec ondulations profondes, afin que la paille ne puisse obstruer ou gêner le libre passage du grain.

LES EXCENTRIQUES. — Deux excentriques, de 44" de diamètre et 12" de largeur bien tournés, et avec enveloppes babbitées ajustés, sont employés pour actionner la drille et l'échasse, ne servant ainsi qu'une marche facile et une longue usure.

LES RATEAUX. — La séparation du grain d'avec la paille est faite par l'action des rateaux. Leur marche est de 7" levant, ce faisant la paille est relâchant sur la drille. Nul autre mécanisme ne peut mieux secouer la paille. Des fourchons dont le bout est courbé pour soulever la paille sont placés tous les 8" sur la largeur de la batteuse et tous les 6 " sur la longueur. Il y a 3, 4 et 5 rateaux dans chaque batteuse suivant sa grandeur.

Des manufacturiers se servent de fourchons de bois ou de fer en même temps que les rateaux ceux à nous les avons rejetés il y quelques années, pour la raison que lorsqu'il y a deux mécanismes pour soulever la paille un est coupé à recouvrir la paille sur l'autre et le secouage est partiellement ou complètement empêché ce qui amoindrit l'efficacité de l'action des rateaux et a coûtant les vieilles inutiles au mécanisme.

LES ESSIEUX COUDÉS QUI ACTIONNENT LES RATEAUX. — Sont faits d'acier et tournés à chasse laitier des rateaux avec épaulement pour assurer le fonctionnement en ligne droite et empêcher le balancement de côté assurant ainsi un bon secouage de la paille.

Des protecteurs à chaque laitier, sont employés pour empêcher la paille de s'accumuler à l'essieu.

LE PENTURE. — Qui portent la drille et l'échasse. Nous avons discontinué l'emploi de pentures de fonte avec joints à chaque bout et les avons remplacés par des lames à ressorts faites d'acier spécial, éliminant ainsi 16 joints, 32 morceaux, le graissage et l'entretien. Ces pentures sont garanties pour la durée de la batteuse.

L'EXHAUSTE. — Le nettoyage est presque parfait. L'ajustement des passes est fait par en dehors, même durant le fonctionnement, leur ajustement est facile et elles sont toujours bien tenues en place.

LE SOUFFLEUR "NEW WAY". — Le seul séparateur "DORE" "NEW WAY" est l'amélioration la plus merveilleuse qui n'ait jamais été faite à une batteuse.

Les manufacturiers de batteuse ont employé toutes espèces de moyens pour séparer le grain de la paille. Ils n'ont pu réussir à se trouver un qui puisse faire le travail parfaitement.

Des milliers de dollars ont été dépensés pour empêcher le grain d'être soufflé avec la paille.

Les ingénieurs "DORE" après de longues recherches ont réussi à faire un grillage qui ne bourre pas, et d'une telle superficie que le grain traversé avec la paille au souffleur est sécurisé en allant.

Superficie du grillage employé.

Batteuse 22 x 29	432 pouces.
Batteuse 24 x 34	540 pouces.
Batteuse 24 x 42	540 pouces.

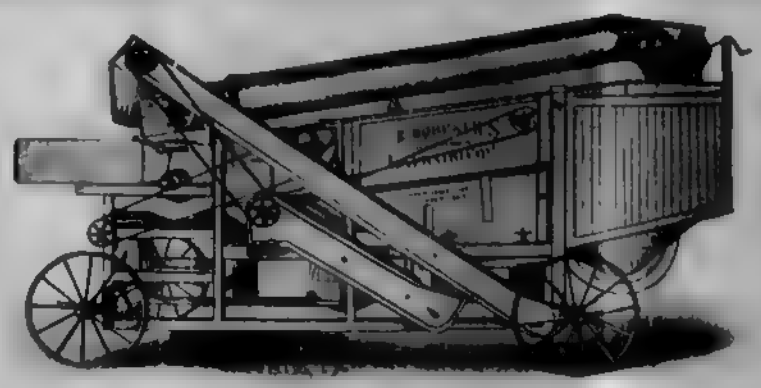
Par ce grillage de cette dimension et une chute de 40 plus bas que la drille il est évident que le grain et la paille se séparent facilement. Le grain est retourné au chargeur d'agrain, et la paille au souffleur par un secteur qui empêche toute accumulation et tient le grillage toujours net.

La chute du grain et de la paille sur grillage se trouvent à faire le travail d'une seule fois.

MADE IN CANADA.

FAIT AU CANADA.

"DORE" OVERSHOT THRESHER — BATTEUSE "DORE" ALIMENTEE PAR EN-DESSUS DU CYLINDRE

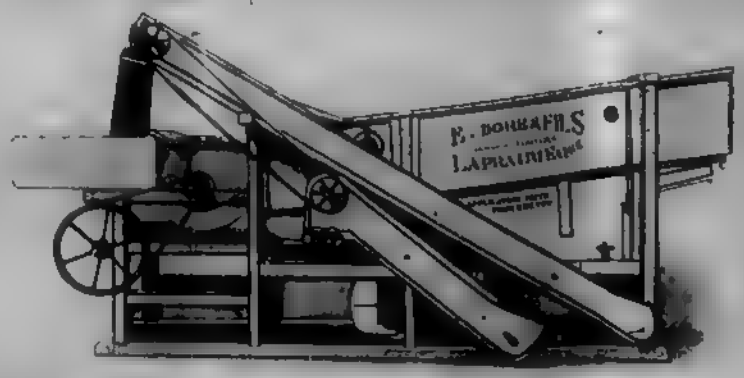


"DORE" overshot thresher.

Except the frame and the cylinder, this thresher is built exactly as our undershot thresher and for more particulars we refer you to the above literature.

Batteuse "DORE" alimentée par en-dessus. — Outre la charpente et le cylindre cette batteuse est construite exactement semblable à notre batteuse "DORE" alimentée par en-dessous, et pour plus d'information sur cette machine, nous vous référons à la description ci-dessus.

"DORE" OVERSHOT THRESHER — BATTEUSE "DORE" ALIMENTÉ PAR EN-DESSUS



"DORE" overshot thresher with tailings elevator and bagger. This machine is the Ideal Thresher for 3 to 5 horse engines. It will do satisfactory work in all kinds of [illegible]

Batteuse "DORE" alimentée par en-dessus avec charroyeur d'agrains et empocheur. La machine par excellence pour être opérée par un engin de 3 à 5 forces. Elle fait un travail excellent dans toutes sortes de grains.

Skeleton view of the cylinder, concaves and straw rakes of our overshot threshers.

Coupe montrant le cylindre, les tables et les râteliers dans nos batteuses alimentées par en-dessus.

[illegible]

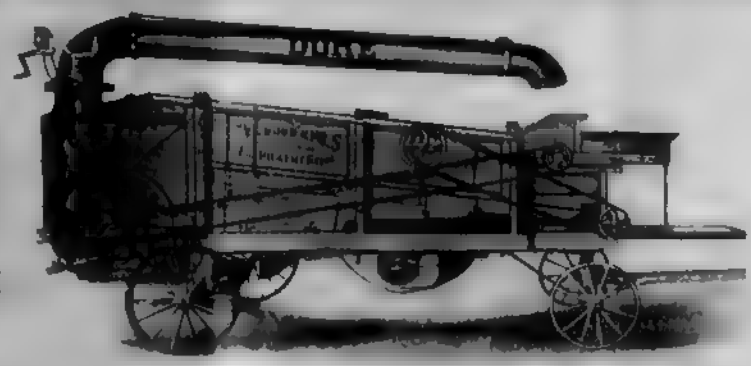
"DORE" UNDERSHOT THRESHER — BATTEUSE "DORE" ALIMENTEE PAR EN-DESSOUS

Note the general appearance of this machine

NO CROSS BELTS

The shoe and deck are operated separately and simultaneously eliminating the vibration which menaces the life of the machine.

Note the way shoe and deck are suspended by means of flat steel hangers.



Remarquez l'arrangement général de cette machine.

Aucune courroie croisée

La drille et l'échasse sont actionnées séparément simultanément éliminant la vibration et augmentant la durée de la machine.

Remarquez bien la manière dont l'échasse et la drille sont suspendues au moyen de lames d'acier à ressort.

See how *sieves* are *ajusted from outside* of the machine and are held in place by a *notched plate*. This is a sure and sure stay which will never rattle and it is also a great feature over other makes of threshers.

Voyez la dernière amélioration pour *ajuster les passes*, ce qui se fait par *en dehors* de la machine et la manière dont elles sont tenues en place par des *tiges* en fer. Cette amélioration vous épargnera beaucoup d'ennui et est un grand point de supériorité sur les autres batteuses.

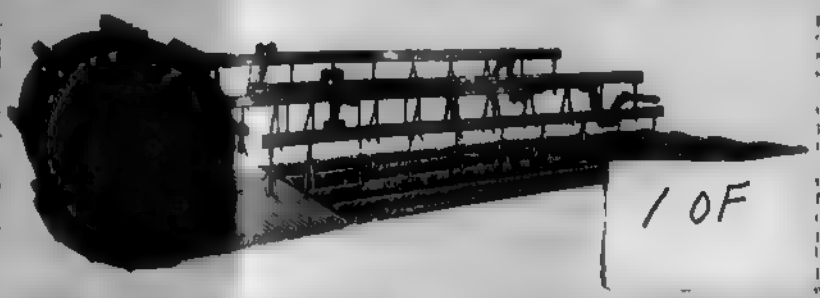
Skeleton view of the cylinder, concaves and straw rakes of our undershot threshers

Two deflector are used to retard the straw and assure better separation.

Adjustment of concaves is made by a hand lever.

Note the way separation of grain from straw is made in an undershot thresher.

Coupe montrant le cylindre, les tables et les râteliers dans nos batteuses alimentées par en-dessous



Deux retardeurs pour la paille sont employés pour assurer une meilleure séparation.

L'ajustement des concaves est fait par un levier à main.

Remarquez la manière dont se fait la séparation du grain de la paille dans une batteuse alimentée par en-dessous du cylindre.

EACH ROW of teeth is separated by a Grate through which the GRAIN FALLS on the pans. 80% of the grain from the straw at the cylinder and only 20% is thrown on the STRAW deck. THIS 20% of grain will be more easily separated from STRAW than in an OVERSHOT thresher where all the grain and straw are thrown on the straw deck.

CHAQUE rangée de DENTS est séparée par une GRILLE par où le grain s'échappe. Avec ce principe 80% du grain est séparé au cylindre et seulement que 20% du grain est projeté sur la drille. Ce grain sera plus facilement séparé que dans la batteuse ALIMENTEE par en-dessus DU CYLINDRE où tout le grain est projeté sur la drille avec la paille.

MADE IN CANADA.

21 cyl. x 42" rear. — Capacity from 60 to 90 bushels an hour. Power 9 to 15 H.P.

OVERSHOT

22" cyl. x 29" rear. — Capacity from 35 to [illegible] an hour Power 3 to 6 H.P.

24 cyl. x 34" rear — Capacity from 40 to 60 bushels an hour Power 4 to 6 H.P.

When a straw blower is required add 2 to 3 H.P.
When a self feeder is required add 2 H.P.
Capacities stated above are as oats.

We do not guarantee any specified quantity of grain that threshers will thrash, but one thing sure our machines, type for type and size for size, will thrash as much as any other.

PLEASE NOTE that the working capacity of a thresher depends absolutely on the quantity of the grain. In well ripe and dry grain [illegible] the capacities will be largest.

DESCRIPTION

FRAME — Which is the foundation of a good lasting machine is made of birch with well made mortise and tenons. The whole is well put together by heavy draw bolts and rods.

CYLINDER — Of the open bar type. Heavy bars and bands are used. Self oiling boxes are used to avoid binding of cylinder shaft smooth running is the feature of the "DORE" cylinder.

TEETH — Are heavy, well seeded to the bars with spring steel lock washers. They may bend but are guaranteed not to break.

CONCAVES — Nothing better made of steel bars with 2" grate between each bar so 80% of the grain is separated at the cylinder pan. Overshot machines have steel concaves.

STRAW DECK — Well made. A long grate is right at back of cylinder. The other part is made of perforated galvanized iron with deep grooves so that the straw can not block the free passage of the grain.

ECCENTRIC — Two well turned eccentrics of 42" x 12" with babbitted straps are used to operate the straw deck and the shoe, assuring smooth running and long wear.

RAKES — The separation of the grain from the straw is made by the action of these rakes. The throw is 7" lifting, tossing and carrying the straw. No other mechanism could give so thorough a shaking to the straw.

Overall pointed pegs 1/2" tons and carry the straw. They are placed every 3" on the width of the thresher and every 6" on the length. There are 3, 4 and 5 of these rakes in each machine according to its width. Some manufacturers use lifting fingers in connection with these rakes. We have discarded these fingers years ago for the reason that of two mechanisms are used to raise the straw one is bound to pack it on the other so the shaking is partly prevented, if not wholly eliminated. Reducing the efficiency of the operation and adding unnecessary parts to the machine.

THROW CRANK THAT OPERATES THE RAKES. — Every bearing is turned with shoulder, assuring a rapid action of the rakes and preventing side motion, so they will still perform their work after years of service. Oiling once a day will keep them well lubricated.

Shields to prevent straw from winding on the shaft are used.

THE FEED OR CLEANER — The cleaning is almost perfect no grain will be thrown from it. Clean grain delivered to the bags.

DORE Undershot Thresher Complete Of steel Trunk, with wheel turning under frame, fan with Steel and long pulley for Tractor and Horses.

Fournie sur demande une pole longue pour chevaux ou une courte pour tracteur
Batteuse **DORE** complète avec table par en dessous sur roues tournant en dessous du Batte.

— Adjustment of screen to regulate the blast is made from the outside, and it is not necessary to stop, to change the position of the screen. The device is simple and will keep the screen well in place.

HANGERS "DORE" IMPROVEMENT — Cast iron hangers to support the straw rack and shoe have been discarded. We have replaced them with spring steel hangers, eliminating 16 joints, 32 wearing parts, no oiling and maintenance. These hangers are warranted for the life of the machine.

STRAW BLOWER with "NEW WAY" Grain Saver. — "DORE" NEW WAY grain saver is the most wonderful improvement ever put into a thresher.

Thresher manufacturers have used every kind of separating devices to take out grain from straw but have not been able yet to find a way to save all the grain.

Thousands of dollars, in percent grain from entering the blowers, have been spent without success.

"DORE" engineers, after long research have succeeded to make a grate, which is placed at the bottom of the blower housing that will save the grain coming from the straw deck.

Area of the grate used.

Thresher 22 x 29	422 sq.	
Thresher 24 x 34	540 sq.	
Thresher 24 x 42	640 sq.	

No grain that is left in the straw by falling 40" below the deck on the Grate is sure to pass through and be saved. The action of the grate is like a second straw deck.

No bunching of straw or blocking of grate is possible. A steel web is used to clean it and carry the straw into the blower, on its return it takes the grain into the tailing elevator.

A very simple and effective device in the pailles.

Des protecteurs à chaque bottier, sont employés pour empêcher la paille de s'entasser à l'essieu.

LES PENTURES. — Qui portent la drille et l'échasse. Nous avons discontinué l'emploi de pentures de fontes avec joints à chaque bout et les avons remplacés par des lames à ressorts faites d'acier spécial, éliminant ainsi 16 joints, 32 morceaux, le graissage et l'entretien. Ces pentures sont garanties pour la durée de la batteuse.

LE BRASSE. — Le nettoyage est presque parfait. L'ajustement des passes est fait par en dehors, même durant le fonctionnement; leur ajustement est facile et elles sont toujours bien tenues en place.

SOUFFLEUR "NEW WAY" — Le nouveau "DORE" NEW WAY est l'amélioration la plus merveilleuse qui n'ait jamais été faite à une batteuse.

Les manufacturiers de batteuses ont employé toutes espèces de moyens pour séparer le grain de la paille. Ils n'ont pu réussir à se trouver un qui puisse faire le travail parfaitement.

Des milliers de dollars ont été dépensé pour empêcher le grain d'être soufflé avec la paille.

Les ingénieurs "DORE" après de longues recherches ont réussi à faire un grillage qui ne couvre pas, et d'une telle superficie que le grain tombant avec la paille au souffleur est retourné au plan.

Superficie du grillage employé.

Batteuse 22 x 29	422 pouces.
Batteuse 24 x 34	540 pouces.
Batteuse 24 x 42	640 pouces.

Par un grillage de cette dimension et une chute de 40" plus bas que la drille. Il est évident que le grain et la paille se séparent facilement. Le grain est retourné au char moyen d'agrain, et la paille au souffleur par un atelier qui empêche toute accumulation et tient le grillage toujours net.

La chute du grain et de la paille sur grillage se trouvant à faire le travail d'une seconde fois.

24" cyl. x 42" arr. — Capacité de 60 à 90 minots à l'heure. Pouvoir requis de 9 à 15 forces.

AVEC TABLES POUR ALIMENTER PAR EN-DESSUS DU CYLINDRE

22" cyl x 29" arr — Capacité de 35 à 45 minots à l'heure. Pouvoir requis de 3 à 6 forces.

24" cyl x 34 arr — Capacité de 40 à 60 minots à l'heure. Pouvoir requis de 4 à 6 forces.

Quand le souffleur est requis ajoutez 3 forces.
Les capacités données ci-dessus ont été prises dans l'avoine.
Quand le soigneur automatique est requis ajoutez 2 forces.

Nous ne pouvons pas garantir la capacité de travail de nos batteuses, mais une chose certaine, c'est que ces batteuses, garantiront pour grainant ont une capacité aussi grande qu'aucune batteuse du même genre. [illegible]

Nous prions ceux qui nous feront le plaisir de lire cette description, de bien se mettre dans l'idée, que la capacité du travail d'une batteuse dépend absolument de la qualité du grain, et dans un grain à point, les capacités données ci-haut peuvent être dépassées de beaucoup, tandis que dans un mauvais grain, les capacités seront diminuées.

DESCRIPTION

LA CHARPENTE. — Qui est la base d'une bonne machine est faite de merisier avec de bonnes mortaises et tenons.

LE CYLINDRE. — Est du genre ouvert, construit avec barres d'acier, et en sont par trois cercles.

Des boîtiers à alignement automatique sont employés pour éviter toute pression de côté sur l'essieu du cylindre.

LES TABLES. — Bien de neuf, faites de barres d'acier avec grillage de 2" entre chacune, ce qui fait que 80% du grain est séparé au cylindre et où la balle et la paille ne peuvent empêcher le grain de tomber dans la drille de retour.

Les batteuses avec tables en dessous, ont des tables en acier.

LA DRILLE — Est bien faite l'en long grillage est placé juste en arrière du cylindre l'autre partie est faite de tôle galvanisée et perforée, avec ondulations profondes, afin que la paille ne puisse obstruer en rien le libre passage du grain.

LES EXCENTRIQUES. — Deux excentriques, de 42" de diamètre et 12" de largeur bien tournés, et avec enveloppes babbitées ajustables, sont employés pour actionner la drille et l'échasse, assurant ainsi une marche facile et une longue durée.

LES RATEAUX — La séparation du grain d'avec la paille est faite par l'action des rateaux. Leur marche est de 7" levant, secouant la paille et l'entraînant sur la drille. Nul autre mécanisme ne peut mieux secouer la paille. Des fourchons dont le bout est rentré pour soulever la paille sont placés tous les 6" sur la largeur de la batteuse et tous les 6" sur la longueur. Il y a 3, 4 et 5 rateaux dans chaque batteuse suivant sa grandeur.

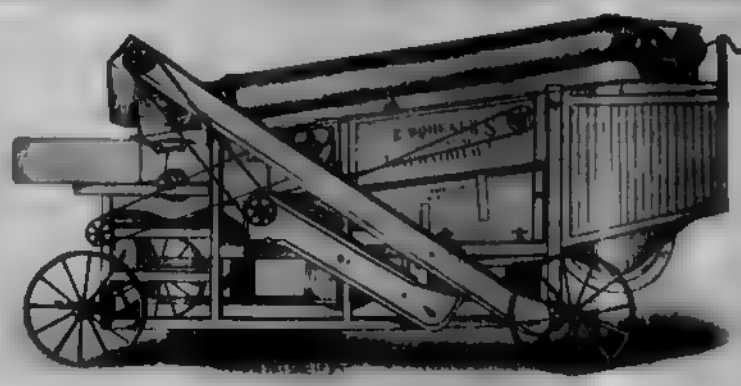
Les manufacturiers se servent de fourchons de bois ou de fer en même temps que des rateaux, nous le sons les avons montés il y a plusieurs années, pour la raison que lorsqu'il y a deux mécanismes pour soulever la paille un est sujet à gêner la paille que l'autre et le secouage est graduellement s'en complètement empêché réduisant ainsi l'efficacité de l'action des rateaux et à coûtant des pièces inutiles au moteur aussi.

LES ESSIEUX COUDÉS OU L'AJUSTEMENT LES RATEAUX — Sont faits d'acier et tournés à chaque bottier des rateaux avec étudiement pour arrêter le fonctionnement en long droit et empêcher le balancement de côté, assurant ainsi un bon secouage de

MADE IN CANADA.

FAIT AU CANADA.

"DORE" OVERSHOT THRESHER — BATTEUSE "DORE" ALIMENTEE PAR EN-DESSUS DU CYLINDRE

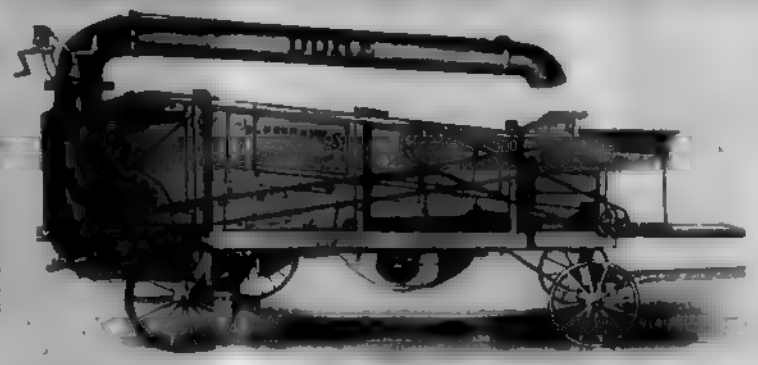


"DORE" overshot thresher.

Except the frame and the cylinder this thresher is built exactly as our "Undershot thresher and for more particulars we refer you to the above literature.

Batteuse "DORE" alimentée par en-dessus. — Outre la charpente et le cylindre cette batteuse est construite exactement semblable à notre batteuse "DORE" alimentée par en-dessous, et pour plus d'information sur cette machine, nous vous prions à [illegible] description ci-dessus.

"DORE" UNDERSHOT THRESHER — BATTEUSE "DORE" ALIMENTEE PAR EN-DESSOUS



Note the general appearances of this machine.

NO CROSS BELTS

[illegible] and simultaneously eliminating the vibration which increases the life of the machine.

Note the way shoe and deck are supported by means of flat [illegible]

See how sieves are agusted from outside of the machine and are held in place by a notched plate. This is a snug grip and sure stay which will never rattle and it is also a great feature over other makes of threshers.

Voyez la dernière amélioration pour *ajuster les passes*, ce qui se fait par en *dehors* de la machine et la manière dont elles sont tenues en place par des *tiges* en fer. Cette amélioration vous épargnera beaucoup d'ennui et est un grand point de supériorité sur les autres batteuses.

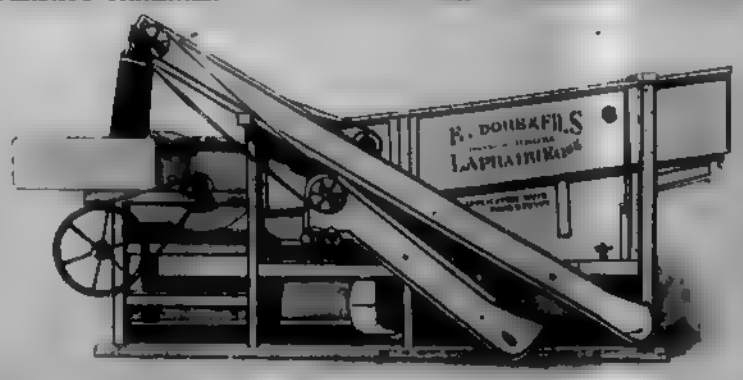
Remarquez aussi la manière dont la drille et la drille sont suspendues et [illegible] à ressort.

Remarquez aussi l'apparence générale de cette machine.

Aucune courroie croisée.

La drille et le [illegible] sont suspendus et [illegible] ajustement et [illegible] batteuse et augmentent la durée de la batteuse.

Remarquez aussi la manière dont la drille et la drille sont suspendues et [illegible] à ressort.



"DORE" overshot thresher with tailings elevator and bagger. This machine is the Ideal Thresher for 3 to 5 horse engines. It will do satisfactory work in all kinds of grain.

Batteuse "DORE" alimentée par en-dessus avec chargeur d'engrains et ensacheur. La machine par excellence pour être opérée par un engin de 3 à 5 forces. Elle fait un travail excellent dans toutes sortes de grains.

Skeleton view of the cylinder, concaves and straw rakes of our overshot threshers.

The concaves are [illegible] and [illegible] as shown in our drawing [illegible] made as an overshot thresher

Coupe montrant le cylindre, les tables et les râteliers dans nos batteuses alimentées par en-dessus.

Les concaves sont suspendues et s'ajustent par une vis [illegible] montrant clairement [illegible] de grain de la paille dans une batteuse alimentée par en-dessus du cylindre.

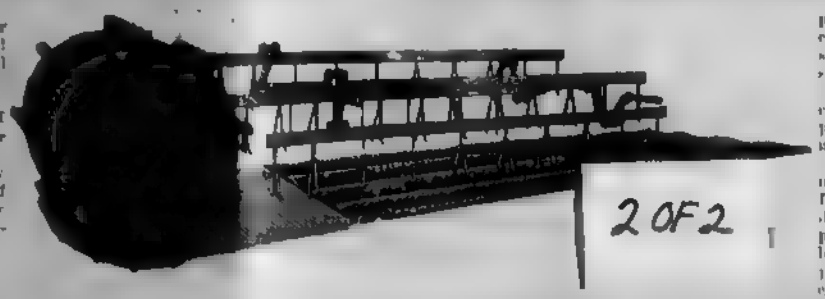
Skeleton view of the cylinder, concaves and straw rakes of our undershot threshers

Two deflector are used to retard the straw and assure better separation

Adjustment of concaves is made by a hand lever

Note the way separation of grain from straw is made in an undershot thresher

Coupe montrant le cylindre, les tables et les râteliers dans nos batteuses alimentées par en-dessous



Deux retardeurs pour la paille sont employés pour assurer une meilleure séparation

L'ajustement des concaves est fait par un levier à main.

Remarquez la manière dont se fait la séparation du grain de la paille dans une batteuse alimentée par en-dessous du cylindre

EACH ROW of teeth is separated by a Grate through which the GRAIN FALLS on the pans 80% of the grain is separated from the straw at the cylinder and only 20% is thrown on the STRAW deck. THIS 20% of grain will be more easily separated from STRAW than in an OVERSHOT thresher where all the grain and straw are thrown on the straw deck.

CHAQUE rangée de DENTS est séparée par une GRILLE par où le grain s'échappe. Avec ce principe 80% du grain est séparé au cylindre et seulement que 20% du grain est projeté sur la drille. Ce grain sera plus facilement separé que dans la batteuse ALIMENTEE par en dessus DU CYLINDRE où tout le grain est projeté sur la drille avec la paille

Don't lose your grain in the straw. Have your thresher equiped with Dore "New Way" Grain Saver

Ne perdez pas votre grain dans la paille. Ayez une batteuse pourvue de notre Sauveur de Grain "New Way"

MADE IN CANADA. FAIT AU CANADA.

MADE IN CANADA.

FAIT AU CANADA.

PATENTED DORE NEW WAY GRAIN SAVER

The **DORE "NEW WAY" GRAIN SAVER** is one of the most wonderful improvement ever used in a thresher as it will **save the grain thrown** out of the machine with the straw.

The **waste** of grain in **threshing** has never been accurately *found* but we are sure that *every* farmer pays in a short time the price of a threshing outfit by stopping the **waste of grain** in the straw.

Now it is a fact that **every thresher** on the market, regardless of mechanical device, throws out grain with the straw and this wasted grain amounts every year to millions of bushels.

You may judge from this the importance of our **"NEW WAY" GRAIN SAVER.**

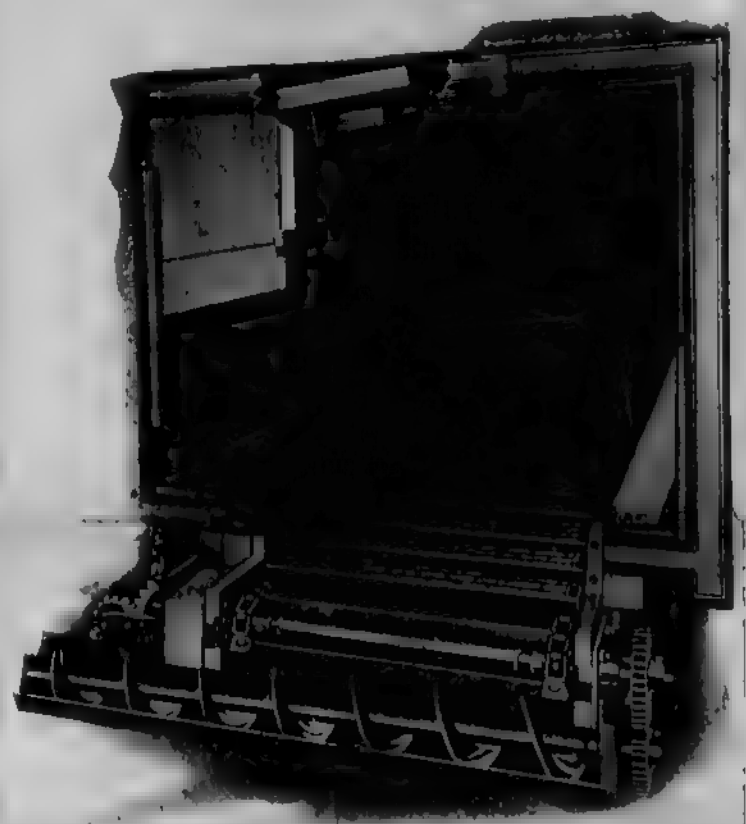
SAUVEUR DE GRAIN NEW WAY DORÉ BREVETÉ

Le **SAUVEUR DE GRAIN "NEW WAY" DORE** est le perfectionnement le plus utile qui ait jamais été posé sur une batteuse à grain car il ramasse le grain qui serait jeté en dehors de la batteuse avec la paille.

La quantité de grain perdu ainsi n'a jamais été trouvée d'une manière certaine, mais nous sommes positifs que chaque cultivateur **paye le prix d'une batteuse** dans un temps relativement court par le grain qui se perd dans la paille.

C'est un fait connu que toutes les batteuses jettent du grain dans la paille et le grain perdu ainsi se chiffre par millions de minots.

Vous pouvez juger par là de l'importance de notre **SAUVEUR DE GRAIN "NEW WAY" DORE.**



The cut at left shows rear of deck and shoes, also how our Grain Saver stands in the blower.

Note the practical way and *common sense* of our "NEW WAY" GRAIN SAVER. The *grate* is made of metal 15" wide x 26 to 38" long, according to the width of thresher, and is placed in the *bottom* of the *blower shell*. Grain falling with the straw *will go through the grate* instead of *sliding* into the blower fan as it does in the common blower.

The straw is carried into the blower by a travelling *webb*, and *this webb* on its *return* delivers the *gathered grain* in a spiral conveyor and this latter *delivers* it into the tailings elevator

La gravure à gauche montre l'arrière de la drille, de l'échasse et la manière pratique et simple dont notre attachement SAUVEUR DE GRAIN "NEW WAY" est posé dans le souffleur.

La *grille* se compose d'une pareille grille brevetée de 15" x 26 de large x 26 à 38 de long, suivant la largeur de la machine, et est placée dans le fond du souffleur. Le *grain* sortant de la batteuse avec la paille s'*échappe* par les *ouvertures* de la *grille* tandis que la paille est *entrée* dans le *souffleur* par le *râteler*. Le râteler en *revenant* par en-dessous de *la passe* entraine *le grain économisé* et le *délivre* à une spirale qui ensuite le délivre dans le charroyeur d'agrains.

This cut shows clearly the large grate and the travelling webb.

Note the peculiar form of the *grate* which never *clogs*. This grate adds an area of 432 to 640 *square inches* of separating space to your machine, according to size of thresher and it also increases the *separating capacity* over *one fourth*, if you take into consideration the *high drop* of 40 inches of straw and Grain from the deck to the *bottom* of the *blower*.

The webb travels regularly and the straw, as soon as it falls from the machine, is forced into the blower eliminating completely all bunching of straw and blocking of grate.

La gravure ci-contre montre clairement la grille et le ratelier.

Remarquez la forme particulière des ouvertures de la grille. Cette *grille* ajoute une superficie de 432 à 640 *pouces carrés* de *séparation* à la batteuse suivant sa dimension, et elle augmente de quart, la surface de *séparation* totale. La paille et le grain tombant d'une hauteur d'environ 40" de la drille au fond du souffleur, le grain se trouve facilement séparé.

Le ratelier entraine la paille régulièrement dans le souffleur, évitant par là tout amoncellement de la paille sur la grille

Comme le démontre la vignette, l'action des râteaux sur la paille, est de la soulever pour en faire sortir le grain. Principe élémentaire, et le seul réellement pratique, car si la paille n'est pas soulevée, le grain est entraîné avec elle.

La courbure des fourchons, leur rigidité et le nombre employé garantissent un secouage aussi parfait qu'un mécanisme puisse faire, ces fourchons sont faits d'acier à ressort et d'une grosseur suffisante pour les empêcher de plier facilement

Les marbles qui retiennent les râteaux sont faits d'érable trempé dans l'huile, ce qui les rend plus durable. Un huilage une fois le jour assurera leur bon fonctionnement

Les protecteurs employés, pour empêcher les cordes et la paille de s'enrouler à l'essieu, sont très efficaces et très utiles, car presque toutes les batteuses ont cette imperfection que nous avons réussi à corriger

Nous appliquons pour brevet.

As it is shown by this cut the action of the rakes is to raise the straw from the deck so that the grain can come off easily from the straw

Elementary principal and the only practical one. The straw has to be raised from the deck to separate the grain

The curve at end of prongs, number used and their rigidity assure as perfect a separation of the grain from the straw better than any other mechanical device used

The prongs are made of heavy spring steel and they will not bend easily.

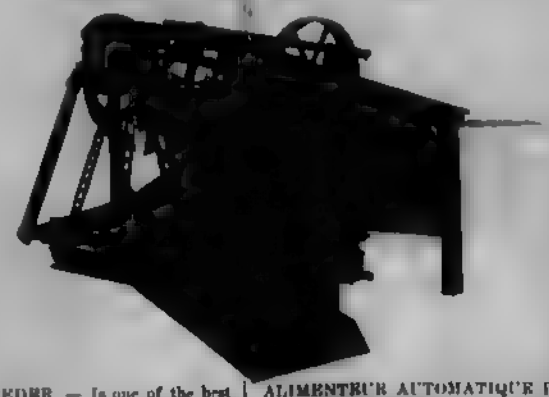
The rakes' bearings are made of maple seated in oil. Oiling once a day will assure their perfect running

The shields employed to prevent strings and straw to wind on the throw axles are very effective and necessary, as most every thresher have that defect which we have succeeded to improve.

Patent applied for.

Self Feeder showing how the sheaves are fed to the cylinder

Solgneur automatique montrant comment les gerbes entrent au cylindre

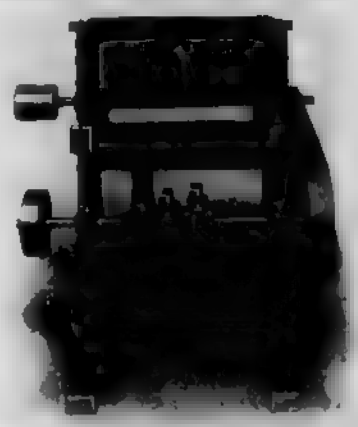


SELF FEEDER — Is one of the best attachment to a thresher, made of steel except the bearings.

It requires very little power, there are two governors, one controls the volum of straw, so no choking can occur, the other controls the speed

Two sets of trays, operated by ball cranks, running at different speed, feed the straw to the cylinder. No matter how badly the sheives are thrown on the carrier they will not [illegible]

ALIMENTEUR AUTOMATIQUE POUR BATTEUSE AVEC TABLE EN DESSOUS. — Nous employons un alimenteur automatique qui prend peu de pouvoir. La machine est d'acier à l'exception des boîtiers. Deux régulateurs sont employés, un qui règle le volume de la paille et l'autre la vitesse de manière que vous ne pouvez, dans aucun temps surcharger votre machine. Le mécanisme employé pour entrer la paille au silon a deux vitesses, de manière, que si une gerbe est mise sur le [illegible]



Cut showing cylinder of overshot thresher.

Take notice of the space between teeth, they are closer than mostly any other.

Frame is of ample strength, 3 babbitted bearings are used to support the excentric shaft. Excentrics are large and well secured to the shaft.

Grease cups are used to lubricate

Vignette montrant le devant de la batteuse alimentée par en-dessus.

Remarquez l'espace entre les dents, elles sont plus rapprochées les une des autres que dans presque toutes les autres batteuses.

La charpente est faite en bois de bonne dimension. Trois boîtiers babbittés supportent les excentriques.

Les excentriques sont grands et bien ajustés à l'essieu. Des graisseurs compresseurs sont employés.

Gentlemen:

I have your letter of the 25th ultimo, quoting a price of $528, f. o. b. Winnipeg, on a thresher and equipment required for the use of the Cross Lake Indian Residential School. Your quotation is accepted and I should be grateful if you would make shipment at an early date. The freight address is:

The Principal, Indian Residential School,
Cross Lake, via Selkirk, Man.

You should prepay the freight to Winnipeg, and, when you are forwarding your account to Brother Menard at Cross Lake, Man., you should attach thereto the freight receipt. Your account should be in triplicate.

When the goods are received, the Principal of the Cross Lake School will certify to the account and will forward it to Ottawa for payment.

Yours very truly,

F. H. Paget,
Accountant & Purchasing Agent.

Reverend Sir:

Pursuant to recent visits of the Rev. Father J. A. Lajeunesse, O.M.I., of the Ottawa University, and Brother Menard, of the Cross Lake Indian Residential School, I have to inform you that the Department has ordered a thresher with truck, straw blower, grain bagger and tailing elevator from Messrs. E. Dore & Son, Laprairie, Que. I am enclosing a copy of the official order to this firm. You will note that the account, in triplicate, is to go to you with freight receipt attached. Dore & Son are to prepay the freight to Winnipeg, but the address will be Cross Lake, via Selkirk. When the machinery is to hand, if satisfactory, you should certify to the account and forward it to Ottawa, with freight receipt, for payment.

Your obedient servant,

A. F. MacKenzie.

Memorandum:

DR. SCOTT.

With reference to Mr. Roch Lanctot's enquiry concerning the purchase of a small threshing machine for the Cross Lake Indian Residential School, I wish to report that Brother Menard, of the School, was advised by me a month ago to go to Laprairie and other places near Montreal, where small threshers are manufactured, and to select one that would be most suitable for the school. He asked that Messrs. E. Dore & Son supply the equipment, as it was most suitable. He compared prices with three other firms. This morning a letter went forward to Dore & Son, ordering a steel truck thresher with straw blower, grain bagger and tailing elevator belts, at a price of $528 complete, f. o. b. Winnipeg. An item of $1,000 is in our Main Estimates for the purpose of supplying agricultural implements for this school. They have been asking for them for some time.

Mr. Lanctot might be informed that this morning the Department placed an order with Dore & Son for the thresher required.

Re Letter 123-1-14.
Apl.,21. 1928.

Winnipeg,...2nd..May.,...1928.

The Asst. Deputy & Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Sir;-
re Implements &c. for Cross Lake Indian Residential School

I beg to acknowledge your letter,number and date as given above. Also enclosure,the same being an account in triplicate covering ~~surtain~~ a binder and a fanning mill &c. ordered by Brother Menard for the use of the Cross Lake Indian Residential School,from The John Deere Plow Co.,Limited.

I have called on the the above named firm,and have made inquiry,I am informed that these supplies are on hand and are all in readiness for shipment as soon as shipping directions are given to them. I have told them that I would give them these directions in good time to catch the steamer going to Warren's Landing thence to Whiskey Jack portage at the north end of Playgreen Lake.

When this shipment has been forwarded,I will certify to the account,in duplicate,and return it to the Department for payment.

I have the honor to be,
your obedient servant,

Jno. R. Bunn,
Inspector of Indian Agencies,

Rev. Sir:

I beg to refer you to official letter of May 1st, last, informing you of the order that was placed with Messrs. E. Dore & Fils, Laprairie, Que., for a thresher with truck, straw blower, grain bagger and tailing elevator. This firm are requesting payment of their account covering the cost of this equipment. If you have received the thresher in good condition, also the account which this firm were instructed to send you in triplicate, with receipt attached for freight charges, I have to request that you will certify same and forward it to the Department at the earliest possible date, in order that payment can be made. The receipt for the prepaid freight charges should also be attached to the account.

[redacted]:

I have your letter of the 30th ultimo, requesting payment of your account covering the cost of a thresher shipped to Cross Lake, Man.

We are communicating with Rev. O. E. Tradeau, Principal of the Cross Lake Indian Residential School, with the request that he or Brother Menard certify the account, which it is presumed you forwarded as instructed in official letter of May 1st, last, placing the order with you for this equipment. As soon as this account is received, payment will be made.

The delay in payment of this account is regretted, but as the account, certified as requested, was not received, the Department was unable to make payment.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Dear Sir

In answer to yours of Nov. 2nd No 123-1-14 received two days ago I am sending you with the present the only bill account which I received from Messrs Doire & Fils - the receipt for freight charges

I am glad to tell you that we received the Thresher with truck, new Hower grain bagger and tailing elevator in good condition by the last boat of the season.

Once more I wish to thank the Department for the great help you are giving us for our new farm.

I am pleas to tell you that we have our wheat, oat and peas. We had badly one acre of wheat and it gave us a little over 24 bushels of good wheat. We are hoping to have better crop next year if we have favorable season.

Yours sincerly
L. E. Trudeau

Dear Sir

Last March when I was in Ottawa I spoke to you about a Feed mixer it would take one of capacity of three sacks.

You promised me too that you would give us a double furrow plow, if we would buy the horses. We bought two new horses already so we have enough to use a big plow. So we will be very pleased if you would grant us a Massey-Harris No 2 Great West Gang Plow complete with the plow stell eveners for 6 horses.

$194

Thanking you very sincerely I am

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Re Application of Mr.Ferrier.

Dear Sir:

His Lordship Bishop Charlebois asks me to submit to your Department a requests which he makes in favor of the Cross-Lake Indian Residential School.

He points out,in a recent letter,that the Cross-Lake School has always spent much time and energy in farming operations. Ever since its foundation it has managed to clear a few acres of land each year,and it is now in a position to raise enough grain to feed a large number of fowls. It is felt that if the school could develop its poultry department accerding to modern methods, it could furnish a much needed addition to the bill of fare of its inmates.

He therefore asks the Department to procure for the Cross-Lake School the following equipment:-

From Ashdown's Catalogue 1929.
(Winnipeg,Man.)

1 No.16 Buckeye Incubator Style "E" Capacity 110 eggs.
1 No.60 Blue Flame Colony Brooder,Capacity 350.
3 Long Chick Feeders,20 holes.
1 Box (3 doz.)No.2 China Nest Eggs.

N.B. If the fuel used is not the ordinary coal-oil or gasoline,they will need a supply of fuel.

The approximate cost of the above will be about $60.00 "prepaid".

Address: Cross-Lake Indian Res. School
Via Wabowden,Man.
C/O H.B.Co.

Hoping that this request will receive your favorable consideration, I remain,

Yours truly,

J. A. Lajeunesse, o.m.i.

Reverend Sir:

I have your letter of the 25th instant, with reference to the request for a chicken incubator and brooder for the Cross Lake Indian Residential School. As Mr. Ferrier has explained to you, the Appropriation for Indian Education is completely assigned, and I regret that it will not be possible to grant this equipment. It should be supplied from the per capita or other receipts of the school.

Your obedient servant.

A. F. MacKenzie.

Sir;-

I received the enclosed letter at 4 p.m. on Friday the 20th instant.

I thought that it would expedite attention if I placed the letter brfore you for consideration.

In the matter of the Hay Rake, as described, is wanted for the Hay-making for 1930, and if it is intended to supply this, it should be shipped as soon as possible. I understand that their old Rake is done and finished.

I beg to submit this for favorable attention if this is possible.

The other articles can be looked into by Mr Agent Gordon, if any further information is required

I have the honor to be,
your obedient servant,

Reverend Sir:

The Department would appreciate your advising the number of milking cows at the Cross Lake Residential School at the present time. When were they tested and are you satisfied that they are free from bovine tuberculosis?

If you find it necessary to purchase milk for use at the Cross Lake School please let me know if this is secured from tuberculosis free herds.

I would appreciate receiving an immediate reply to this letter.

Yours truly,

R. A. Hoey

Dear Sir:

In reply to yours of February 22nd., No. 123-1-14, I have to state that we have at present time seven milking cows. None of them was tested for bovine tuberculosis. They appear healthy and we have no signs of such disease amongst them.

We are not purchasing milk and the school herd does not mix with any other animal from outside.

Trusting these statements will be satisfactory,

I remain,

Sincerily youre,

Reports of Principals of Manitoba Residential Schools regarding action taken to prevent tuberculosis infection from milk.

BIRTLE: We are milking 15 cows at the present time. We have them tested every year in the month of May. I have been Principal for four years and five months and during that time we have had no reactors. In the summer of 1936 I had all tested for Bang's disease and here also we found no reactors. We do not purchase any milk.

BRANDON: A new herd of pure bred dual purpose Shorthorns was started in the fall of 1930. Every animal purchased was T. B. tested. In 1933 we received our accredited herd certificate and fortunately have retained it constantly ever since. The last annual test is dated May 18, 1937. We have 56 females in the herd, about 20 milking at one time. We also maintain annually the blood test for Bang's disease. We do not purchase any milk.

CROSS LAKE: We have at present time seven milking cows. None of them was tested for bovine tuberculosis. They appear healthy and we have no signs of such disease amongst them. We are not purchasing milk and the school herd does not mix with any other animal from outside.

ELKHORN: The number of milking cows at the present time is 30. The herd is tested regularly by Government veterinaries from Brandon. The last occasion being the first week in November, 1937 when Mr. McConnell, who made the tests, pronounced the herd to be free from bovine T. B. Since November 1, 1936 it has not been necessary to purchase any milk from outside sources for use at this school. Should this at any time become necessary we should certainly secure it from T. B. free herds.

FORT ALEXANDER: Our herd was tested last summer (1937) at which test one cow we had bought from Pine Falls was found to react and was killed the same day. The herd was re-tested last fall (1937) and found in good order. At present we have 14 milking cows 10 of which were purchased before the last test. We do not need to buy any milk.

NORWAY HOUSE: We have eleven milking cows. To my knowledge they have never been tested for bovine tuberculosis. Because they have not been tested and therefore we cannot be sure they are free from disease we scald all the milk and cream we use, both for table use and butter. We do not purchase milk from any other source.

PINE CREEK: We have altogether 16 milking cows, 9 of which are giving milk at present. Our cows are tested regularly twice a year by Dr. Caldwell, from Dauphin, Manitoba. The last test, made in November 1937, proved to be satisfactory. We do not purchase any milk. Our cows supply all the milk necessary.

PORTAGE LA PRAIRIE: Have a herd of registered Jersey cows from fully accredited herds. They are tested annually. The last test was last summer and no reactors. There are 17 cows in the herd. We are situated in a T. B. free area.

SANDY BAY: At the present time we are milking 10 cows. They have never been tested for T. B. and I cannot say if they are free or not from T. B. So far I have never bought milk to be used in the school.

Re: Cross Lake-Wabouwden Road.

Honorable Sir:

x x x

Re: Muskrat Farms.

Last summer in the short talk we had during your very pleasant visit, I had told you about the necessity of muskrats farms. I heartily believe that it is time to make steps forward in this direction. Undoubtedly there will be difficulties to establish them, but at any rate they should be undertaken, if we want to assure to our Indians a living.

On the land owned by the Res. school, there are some creeks. I will try to convince the Indians not to trap the muskrats there. This experiment will give us an idea of how much they can increase when they are left alone.

With my sincere thanks for your devotedness to the Indians Affairs, receive my heartfelt wishes for a Merry Christmas.

DEPARTMENT OF INDIAN AFFAIRS

Memorandum of an inquiry into the cause and circumstances of the death of

Margaret Jane Bee, Pupil No. 0176

of the St Joseph's Indian Residential School at Cross Lake, Man.,

who died at the Cross Lake School (place) on May 29 1942

INSTRUCTIONS

When a pupil of an Indian Residential School dies, the Principal is required to inform the Indian Agent at once.

On receipt of the Principal's notice the Indian Agent shall convene a Board of Inquiry, consisting of himself as Chairman, the Principal of the Residential School, and the Medical Officer who attended the deceased pupil. These members of the Board shall, in each other's presence, complete this memorandum, which shall then be forwarded to the Department of Indian Affairs, Ottawa, in one copy.

The Board of Inquiry shall, if at all practicable assemble within 48 hours of the pupil's death.

The parents or guardians of the deceased pupil shall be given notice of this inquiry and be permitted to attend it or to send a representative. They or their representative shall be asked if they wish to make a statement. In the event of their so wishing, their statement shall be attached to the report. The inquiry, however, shall not be delayed more than 72 hours after the time at which it would otherwise be held, to enable them to attend it.

If the Indian Agent is located at such a distance from the school as to make it impracticable for him to attend the Board, he shall request a responsible local resident to act for him. A suitable person for this duty would be a Justice of the Peace or a member of the Royal Canadian Mounted or Provincial Police. A more or less permanent arrangement of this kind might be necessary in some cases. The Department is prepared to pay a reasonable fee for this duty, on the Agent's recommendation. The report of the Board, in any case, must reach the Department through the Indian Agent's office.

This inquiry is not designed to take the place of, or prevent, any other inquiry, including an inquest, which may be required by law.

If the pupil died as the result of an accident, the Indian Agent is required to take the statements of the witnesses of the accident, and attach them to this memorandum.

Form No. 414.

A. STATEMENT OF THE PRINCIPAL OF THE RESIDENTIAL SCHOOL

1. On what date did this pupil fall sick or suffer injury? March 17 th

2. At what time of day? In the morning

3. When and to whom did he or she report this illness or accident? 17 March

The Nurse of the school saw that the girl was looking sick and put her to bed at the infirmary.

4. What means were taken to afford relief? Rest in bed and abundant food.

5. What medicines were used for this purpose and in what dose or quantity? Cod liver oil

6. When was the doctor called? The girl was not sick enough to call the Doctor who could not have come at this time of the year

7. If the pupil was removed to hospital, at what time was this done and by what means of transport?

8. If the pupil was not removed to hospital, what measures were taken for his or her care at the school? The girl was put in a private ward and the Nurse of the school attended to her very conscientiously every day

9. Add any other useful information here.

The girl start to be sick when the communications with the outside were interrupted. When the Doctor from Norway House came to Cross Lake on the 24 th of May he thought it was useless to send the girl to the hospital as she was already too sick.

G.E. Trudeau o.m.i.

Principal.

G.E.Trudeau, o.m.i.

Note: If the deceased pupil dies in hospital at a distance from the school, under the care of the physician or surgeon who attends him at the hospital, a clinical report of the patient's illness and death in the hospital is to be secured and attached to this memorandum.

"D" Winnipeg Norway House,

Manitoba, September 14th 1942.

William MILLER, Tr.Ind. Child - Cross Lake, Man.
Death of - by Drowning.

1. On Aug. 10th 1942 I was informed by Dr. R.S.C. Corrigan of Norway House, that he had received a report from Rev. Fr. C.E.Trudeau OMI of Cross Lake, that one William Miller, and Treaty Indian student of St. Joseph R.C. School at Cross Lake, had drowned at Cross Lake the day Previously (Sun.Aug.9th.) Dr. CORRIGAN, who is a Coroner, informed me that he had satisfied himself that death was accidental, that an inquest was unnecessary, that he had signed the necessary papers and permitted burial of the body.

2. In view of the fact that the writer hereof, was preoccupied with other matters (Treaty escort), and it was obvious from the Doctor's remarks that there would be no pressing need for police investigation, the matter was held over pending our next patrol to Cross Lake, which was anticipated to be the end of August. This patrol however, did not materialize till Sept 11th-12th.

First. 3. On 12-9-42 whilst in Cross Lake the matter was investigated. It appears that William MILLER, Treaty Indian child aged nine years, attending St. Joseph's Residential School at Cross Lake, went bathing too soon after eating his dinner, and was drowned, at approximately 12.45 p.m. on Sun.Aug.9th. The body was recovered at 1.15 p.m. and artificial respiration was applied for some two and a half hours by competent members of the school staff, without result.

4. The following statements were taken. There were two other witnesses from whom I should have taken statements but they were not available. These were Stanley HAMILTON Tr. Ind. and Michel SCATCH Tr. Ind. the latter a 16 year old boy, who was the first to arrive on the scene and went into the water to try to get out the WILLER Child, HAMILTON arriving a few moments later and also trying to recover the boy.

5. Statement of Lydia MCKAY, Indian girl aged 16, of Cross Lake, Manitoba.

" On a Sunday in August, I think it was the ninth, I was picking berries and eating them, over at the Mission, with three other girls. We were near the water and I saw about four small boys swimming near the sawmill. One of them was William MILLER. I could see that William had got out into deep water, and I saw him struggle and his head go down. None of the other small boys who were there were near William, they had stayed in shallow water. Us girls went down to the water, but William was too far out for us to reach him. So I ran up the hill from the water and saw a man passing and told him the boy was drowning. That was Stanley Hamilton.

RE; William MILLER Tyfnd.Child - Cross Lake,Man.
Death of - By Drowning.

(5) (Statement of Lydia McKAY,cont)
He went down and tried to get William out of the Water. Before this though another big boy, Michel SCATCH had heard us calling for help and he came right there and tried to get William out but he could not do so. I did not go to the Mission, but one of the people had heard us calling and sent for the Father. I was still there when the men got William's body from the water. I do not know why he should drown, but I do know that he had got too far out into deep water, for such a small boy, and there was no one close to him".

Witness et. (sgd) 'Lydia MCKAY'

(E.A.Kirk, Cpl. RCMP.

(6) Statement of Rev. Fr. G.E. Trudeau O.M.I. of St.Joseph's Mission, Cross Lake, Manitoba;-
"On.Sunday August 9th about 12.45 p.m. and Indian woman informed me that a small boy was drowning near our sawmill. I went to the place by canoe, with Father DANIEL, Brother MENARD and others, and two other canoes came along. Approximately 1.15 p.m. the body of one William MILLER, aged approx. 9 years, a student at St. Josephs School was recovered from the water by the searching group. Immediately artificial respiration was applied,continuously for two hours and a half by myself and Sister Francoise Therese R.N. at the end of which time the child was adjudged dead by the sister. In my opinion the childs death was due to accidental drowning, possibly caused by swimming too soon after his dinner."

(sgd) 'G.E. Trudeau O.M.I.'

(7) Statement of Sister Francoise Therese R.N. Nursing Sister of St.Joseph's School, Cross Lake,Man.:-
"On Sun.Aug.9th at 12.45 p.m. Father Trudeau sent me a message requesting my presence as a boy had been drowned, and I went as requested. I was present about 1.15 p.m. when the body of William MILLER aged nine, was recovered from the Lake. In company with Father Trudeau I applied artificial respiration to William Miller, which was applied for two hours and a half, long before which I know that William Miller was dead and could not be recovered. In my opinion death was due solely to drowning caused by swimming too soon after his dinner"

(sgd) Sr.Marie Francoise Therese R.N.

The O.C. "J" Div., R.C.M.P., Winnipeg.

FORWARDED 22-9-42. Copies of my letter to the D.A.G. are herewith. This drowning case concerns a Treaty Indian. W.G."D.G.

(8) With regard to the last sentence of each of the two preceding statements, the students at the School begin their dinner about 11.30a.m. finishing somewhat after 12 noon. The boy was drowned at 12.45. Father Trudeau informed me that Sister St.Martin overheard some of the boys discussing swimming after dinner. She told them that they must not swim after dinner. It is not known however, if the MILLER lad was amongst those so warned.

(9) In view of the contents of these statements this fyle will be considered combined.

DEPARTMENT OF INDIAN AFFAIRS

Memorandum of an inquiry into the cause and circumstances of the death of

Martha Rivers, Pupil No. 0171

of the Cross Lake Indian Residential School at Cross Lake,

who died at the Cross Lake School (place) on the 24 th June 1943.

INSTRUCTIONS

When a pupil of an Indian Residential School dies, the Principal is required to inform the Indian Agent at once.

On receipt of the Principal's notice the Indian Agent shall convene a Board of Inquiry, consisting of himself as Chairman, the Principal of the Residential School, and the Medical Officer who attended the deceased pupil. These members of the Board shall, in each other's presence, complete this memorandum, which shall then be forwarded to the Department of Indian Affairs, Ottawa, in one copy.

The Board of Inquiry shall, if at all practicable assemble within 48 hours of the pupil's death.

The parents or guardians of the deceased pupil shall be given notice of this inquiry and be permitted to attend it or to send a representative. They or their representative shall be asked if they wish to make a statement. In the event of their so wishing, their statement shall be attached to the report. The inquiry, however, shall not be delayed more than 72 hours after the time at which it would otherwise be held, to enable them to attend it.

If the Indian Agent is located at such a distance from the school as to make it impracticable for him to attend the Board, he shall request a responsible local resident to act for him. A suitable person for this duty would be a Justice of the Peace or a member of the Royal Canadian Mounted or Provincial Police. A more or less permanent arrangement of this kind might be necessary in some cases. The Department is prepared to pay a reasonable fee for this duty, on the Agent's recommendation. The report of the Board, in any case, must reach the Department through the Indian Agent's office.

This inquiry is not designed to take the place of, or prevent, any other inquiry, including an inquest, which may be required by law.

If the pupil died as the result of an accident, the Indian Agent is required to take the statements of the witnesses of the accident, and attach them to this memorandum.

B. STATEMENT OF THE PHYSICIAN WHO ATTENDED THE DECEASED PUPIL

I attended Martha Rivers from March 1/43.

to Jan 24/43. The immediate cause of death was Tuberculosis.

Meningitis.

The contributory cause of death was Pulmonary Tuberculosis.

Do you consider that the Principal of the School, and the members of the School staff exercised reasonable care and judgment in regard to the illness and death of this pupil? No.

Did they follow out your professional instructions? No.

If in either respect, you consider them to have been at fault, it is required that you express your carefully considered views as follows:

I saw the child in March, 1st & ordered her to be placed in bed for 6 months & 1 year. This was not done. There should be a much different organization & there should be more and that it comes under the head of care.

Sir:-

In accordance with instructions, contained in your letter of the 7th inst., No.116823/1, the groceries and provisions on hand at this school were packed and shipped to Mr. S.L.Macdonald, Acting Indian Agent, at The Pas. Man. A list of the Supplies sent, with a bill of lading, have been forwarded to Mr. Macdonald.

In regard to the ½ barrel of Syrup. This was not accepted by the Railway Company for shipment, owing to the barrel not being in a sound condition. I am, however, making inquiry about a suitable barrel, and as soon as one can be obtained the syrup will be shipped.

I am enclosing, herewith, a list of the supplies sent to Mr. Macdonald, as desired by the Department.

I have the honour to be,

Sir.

Your obedient servant,

J.D.McLean Esq.
Asst. Deputy and Secretary.

Dr. Bryce

All this report has gone to Ottawa

Sir,

I have the honor to report that I visited the Mackay Indian Boarding School in the Pas Agency, on the 26th of June last, shortly after Mr A.E.Wilson of Elkhorn had sent the list to the Principal of what supplies, material, furniture was available for other schools. The Principal was asked to note on the list what he would like to have sent him and return to Mr Wilson.

I would like to point out that this school is in need of everything they are marking off the list sent them. When this school was started they did not get the usual quantity of new furniture that is furnished to a school of this class. At least a carload of old furniture came from the old Battleford School, old dining room tables which are now falling to pieces, old benches for the pupils to sit on, and old beds which are being repaired almost daily. There is a lot of good furniture at Elkhorn and I, assisted the Archdeacon and the Matron in marking off on the list what would be suitable for the Mackay School. Things are much better at this school than at my last visit and my report on same will reach you in a few days.

Yours truly,

S. J. Jackson

Inspector of Indian Agencies.

Duncan C.Scott,Esq.,

July 3rd.1918.

J. D. Scott Esq.
Deputy Minister of Indian Affairs,
Ottawa.

Dear Mr. Scott:-

When I returned from the East yesterday I found a letter awaiting me from the principal of the Elk-Horn school in which I found a list of articles to be distributed to the different schools, the approval of the Department. After carefully going through the list and marking the different articles I would like to obtain, there are several in particular which I am most anxious to have and it is for this purpose that I now make the request that I be given the whole outfit and equipment belonging to the gasolene engine. The articles to which I allude are spoken of as follows "Stover Engine. 6 H. P. 1---Gold Shapely and Moor Engine 3½ H. P. 1. assortment of pipe fittings. These are the articles which I am most keen to obtain, for during my deputation through the east I made several requests for these same articles but am not sure as to whether same will materialise, consequently on seeing the list submitted I could see my chance of installing with the assistance of the above mentioned articles not only an electric light plant but also power for other purposes in connection with the institution. There is also an item of 64 desks, may I obtain 50 of these, for since the erection of the new school building I have had to content myself with the old fashioned desks and am naturally anxious to procure modern ones. Further the office equipment consisting of office

table, typewriter desk, one typewriter, revolving office chair, side table, gramophone and records, one magic lantern and slides.

I therefore make these personal requests asking that it might be granted in addition to the list which I have submitted to the principal of the Elk Horn school.

Kindly accept my deepest thanks for the cheque received a short time ago for expenses to Ottawa. As I have yet received no definite information relating to our conversation I will write you later giving full details.

Thanking you for past favors,

Yours sincerely,

A. McDonald

Principal.

Ottawa, June 14, 1933.

Reverend Sir:

I have your letter of the 8th instant, informing the Department that the Reverend F. Eley will retire from the principalship of the Elkhorn Indian Residential School as from July 31st, next, and nominating the Reverend Canon S. J. Wickens, B.A., B.D., Brandon, Man., to succeed him. The Department notes that Rev. Canon Wickens possesses the necessary qualifications and that, from a practical and business point of view, he has had wide experience.

While the resignation of Mr. Eley is accepted, I have to say that his services, as far as this Department is concerned, have been entirely satisfactory.

The appointment of Rev. Canon Wickens to succeed the Rev. Mr. Eley from the date mentioned, is approved. We will look forward to the continued success of this school under his charge. Mr. Inspector Hamilton, Winnipeg, is being informed of the change in principalship.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir,—

Per Dept letter #116823/1 April 26th. I was instructed to notify the parents of the Personius children that the Elkhorn School would be closed and the children sent home, since then their people have made a weekly trip in from rocky Lake, wanting information and request- that the two children be sent back to The Mackay School.

I had heard indirectly that they were at the Brandon School and while at Nelson House I met Mr Ferrier who informed me that they were there, but he had received no definite instructions about them and they could not be sent back alone. Archdeacon Mackay has also put in a request that they be sent back as they are short of pupils at this School and these children are Anglican.

Ottawa, August 7, 1918.

6016-113

Sir,-

I have to acknowledge the receipt of your letter of the 25th ultimo, with reference to the case of the two Perseqius children who were placed in the Elkhorn Industrial School on December 14th last, and who, upon the closing of that school on the first of May last, were transferred to the Brandon Industrial School.

In reply I beg to say that you may inform the principal of the MacKay Boarding School that these two children may be placed in his school as they are anglican and their father is anxious to have them near him. Archdeacon MacKay can make the necessary arrangements to have them taken from Brandon to his school and the Department will pay the cost incurred upon receipt therefore, of properly certified vouchers, in duplicate. He should await an opportunity to have these children accompanied to the school by some one who may be travelling between these two points, and any expenditure incurred should be kept down to the lowest possible figure. The principal of the Brandon Industrial school is being instructed to allow these two children to be transferred to the MacKay Boarding School as soon as suitable arrangements can be made for their transport. You will be good enough to inform Archdeacon MacKay accordingly. It might be well for him to consult with Rev. T. Perrier, Principal of the Brandon Industrial School.

Your obedient servant

CAE

Ottawa, August 7, 1918.

Reverend Sir,-

The Department has received a request for the transfer of Catherine and Patrick Personius, at present in the Brandon Industrial School, to the MacKay Boarding School, The Pas, on the grounds that they are Anglicans and also that the parents belong to that church and are anxious to have them near them.

Mr. Agent Macdonald informed the Department that he spoke to you regarding this matter while you were at Nelson House. The request for their transfer is made by the Venerable Archdeacon Mackay and it is considered that his wishes in the matter should be complied with. You will, therefore, be good enough to grant the discharge of these two children from your school and hand them over to the care of the person whom Archdeacon MacKay, the Acting Principal of the MacKay Boarding School, shall arrange to take charge of them during their journey to The Pas. He is being requested to communicate with you in this matter.

Your obedient servant

The Secretary,
Department of Indian Affairs,
Ottawa.

Dear Sir,-

Some time ago, I received from Mr. A. E. Wilson, Principal of Elkhorn School, an inventory of effects which he was instructed by the Department of Indian Affairs to ask me to make a selection from, of such things as they [illegible]. The required of Gordon's School, which I did.

I very much needed a typewriter and one of the Gardenia Engine, which were on the list, but these have not been sent. Instead, many other things have been forwarded, most of which, many, in time to be useful, at present much [illegible] storehouse.

Sir,—

The groceries sent from the Elkhorn school, arrived, and I have sent for the Hospital use all that were suitable. The butter was in very bad shape, but can be used for cooking purposes, and the Bacon was rancid most of which I have held for Destitute purposes, among the shipment was eighteen cases of Soap, I only sent six to the Hospital, as there is a big supply there, from Dr. Oroke time, and I had a request from the Archdeacon Mackay, to sell him eight of ten cases, for the School, and would like to know if it would be in order to do this.

I have the honor to be,
Sir.

Plans.

Elkhorn Industrial School.

Dear Sirs:-

Your Mr. Benson called at my office this morning and obtained plans for the Elkhorn Industrial School, Manitoba.

While these plans have been in our possession for a considerable length of time, the possibility of our using this building in connection with our work is now again up for consideration.

I would thank you, therefore, to return these plans to me as soon as possible.

Yours faithfully,

General Superintendent,

COMMISSIONER'S OFFICE.

IN YOUR REPLY REFER TO
NO. 14-14.
ALSO TO DATE OF THIS LETTER

REGINA, SASK., 7th. Nov., 1918

516660

Sir:

Referring to your letter of the 15th ultimo, your file 116,823-1, I beg to forward herewith various lists showing the disposition made of the property at Elkhorn School.

The machinery and horses were shipped to our G.P. Farm at Muscowpetung; the cattle to Assiniboine; and most of the hogs to Broadview. Some of the cattle and hogs were sold, as also were the poultry.

I regret the delay in forwarding these particulars, but it took some little time to verify and make out the various lists.

Your obedient servant,

W. M. Graham

Commissioner.

The Secretary,

Sir,-

The Department is in receipt of a communication from Mrs. S. Marshall, Principal of the Kiptle Boarding School, in regard to the farm implements at the Elkhorn School, and in which she asks whether she could procure a potato digger and a manure spreader for her school.

It is noted that a potato digger and manure spreader were included in the list of farm implements at this school. Kindly state whether they are still there and, if so, whether they are required for the farm. If they are not required they might be sent to Mrs. Marshall.

Dear Mr. Scott,

I am to be in Ottawa for Sunday May 4th, and if convenient to you will arrange to call upon you, at the Department, on the morning or afternoon of the following day, Monday May 5th.

I am leaving for St. John, N.B., on Tuesday. Please therefore, send your reply, toward the end of next week, in care of Canon Snowdon, 66 Lisgar St. Ottawa, and mark it to await arrival.

The matters of importance I wish to discuss with you are mainly, (1) the proposed re-opening of the Elkhorn School, and (2) the necessary re-organization of the Boarding Schools in the Diocese of Calgary.

Believe me,

Yours very faithfully,

S. Gould

Ottawa, Feb. 25th, 1921.

Dear Sir,-

Re: Elkhorn Indian Industrial School.

Order-in-Council P.C. 2172, dated the 22nd of October, 1919, transferred the above mentioned property to the Soldier Settlement Board of Canada to be used as a training centre for ex-service men.

The work of the Board has now developed to such an extent that it is no longer necessary for the Board to utilise this property in connection with this training work and we therefore desire to effect a re-transfer of the property to your Department.

Will you kindly advise if you are agreeable to such action or if you do not desire to again assume control, suggest the procedure which we should adopt in arranging for its disposal.

Yours faithfully,

SECRETARY.

March 17th. 1921.

Dear Mr. Graham,

I have your letter of the 12th. instant in reply to mine of the 1st. instant with regard to the reacquisition of the Elkhorn school property. It would not be possible for us to sell the property and thus derive any monetary advantage. If we do not take it over again it will revert to the Department of the Interior and if sold the proceeds would go to Casual Revenue. However, in view of the extreme cost of building at the present time, and our lack of facilities should we wish to actively put into force the amendment of last session, regarding compulsory attendance at schools, it seemed to me that it might be advisable for us to reopen this institution, either under the direct control of the Department or under the auspices of one of the religious bodies. There is a large field in the northern part of the Province of Manitoba and also in the northern part of Saskatchewan in which the facilities for education in residential schools are very meager.

It was this that I had in mind when I wrote my letter of March 1st. in which I might then more fully have expressed the object that I had in mind in writing you. Will you, therefore, give this matter further consideration and advise me.

Yours very truly,

Deputy Superintendent General.

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

March 18th. 1921.

Dear Archdeacon Snowdon,

In 1919 the Elkhorn industrial school at Elkhorn, Man., which had been conducted by this Department for a number of years, was closed and the property transferred to the Soldiers Settlement Board to be used as a training centre for ex-service men. I am now advised by the Board that they do not wish to utilize the property any longer in connection with their work, and that they desire to re-transfer it to the Department. When transferred to the Board the buildings and equipment in connection therewith were in splendid condition, and in view of the lack of facilities for the training of Church of England children in Manitoba and Saskatchewan, it occurred to me that it might be well for the Church to undertake the management of a school at this point, it being understood that the Department would be responsible for the upkeep of the plant.

Unfortunately the school is somewhat remote from the reserves from which pupils would be drawn, which are in the northern part of each of the provinces above mentioned, but under our present arrangements the Department would be responsible for the cost of the transportation of pupils. When the school was previously in operation the Indians objected to sending their children so far away, although it might be considered that their objections were not very well founded. However, as the

Indian Act now stands we have the power to place their children in this or any other designated school.

I should be very glad if you would take this matter up with Canon Gould and let me have your views. As you are aware the cost of building is now very high and our appropriation limited and it might be well to make use of this property rather than anticipate the erection of any new buildings in the future, to serve the constituencies referred to.

Yours very truly,

Deputy Superintendent General.

Dear Mr. Scott:

I have your letter of the 17th inst. regarding resquisition of the Elkhorn school property. I am of the same mind as you in regard to this matter. I think it would be too bad to sacrifice this property when we are short of school accommodation in this Province, particularly in Northern Saskatchewan. Sometimes I think it would be a splendid idea if we could run a school independent of the Church organization. What I mean by this, is that the Government would control the purchase, management, staff, etc.

As you know, I have been pressing for a Boarding or Industrial school in the northern part of this Province. There is a large number of children there that are not attending school very regularly. If we could get the right man, I would be very keen to have the school established. With the enormous amount of equipment we have- beds, blankets, mattresses, furniture of all descriptions -we could almost furnish the Institution without any outlay of cash. I think the matter should be seriously considered, and if you fall in with this, and have any further suggestions, I can assure you I will do everything I can to start up such a school.

Youre very truly,

W.M.Graham

Dear Mr. Scott,-

Referring to my letter of March 22nd on the subject of re-opening the Elkhorn, I would ask if the Department has come to any decision in regard to this, as I am in receipt of a letter from Mr. Westgate, Field Secretary M.S.C.C. in which he states in part as follows,-

" The Indian Department have informed our Society that "the Elkhorn Industrial School at Elkhorn, Man. which "had been conducted by the Department for a number of years, but was closed in 1919 and the property transferred "to the Soldiers' Settlement Board, and is now being "re-transferred to the Department who suggest that it might "be well for the Church of England to undertake the "management of an Indian School at this point. I have "been asked to arrange if possible to meet you there "to confer with you on this suggestion. If you will "kindly fix a date when it will be convenient for you "to visit Elkhorn I shall endeavor to meet you there, so "that we may study the situation on the spot."

Before arranging to meet Mr. Westgate I should like to have your reply to my letter above quoted.

Yours very truly,

Indian Commissioner.

Duncan C. Scott, Esq.,
Deputy Supt. General of Indian Affairs,

Dear Mr. Scott,-

x x x x x

(2) The Elkhorn Boarding School.
Our Executive Committee at its meeting on March 31st, agreed, in principle, to accept the responsibility of the management of this school, subject to such further arrangements concerning the same as may be necessary to discuss with you. In the meantime, I have sent a copy of your letter to our Field Secretary, resident in Winnipeg - The Rev. Dr. Westgate, whose office is in the Bible Society House, Winnipeg, and who will be, as I informed you, our official in immediate touch with the Anglican boarding schools - suggesting to him that perhaps it would be advisable, if he could arrange with the Indian Commissioner, Mr. Graham, to visit the property and to submit his report concerning the [redacted].

We understand, I may say, that, as in the case of the Blackfoot institution, the land attached to the school is not very suitable for farming operations and that to make the school the institution it should be some additional land of a good quality will probably be necessary.

There is also the need of getting together a suitable staff of which we have already, I may say, some members available.

In a general way we have thought that the best time to reopen the institution would be after the summer vacation, thus allowing, both, the Missionary Society sufficient time to deal with matters from its side, and the Department sufficient time to assign the necessary number of children to the school. If you think that an earlier date would be advisable, kindly let me know and we will take the matter up at once.

x x x x x

Believe me, Yours very faithfully,
S. Gould, General Secretary.

MEMORANDUM OF THE SPECIAL COMMITTEE CONSISTING OF THE REV.W.J.SOUTHAM AND THE FIELD SECRETARY M.S.C.C. APPOINTED BY THE INDIAN AND ESKIMO COMMISSION TO EXAMINE THE CONDITION OF THE BUILDINGS AND PROPERTY OF THE ELKHORN INDIAN SCHOOL.

-o-o-o-o-o-o-o-o-o-

Your Committee begs to report as follows:

1. That they left Winnipeg on Thursday, May 26th, at 3.25 p.m. and reached Elkhorn the same day at 9.30 p.m. Before leaving Winnipeg they secured from the Synod Office a copy of the Report on the Elkhorn Industrial School prepared by the special committee appointed by the Synod of Rupert's Land for the purpose, dated April 15th,1918, and carefully examined this on the way.

2. On arriving at Elkhorn they were met by the Rev.C.L. Jull, Rector of St. Mark's Parish, and Mr. Brotherhood, Manager of the Elkhorn Branch of the Canadian Bank of Commerce, and with these gentlemen an informal conference was held the same evening.

3. On Friday morning, May 27th, accompanied by Mr. Jull and Mr. Brotherhood, who kindly placed himself and his car at the service of the Committee, they proceeded to the School Grounds and carefully examined every building in connection with the Institution,

Main Building

34x113 with main entrance.

38x34 - 4 stories in height.

addition 34x41' - 4 stories.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

These they found to be as follows:

1. The Main Building or School
2. Light and Power House
3. Septic Tank and Pump House
4. Store Room
5. Principal's Residence
6. Farm Instructor's House
7. Carpenter's Cottage
8. Gymnasium
9. Barn and Silo
10. Horse Stable
11. Cow Stable
12. Granary
13. Piggery
14. Poultry house
15. Implement Shed and
16. Sand-Point Well and Pump House

1. THE MAIN BUILDING.

This consists of the orginal building 32' x 113', built in 1897; to which a three story addition 33' x 44' was made in 1913. It is made of white brick resting on a stone foundation and is for the accomodation of the staff and pupils. It contains the following rooms and equipment

IN THE ORGINAL BUILDING

THE BASEMENT

1. Lavatory for boys
2. Boiler room where there is one good boiler but disconnected
3. Shower baths and locker for boys
4. Lavatory for girls
5. Shower baths and locker for girls
6. Laundry with large cylindrical washer, a steam dryer and a worn out mangel
7. Engine room, with two tanks holding 5,000 gallons each and a small leader engine, out of order and too small for the purpose.

THE GROUND FLOOR

1. School room at the N. and containing 2 small cupboards, 7 hot water radiators and capable of accomodating 30 children
2. Clothes room with shelves
3. Large hall, with fire extinguishing hose too old for service.
4. An office for the Principal, cupboard on one side, containing an old sofa, desk, and old chair, and some letter press. (A cupboard belonging to this room was removed by the caretaker and is to be returned.)
5. Sewing room containing 2 old sewing machines, 1 table, some old tunics, 1 old cupboard and 1 grey chair.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

6. Supply room, containing shelves and a box of "cuts" belonging to the late Principal.
7. School room at the S. end, the same as that on t the N. end, with a cupboard of books on arithmetic, geography etc.
8. Refectory, used as a Chapel as well, with 8 tables all of which require repairing, 20 chairs in the same state.

THE SECOND FLOOR

1. Dormitory for girls and capable of accomodating 23.
2. 1 bed room used as an isolation ward.
3. Dispensary (1)
4. 2 store rooms
5. 3 small rooms off the hall.
6. Dormitory for girls at S. end
7. Dormitory at N. end for boys but used as play roomfor girls. This room has a metallic ceiling

THE [illegible] PART

THE BASEMENT

1. Dairy room
2. Store room
3. Gymnasium or play room for boys containing old weighing scales.

THE GROUND FLOOR

1. Dining room for the staff
2. Kitchen containing 2 large ranges which require new lids and linings, also a pump to the soft water tank.
3. Pantry which requires more cupboard space.

THE SECOND FLOOR

1. 3 rooms, two of which are used as hospital wards

THE THIRD FLOOR

1. Dormitory which will accomodate 42 boys. It has 8 basins with water laid on but as the water freezes in the pipes these are never used.

   The roof of this part of the building needs attention.

2. LIGHT & POWER HOUSE

   This is a two story brick veneer building 28' x 32', formerly used as a laundry and contains:

1. 2 acetylene gas tanks, one of which is out of commission.
2. 1 eight horse power engine built by the Canadian Stover Engine Co., in good condition and may be used for cutting wood, chopping grain, pumping sewage etc.
   The upstairs is in a good state of repair but very dirty.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3. SEPTIC TANK& PUMP HOUSE

The tank itself, which is not sufficiently large, is covered by a small frame building along side of which there is another building containing the pump, and from which has been constructed a wooden gutter or take-off.

4. STORE ROOM

This is a small brick building situated quite near to the main building.

5. PRINCIPAL'S RESIDENCE 2½ x 26 — 13 Rooms

This is a 2½ story frame building, containing 11 rooms, in all with a good basement in which has been installe a hot water heating system.

6. FARM INSTRUCTOR'S HOUSE

A frame building 24' x 36', with a verandah on the S. side. It contains 7 rooms with full basement underneath, which contains soft water tank. This was leaking and has flooded the surrounding area. The heating is done by stoves. Telephone wire has been laid on.

7. CARPENTER'S COTTAGE

A 5 roomed frame bungalow 24' x 36' with a basement containing soft water tank. It is lighted by acetylene gas from the main plant. The chimney is falling to pieces.

8. GYMNASIUM

This is a frame building 36' x 60'. It was not built on the spot but moved from another part and suffered in doing so.
It contains -
Carpenter's shop
Paint shop
Cobbler's shop
Large lumber room
Recreation room for boys and garage
As it stands at present it is of little use, owing to the leaky condition of the roof and generally bad condition.

9. BARN AND SILO

The barn is a frame building 75' x 35' with a basement 35' x 35' for roots.
The main floor has stalls for 30 cows and pens for 10 calves in addition to 2 box stalls.
It has a full sized hay loft with steel track for hay fork. The fittings throughout are of metal with water laid on, from the well, in the building and practically every modern improvement installed.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Silo, which is made of wood, is circular in shape and measures 28' in height by 14' in diameter.

10. [redacted]

This is a frame building 22' x 47' with 4 double stalls 2 single and 1 box stall. It has a good full sized loft for hay.

11. [redacted]

This is a frame building 22' x 38' with a small lean-to on the W. side once used as a piggery. There is another lean-to on the E. side which has been used for poultry while at the N. end there is a root house measuring 15' x 60' (? 16')

12. [redacted]

This is a frame building 28' x 32'. It is in good condition

13. [redacted]

This is a frame building 26' x 32' containing 6 pens and 4 elevated sleeping quarters reached by stairs.

14. [redacted]

This is a frame building 16' x 32' divided into two compartments, capable of housing 120 birds.

15. [redacted]

This is a frame building 18' x 30' in good condition except the roof which needs some repairs. In this building is stored twenty hole Massey Harris Seeder, practically new, which belongs to the Soldier's Settlement Board, and was offered for sale a few months ago for $150.00

16. [redacted]

This is a small wooden structure standing on the extreme Western side of the school grounds.

[redacted]

So far as your committee were able to ascertain the area of the land belonging to the School at present is approximately 320 acres (but the exact extent remains to be ascertained from either the Synod of Rupert's Land or the Land Titles Authorities.)

This area comprises the S.W. ¼ sec. 4 and S.E.¼ Sec.5, Township 12, Range 28, situated in the town of Elkhorn and immediately adjoining the C.P.R. station.

The buildings stand on the first of these two divisions and about 300 yds. from the railway depot.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

CONDITIONS AND REQUIREMENTS:

1. THE MAIN BUILDING

Re Buildings, speaking generally your Committee found the buildings in fairly good condition but before any attempt is made to re-open the Schools as a Church institution the following repairs should be made,-

1. Walls kalsomined or painted.
2. Plumbing thoroughly examined and put in order.
3. Pupils' stairs re-treaded.
4. Connect spare boiler with heating system.
5. Have an additional tank to supply hot water.
6. Get more powerful engine to drive machinery in laundry and to pump water.
7. Fire extinguishing hose examined and when necessary replaced.
8. Plastering attended to in one room.
9. Range in kitchen, new lids and fire brick.
10. Pantry, more cupboard room.
11. Metallic roof and railing to be repaired.
12. Paint all woodwork and stain softwood floors.
13. New lighting system to be installed, such as Delco or Jenco, with wires laid on to all important buildings and light and power building mentioned above to be adapted to this purpose.
14. Woodwork outside to be painted.
15. Cement stairs to take the place of these now on N. and S. sides of building.

REPAIRS TO PRINCIPAL'S RESIDENCE

Paint the kitchen.

FARMER'S HOUSE

Put in hot air furnace.
Kalsomine walls and repair soft water tank.

CARPENTER'S HOUSE

Put in hot air furnace.
Repair the chimney.
Kalsomine the walls.

BARN

Repair inside walls.

IMPLEMENT SHED

Repairs to roof.

GYMNASIUM

Roof, floors and partitions repaired and painted. It will then be a serviceable building.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

SEPTIC TANK

Tank examined and the carry-off placed under ground.

Most of the buildings need paint outside.

SCHOOL FARM

Complete fencing of the School Farm and acquire an extra half section of land.

In addition to the foregoing requirements it will be obvious to the Commission that complete furnishings and equipment will be necessary, the nature and extent of which will depend on the type of School to be established.

While your Committee feel that having completed their survey as set forth above and that the making of definite recommendations was not expected of them, they beg, however, to present to the Commission the following suggestions for their consideration,-

1. In view of the splendid buildings already in existence and the nature of the land which seems well adapted for farming purposes, it would be well to have the School re-opened as an Agricultural and Industrial Institution wherein practical subjects would be taught, such as farming, gardening and care of stock, carpentry etc. for the boys, and home economics for the girls.

2. That as the School is not situated on or near any Indian Reserve, a distinct and definite understanding should be required from the Indian Department to supply the pupils, using the power vested in them according to the Amended Indian Act.

3. As a creamery is already operating in the town of Elkhorn and as much of the land is suitable for grazing, it seems to your Committee that there is a possibility of deriving considerable revenue from the sale of milk.

RECORDS

Dear Mr. Scott:-

I beg herewith to forward you copy of the report of the committee appointed by our Indian and Eskimo Commission to visit and report upon the condition of the buildings and property of the Elkhorn Indian School with a view to the re-opening of this school under the auspices of the Missionary Society of the Anglican Church at such time as may be arranged between your department and the authorities of the Missionary Society. This report will be considered by our Executive Committee at its meeting on the 24th inst. after which date, I will write to you further on the matter. In the meanwhile, I beg to submit to your kind consideration the various repairs and requirements mentioned by the committee, and also their three conclusions on the final page of the report.

Believe me,

Yours very faithfully,

General Secretary.

Dear Canon Gould,

I have your letter of the 14th. instant forwarding the report of your committee on the Kikhorn industrial school property. I have read this with interest and I am pleased to note that taken all in all the plant appears to be in a very satisfactory condition considering that it has been idle for some time.

I propose to obtain an estimate of the cost of making the repairs which the committee have suggested. I have noted also the three conclusions on the final page of the report. The acquisition of additional land would, however, be a matter for consideration at a later date.

Yours very truly,

561288

Dear Mr.Scott;-

Referring to the matter of the Elkhorn School my understanding of the present situation is as follows;-

I. The Missionary Society of the Church of England in Canada accepts responsibility for the administration and management, through its Indian Commission, of the re-opened Elkhorn Institution on the conditions;-

(1). That the necessary repairs and re-equipment of the Institution be carried out by the Department prior to its re-opening.

(2). That the Department will provide, as soon as possible after the same is shown to be necessary for the welfare and support of the Institution, such additional land as may be needed for the conduct of satisfactory agricultural operations.

(3). That the Department undertake to supply the number of pupils needed to maintain the school in operation at the full capacity of its accomodation, and further should the number of pupils placed in the Institution fall short of the full capacity of the Institution, then the Department shall be responsible for the difference in the amount of the total per capita grants as between the capacity of the Institution and the actual number of pupils in residence.

The only point in connection with the re-opening of the Institution concerning which I have any doubt, in my own mind, is the precise place it shall take in, or the part it shall contribute to, the general Anglican Scheme of Indian education. The Indian Commission, for example, has put forward the suggestion whether it could not be best used as a centre of "secondary" education to which the brighter pupils from other schools might be transferred for more advanced training. In any case I assume that the Institution would probably have to be re-opened on the basis of an ordinary boarding school since a centre of more

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

adv[illegible] training, such as has been suggested, would, if adopted, require to be developed in a gradual manner.

I hope to discuss this matter fully with the members of our Indian Commission on my forthcoming visit to the West, and subsequently, if necessary, consult with you further on the matter. Any possible developments in the direction noted need not, however, in my opinion delay the Department in carrying out the repairs and re-equipment necessary to the re-opening of the school.

Believe me,

Yours very faithfully,

S. Stewart

General Secretary

will they staff it this spring

116828-1.

Ottawa, January 13, 1922.

Dear Canon Gould:

I am in receipt of your letter of December 23rd, with reference to the re-opening of the Elkhorn Industrial School.

Your third proviso requires careful consideration. The capacity of the school might be placed at 100, and we must decide upon the districts from which our pupilage might be drawn.

If we were to accept the responsibility of keeping the school full, we must of course expect the close co-operation of your Board and the district missionaries. There is no reason why we should not transport pupils from some distance to this school, and I propose to prepare a statement of the number of children of school age in the agencies which might be called upon to supply the pupils. I will submit this list for your attention.

I do not think the school could be a success if it were used as a centre of secondary education. I doubt very much whether we could get the support of the Anglican Boarding schools to a policy which would take the older pupils away from them. I should like to open this school with the good will of the Indians whose children will be expected to attend, and while we have control through our statute, I do not wish to use any methods that might be interpreted as harsh in putting it into operation as it might defeat the best ends we have in view.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

By V - COPY - EXD

(Original on File 289032)

DEPARTMENT OF INDIAN AFFAIRS,

500/14. Answered Regina, Sask., 4th Feb., 1922.

Sir, -

A request was recently made by the Rev. T. B. R. Westgate, D.D., Field Secretary of the Missionary Society of the Church of England in Canada, asking that Mr. Shaw, lately the Farming Instructor at the Old Sun's School, might be afforded accommodation in one of the cottages at the Elkhorn School pending the final decision whether this school is to be re-opened or not, and I informed Dr. Westgate that there would be no objection to this. At the same time I pointed out to him that this permission was in no sense a guarantee that the Department would approve of the appointment of Mr. Shaw as Farming Instructor at Elkhorn as the Department reserve the right to approve of appointments of all officers at Indian Boarding Schools. Dr. Westgate writes to state that this caused him serious concern, and that he took the matter up with Canon Gould, the General Secretary of the Society, who takes issue with me in regard to my statement, taking the ground that the only officer over whom the Department have control is the Principal. I have forwarded Dr. Westgate a copy ofthe pamphlet issued by the Department relating to the maintenance and management of Indian Boarding Schools, which was forwarded to me by the Department in May last, to which I presume no changes have been made.

I shall be glad if you will advise me if my understanding of clauses 7 and 8 on page 7 of the pamphlet referred to is correct.

Your obedient servant,

(SGD.) W. M. Graham,

Indian Commissioner.

ALSO TO DATE OF THIS LETTER

REGINA, SASK., 3rd May 1922.

Re Schools R.C.

566784

Sir,

As I have received no definite information in regard to the matter of the Elkhorn Indian School being taken over by the Church authorities, and as the cultivated land there should not be allowed to become overgrown with weeds, I am making arrangements for the leasing of the school farm to Mr. Earl S. Dixon of Elkhorn for this season on the basis of two-thirds of the proceeds of the crop sales being retained by him, and the remaining one-third paid to the Department, provided that Mr. Dixon agrees to summer-fallow any land not cropped on the farm in question for which work he will be allowed the sum of $3.00 per acre. I am also arranging to lease to Mr. Dixon the pasture land in the vicinity of the school buildings for this season at a nominal rental the amount of which has not yet been agreed upon.

LANDS BRANCH
MAY 9 1922

Will the Department be good enough to bear the above in mind when any arrangements are being made with the Church authorities in regard to the re-opening of this school.

Your obedient servant,

W. M. GRAHAM

D. Geo. Blingan. N.P.P.

Dear Sir.

For over a year the Indian
Dept have been negotiating with the
Anglican Church re the question of
the Indian School located here.
The Dept is willing to make the usual
grant per capita but the Church
authorities feel that this is not sufficient.
They want a specific grant and
the Dept is at last coöperate in
securing the pupils and so matters
have reached a deadlock.
The buildings are expensive to keep
up and equip and it is felt that
the government or Indian Dept
should be more liberal in their
Ofers

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The buildings are suffering from the
lack of a Convent and a few years
the Repair work necessary will
far exceed what little extra the
Indian Dept grants to the Church.
It is false economy to hold up the
Church authorities (who have none
too much money to invest) and in
the meantime allow those splendid
and expensive buildings to go to
waste. It is doubtful if a more
up to date teaching and
healthier location could be found.
The reopening of the School would
be an inspiration and help to
this Community - and the leading
and influential persons here
feel that pressure should be

MEMORANDUM

Acting Deputy Superintendent General.

With reference to the attached correspondence regarding the proposed re-opening of the Elkhorn Industrial School under the auspices of the Anglican Church authorities, I beg to say that the arrangement between the Department and Canon Gould, of Toronto, concerning the future of this school has not yet been completed. Until a definite understanding has been reached we are not in a position to go ahead with the alterations and repairs to the plant and equipment of this school.

The sum of $6,000 was provided in our Main Estimates for the present fiscal year for furnishings and repairs to the building. We have on file from Commissioner Graham a statement of the repairs that would be required to place the buildings in good condition.

Rev. Canon Gould requested, besides placing the building in good condition, that additional land be secured for agricultural operations, also that the Department undertake to supply the number of pupils needed to maintain the school in operation at the full capacity of its accommodation, and further that should the number of pupils in residence at any time fall short of the full capacity of the institution, then the Department is to be responsible for the difference in the amount of the total per capita grant as between the capacity of the institution and the actual number of pupils in residence. He also requested that the school be carried on as a centre of "secondary" education to which the brighter pupils from other residential schools could be transferred for more advanced training.

The Department does not desire to accept the responsibility of recruiting and keeping the school full, also, we are doubtful of the success if it were used as a centre of secondary education.

In the meantime, in order that the cultivated land should not be allowed to become overgrown with weeds, Mr. Commissioner Graham has leased the school farm to Mr. Earl S. Dixon, of Elkhorn, for this season on the basis of two-thirds of the proceeds of the crop sales being retained by him and the remaining one-third paid to the Department. The Commissioner also arranged to lease to Mr. Dixon the pasture land in the vicinity of the school for this season at a nominal rental, the amount of which has not yet been agreed upon. The Commissioner has suggested that we be good enough to bear this lease in mind when any arrangements are being made with the Church authorities in regard to the re-opening of the school.

Until a complete understanding is arrived at between the Department and the Church authorities regarding the above mentioned matters, we are not in a position to take any action towards having the necessary repairs carried out, or the school re-opened.

Dear Mr. Forke! -

I have been directed to acknowledge the receipt of the communications from Rev. Owen L. Jull and Geo. Clingan, M.D., which you forwarded to the Superintendent General of Indian Affairs, regarding the proposed re-opening of the Elkhorn Indian Industrial School.

In this connection I beg to say that the arrangement between the Department and the Anglican Church authorities concerning the future of this school has not yet been completed. Until a definite understanding has been reached, we are not in a position to go ahead with the alterations and repairs required to place the plant and equipment of this school in a good condition.

Yours very truly,

J. D. McLEAN

Memorandum

Mr. Scott:-

If Mr. Graham is holding funds accruing from sale of stock etc. of the Elkhorn School, his cash book statement giving details of cash on hand does not show it.

Kindly ask him to point out the particular month and year in which these funds are shown in the cash book statement sent the Department, and in which one. There are three separate cash statements received monthly from Regina, viz., Greater Production, Warehouse and Indian Trust Fund A/c.

The funds referred to should have been credited to the last mentioned account, but they do not appear to have been as they are not mentioned in the statement giving details of cash balance on hand.

Dear Mr. Graham.

You will remember discussing with me some needed repairs to the File Hills boarding school and suggesting that you be authorized to use the cash on hand from the sale of the stock, etc., at the Elkhorn school. I would be glad to receive a full report from you on the subject as there would seem to be no objection to following this course.

Will you please state what improvements are required at the File Hills boarding school and also direct us to where the credit is shown on your cash-book for the amount received from the sale at Elkhorn, giving the month and year.

Yours very truly,

Deputy Superintendent General.

Dear Mr. Scott,-

In response to the last paragraph of your letter of August 17th in regard to using the funds now at the credit of the Elkhorn School Account for the purpose of making various repairs to the File Hills School, I am enclosing herewith a copy of the cash account kept at this office in connection with the Elkhorn School after it was closed up. A separate bank account was opened and these transactions were kept entirely separate from all the other accounts. I also enclose a certificate from the Bank as to the balance on hand at the end of July, viz. $4018.11.

The repairs required at the File Hills School will be dealt with in a separate letter .

Yours very truly,

W.M.Graham.

Sir,-

In reply to your letter of Sept. 2nd, No. 116823-10 I am enclosing herewith receipts in support of all payments made from Elkhorn School funds since the closing of the school.

There are no other accounts kept at this office for which monthly cash accounts are not forwarded to Ottawa. I note your instructions regarding forwarding a monthly statement in connection with the Elkhorn school account and shall do so in future.

I wish to point out that this expenditure was all in connection with the closing up of the school and the farming operations in connection therewith.

Dear Mr.Scott;-

Pursuant to our interview on the morning of Saturday, September 9th;-

Re Elkhorn Boarding School

The General Secretary M.S.C.C. agreed to recommend to his Executive Committee that the M.S.C.C. undertake responsibility for the re-opened Elkhorn School on the following conditions;-

(1) That the per capita grant be paid at the rate of $150.00 for 100 pupils. The condition concerning bonus, if any, to apply to this School as to any other Institution.

(2) That the Department co-operate closely, under the powers given it by the Indian Act, with the Indian and Eskimo Commission of the M.S.C.C. in securing an attendance of pupils to the full capacity of the Institution.

(3) That the Department make all needed repairs to the building including the lighting of the same from the electric supply of the town of Elkhorn.

(4) The School to be re-opened on May 1st,1923.

These proposals were submitted to the Executive Committee M.S.C.C. at its meeting held on Wednesday, September 13th;the Executive Committee cordially approved the proposals,and undertook the responsibility for the re-opening of the Institution on the date given, May 1st,1923. The Committee noted the fact, however, that, to secure adequate results from the land connected with the Institution, it would be necessary for a certain amount of agricultural work to be done this Autumn, and requested the Secretary of the Indian Commission to take up the matters connected therewith.

Believe me,
Yours very faithfully,

S. Gould
General Secretary

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

116823-1.

Ottawa, Sept. 26, 1922.

Memorandum.

Mr. Scott:-

Canon Gould has secured the sanction of the M.S.C.C. to the re-opening of the Elkhorn Industrial School, on certain conditions.

The first condition might mean that Canon Gould expects the Department to pay for the 100 pupils, whether or not that number are in residence.

The second condition suggests that the Department cooperate closely in the matter of recruiting. If this means other than active assistance on our part, we would be in danger of having other institutions call on us for the same help.

Write Canon Gould

The third condition, that we put the institution in repair and arrange for electric light, is quite reasonable. Inspector Murison, in November, last, estimated the cost of the work at $4103. This includes electric lighting. Funds for this work are on deposit in Regina to the amount of $4018, as on the 31st ultimo.

The fourth condition mentioned by Canon Gould is that the school be re-opened on May first, 1923. I cannot agree that this is the best date for the recruiting of pupils. The experience of most principals is that Indian parents are more easily convinced of the advisability of educating their children as winter approaches and as clothing and food are more difficult to provide. I would suggest that a staff be appointed as from May first and that their duties consist of supervising the farming operations, the repairs to the building and active recruiting. I am of the opinion that 4 or 5 men and women, including the new principal, should be on the Indian reserves during the summer of 1923, giving particular attention to the Prince Albert and Battleford areas in Saskatchewan; the Fairford, Peguis Brokenhead and Black River reserves in Manitoba; and the Lac Seul district in Ontario.

In answer to Canon Gould's suggestion that the land be worked this autumn, we might inform him that the farm is leased for this year and that summer-fallowing is being done on certain fields that are not being cropped.

Supt. of Indian Education.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, Sept. 28, 192x.

Dear Canon Gould:-

I have your letter of the 15th, concerning the re-opening of the Elkhorn Industrial School. I am pleased that the Executive Committee of the M. S. C. C. is prepared to cooperate with this Department in this matter.

This Department is ready to actively assist in the recruiting of pupils for the Elkhorn School, but the onus of the responsibility will have to rest on the Church Authorities. My suggestion is that a staff be appointed as from May first, 1923, some members of which should spend a summer recruiting. Your missionaries in the field and our agents could co-operate closely. I believe particular attention should be paid to the Prince Albert and Battleford areas in Saskatchewan; the Fairford, Peguis, Brokenhead and Black River Reserves in Manitoba; and the Lac Seul District in Ontario. Other members of the staff could be at the school, supervising farm activities, taking an interest in the general repairs and renovating that will be undertaken by this Department and receiving the recruits that would be coming in from time to time. I am prepared to make a special type of grant for the current expenses for the summer of 1923. By the first of October the school would have to be placed on the regular basis of $150 per capita for those in attendance.

In answer to your suggestion that the land be worked this autumn, I wish to inform you that the farm is leased for this year and that summer fallowing is being done on certain fields that are not being cropped.

An inspector from the Indian Commissioner's office at Regina has made a detailed report concerning the needs at this school in the event of a re-opening. The total estimate is in the neighborhood of $4100, which includes the provision for electric lighting. Funds are available for this purpose whenever we wish to commence operations.

I would be pleased to hear from you, with a view to making definite plans for the re-opening of the Elkhorn Industrial School.

Yours very truly,

Deputy Superintendent General.

Dear Mr.Scott:-

Re Elkhorn Industrial School

I am sending a copy of your letter dated Sept. 28th to the Rev.Dr.Westgate, with the request that our Indian and Eskimo Commission shall take up the matters requiring attention at an early date.

I am leaving this evening for England en route to India and the Far East, otherwise I should like to have had some further personal conversation with you concerning the precise meaning of the phrase used in your letter "The onus of the responsibility will have to rest on the Church Authorities".

I understood at the time that the reason why the Department closed the Elkhorn Industrial School was on account of the fact that its cost of maintenance worked out at $285. per capita; a per capita cost which the Department felt could not be justified. Under these circumstances it is most desirable that no possible ground of misunderstanding, regarding the basis upon which the Institution will be re-opened, should be left undetermined.

The Rev.Dr.Westgate, Secretary of our Indian and Eskimo Commission, will be Acting General Secretary of the Society during my absence. He is now absent on a visit to the Lac La Ronge School, on his return he will

I have no doubt, make an early opportunity of waiting upon you at the Department with a view to making such further precise and definite arrangements as may be necessary.

Your statement that the land at the School has been leased does not mean, I trust, that it has passed out of immediate control. The School authorities would have to be in possession of the land for some weeks at least before the date of the re-opening of the school in order that the necessary agricultural operations might be under way , cattle purchased, etc, etc, against the date of re-opening.

Believe me,

Yours very faithfully,

S. Stead

Dear Sir:-

RE ELKHORN SCHOOL.

In keeping with the arrangement made with the Deputy Superintendent General, and the Superintendent of Indian Education, during my visit to Ottawa on the 21st instant, I beg to inform you that the requirements of our Society in connection with the reopening and management of the Elkhorn School during the coming year will be as follows:-

1. Furniture and equipment for the dormitories, staff rooms, dining room and kitchen, and infirmaries. Estimated cost $3,000.00.

2. Farming implements, grain for seeding, Horses, milk cows, etc. These include:-

This list has been detailed & requested in letter of Feb 9/23

1	Sulky Plow 12...	$120.00
1	14 Disc Harrow	50.00
1	Waggon complete	140.00
1	Set Drag Harrows (4 sections)	30.00
1	Cultivator, 9 feet	85.00
1	Seed Drill	150.00
2	Sets Harness	100.00
4	Heavy Horses	600.00
10	Holstein cows	850.00
1	Thoroughbred Bull	300.00
	Seed Grain.150 bus.wheat @ .80	120.00
	150 " Oats @ .25	37.50
		$2582.50

3. The addition of another half section of land to that already attached to the School is very desirable. When the School was operating in the past I understand that additional land was rented.

Dear Mr. Scott,

I have received a letter from Mr. R. A. Knight, Hargrave, Man., who signs himself "Lt. Col. Commanding Border Horse" asking permission to make use of the gymnasium at the Indian School at Elkhorn for the purpose of drilling a troop of the regiment. He states that there will be no need for a fire in the building, and that it will be left in the same condition as found, adding that there will be no cost to the Department for caretaking, and that it will be used between twelve and twenty times. I submit the application for the consideration of the Department, and shall be glad to know if sanction will be given to use the gymnasium for the purpose required.

Yours very truly,

W. M. GRAHAM

Ottawa, Feb. 22, 1923.

Reverend Sir:

I have your letter of the 9th instant, with reference to the needs at the Elkhorn Industrial School in connection with its re-opening during the present year. The Department is pleased to have the list of equipment that is required; and I have to inform you that the regulations of the Purchasing Commission are such that care will have to be exercised when authority is being given in this connection. Certain repairs can, of course, be undertaken by day labour, under the supervision of an officer of the school. Further, the principal appointed by your Society will receive, in due course, authority to purchase, after obtaining competitive prices, the equipment, seed and stock that can be secured to advantage, locally. Classroom, dining-room and dormitory equipment will be purchased, after securing competitive prices and a minute number from the Purchasing Commission. This Department will give the necessary authority, if funds can be found for the purpose, when the securing of each lot of equipment is timely.

In the interim, I would be pleased if you would offer the Department definite information as to your plans in connection with the re-opening. Is it proposed to engage a staff, whose duties during the coming summer could be supervising the renovating, arranging for the equipping and actively recruiting for the school? Further, would it be advisable to arrange for the purchase of the equipment, live stock and seed necessary for the farm, in the early spring? The purchase of the staff furniture, agricultural implements, live stock, seed grain, kitchen equipment, etc., should be made by the principal and a department representative.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Memorandum.

Mr. Featherston:

Attention: Mr. Pratt.

Pursuant to our telephone conversation, concerning the farm at the Elkhorn Industrial School, I have to inform you that in the past, when the school was in operation, this Department rented a half section (the East half of Section 32 T.11, R. 28, West of the First) from a Mr. J. A. Machray. This Department owns, for the purposes of this school, the S.W. quarter of Section 4 and the S. E. quarter of Section 5, T. 12, R. 28, some 20 acres of hay land in Section 33 and a few lots in the township of Elkhorn, immediately adjoining the C. P. R. station. Not all of this land is suitable for farming purposes, and it is true that, when the school is re-opened, it may be necessary to rent, or purchase, some additional farm land. I should state, further, however, that it is not the intention of this Department to arrange for any purchase, or rental, until such time as the renewed school activity has developed the need.

It is proposed to re-open the Elkhorn Industrial School this coming summer. The Missionary Society of the Church of England in Canada will assume the responsibility of staffing, and will assist in the recruiting campaign. Funds are available from the sale of equipment and stock at the time of the closing of the school, in 1918, and, in addition, there is an item in the Main Estimates of 1923-24, of $3,000 as a supplementary provision in this connection.

R.T.P.

Asst. Deputy & Secretary.

Auditor General's Office, Canada

DEPT. OF INDIAN AFFAIRS
FEB 28 1923
BRANTFORD

OTTAWA, February 23rd, 1923.

579691

Sir,

I have received from your Accountant's office statements, with vouchers, up to December 31st, last, of Mr. W. M. Graham's Elkhorn School account.

This account, which appears to be of the nature of a trust account and which dates back to July, 1918, may be summarized as follows:

Balance received from Rev. A.E.Wilson, principal,	$191.80
Proceeds of sales of grain, hay and potatoes,	4243.66
Proceeds of sale of cattle,	487.00
Rental of buildings and pasture	147.50
Compensation for tent burned,	35.00
Interest allowed by bank,	295.08
	$5400.04
Less expenses in connection with gathering and marketing crops,	1331.62
Balance, December 31st, 1922	$4068.42

I have been given to understand by your accountant that it is the intention of your department to re-open this school in the coming spring and that the balance of this account will be applied to the re-establishment of the school.

It appears to me that this manner of dealing with the earnings of the school is a wrong one, and contrary to the provisions of the Consolidated Revenue and Audit Act which requires in Section 35, that all public moneys, from whatever source of revenue derived, shall be paid to the credit of the Receiver General. Since the whole expenses in connection with the maintenance of this school are paid from public funds, I am of opinion that any earnings of the school must be regarded as public

as public moneys, and we think should be dealt with in accordance with Section 33 of the Audit Act referred to above.

I should also like to have some information with regard to the amount of $101.50 handed to Mr. Graham by Rev. A. E. Wilson, and also the balance of a trust account administered by Mr. Wilson, and if so what was the nature of that account.

I am, &c.

Your obedient servant,

Assistant Auditor General.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:- RE ELKHORN SCHOOL

In reply to your letter of Feb. 22, No. 118823-1, in connection with the re-opening of the Elkhorn School, I beg to inform you that a definite recommendation has just gone forward from our Commission to the General Secretary of our Society in Toronto, to the effect that the Rev. Fred Eley, curate of All Saint's Church, Montreal, be nominated to your Department for appointment to the Principalship of this institution, and I have no doubt that you will hear from our General Secretary in this connection within the very near future. Should Mr. Eley receive the appointment it is the desire of our Commission that he should proceed to the School at the earliest opportunity, so as to superintend any repairs which the Department will undertake, all arrangements in connection with the farming operations, and assist in the recruiting and receiving of children for enrollment. It is therefore, a matter of great urgency that the man who is at present occupying the Principal's residence, should be given notice to vacate that building, and that the necessary repairs and renovations preparatory to its being occupied by Mr. and Mrs. Eley, should be undertaken in the immediate future.

In response to your request for an outline of the plan of procedure which our Society contemplates following in connection with the appointment of a staff, and the re-opening of this institution, I beg to state that these will be as follows:-

1. Engagement of a Farmer. Mr. J. Murray Shaw, who was the Farm Instructor at the Blackfoot School and gave every satisfaction, has already been engaged in this capacity, and was placed on salary from the 1st of February. Mr. Shaw is not only thoroughly reliable, but thoroughly competent, and our Society engaged him as being one of the best men they could procure to advise them in all matters pertaining to equipment, such as implements, live-stock, feed, seed grain, etc., which will be required for the farming operations. As prices are liable to

The Secretary,
Department of Indian Affairs.

advance as spring approaches, our Society beg to recommend that steps be taken at the earliest date possible for the purchase of the farming equipment, live-stock, and seed-grain, mentioned in my letter of February 9. As Mr. Shaw will probably be a much better judge of these things than the Principal, or any other man our Society could appoint for the purpose, I beg to suggest in view of this fact, that he be given permission to act on behalf of the Principal, along with your representative in purchasing all the agricultural implements, live-stock, seed-grain, fodder, etc., which will be required for the beginning of the farming operations.

2. The appointment of a Principal. The Principal should reach the School by April 1.if possible, and certainly not later than the 1st of May. His immediate duty would consist of superintending all the repairs to the buildings, and in furnishing our Commission with requisitions for all supplies necessary, as well as reports on the progress of repairs, etc.

3. The appointment of a Vice-Principal,and other members of the staff would follow as they are required until the staff was completed. During the summer months, and after the Vice-Principal has been appointed, the Principal would be free to travel through different centres and bring in the children, and it is hoped that everything would be in readiness for the opening of the School on October 1.

Trusting these arrangements may meet with your approval,

I remain,
Your obedient servant,

Field Secretary M.S.C.C.

Dear Sir:-

As arrangements are now being completed for the re-opening of the Elkhorn School I shall be obliged if you will furnish me with a number of Application Forms (say 150) for the enrollment of pupils. As soon as the Principal has been appointed and has taken up his residence at the School these will be handed over to him but as the Diocesan authorities are co-operating with our Society in this work at present it is important that they should have some of these Forms when they visit the different Reserves in order to avoid any greater expense in the way of travelling than can be helped.

Believe me sir,
Yours very truly,

T B R Bedgate

Reverend Sir:

I have to acknowledge your letter of the 27th ultimo, applying for 150 Application for Admission forms. In reply I beg to state that these will be directed to you, under separate cover.

Your communication of the 26th ultimo, relative to the re-opening of the school, is receiving the Department's attention. Mr. Commissioner Graham, of Regina, has been instructed to have the lessee, Mr. Dixon, vacate the property. A communication concerning the purchase of seed grain, feed, certain live stock and some agricultural implements will be directed to you in the near future.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

March 5, 1923.

Memorandum.

Mr. Scott:

If it is your intention to proceed with the re-opening of the Elkhorn Industrial School, I would be pleased to have your sanction for the following action. As you are aware, we have over $4,000 in a special account, and there is in the main estimates an item of $3,000 in this connection: -

1. To instruct Mr. Commissioner Graham to have the lessee, Mr. Dickson, vacate the principal's residence and the farm. Mr. Dickson's lease expired at the end of the last harvest season.

2. To instruct Mr. [illegible] to have an Inspector proceed to Elkhorn and, in conjunction with a Mr. Shaw, who is at present occupying the farmer's house and who has been appointed, temporarily, by the M. S. C. C. to the position of farmer, to purchase, after securing competitive prices, seed grain, feed, certain live stock and some agricultural implements. This equipment is detailed hereunder, and will cost in the neighborhood of $2,600.

3. To instruct our inspector to see that the principal's residence is in fair state of repair, so that it can be occupied at an early date by the new principal.

4. To authorize our representative, in conjunction with the Rev. Principal, to engage a carpenter and plumber and other labour that may be necessary to go over the main and other buildings.

5. To ascertain what equipment Mr. Commissioner Graham has in the Regina storehouse, that would be suitable for the re-opening of the institution.

6. To purchase, after securing minute numbers from the Purchasing Commission, such other furniture and equipment as is necessary to the proper conduct of the school.

7. To assist the M. S. C. C. and their local representatives, financially and otherwise, in their recruiting campaign.

8. To make some provision for the initial expenses of the members of the staff on duty at the school, before classroom activities commence.

The action indicated above can be taken when timely, and as the activity develops.

Farm Equipment:- Harness - 2 set
Wagon - 1 complete
Plough - 1 2-12" furrows. Gang.
Harrow - 1 with 14 discs
" - 1 drag. 2 sections
Cultivator 1 9 ft.
Seeder - 1 Shoe with 20 drills
Manure spreader - 1
~~Small water carts - 1~~
Fanning mill - 1

March 9, 1923.

Dear Mr. Kearns, -

I have to acknowledge the receipt of your letter of the 27th February, 1923.

When these funds came into the hands of the Department from the Indian Commissioner, the intention was to use them for the purchase of necessary equipment for the Elkhorn Industrial School which is to be opened under the auspices of the Church of England, and by doing so the appropriation for Indian education would be supplemented. This method of dealing with the small fund would be preferable to a refund to Casual Revenue. Any purchases charged to this credit would, of course, be made under the control of the Purchasing Commission and would be subject to your audit.

I would point out that these amounts accrued from the sales at the closing of the school; the item of $191.50 as shown in the bank book kept by Mr. A. E. Wilson - trust account - may have arisen from the sale of produce. The bank book is open to your inspection.

If you find any unsurmountable difficulty in the way of letting us use the funds, kindly let me know.

Yours very truly,

Deputy Superintendent General.

Memorandum.

Honourable Charles Stewart:

The Department, in conjunction with the Missionary Society of the Church of England, proposes to re-open the Elkhorn Industrial School this coming fall. It will be necessary to purchase some live stock, agricultural implements, seed grain, food and household equipment. Funds are available from parliamentary appropriation.

I should be pleased to have your authority to incur the expenses attendant upon a successful re-opening.

Dear Dr. Westgate:

With further reference to your letter of the 26th ultimo, relative to the re-opening of the Elkhorn Industrial School, I have to inform you that Mr. Inspector Dunn, Chambers of Commerce, Princess St., Winnipeg, Man., has been directed to proceed to Elkhorn, after consultation with you, and to purchase, in conjunction with Mr. Shaw, the farmer, certain agricultural implements, live stock, feed and seed grain. Further, our Inspector will be authorized to put the Principal's residence in good state of repair, so that it can be occupied at an early date by the new Principal.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

Sir,-

I beg to acknowledge receipt of your letter of the 9th inst. (NO. 116823-1), in reply to mine of the 27th ulto., with reference to the funds in the hands of Mr. W. M. Graham, Indian Commissioner, resulting from the sales at the closing of the Elkhorn Industrial School. In that letter you state that the intention was to use these funds for the purchase of necessary equipment at the re-opening of the Elkhorn school, by doing which the appropriation for Indian education would be supplemented.

This proposed method of supplementing your vote is entirely at variance with the principle of parliamentary control over expenditure and with the provisions of the Consolidated Revenue and Audit Act. Section 2 of that Act defines the term "public moneys"; Section 25 of the same Act directs that all public moneys, from whatever source of revenue derived, shall be paid to the credit of the Receiver General; Section 41 directs that the Auditor General shall see that no cheque issues for the payment of any public money for which there is no direct parliamentary appropriation.

These provisions of the Act form, in my opinion, an insurmountable difficulty against the proposed use of the funds in question, which should be deposited forthwith to the credit of the Receiver General as Casual Revenue.

I am, Sir,

Your obedient servant,

The Deputy Superintendent General,
Department of Indian Affairs,
OTTAWA.

581240

Dear Mr. Scott,- Re Purchase of Implements, etc., for Elkhorn School.

In reply to your letter of March 22, (116823-1), relative to the purchase of certain implements, live stock, seed grant, etc., for the Elkhorn School, I beg to state that I have just had a conference with Mr. Inspector Bunn, and Mr. C. Murray Shaw, our Society's Farm Instructor at this School, who came to Winnipeg for this purpose, and arrangements are going forward for the purchase of the items mentioned.

As Mr. Shaw informed me that Mr. Goldie, who has been acting as caretaker of the school property, and living in the Principal's residence, has not yet been notified that he will be expected to move, I beg to suggest that an intimation to this effect be given him at the earliest date possible in order that the building may be made ready for the Principal.

I have also been informed that permission has been given to an organization known as the "Border Horse" to use the gymnasium at this school, and beg to suggest that an intimation be given to them that after a certain date - say June 1st - their equipment must be removed, when permission to use this building will be brought to an end.

Yours very truly,

Ottawa, June 20, 1923.

Dear Mr. Edwards:

The Department, in conjunction with the Missionary Society of the Church of England in Canada, is re-opening the Elkhorn Industrial School, in Manitoba. This institution has been closed for some years, and as the number of children in this vicinity is limited, I have made arrangements for the reception of 40 orphan, destitute and any other Protestant Indian children that are available in the Lac Seul and contiguous areas.

You will please keep these facts in mind during the next two months and make out a list of the names, ages and localities of the children that could be taken or recruited for Elkhorn. Early in September an officer of the school, acting under our instructions, will report to you for assistance in locating and gathering these children for their journey, ensemble, to the school.

It is understood that only Protestant children will be recruited, and I would like you to give preference to those who are either orphan or destitute. You may assure parents, guardians and others that the Elkhorn Industrial School is splendidly situated on the main line of the C. P. R. and every opportunity will be given the children to receive an academic and vocational training that will fit them for lives of usefulness. It has occurred to me that you have a splendid opportunity to prepare lists of available applicants during the treaty payments.

Yours very truly,

[illegible]

Deputy Superintendent General.

Dear Mr.Scott;-

Following my recent conversation with the Superintendent of Indian Education on the matter of recruiting the required number of pupils for the Elkhorn School, I beg to say that arrangements have been made for the Rev.M.Sanderson to accompany the party paying Treaty in the northern areas of the Diocese of Keewatin.

Mr.Sanderson,being an Indian, is undoubtedly the best person who could be sent on this Mission. I understand from the Superintendent of Indian Education that his travelling expenses, when so engaged, will be paid by the Department of Indian Affairs.

Ottawa, July 6, 1923.

Sir:

With reference to the matter of recruiting pupils for the Elkhorn Industrial School, referred to in our letter of the 20th ultimo, I now beg to inform you that the Department has arranged, through the Missionary Society of the Church of England, to have the Rev. M. Sanderson accompany your treaty paying party in the northern areas of the Diocese of Keewatin. As Mr. Sanderson is an Indian, it is felt that he is undoubtedly the best person who could be sent on this mission. The Department has agreed to pay his travelling expenses during the period he is engaged in the work. He should submit his accounts to you. If you consider them to be satisfactory, you will be good enough to certify and forward them to the Department for payment.

We hope that Mr. Sanderson and yourself will meet with success in persuading the Indian parents to allow their children to attend the Elkhorn School.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

536126

Sir.—

Referring to your letters No. 116823-1 of the 20th of June and 6th of July, re- children for Elkhorn Industrial School.

These letters did not reach me until after my return from Treaty payments at Lac Seul. Rev. M. Sanderson accompanied me on the payment and I will see that his expenses are paid. After the payments we discussed with the Indians the advisability of sending their children to Elkhorn School but they seem very much against this as they do not wish to send their children so far away from the Reserve and requested me to ask the Department to excuse them not sending them so far away. They promised that if a school was started closer to the Reserve, they would send practically all of the young children.

We shall no doubt be able to get a few children from the Reserve but it wil not be very many unless we use very strong pressure. Mr. Sanderson stayed up at the Reserve to see if he could not talk the Indians over. I expect him back in a few days and will then communicate further with you.

Your obedient servant,

Indian Agent,

Sir:

I have to inform you that the Department, in conjunction with the Missionary Society of the Church of England in Canada, is re-opening the Elkhorn Industrial School. As you are aware, this institution has been closed for some years, and it will be necessary to make a thorough survey of the children of Church of England Indians in Manitoba.

I should be pleased to have a statement from you, showing the names, ages and reserves of orphan or destitute children of Church of England faith. Further, at every opportunity, you should draw to the attention of Indian parents and guardians that educational facilities are being provided, this fall, at the Elkhorn Industrial School. Every change will be given the pupils enrolled, to receive an academic and vocational training that will fit them for lives of usefulness.

Any assistance you can give Dr. Westgate, Field Secretary of the M. S. C. C., of Winnipeg, Rev. F. Ely, the Principal, or any of their officers who are recruiting, will be appreciated by this Department.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

ARCHIVES PUBLIQUES
CANADA

106-0-1.

Ottawa, December 6, 1923.

Reverend Sir:

I have to reply to that portion of your letter of the 27th ultimo, in which you request copies of any printed literature we have, relative to Indian residential schools. Under separate cover, there is being directed to you Classroom Registers, Quarterly Return forms, Application for Admission forms, Requisition for Classroom Material forms and the Indian Act. Later, the report for the fiscal year 1922-23 will be sent to your address.

I am enclosing copies of circular letters, with which you should acquaint yourself. No. 1 has reference to the keeping of classroom registers. No. 2 refers to accounts which are to be met from Parliamentary Appropriation. No. 3 was addressed to all agents, but would be useful in guiding you in the recruiting of pupils. No. 4 refers to the arrangement with the Provincial Department of Education for the inspection of classrooms in Indian schools. No. 5 refers to the advisability of having classroom instructors attend local teachers' institutes. No. 6 is a request for a dietary scale and it might be well for you to comply with this a few weeks after you have commenced regular activity.

The Elkhorn Indian Residential School comes in the category of institutions which are not directly supervised by a local Indian agent. Letters for the Department's attention may be directed to Ottawa, unless you desire to have the recommendation of Mr. Inspector Bunn, of Winnipeg, attached. Relative to the return of children to the school and to recruiting and to the application for admission of children, you should correspond with the Indian agent in whose agency the particular child lives when at home.

With reference to the expenditure of per capita earnings, you will have, no doubt, received full instructions from your Church Authorities, the M. S. C. C. It is not necessary for the Elkhorn School to pay Sales Tax on goods or equipment which are to be used at the school and which are not purchased for the purpose of resale. I wish to direct your attention particularly to circular letter No. 2, with reference to incurring expenditure which is to be met by Parliamentary Appropriation and which is not being paid from per capita earnings. Requests in the case of the Elkhorn institution should be forwarded either direct to Ottawa or to Dr. Westgate. As there is no agent to certify to accounts which are to be paid in Ottawa, you should certify to them yourself, as Principal.

Please address all communications for the Department, dealing with routine matters, to the Secretary.

Your obedient servant,

Encl.

J. D. McLean,
Asst. Deputy & Secretary.

Ottawa, December 17th., 1923.

Sir,-

With reference to accounts of expenditure forwarded by you for payment by the Department, it is desired to request you to follow the following rules.

All accounts should be sent in duplicate, and if they include cash disbursements, the items should be supported by receipts.

Accounts should be certified by you as follows: "Certified correct, work performed, supplies furnished, charges fair and just." as the case may be. The certificate should not be affixed on the left hand upper corner as you did in some cases, but below the details of expenditure. When accounts are rendered on small bill heads it would be advisable to paste these on the Department's form of voucher and sign the printed certificate.

When the items are not self explanatory, a short note should be written on the face of the vouchers, giving the nature of the expenditure. The date and file number of the Department's authority should also be given.

A supply of voucher forms is being sent you under separate cover.

Your obedient servant,

J. D. McLEAN

The Secretary.
Dept. Indian Affairs.
Ottawa, Ont;

Dear Sir;-

In reply to your letter dated 20th. March, No. 106-0-1. re instructions for engineer-caretaker.

I have the honor to report that after discussing the same with Indian Commissioner Graham of Regina I at once took up the matter with Dr. Westgate of the M.S.C.C.

We now have a Mr. J. Tait as Engineer-caretaker. He is a general mechanic and has had several years of experience with electric lighting plants such as we have here.

The Dept. Architect did inform me last Fall as to the type of man we should have for such a position. The Commissioner also explained very clearly the kind of man needed. With these instructions in mind I have been fortunate in securing the services of Mr. J. Tait who is acceptable to the Commissioner and will be to both the Dept. and the Architect.

I have the honor, to be, Sir,

Your obedient servant,

Fred Eley

309-11

Dear Dr. Scott,-

Rev. Mr. Eley of Elkhorn is in Regina to talk over matters in connection with his school. I am advising him now to proceed to Duck Lake, Carlton and Battleford Agencies, with a view of recruiting. This has always been my idea. I think recruiting should be done from these reserves.

I am of the opinion that the Government should bear this expense until the school is brought up to its authorized number. Would you kindly advise me as to this, so that I may govern myself accordingly.

x x x

W. M. Graham,
Indian Commissioner.

Ottawa, March 19, 1924.

Sir,-

I am directed to acknowledge your No. 309-11 of the 11th instant, with reference to the recruiting activity of the Rev. Principal of the Elkhorn Indian Residential School. The question of his expenses should be drawn to the Department's attention by the M. S. C. C. authorities when they are presenting a statement of their espenses at the school for the quarter ending the 31st instant. It will not be possible to pay the principal's expenses as such, but the Department is making payments each quarter in lieu of per capita grant.

IN YOUR REPLY REFER TO
No. 209-11
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
REGINA, SASK., April 4th, 1924

Dear Sir,

I beg to acknowledge receipt of your letter of the 19th instant No. 106-0-10 with reference to the expenses of the Principal of the Elkhorn Residential School, when out recruiting for the school.

Am I to understand that the Department is making payment to the school in lieu of the per capita grant, whether the children are in attendance or not? Do you intend to make it apply to all schools? While I think it is a weak system it would only be fair for the same rule to apply to all schools.

While passing through Winnipeg I heard that it was not the idea to permit the Elkhorn school authorities to recruit on certain reserves in the Lake Winnipeg district, on the grounds that we had some Indian Day schools there. If I had known that the Church had the right to say where we should recruit, I should certainly have opposed the expenditure of $75,000.00 which I understand has already been spent on this Institution. I am doing my best to recruit for this school, but I think the Department should insist on the Church doing more than they have done. Of course, if they are being paid whether the pupils are in the school or not I can understand their non-aggressive policy.

Will you kindly let me know just what understanding the Department and the School authorities have. It seems absurd that I should be kept in the dark in matters of this kind.

Yours truly,

W.M.Graham,
Indian Commissioner.

No. 20811

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE

REGINA, SASK., April 23rd, 1924

Dear Mr. Scott:

I wrote to you regarding recruiting for Elkhorn Industrial School. I had heard direct that the Department were paying the school authorities a certain amount of money, in lieu of the per capita grant, in order to carry on this school. I asked the Department if this rumour were correct, and have not yet received a reply to my letter. Would you kindly let me have this information, as I think it is necessary that I should know? This school has been put in repair at a great expense, and we seem to be working at odds. I ask the Department for information, and so far have been unable to get it.

The report is, the Church authorities are not allowing recruiting to take place in certain reserves in Manitoba. I may have made a mistake in inviting Mr. Fley to go into Bishop Lloyd's diocese and recruit. Bishop Lloyd would have more grounds for refusing recruiting to take place in his constituency than the Bishop or Church authorities to refuse recruiting to take place in their diocese for a school situated in the diocese.

It seems to me my letter regarding this might have been answered. I am inclined to think it was not brought to your attention. I have no desire to write unpleasantly on this subject, but it seems to me we should have some understanding on such an important matter. My letter referred to was written on April 4th- It is now the 23rd, and I have not yet had a reply.

Extract 1926-1

I may say I am now in receipt of a letter from the Department regarding the building of a new school on the Little Saskatchewan Reserve. Have you seen the last report on the Little Saskatchewan school, made by Mr. C. W. Bartlett? Do you think our children

Dear Mr. Graham,-

I have your letter of April 23rd with reference to the Elkhorn Industrial School. My attention was drawn to your letter of April 4th but I had had it amongst papers that I was discussing with the Minister and overlooked it. I have also been in Toronto for four days.

When a new school is opened we have found it necessary to pay expenses incidental thereto until the pupils' grant is large enough to support the institution. Payment will be made to the Elkhorn school by per capita grant from the 1st April, 1924.

I understand that portion of your letter which dealt with recruiting has been answered on another file.

MEMO FOR FILE:

I visited the Elkhorn Indian Residential School on the 10th of July and was much impressed by the splendid condition of the main building and the principal's residence. There has been a complete renovation and a replacement wherever necessary and these two buildings are practically as good as new. The management has commenced putting the school grounds in shape and working the farm. I was considerably depressed by the nature of the soil on the school farm, and, upon making enquiry, I learned that it was extremely doubtful if any of the neighbouring properties would be of value. I learned that the M. S. C. C. had requested the Department to purchase a half section from a Colonel McRae. Mr. Meneilly, the farm instructor of the school, does not consider the land suitable and not worth more than $10 an acre.

The building is well equipped and the only requirement brought to my attention was a hotel size hand power mangle for the laundry. I purpose assisting their boys' activity by supplying a snare drum and 6 bugles.

I was impressed with the Rev. Mr. Eley's ability and his interest in the work. His staff appears to be but fair. The assistant, Mr. Dawson, has great possibilities but is evidently not satisfied with the work.

I intend to protest to Dr. Westgate concerning the M. S. C. C. lettering on equipment that has been purchased from Parliamentary Appropriation and will suggest the name of the school instead. The outbuildings are scattered and are in only fair condition. The drill hall is in poor condition.

I know very little about stock but was not impressed with the cattle that had been purchased for the school. They were producing very little milk per head at the time of my visit.

Supt. of Indian Education.

Ottawa - Ontario

Dear Sir:

The Elkhorn School has now 116 pupils in residence and the Rev. F. Eley, the Principal, is proceeding shortly to the Little Saskatchewan Reserve to bring in a number of others, who according to information received from the Anglican Missionary there and the Indian Agent for that part, are desirous of being admitted to this School.

As all Schools are allowed, I believe, a certain number of pupils over and above the capacity I shall be grateful if, in the case of this School, our Society may be permitted to enroll say an additional six pupils, thus bringing the maximum enrollment up to 126 pupils, the number which can safely and comfortably accommodated.

For your information I may say that I have consulted Mr. Inspector Bunn in this matter and he approves of the above recommendation.

A prompt reply will oblige

Yours very truly,

T. E. R. Westgate

Field Secretary M.S.C.C.

Ottawa, January 12, 1925.

Rev. Sir:

I have your letter of the 6th instant, relative to the pupilage at the Elkhorn Indian Residential School.

In reply I beg to say that a grant will be allowed from the 1st instant for an average attendance up to 120 pupils. As the residential schools are allowed to enroll in excess of one pupil for every 20 grant earners, the Elkhorn School may, therefore, enroll 6 extra pupils in excess of the number for which grant will be paid, or a total enrolment of 126 pupils. This is the full number of pupils that should be in residence. We note that there are now 116 pupils in residence, and approval is, therefore, granted for the enrolment of 10 more pupils. The total enrolment at this school at any one time is not to exceed 126 pupils.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Ottawa, January 12, 1925.

Sir:

I beg to inform you that a per capita grant for 120 pupils is being provided at the Elkhorn Indian Residential School from the 1st instant. The school will also be allowed to keep one pupil in excess for every 20 for which the grant is paid. This will allow for a total enrolment of 126 pupils, the full number for which accommodation can be provided. There are at present 116 pupils in residence, and permission is being granted Rev. Dr. Westgate, Field Secretary of the Missionary Society of the Church of England, to recruit up to 126 pupils.

Your obedient servant,

J. D. McLEAN

COPY
FOR YOUR INFORMATION

CONFIRMATION MAY 23RD, 1926.

There are experiences which live in the memory, and become a source of constant inspiration. Such an experience was mine when I visited the Anglican Indian Residential School at Elkhorn to attend the confirmation of 45 of its scholars, 35 boys and 28 girls. As we drove down the Main Drive to the residence of the Principal, the Rev. Fred Kley, we noted the tidy shipshape appearance of the grounds and buildings. Across the front entrance of the School was a banner with the words "WELCOME TO OUR BISHOP" and we could see by the faces of some of the children we passed that they meant it, and were all agog with excitement over the visit of their Bishop, and the coming Confirmation. At the supper hour we saw all the children, 127 of them, and very bright happy children they seemed to be as they marched in to their light cheery dining-room to the tune of "Onward Christian Soldiers". In the grace which was sung, and in the responsive service after supper, which was led by the Principal, they showed by their hearty response that they not only knew the service, but thoroughly enjoyed it. The Bishop spoke to them for a few minutes on Ascension Day and its message, and the close attention and eager response to his questions gave ample proof of an intelligence and an alertness of mind which would do credit to any body of children in Canada.

A splendid discipline prevailed, a discipline evidently based on loyalty to the School, and affection for the Principal and his staff, for there was an entire absence of fear and nervousness on the part of the scholars, every face was radiant with smiles and happiness. The Confirmation service was held in the Parish Church, and the whole school was present, filling the entire body of the Church. The Rector of the Parish, Rev. J.F. Finch, conducted Evensong and the Rev. S.R. Hammond read the Lessons, and the hearty manner in which the congregation sung the responses and joined in the service would put to shame our average congregations.

Then the Confirmation Service. The Bishop spoke to the candidates from the last verse of Psalm 108. "Through God we shall do great acts." and they listened with rapt attention as he spoke to them in simple eloquent words of the memory of Confirmation, and the possibilities of a life which possessed the consecratedness of Confirmation, and the living Presence of the Holy Spirit. When the Rev. Principal presented the confirmees there was no question in the minds of any as to whether they were duly purposed, there was abundant proof in their earnest demeanour, and in the spiritual atmosphere which prevailed during the whole of the service, a thoroughly sound spiritual preparation. It was a most impressive and inspiring sight, those long lines of Indian Children as with earnest serious faces they came

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

-4-

forward to receive the gift of the Holy Spirit in the laying on of hands. It was a service full of promise, a wonderful tribute to the work of Mr. Riley and those associated with him, and a striking commentary on the words of the text "Through God we shall do great acts".

The following morning we were shown over the School, and its various buildings. Everywhere there was the utmost cleanliness Every room was bright and cheerful, and as comfortable as one could make it. The dormitories well lighted and aired, with the beds covered with the red and white counterpanes. The School-room with every facility for efficient work, the power-house, kitchen, store-rooms, everywhere evidence of careful businesslike management, and a keen eye for details.

A drive around the farm and an early lunch at the School brought to a close a most enjoyable visit. The Rev. Principal and Mrs. Riley were the souls of hospitality, and we left the town of Elkhorn feeling that the Canadian Church should know more of the wonderful work which under God's grace is being accomplished in the School by Mr. Riley and his staff. Let us not cease to pray for them that this work may continue to receive the abundant blessing of God.

Dear Mr. Ferrier:

Mr. Elk, Principal of the Elkhorn School, has sent me the enclosed account of the Confirmation Service recently held in the Parish Church Elkhorn, when 63 pupils from our Indian School were confirmed. The account was written by the Rev. S.R. Hammond, Rector of St.George's Church, Brandon, who was present at the Service.

I thought you would like to have this information. I am sorry a photo of the candidates has not come to hand.

Kind regards

Faithfully yours,

Reverend Sir:

I have your letter of the 29th ultimo, enclosing an account of the Confirmation Service recently held at Elkhorn, when 63 pupils from the Indian Residential School were confirmed. I was indeed pleased to receive this writing and to learn that such a large percentage of the pupils have already responded to the efforts of the staff. I should be pleased to receive at your convenience a photo of the candidates for confirmation.

Sir,—

I beg to report that 5 Crane River children home on their holiday's from the Elkhorn Residental School are in very bad shape, also one McKay boy from Dauphin River, these children appear to be T.B.

I might point out that there is a great deal of disatisfaction about the Elkhorn children and before I can bring these children back after holiday's I want an investigation held in regard to the management of the Elkhorn School. If half the stories are true which I hear, there is something wrong with the Elkhorn School.

REGINA, SASK., June 2nd, 1925.

Dear Mr. Graham:-

I beg to inform you that I visited the Elkhorn Residential School on the 28th ultimo and noted conditions in a general way at this institution. I went through the school building from the basement to the top floor and found it clean and tidy throughout. I was particularly pleased with the basement. Last year there was rather a sour smell in the dairy; this has been eliminated and the air is pure and fresh throughout the building. The dormitories are kept well aired, and there was no disagreeable smell in any part of the building. The Principal informed me that they had no difficulty in keeping the building warm and comfortable during the severe winter months. I took particular notice of the condition of the boys' and girls' toilets throughout the building, and noted that they were kept in a clean condition. The inside toilets are being used regularly. I visited the septic tank which appears to be functioning in a satisfactory manner, as there is no disagreeable odour from the point where the fluid is discharged. The washrooms in the basement are small, and there has been practically no provision made for inside recreation rooms for the girls.

W. M. Graham, Esq.,
Indian Commissioner,
Regina.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

There are now 129 pupils in the school, and they presented a cleanly appearance and were well clothed. There were four who were being kept in the infirmary on account of their physical condition. Dr. Johnson of Elkhorn looks after the health of the children at this institution and the Principal tells me he is giving very good satisfaction, being very thorough in connection with his work. I visited the children's dining-room during their noon meal hour and noted the food they were getting. Their meal consisted of meat, potatoes, beans, a milk pudding and good bread. They appeared to have all they wanted to eat and I considered that they presented a well-nourished appearance. They had eleven cows milking at the time of my visit and the Farmer informed me that these cows were giving 22 gallons of milk per day. This would provide a little over a pint per head for the pupilage including the staff, but I may say that they do not get the full benefit of this milk as I found that they were making about 30 lbs. of butter a week, and a great deal of the milk given to the children is separated milk, which has not much food value.

The staff at this school at the present time appear to be getting along very harmoniously. There have been a number of changes made recently. Miss Hart, the boys' supervisor, has been replaced by Miss Reed, and Mrs. Duncan who was cook has been replaced by Mrs. Hall. Mr. Harris succeeded Mr. Minnielly as Farming Instructor and Mr. W. A. Harrison succeeded Mr. Tate as engineer.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I gathered that previous to the making of these changes there was a lack of harmony and co-operation and a great deal of back-biting amongst the staff, which had a bad effect on the work. I regret to report that the Principal and his wife spoke very strongly regarding the attitude taken by Nurse Colvin when she visited the school last winter. Mr. Eley complains that she sided with the malcontents and interfered in matters which were not her concern at all, and it had the effect, not only of disturbing the harmony but set a bad example to the children by criticising the Principal of the school in their presence. Mr. Eley, as I said before, spoke very strongly, and said that while he would welcome the visits of any nurse which might be sent, he did not want Nurse Colvin to be permitted to return to the school. There were certain charges made by this Nurse in her report of last February, regarding the treatment of the children by Miss Hart, the boys' supervisor. As Miss Hart is no longer at the school I consider this matter closed. I found the discipline at the school very good, and saw or heard nothing which would lead me to think that the children were not receiving kindly and sympathetic treatment. With reference to the statement made by the Nurse, that children were sent to the dormitories at supper time for three weeks with only dry bread to eat and nothing to drink, as a punishment for laughing at table, the Principal said that this was a deliberate mis-statement of facts. He stated that in some instances children were sent to the dormitories as a punishment for infraction of discipline, but in all such cases their meals were taken to them

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

in the dormitories; they were not deprived of their food. He stated that he attempted to explain this matter to Nurse Colvin and she would not believe him. He considered her attitude towards him in connection with this matter as insulting. The foregoing will show you the feeling towards the Nurse at this school. I was, of course, only able to hear one side of the story, as the other parties affected by the report are no longer there and I feel it my duty to let you know the situation as it was presented to me. I may say, however, that I heard enough while at the school to convince me that the situation was an impossible one, and it is my opinion that the Nurse showed a lack of tact in permitting such a situation to arise in connection with her visit. It appears to me that she took upon herself responsibilities that she should have passed on to the Doctor, and to the Principal of the school. For example, I noticed a list of 67 children posted up in the dispensary for whom she had ordered tonics. It seems to me that instead of taking this action she should have referred these cases to the Doctor for attention. In any event it is wrong, and not conducive to getting results to have such a spirit of antagonism existing between officers of the Department.

STOCK

I may say that I found the stock in good condition. The cows have a much healthier and better babed for appearance than they presented at the time of my visit about a year ago.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Farming Instructor is a married man and is living in the farm house. He appears to be a very energetic worker and the Principal is greatly pleased with him. They have the following acreage seeded to crop this year,-

75	acres	Oats
23	"	Barley
10	"	Corn
3	"	Sunflowers
11	"	Potatoes
5	"	Garden

This leaves 30 acres of land for summerfallow. Their farm land is badly infested with noxious weeds, particularly twitch grass, which is a very difficult weed to eradicate. In my opinion they should have at least one-third of their cultivated land in summerfallow until they get it cleaned up.

I may say in conclusion that the appearance of the premises at this institution indicate that the Principal is taking an interest in his work. I noted an improvement in the whole appearance of the place since my last visit. Owing to the place having been neglected for so long it will take a little time to get it into first class condition.

I have the honour to be

Sir,

Your obedient servant,

W. Murison

Sir,—

With reference to your letter of the 19th instant, No.106-0-I.

Andrew McKay, of Dauphin River, makes the complaint that his boy came home sick.

Mrs. Andrew Steven's, of Birch River, makes the complaint, that her children are not well fed and that one of her boys died and she was not notified in time that he was sick.

Henry Anderson, of Little Saskatchewan, makes the complaint, that his boys were compelled to steal, by the bigger boys.

Mrs. Robert Mekwash, of Crane River, complains that her children were not kept clean and did not get sufficient to eat.

All these parents complain, that when their children came home for Holiday's, they were not properly clothed.

Councillor, Eddie McDonald, Crane River, complains that the Principal Mr. Ely, was never in the school when he was there.

When the Crane River children, from Elkhorn arrived at Alonsa, the parents took them to Dr. Waldon and Dr. Waldon advises me that 7 out of the 11 were not in good condition and should be under the doctor's care at the present time.

Ottawa, July 27, 1926.

Sir:

I have your letter of the 23rd instant, concerning complaints by parents of pupils of the Elkhorn Indian Residential School. A thorough investigation into conditions at this school was made by Mr. Inspector Murison two months ago. I am satisfied that the stories that have been brought to your ears are in the main ill-founded. As you are aware, it is quite common for Indian parents, who do not wish their children to remain at a residential school, to do everything possible to delay their return after the expiration of the holiday period.

Mr. Inspector Murison was specifically requested to enquire into discipline, diet and health conditions and I am pleased to state that he found the building clean, tidy and comfortable throughout. The pupils were clean and well clothed and their diet very satisfactory. He reports that the medical officer is painstaking in his efforts; that the present staff are working as a unit; that the discipline is very good and that he believes the children are receiving kindly and sympathetic treatment.

I am satisfied that it is in the best interests of the children of your agency, who are on leave from the Elkhorn School, to return promptly at the end of their summer leave. I should be grateful if you would bend every energy to this end. Some months ago there was difficulty at the school, largely due to lack of harmony among the members of the staff. Changes in the personnel have eliminated this trouble, which was indirectly creating considerable dissatisfaction on the part of the pupils themselves.

You should inform Indian parents that the Department is carefully supervising the conditions at the Elkhorn School; that we believe them to be very satisfactory and that their children must be returned.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

SEP 7 1926
RECORDS

EXTRACT FROM LETTER OF INDIAN AGENT OGLETREE, dated August 11, 1926.

Original on 28-126

R -

As I pointed out to you in a former letter, I wanted an investigation re management of the Elkhorn School, on account of the condition the children were in when they arrived home. You will understand the difficulty in getting the children back to the Elkhorn School, as these children were all in good health when I took them from Crane River.

The reports about these children have gone all round among my Indians and the result is that the parents will not consent to any children going back to Elkhorn. Joe McKay from the Dauphin River has been sick since he returned from Elkhorn. Wm. Bruce, Frank Bruce and Jemima Shorting of the Little Saskatchewan Band, who were at the Elkhorn School, are very sick. The Doctor says they will not live long.

I would recommend that all Elkhorn School children be allowed to stay on their reserves for one year, until such time as we can show these Indians that conditions are improved at the Elkhorn School.

I do not think it advisable to force these children back, as it would be a case of force and I do not think the Department can blame these parents very much. We took these children in good faith, and until we have a new management at the Elkhorn School, I do not consider it fair to ask these children to go back.

From what I can learn and the reports I receive, I am under the impression what they require at Elkhorn School is a change in the principal, as I do not consider Mr. Eley capable of handling the situation.

106-0-1.

Ottawa, September 9, 1926.

Dear Mr. Graham:

I wish to inform you that Mr. Indian Agent Ogletree, on July 10th, advised the Department there was a great deal of dissatisfaction in his agency, concerning the treatment that the Indian boys and girls received at the Elkhorn Residential School. He suggested an investigation. I asked Mr. Ogletree for a definite statement in connection with the complaints and he named parents from various reserves, who complained of sickness in the school, improper feeding and that the children were unclean. Our agent also stated that the Crane River parents, when their children arrived home for holiday, took them to Dr. Waldon at Alonsa and Dr. Waldon advised him that 7 out of the 11 were not in good condition and should be under doctor's care.

On July 27th I informed Mr. Ogletree that a thorough investigation into conditions at Elkhorn was made by Mr. Inspector Murison, in May, and that the Department was satisfied the stories that had come to his ears were in the main ill-founded. I recapitulated Mr. Murison's remarks concerning discipline, diet and health conditions and added:

"I am satisfied that it is in the best interests of the children of your agency, who are on leave from the Elkhorn School, to return promptly at the end of their summer leave. I should be grateful if you would bend every energy to this end. Some months ago there was difficulty at the school, largely due to lack of harmony among the members of the staff. Changes in the personnel have eliminated this trouble, which was indirectly creating considerable dissatisfaction on the part of the pupils themselves. You should inform Indian parents that the Department is carefully supervising the conditions at the Elkhorn School; that we believe them to be very satisfactory and that their children must be returned."

On August 11th, Mr. Ogletree writes that he considers the Department should hold an investigation concerning the management of the Elkhorn Indian Residential School. He writes in part as follows: -

"The reports about these children have gone all round among my Indians and the result is that the parents will not consent to any children going back to Elkhorn. Joe McKay from the Dauphin River has been sick since he returned from Elkhorn. Wm. Bruce, Frank Bruce and Jemima Shorting of the Little Saskatchewan Band, who were at the Elkhorn School, are very sick. The doctor says they will not live long.

RECORDS

IN YOUR REPLY REFER TO
No. 209-11B

COMMISSIONER'S OFFICE,
REGINA, SASK., Sept. 14th, 1926

Sir:

I beg to acknowledge receipt of your letter of the 9th. instant #106-0-1, dealing with conditions at the Elkhorn School, and I note the recommendations made by Mr. Indian Agent Ogletree.

I am not prepared to say that conditions are as they should be at the Elkhorn School, but I am satisfied in my own mind that the recommendations of Mr. Ogletree are not wise. The idea of allowing children to remain out of school for one year is absurd. If conditions are to be improved they can be improved in one month if the Department will take prompt and proper action. I may say that we have trouble on almost all reserves in getting children to attend school. Mr. Ogletree is far from being a success as an Indian Agent, and I very seldom act on his recommendations without ~~personally~~ investigating the matters in question, either personally or through an Inspector. However, I am not saying that conditions at Elkhorn are good, and I will either go there myself or have an Inspector go and investigate.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Sir:

I have your 209-11B of the 14th instant, concerning conditions at the Elkhorn Indian Residential School. I shall be grateful for your report or that of the Inspector at the earliest possible date, so that definite action can be taken with reference to the children from the Portage agency who have not yet been returned following the expiration of their leave.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

COMMISSIONER'S OFFICE,

IN YOUR REPLY REFER TO
No. 209-11B
ALSO TO DATE OF THIS LETTER

D

REGINA, SASK. Oct. 8th, 1926

Dear Mr. Scott:-

I beg to inform you that I visited the Elkhorn Industrial School, for the purpose of investigating certain charges made against the Principal, by Indian Agent Ogletree of the Portage la Prairie Agency. I felt that I would like to go down to the school personally, in order that I might see for myself just how things were, and I must say that I was agreeably surprised. The whole school building, from basement to garret, I found in immaculate condition. I visited the dormitories and found good comfortable beds, with plenty of blankets and sheets on each bed, and the bedding was clean. The Matron informed me that the flannelette sheets are changed once every two weeks, which I think is quite often enough. I tested the waterworks in each dormitory and found them in splendid shape. The windows were all down and the dormitories well ventilated. On making inquiry I was told that these windows are kept open continually, except when there is a pouring rain or heavy wind. I examined the clothing supply and found it to be abundant, in fact I would say enough to equip a school with double the number of pupils. The underclothing of the boys and girls is changed regularly, and each child has a bath once a week. I next visited the dispensary and found it in the very best of shape. A complete record is kept of what has been given to each child in the way of drugs, and the result. The dining-room was in perfect order - tables and floor were shining, and the kitchen was all that could be desired. The engine room and boiler room were like the engine room of a ship.

I then visited the pumping, sewage and lighting plant in a separate building, where I found everything in splendid shape. The stables were also in good order. The roots have been harvested and I am told the school will have about 1500 bushels of potatoes, a large quantity of carrots - sufficient for their use during the winter, and over 2000 cabbages. The driveway leading up to the school was in excellent shape, and is just such a driveway as one would expect to see at a well-kept, well-run institution.

The school

Duncan C. Scott, Esq.,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Ont.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The school have thirteen Holstein cows, which were giving about twelve gallons of milk per day at the time of my visit. This, of course, is not sufficient. They also have five horses, four sows and 25 chickens. The field crop consists of 2500 bushels oats and barley. Their summerfallow has given them a lot of trouble, as it is polluted with twitch grass. The land has been plowed twice and disced four or five times and it is just a mass of twitch grass roots. It will take a lot of work and time to eradicate this weed.

I examined all the children in the school, and with two exceptions I never saw a healthier lot. One boy has a slight enlargement of the neck, and the other a small swelling behind the ear. Both these cases are being attended to by the Doctor. I went into the question of food supply, and I find that it appears to be ample, although it might be well to increase the milk supply and add a little more meat. In this the Doctor agrees with me, but he will not admit that they are underfed, and I quite agree with him. My recommendation is that they do not use separated milk for the children, but give them the whole milk, and instead of twelve gallons a day they should have twenty. When this is supplied, conditions will be ideal. I saw the children at their evening meal, which consisted of three thick slices of bread spread with pure lard, a bowl of hot soup, stewed prunes, and tea with sugar and milk, - rather a fair meal I would say. They were not restricted to the quantity of bread mentioned, but could have more if they asked for it. The tables are supervised by two members of the staff, who remain with the children during the meal. In the mornings they receive oatmeal porridge with sugar and milk or syrup, bread with lard or jam, and tea. Before leaving the school I made it a point to see the Doctor, and he informs me that in his opinion the children are well fed, but that it might be well to have a little more milk, and also a little added to the beef supply. I have requested the Principal to add a little more meat to the menu, and to see that the children get whole milk instead of separated milk.

I have before me your letter of September 9th., containing an excerpt from Mr. Ogletree's letter of August 11th, in which he states that the parents will not consent to any children returning to Elkhorn. It seems to me that if the parents thought they could keep their children at home from school they would not be above trying to trump up excuses for the purpose, especially if the Agent encourages them in this by believing everything they tell him, without endeavoring to obtain the true facts of the case. His recommendation that the children should be allowed to remain at home on their reserves for a year until matters are improved is absurd. This school is as well conducted as any school we have in the province. The Agent says that he does not think the Department can blame these parents very much for not sending their children back to Elkhorn. I blame the parents very much, and I do not think they had very much encouragement from the Agent to send them back. On the 10th. of August last, Mr. Ogletree wrote to Mr. Eley, complaining about certain children who had returned home from the school suffering from T.B. glands. Amongst others he mentioned Peter Moar. This boy had not been in school for over a year, as he did not return from holidays in 1925. Another case was that of Mary Ann Moar, whom the Principal states is not and

never

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

never has been enrolled at Elkhorn School. Helen and Mary Ahmo are also mentioned as being ill as a result of treatment received at Elkhorn school, neither of whom are or ever were enrolled there. I do not think the Department need go much further into Agent Ogletree's statements. There is no foundation for his remarks at all. The fact of his going on and making complaints about children returning home sick from the school, who have never been there, is sufficient proof for me that he does not know very much about the subject he is dealing with. I think Agent Ogletree should be severely censured for sending in such unfounded and damaging reports on this school. You know as well as I do that any Agent who wants to listen to the complaints of the Indians and agree with them can make a great deal of trouble, and I believe that is what has been done in this case.

106-0-14

My recommendation is that the Department supply this school with four additional horses, as they have only five at the present time, which number is not sufficient for their needs. I would also ask that they be given four additional milch cows. I think the Department should insist on the school being filled to a capacity of 120 pupils without delay, as I feel sure the children who are attending this school are getting as good a training as they would get anywhere in the West. I found a well balanced staff here. The female members, from the cook to the matron, were all dressed in white uniforms, such as are worn by nurses. The Farming Instructor knows his business, and judging from the condition in which I found the engines and machinery in general, I would say the engineer is well qualified. The Principal has no Assistant, as the man who was filling this position was recently transferred to Alberta. I hope no time will be lost in providing him with an Assistant, as he will have too much to do with the full number of children in the school. At the time of my visit there were 69 children in residence.

Yours very truly,

W. M. Graham,
Indian Commissioner

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

Notes on letter received from Indian Agent Ogletree
Portage la Prairie, dated August 10th, 1926.

---

1. Jane McKay, who is reported sick, left this School in excellent health in June of this year. He was never a day sick while in residence.
Mary Moar was seen by the Medical Officer here before leaving on holidays.
Louisa Moar was also pronounced well enough to go home, although her return to the school was not recommended by the M.O.
Peter Moar has not been in residence here for over a year, as he did not return from holidays in 1925.
Mary Ann Moar is not and never has been enrolled at this school.
Margaret Moar was examined by the Dr. before leaving here for holidays.
Helen Ahmo is not and never has been enrolled at this school.
Mary Ahmo is not and never has been enrolled at this school.

2. With respect to the charges made by the Indians, I beg to make the following statements:-
1. These sick cases were direct result of these pupils being sent to the school. This is obviously impossible, as tubercular diseases are of slow growth and development, and, while T.B. in some form is present in all these children it usually manifests itself in an active form at ages varying from 12 to 18 years. In addition to this fact when these children were brought in, their general health etc, was so poor, that there was serious discussion as to the advisability of keeping them here, since when every effort was made to improve their health.

2. These children were not clothed properly.
These children were living in such poverty and dirt that they had no clothing fit to stand the long cold journey. Therefore, before they could come into the school, we were obliged to send them a supply of warm clothing, which they wore to come in to the school. In spite of this they arrived in a filthy condition, infested with head lice and other vermin.
Upon leaving here this summer for holidays, every child was provided with a bountiful lunch, a complete outfit of clean clothing and a kit-bag (bearing pupil's name, number, and the name of the school) and containing an additional supply of clothing. List of outfit is attached to this statement.

3. The children got bad treatment while sick.
The medical care of the children is in the hands of the Medical Officer appointed by the Department of Indian Affairs, and under him, the Matron and Supervisors carry out every recommendation and order for the care of sick children. The Dispensary work is regulated and supervised by the Medical Officer, and the treatment given the children is exactly what they would receive at the General Hospital in Winnipeg or any other large hospital. It is in every way superior to that given to white children in attendance at ordinary Boarding Schools. This I know from personal experience. In cases where a special diet is advised, everything is done, in our power, to follow it out.

4. Children had to work too hard and were compelled to play in the cold and snow.
The children are not overworked in any way, and if at any time a child seems tired, the person in charge of that department arranges a change. At no time are the children compelled to play out in the cold and snow. On the contrary, the supervisors have to exercise vigilance to prevent the children from playing out in unsuitable

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

weather. There was practically no snow here last winter, so that they could not have been compelled to play in it.

In reference to the statement that seven out of the eleven children examined should be in hospital, I can only repeat that these children were all seen by the M.O. before leaving here. As a matter of fact all the Indian children are suffering to a greater or less extent from syphilis or tuberculosis in some form, and should, therefore, be undergoing hospital treatment. These children referred to above arrived here filthy, infested with vermin, and starving. We CARED, CLEANED, and CLOTHED, and FED them, in an effort to counteract the evil effects of their earlier years. Unfortunately, in some cases the evil was too deep-seated, and developed in spite of the best care.

I have no hesitation in saying that I, with the rest of the staff, have looked after these children physically, mentally and morally as very few white children are looked after. Therefore, on their behalf I take great exception to the statements made by this or any Indian Agent in this respect. The hours of supervision are practically eighteen hours a day, as the last duty at night is a trip through the dormitories, etc. to make sure that all is well.

As for the statement that there are now three children dying who were in attendance here, I can only say that the probabilities are they would have been dead long ago, along with several others had they not been in attendance here.

Fred Eley

Principal.

Elkhorn, Manitobe.
Sept. 30th, 1926

Dear Dr. Westgate:-

With reference to your letter of the 29th inst. re Mr. Wheadon, I beg to inform you that upon hearing from him a statement endorsed by Dr. Johnson will be sent forward without delay, as per your instructions.

Last June certain rumours were in circulation, which, I feel certain we can trace back to Mr. Indian Agent Ogletree of Portage la Prairie. Undoubtedly he is doing his best, in his way, to secure a new Principal for the Elkhorn School, and behind all this, I feel, is Mr. Minielly who is, Farm Instructor in Mr. Ogletree's Agency.

When interviewing Mr. Indian Commissioner Graham last week, he kindly read a copy of letter received from Ottawa, written by Mr. Indian Agent Ogletree, in which was stated the fact that he, as Indian Agent, would not return the children from his Agency to the Elkhorn School until a new Principal was appointed. Mr. Indian Commissioner Graham also read me his reply, in which he stated that a year ago, when his Inspector visited Elkhorn, things were in a flourishing condition; but he would not commit himself at present as to whether conditions were right or wrong now. But he was of the opinion that it was not a new Principal that they required but a new Indian Agent at Portage la Prairie, as he had often stated before. confidentially, the Commissioner also told me that Indian Agent Ogletree gave him more trouble than all his other Agents put together. The Commissioner stated he would come down with his Inspector before very long and investigate things at the School, then he would write Ottawa. Hence one reason for my not getting into Winnipeg this week.

Mr. Wheadon, as you no doubt know, is teacher at Sandy Bay, Indian Schoo.. Councillor J. G. Shorting (Indian) whom you sent down last week to inspect the School, is also from Sandy Bay, the same Reserve. I believe that his impressions of the School were entirely favourable, as he seemed exceedingly pleased with everything here. Therefore, he should be a help to Mr. Wheadon at this time.

Dr. C. W. Johnston, who is the Medical Officer appointed by the Dept. for this School, has been, outside of his professional visits, a frequent visitor at all times of the night and day. Therefore, he has seen the children under all conditions, sickness, work, and play. We have on several occasions discussed matters, such as;- food, clothing, sanitation, recreation. Several times, he has brought visiting Doctors and Specialists to inspect the School and thei comments have always been highly favourable. After consulting ~~xh~~ with Dr. Johnston this morning about this matter, he gave me his double assurance that he would both sign statements and testify as to general conditions and health.

I herewith enclose a copy of letter dated August 10th, from Mr. Indian Agent Ogletree, also have attached notes on letter which may be of assistance to you. You will also find list of clothing, etc. which each boy and girl had in their kit-bag when leaving.

With kind regards,
Yours very respectfully,
(sgd) Fred Eley.

INDIAN AGENTS OFFICE,

Portage la Prairie, Man.
August 10th, 1926.

Rev. Sir:-

With reference to your letter of the 9th instant, Andrew McKay father of Joe McKay informs me that Joe is sick and he will not allow hom to return to school.

Dr. Medd, our medical adviser for the Crane River Band advises me as follows:-

Mary Moar, has been very sick since returning from School, T.B.
Louisa Moar, has T.B. Glands.
Peter Moar, has T.B. Glands.
Mary Ann Moar has T.B. Glands.
Margaret Moar has T.B. Knee
Helen Almo, discharging ear.
Mary Almo, Goitre of the neck.

The Indians made the following statement to the Doctor:-

First. These sick cases were direct result of these pupils being sent to the school.
Second. These children were not clothed properly.
Third. The children got bad treatment while sick.
Fourth. Children had to work too hard and compelled to play in the cold and snow.

The Crane River children were examined by Dr. Waldon at Alonsa, on their way home and out of 11 children Dr. Waldon advises me that 7 of these should be in the Hospital, on account of the state a these children were in when they returned from school. How do you expect me to have any of these children returned. When I took these children from Crane River, you promised the parents to look after them. Look at the result.

The Indians are very much excited over the condition of the children and it would take an army to return them to the Elkhorn School. I am ashamed to look any of these parents in the face. They look on me as responsible for the condition of their children for taking them away from the Reserve all these children were healthy when we took them away.

We have three children dying now at Little Saskatchewan Reserve who were in the Elkhorn School.

Yours truly,

A. Ogletree (sgd)
Indian Agent.

Statement Endorsed by Medical Officer

Regarding Conditions ~~Existing~~ at the Elkhorn School.

To Whom It May Concern:-

We hereby ~~certify that~~ the children in residence at the Anglican Indian ~~Residential~~ School, at Elkhorn, in the Province of Manitoba, are well cared for and are supplied with a diet containing adequate quantities of sugar, fats, protein, and carbohydrates, as recommended and approved by the medical profession, their food supply being based upon the schedule in use at the School for the Blind, at Winnipeg, and in other organized institutions.

The children are also supplied with clean and suitable clothing, and have large, bright, airy dormitories, classrooms, dining-room and kitchen.

Sanitary conditions at the School are excellent being superior to those found in many of our homes; and sick children are given every possible care.

Signed this sixth day of October, 1926.

COPY

Original on 106-O-10.

October 30, 1926.

Dear Mr. Graham:

I have given considerable thought to the subject matter of your 209-11B of the 6th instant, concerning conditions at the Elkhorn School. I am convinced that the delinquents that are physically fit for institutional routine should be returned without delay - the services of the police to be used if necessary. I am not hopeful of securing best results if this matter is placed in Mr. Ogletree's hands, and I should be grateful if you would send an inspector without delay to have the pupils on the enclosed list returned to the school. Any exceptions that you wish to make, because of special reasons, will meet with the Department's approval. The Rev. Mr. Kley is being informed of this action, and, if he knows of reasons why any child should not be returned, he will communicate with you immediately.

I am corresponding with the Church authorities, with a view to the improvement suggested in your report, and there will be directed to you further communications concerning any special grant for stock and equipment that can be allowed at the present time.

Yours very truly,

Deputy Superintendent General.

W. M. Graham, Esq.,

October 30, 1926.

Dear Canon Gould:

I have given much thought to the situation at Elkhorn and I am arranging with Mr. Indian Commissioner Graham for the return of most of the delinquents. He will use the services of the police, if necessary. I am pleased to say that his recent inspection of the school has resulted in a very favourable report.

With reference to the children's food, Mr. Graham recommends that more milk be supplied and a little more meat. Whole milk, of course, is what is required for Indian children. I am authorizing him to purchase four more milk cows for the use of the school and I hope this will assist the management materially. I also propose to purchase an extra team of horses.

Mr. Graham points out that the assistant principal's position was not filled at the time of his visit. I should be grateful if you would expedite an appointment if it has not already been attended to.

As I am not writing direct to the Rev. Principal in this connection, I will rely upon you and Dr. Westgate to see that the improvements suggested are effected as soon as possible. A copy of this letter is being directed to Dr. Westgate for his information and guidance.

Yours very truly,

Deputy Superintendent General.

Dear Mr. Scott:-

With reference to your letter of Oct. 30th (106-0-1) addressed to the General Secretary of our Society, a copy being forwarded to me, I beg to state that our Commission have now two suitable men in view for the Vice-Principalship of the Elkhorn School and they hope to make an appointment in the very near future.

I am pleased to learn from this letter that an authorisation has been given to Mr. Commissioner Graham to purchase four milk cows for the use of this School.

Believe me,
Yours very truly,

Dear Mr. Scott:-

With further reference to your letter of Oct. 30th, (106-0-1) addressed to the Rev. Canon Gould and my letter to you on Nov. 9th relative to the appointment of a Vice-Principal for the Elkhorn School, I now beg to state that our Society has given this appointment to Mr. George Frederick Dill of Saskatoon who is at present Principal of the Canora School in the Province of Saskatchewan. Mr. Dill holds First-class Academic standing with the exception of certain sups, and Second-class Professional standing as a teacher in the Province of Saskatchewan. He is 20 years of age and is very highly recommended by the Rector of St. John's Cathedral, Saskatoon, to whom he is very well-known, and also by the Principal of Emmanuel College in the same City. He will enter on his duties as soon as he has given the required notice to the trustees of the Canora School, and I am hopeful that he may be able to discharge the duties of the office to which he has been assigned with efficiency and satisfaction.

Believe me,
Yours very truly,

C O P Y

Off Fyle No. 209-11B

ANGLICAN INDIAN RESIDENTIAL SCHOOL

Elkhorn, Man. January 5th,1927

Sir:-

I beg to submit the following information with regard to the difficulty I have had with Mr. Indian Agent Ogletree of Portage la Prairie regarding the returning of children after Holidays from his Agency to this School, also his failure to carry out the Department's instructions with regard to the sending of five children of Mrs. Alfred Hourie of the Fairford Reserve to this School.

On August 12th. 1925 the said Indian Agent wrote to me and in a letter mentioned that the parents were dissatisfied with things at Elkhorn. He also made the statement that "if half the stories they tell me are true I do not blame these people for refusing to have their children returned to school". And by the tone of the letter one would take it that he did not intend to have them returned. Mr. Indian Agent Ogletree visited the school on a previous occasion and certainly was in a position to advise and tell the people the conditions at Elkhorn himself. It seems to me that he is given to listening to any story that may come along which has absolutely no foundation.

After reporting to the said Indian Agent on November 3rd.1925 the request made by Chief Woodhouse of the Fairford Band with reference to the admitting of the Hourie children to Elkhorn, I received a letter from Mr. Indian Agent Ogletree on November 20th.1925 stating that he had received instructions from Ottawa to return all children who had not returned from Holidays, also the five of Mrs. Alfred Hourie of Fairford. This latter has never been carried out and when taking the matter up again I received a letter from you, Sir, as The Indian Commissioner, on March 15th. 1926 advising me that the Agent at Portage la Prairie had been written to by the Department at Ottawa directing him to give this matter immediate attention. Since that time I have heard nothing further, but the children have not been brought to the School.

On March 23rd. 1926 I wrote Mr. Indian Agent Ogletree again upon receiving a letter from the Lord Bishop of Brandon telling me of four children living at Shoal River who should be sent to the Elkhorn School. This information I passed on in the letter mentioned above to the Indian Agent asking him to be good enough to look into the matter and advise me. In reply, received a letter dated March 25th.1926 from Mr. Indian Agent Ogletree stating that it would be better to wait until June and bring the children down after Treaty Payments. Moreover, he invited me in this letter to accompany him on the trip to Shoal River for Treaty Payments. However, for some unknown reason he wrote me on April 28th.1926 to the effect that his plans had changed but if he decided to go to Shoal River later he would let me know. Since that date I have heard nothing in regard to his trip or the children.

Upon receiving instructions from the Department at Ottawa regarding Holidays for the Summer of 1926 I wrote to each Indian Agent giving them the said information, and also gave word for word the paragraph with reference to the fact that children were not allowed to go home unless special protection was made for the safeguard of their return at the expiring of their holidays, to the school.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Moreover, in spite of this Mr. Indian Agent Ogletree sent word through others ordering the returning of most of the children from his Agency. As I did not have Transportation Requisitions on hand at the time word was sent back to the Indian Agent to this effect. The following Sunday morning during Divine Service he called up the School by Long Distance. The Matron answered the telephone and I am told by Miss Lindsay that Mr. Ogletree was decidedly rude to her. Tickets were then wired by the Indian Agent to Elkhorn and the children went home for their holidays.

You will understand, Sir, on account of the geographical situation of this school, the difficulties of obtaining children etc. to fill the School. When we have the co-operation of Indian Agents and Missionaries one does not mind but if an Indian Agent like Mr. Indian Agent Ogletree is allowed to take such a stand it seems to me that he is seriously hindering not only the work of this School byt the Great Work of The Department in the education of Indians.

I am, Sir, putting the best years of my life into this work on account of the early years spent on the Indian Reserves and conditions witnessed there. I am fully of the opinion that children in residence in such a school as this are certainly given a chance in life, if they wish to make use of it later on, a chance they would never have living on an Indian Reserve.

I shall be most grateful and appreciate it very much, Sir, if you will kindly give me advice upon such a matter stated. Thanking you for your kindness and interest in the past.

I have the honour to be, Sir,
Your obedient servant,

(Sgd.) Fred Eley.

COMMISSIONER'S OFFICE,
REGINA, SASK., January 13th, 1927

Dear Mr. Scott:-

Referring to your letter of the 9th. September No. 106-0-1 and subsequent correspondence, with reference to the difficulty in getting the children to return to the Elkhorn Indian Residential School, and the suggestion of Indian Agent Ogletree that an investigation be held into the manner in which the children are treated at that institution, I beg to inform you that I again visited the Elkhorn school last week for a few hours, and while there I examined the children and have nothing to say further than what was said to you in my letter of the 8th. October last. I think that the Principal is doing good work, but he is laboring under many disadvantages. I am quite sure that Mr. Ogletree, the Indian Agent at Portage, from which agency a great many of the children come, is of very little assistance to him, and Mr. Eley's work is made more difficult on that account.

Mr. Ogletree is holding down a good position at Portage la Prairie, and a great deal could be done there if we had the right kind of an Agent. He is most disagreeable with everybody and he is not aggressive. I have no faith in his ability to carry out any important instructions, and it seems too bad that this man should stand in the way of the progress of the Indians. The Swan Lake reserve in the Portage Agency has made most outstanding progress in the last four years; it has come up from nothing to be one of the most progressive reserves in the country, and the Government should be proud of it. At Long Plain there has also been progress. This is attributable to the fact that the Inspectors and the Instructors are carrying it on almost independently of the Agent.

Mr. Eley

Duncan C. Scott, Esq.,
Deputy Supt. General of Indian Affairs,
Ottawa, Ont.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Mr. Eley, Principal of the Elkhorn School, has a big job on his hands, and he should receive all the assistance possible from the Department. My only reason for supporting him strongly in this matter is that I know he is in earnest and is energetic. He has possibly made some minor mistakes, but these are of little importance. He is energetic and has a fairly good idea of what should be done. I was unable when there to purchase cows and horses for him. There are none in the district and they will have to be located elsewhere and shipped in.

I am enclosing herewith a copy of a letter which I received from Mr. Eley before I visited the school, with reference to his difficulties with Mr. Ogletree. I have already reported to you that Inspector Christianson and Mr. Eley are now in northern Manitoba for the purpose of getting children to return to the school who did not return last September, and I claim that if we had the right man at Portage la Prairie as Agent it would not have been necessary to send an Inspector to do this kind of work. Our Inspectors are kept on the jump all the time, and to have to send them to attend to matters of this kind on account of inefficient Agents makes it difficult to carry on. The weather at the present time is very severe and I have some anxiety regarding getting the children to the school, as they will have to travel long distances in covered bobsleighs.

I have already suggested that, if it is proposed to continue Mr. Ogletree on in the position of Indian Agent at Portage la Prairie, he be written to and told very emphatically what is expected of him.

Yours very truly,

W. M. Graham,
Indian Commissioner.

SCHOOLS
AUG 5 1927

Dear Mr. Scott:-

I have returned from making a visit to the Elkhorn Indian Residential School and I was greatly pleased with all that I saw there. Mr. Eley is very energetic and has the place in good shape, and one of the most wonderful gardens I ever saw, about five acres in all. In addition to this he has ten acres of potatoes, 75 acres oats, 25 acres barley, and 30 acres of summerfallow. The work on the summerfallow was well done.

Mr. Eley has made arrangements with a farmer who owns 300 acres of hay land to cut and stack all the hay on this 300 acres, the school to get two-thirds of the quantity. In order that he might do this in short order and secure the hay I have taken it upon myself to authorize him to purchase another mowing machine, as it would be impossible to carry on this work with one machine in view of the large quantity of hay that will be put up, and also other pressing work. Ordinarily one machine would have done, but this is a great opportunity to secure hay and the extra machine is badly needed.

The children, some forty in number, who were at the school at the time of my visit were all in good health. The milk supply is quite adequate, and I am glad to report this because we have always had trouble here through not having a sufficient quantity of milk for the number of children, and this difficulty has now been overcome.

Yours very truly,

W. M. Graham
Indian Commissioner.

Dear Dr. Scott:-

This year we are issuing a School Year Book for the first time. This will be a compact mimeographed number. I hope that it will be finished early in December. We would like very much to have a brief message from you to our readers, who will include various supporters of the School, graduates, parents and pupils.

School routine has settled down for another winter's work, and we are looking forward to it with pleasure.

With personal regards.

Believe me to be,

Yours very sincerely,

Fred Eley.

My dear Dr. Kley,

I am happy to have this opportunity to convey a message to yourself, and also to the graduates, parents and pupils of the Elkhorn Industrial school, through the medium of your School Year Book, an undertaking which I regard as a commendable enterprise.

On the occasion of my recent visit to your school, I was impressed with the improvement that was apparent throughout the institution.

I am confident that the present standard will be maintained, and I would like to impress upon your readers that the future success of the school will depend largely upon the loyalty and interest of its graduates and supporters.

Yours sincerely,

Reverend Fred Kley, D. P. I.,

Indian Industrial School,
ELKHORN, MANITOBA.

May 8th. 1918

Dear Mr. Scott.

You will I am sure understand just what it all means to me giving up the work here, in the which I have been engaged since 1890, and parting with my girls and boys whom I have become so much attached to; but circumstances have been such as to bring this about and our school of which we have all been so proud has now practically passed out of existence much to our deep regret.

I do so trust, however, that the pupils who have gone out from here will make good use of the training they have received and will make succeed in the various occupations of life they may enter and so reflect credit on themselves and their Alma Mater.

In regard to myself, I may say that for several years past I have felt the strain of Institution Life and the heavy responsibilities connected with it and as you know I have also had family sorrows to bear all of which have helped to bring about a very much run-down condition of health.

Dr. Goodwin, under whose treatment I have been for sometime past says, that, I am quite broken down in health and that it is absolutely necessary that I have a complete rest for a protracted period, and he has given me a certificate of health to this effect, a copy of which is herewith enclosed.

I feel the need of a complete change and rest for a good long period; but It would be impossible for me to consider

Duncan C. Scott Esq.
Deputy Superintendent General.
Ottawa.

Indian Industrial School,
ELKHORN, MANITOBA.

consider having this, unless the Department would kindly grant me an extended leave of absence on salary.

After I have settled up my affairs here I will have little left, and it would be out of the question for me to think of taking the rest I need, unless I were on salary and had the means to provide for the expense I would be under while away and the support of those who are dependent on me.

I should feel most grateful to the Department, if a year's leave of absence on salary were granted to me, and I trust, owing to the condition of my health, the long service I have had and the sudden termination of what I had so hoped would have been my life's work, that, my request will receive your kindly consideration.

I don't know just how long it may take to get everything packed up at the school and shipped away, if this should be the wish of the Department; but, I should be glad to be allowed to remain in our present home until after July next, as this would allow of my children completing this school term and give me the time I want to go over the correspondence, returns, documents, etc., which have accumulated during the past 28 years and which will not again be required.

Faithfully yours.

Principal.

Indian Industrial School

ESTABLISHED 1888.

A. E. WILSON, PRINCIPAL.

Elkhorn, Manitoba. June 29th. /18 19

Personal.

Dear Mr. Scott:-

In my letter of the 15th inst., I thanked you for your exceedingly kind letter of the 11th. inst., and said that I would reply to it more fully within the course of a few days. It was a great relief to me to receive your letter and I deeply appreciate the kindly consideration you have shown both for Miss Vidal and myself.

It is very difficult for me to know, just at the present time, what is really the best thing for me to do or what plans to make for the future, as so much depends on you and what you may consider advisable in my case.

For instance my Mother, who is very frail and in declining health, is very desirous that I should move out to B.C., with my family, and be near her during the closing years of her life. This is also what all the members of my family who are living there wish; but, more particularly since this school, which was established by my late Father, is now closed.

I should very much like to move out to B.C. after my work is finished here, but, more particularly for the Winter as I feel that the change and rest out there would be most beneficial not only to myself but also to Miss Vidal and the family. This would, however, necessitate heavy expenses in moving and as we would have no home to go to it would also mean renting a house which with the additional high cost of living would make it most difficult for me to manage on my present salary.

As regards continuing in the Service. It is very necessary that I should do this, as I have spent the best years of my life in the Indian Work and owing to my not being in good health and having nothing on which to retire it means everything to myself and those dependent on me to be allowed to continue. This is one of the questions troubling me and which makes it difficult for me to make any plans for the future, as I have no idea of what you may wish me to do, or where you may send me, after my extended leave of absence has should have expired.

When you

Duncan C. Scott. Esq.
Deputy Superintendent General.
Ottawa.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

When you and Mrs Scott were here in September 1912, you thought that I was entitled to a visit to Ottawa, as it was then over a number of years since I had been there, and you then very kindly expressed your willingness to allow me to go; but, at that time and since I have not seen my way clear to accept your kind offer. I should now, however, feel most grateful to be allowed to go and to have the privilege of consulting with you personally, in regard to my extended leave of absence, my future employment in the Service, the length of time it may be possible for you to allow Miss Vidal and myself to remain in the service here, and also in regard to matters connected with the disposal of the equipment still in the school and the final winding up of affairs here.

The Lists of the Government property which I was instructed by the Department, in its letter of the 10th inst. No.116823/1, to send to the Principals of the different Church of England schools mentioned have been sent out and some have since been returned to me as directed. When they have all been received I will forward them to the Department as instructed. I might mention, however, that some of the articles shown on the lists are, in my opinion, hardly worth shipping to other schools. Several of the articles of furniture are home made and of little worth, also some of the equipment which was sent to our school from the Rupert's Land Industrial School, after the fire there, is in a very much worn condition and would not be of much value to whatever school the Department might decide to send it.

There is also the stationary equipment, such as the gasolene engines, gas machines,and laundry machinery, most of which are embedded in cement.- which would have to be taken down and packed for shipment and this would require the help of mechanics. Mr. Jas. Goldie, formerly mechanical instructor at the school, has obtained employment in Winnipeg, and other help would have to be obtained, if the Department should decide to dispose of all this equipment.

I thought that, if you would kindly sanction my going to Ottawa, I could take the Lists with me and go over them with you and then receive your final instructions in regard to the disposal of everything here. It would mean much to me, in this my time of doubt and difficulty about so many things, to be allowed to see you personally and I would appreciate the concession more than I can say.

Very faithfully yours,

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

4

July 5, 1918.

Dear Mr. Wilson,-

I have your letter of June 29th. I do not think any good purpose would be served by incurring the expense of ~~bringing you~~ to Ottawa at the present time. When Mr. Graham was here I discussed with him the question of distributing the supplies of the school, and asked him to undertake the disposal of this property, so that we might know when the institution was finally closed. It was never the intention to move such bulky machinery as the gasoline engines, gas machines and laundry machines.

I am quite at a loss how to consider your outlook for the future; personally I would like to continue you in the service of the Department, but it is extremely difficult to find anything for which you are specially fitted. I think that you would enjoy living in British Columbia, but there is no Indian work in

J. R. Wilson, Esq.,
Industrial School,
Elkhorn, Man.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

that province to which you could be assigned; if you went there to live with the idea that you might sever your connection with the Department and find some congenial employment, it might be possible that you would be successful. Under these considerations we would give you the year's leave of absence.

I must have an opportunity of discussing this matter with the Hon. Mr. Meighen when he comes back from London.

I did not count on keeping Miss Vidal on the pay-list longer than the end of December.

I am sympathetic with your present position, but it seems quite impossible for me to be more definite than I have been, but you might write me further.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

ESTABLISHED 1888

A.E. WILSON. PRINCIPAL

Elkhorn, Manitoba. July 31st. 1918 19

Personal.

Dear Mr Scott:-

After receiving your kind letter of the 5th. inst., I communicated with my Mother and relatives in B.C. and have since received word to the effect that it would be most unwise of me to go to the expense of moving my family and Miss Vidal out to the Coast without the assurance of some employment in the Service after my extended leave of absence should have expired. I have therefore decided to give up all idea of going to the Coast, as, in face of the heavy travelling expenses which would be incurred, the very limited means at my disposal, the high cost of living out there, the present condition of my health and there being no position in the Service which you could offer me, it would be folly for me to attempt the undertaking, and with this I am sure you will agree.

It would now appear that the only alternative is for myself, family and Miss Vidal to remain in our present home as long as you will kindly allow us to do so, and for me to get out and around as much as possible and in this way obtain the change and rest I so much need.

When Mr. Graham, Commissioner, was here he mentioned that he thought there would be no objection to our remaining in our present residence until it were needed for some other purpose and that this might not be for sometime to come. In any event it would be in the interests of the Department to have some one residing on the School premises to look after the property in general and this condition would be met by our remaining.

I do so trust that the plan suggested will meet with your approval and that you will kindly allow us to remain in our present home. It will be such a relief to us all to have our plans for the future somewhat more settled than they have been, and I am sure that you feel for us in this matter.

I am enclosing, herewith, the Medical Certificate which you wished me to forward and trust that it meets requirements.

Sincerely yours,

Duncan C. Scott Esq.
Deputy Superintendent General.

COMMISSIONER'S OFFICE.

Personal. REGINA, SASK. Aug. 20, 1918.

Dear Mr. Scott,-

You have no doubt heard of the death of Mr. Jowett at Gleichen. This will, of course, create a vacancy at the Blackfoot Agency.

Mr. Mast at Carlton has expressed a desire for a change to a point where he can obtain educational facilities for his children, and I would suggest that he be transferred to the Blackfoot Agency.

To fill the vacancy at Carlton it might be a good idea to try Mr. Wilson there. There is however a disposition on his part to feel that the Department owes him a good deal. I know that the Battleford Agency was mentioned to him, but as far as I am aware he took no notice of the suggestion

D. C. Scott, Esq.,
Deputy Supt. General of Indian Affairs,
Ottawa.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

suggestion or any steps to try and secure it. If you are prepared to consider the advisability of sending him to Carlton, I would not like him to accept the position under the impression that he is receiving consideration for past good services. He should be given to understand that he must make good there, and I should like to be in the position of being able to dispense with his services if he does not prove efficient. I believe that the question of giving him leave is under consideration but if he should be offered the position at Carlton and accept it, it is clear that he should relinquish the idea of procuring leave of absence. I make the suggestion of offering him the Clerkship at Carlton somewhat reluctantly, as our work is of such a nature that it is important appointments should be filled by capable men and those who are prepared to put every effort into their work.

Yours very truly,

W. M. Graham

Commissioner.

August 29, 1918.

Dear Mr. Wilson,-

I have your letter of July 31st. I had hoped that when you wrote me again you would, at least, make some suggestion as to the future, because, as I told you on July 5th, it seems it is extremely difficult to find any continued work for you in the Department, but you make no suggestion whatever as to future employment. I do not think you could administer an Indian agency successfully, and the clerical positions which would be suitable are very few.

A vacancy has just occurred at the Blackfoot agency, which I have pleasure in offering you. Mr. Jewett, the clerk at that agency, died a short time ago, and we must have a competent clerk, the salary is $1,000.00 per annum with one ration and a free house. It would be necessary for you to assume this position at once and to give satisfaction to the Agent. If you do not feel inclined to accept the

A. E. Wilson, Esq.,

CANADA

position, I will recommend to the Minister that you be given extended leave and that your service with the Department will terminate with the leave of absence. Kindly let me know by wire or by return mail, at the latest, as the position at the Blackfoot agency, Gleichen, Alta., must be filled immediately.

As there is no increase in salary, the transportation of yourself and family from Elkhorn to Gleichen will be paid by the Department.

Yours very truly,

Deputy Superintendent General.

ESTABLISHED 1888

A. E. WILSON, PRINCIPAL

Elkhorn, Manitoba. Sep't.3rd.1918 19

Personal.

Dear Mr. Scott,-

I have just received your very considerate letter of the 29th. of August, offering me the position of clerk at the Blackfoot Agency, Gleichen, Alta., and I thank you very sincerely for your kind offer. I wired you this morning as follows. " Gratefully accept position offered, Letter following by first mail." I can assure you that I will endeavour to the best of my ability to give satisfaction to the Indian Agent and to render faithful service in the new position to which you have so kindly appointed me.

If it meets with your approval I should be glad to be allowed to remain here until about the 15th. inst. or until the salary cheque for August arrives, as I need funds before leaving. It means much to us to be allowed transportation for myself and family to Gleichen and I am most grateful to you for granting this concession. We propose shipping our household effects and belongings to Gleichen by car, as it will be less expense and trouble in sending in this way. I shall be glad to receive a transport requisition to cover the freight on the car, and also two railway requisitions for the railway fares of myself and daughters to Gleichen. It is my intention to leave my daughters, Melita and Muriel, to look after the packing and shipping of our household effects and when the car arrives at Gleichen I will advise them and they will follow and get things settled in our new home. Miss Vidal and my son, St Clair, will remain with friends in Elkhorn for the present.

In regard to some of the furniture, at the principal' residence, shown on the stock-sheet. I should be grateful to be allowed to take this when we move, as we will need it in our new home. It has been in use a number of years and for the sake of old associations is of more value to us than it would be to any one else. I can conscientiously say that during

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

during the 28 years I have been principal of this school I have spent a very considerable part of my income each year, directly and indirectly, in the work of the school, so that it would be some compensation and a help to myself and family, in making a start in our new home, if you would kindly allow us to have what is there.

My daughters are pleased over the thought of going further West and being nearer the Coast, and I am sure that we will find the life at the Blackfoot Agency interesting and congenial.

Again thanking you for your kindly interest in our behalf and with sincere regards from us all.

Believe me.

Ottawa, September 9th. 1918.

Dear Mr. Wilson.

I have your note of September 3rd. and am glad that you are accepting the position at the Blackfoot Agency and giving us your assurance that you will try to give every satisfaction. I think you will enjoy living at the agency. It is just a few minutes walk from the town of Gleichen. We have two boarding schools on the reserve, and it is within an hour's run from Calgary. The Agency is an important one and you will find plenty to do.

You are at liberty to take the furniture you mention to Gleichen, it will, of course, remain the property of the Department. I am asking the Accountant to issue your transportation. I presume the house will be vacated before the 15th. but you had better communicate with Mr. Goodersham.

Yours very truly,

Deputy Superintendent General.

ALSO TO DATE OF THIS LETTER

REGINA, SASK., Sept. 18th, 1918

Dear Mr Scott,-

I was surprised and thoroughly disappointed to receive your letter of the 9th inst. informing me that the vacant clerkship at the Blackfoot Agency is being filled by Mr. A.E.Wilson of Elkhorn.

It was only yesterday that I wrote you saying I was uneasy about the recommendation I had made that Wilson be sent to Carleton, as on thinking it over I felt sure he could not even fill that position. On top of this, to get your letter appointing him to a far more important position, was to say the least, a great disappointment. Now Mr. Scott, you are aware that my whole interests are in the new work that has been given to me and that I have worked night and day to make it a success. You are also aware that I have had a large experience, not only with the handling of Indians but with farming as well, and when I make recommendations

I

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I do so with the sole object of improving matters. When I hear of appointments such as this, it takes all the stamina out of one and gives the impression that the work is not worth while and that the Department is prepared to go along in the same old way. You know what Wilson is. I discussed him with you, while in Ottawa, and in the face of this he is sent to one of the most, if not the most important Agency in the West. I would ask you, how I can go to that Agency and expect to get the work speeded up, where such a large amount of money is handled, receipts to be given etc. with a man of Wilson's calibre ? You may say that Wilson will have to make good. From this I gather that you have the idea that he will be able to make good, as otherwise you would not ask the Department to be put to the expense of sending him there.

I have had very bitter experience in the past trying to get rid of incompetent men, who have not only caused me embarrassment but have cost the country

thousands

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

+

. thousands of dollars through their mismanagement,to say nothing of retarding the progress of the Indians. I had thought from the understanding we had in Ottawa that nothing but competent men would be appointed for these positions for the future,and you can naturally understand how I feel in the matter and how the securing of results will be retarded by such a handicap being placed on the work.

To be candid, I cannot see how any real results are to be obtained, if we are to go along in this way. It may be that the Minister has taken this action thinking Wilson is competent,without referring the matter to you,and not knowing Mr. Wilson,in which case I have nothing to say only that I hoped you would have been able to post the Minister as to the nature of the work required and the lack of qualifications of the man who has been sent there.

Yours very truly

W. Graham

AND
ID DATE OF THIS LETTER

October 4th. 191 /18

Private.

Sir,—

Dear Mr. Scott.

Mr. Commissioner Graham and Mr. Crombie, Inspector, were here on the 2nd. inst., and I had a chat with the former in regard to my position, as clerk, at this Agency. I told him that it was utterly impossible for me to continue in this position, as I was physically unfit to do the work required. He said that you were absent from home, and advised my wiring the Hon. Arthur Meighen, Minister of the Interior, and informing him of my physical unfitness for the position and asking that I be granted the year's leave of absence and to leave the Service, . as stated in your letter of July 5th.last.

The Commissioner, however, did not wish his name mentioned in connection with the matter.

I am, herewith, enclosing a copy of the Lettergram which is being sent to the Minister, and I sincerely trust that my request will be kindly granted.

I may mention that in accordance with the instructions received from the Department, I left for the Blackfoot Agency, Gleichen, Alta, on the 22nd of Sep't, to take the position of clerk there, but about two hours after my arrival, I was informed by Mr. Gooderham, Indian Agent, that, I was to be transferred to the Duck Lake Agency, and I arrived here on the 26th of Sept. I have given the position a trial, with the result that I find I am physically unfit to do the work required.

It is very necessary that I have a good long rest and a complete change, and when in better health I hope I may be able to find some some lighter work, in Insurance, or some other line of work. I therefore trust that the year's leave of absence, at the rate of salary allowed me after the School was closed in May last., viz. $ 1500.00 per annum, will be kindly granted me - as in my present state of health and being without a home and short in funds, it will be difficult for myself and family to manage on less.

The Department has as yet been put to no expense in paying freight charges on our personal belongings and house effects being moved from Elkhorn to Gleichen, or to this place, so, that I would feel most grateful, if, you could see your way to allow freight charges on a car

2. *Sir,—*

from Elkhorn to Calgary, where I think it best for us to go, until our future plans have been decided upon.

Our Home at Elkhorn has been broken up and the furniture, etc., all packed and ready for shipment, so that it would be better for us, in every way, to now move from there. My daughters and son are still at Elkhorn and will wait there until I have heard from the Department and am able to advise as to our future plans. The cold weather is coming on and I am most anxious to get my family settled somewhere, in a home of our own, at as early a date as possible, but, I know you will understand the situation and will do all you possibly can to help us at this trying time.

I have felt the cold Winters of late very much and in my present state of health feel that it would be better for me to move further West where the weather will not be so severe. Furthermore, my Mother is again very seriously ill and she has been taken to a private Hospital, in Victoria.B.C, and from recent accounts, it is not expected that she will live much longer. If we were to move to Calgary it would be less expensive for me to go and see her, than if we remained in Elkhorn, so that when everything is duly considered, I think it advisable to go further West and to make Calgary our head-quarters, at least for the time being.

I trust you will pardon me for writing to you so freely about my personal affairs, which I know are of no interest to the Department, but, I do feel that you will take them into consideration and make some allowances, when deciding as to my year's leave of absence and therewith severing my 28 years service with your Department. I feel it very deeply doing this, but, under the circumstances and owing to my being so run down in health and needing a complete change and rest, I fully realize that it is the only course I can follow.

Assuring you that I deeply appreciate the many kindnesses that you have shown myself and family during the many years it has been my privilege to be connected with your Department, and trusting that ~~this~~ the Hon.Mr. Meighen, Minister of the Interior, and yourself will favourable consider my request.

Believe me.
Always yours sincerely,

E. B. Wilson

15th October, 1918.

My dear Mr. Scott:-

I thank you for yours, but since I wrote you last, I have returned from my long stay in Toronto. It is doubtful now whether I shall be able to spare the time to make another trip to the East, but I am in communication with the other representatives of the other Churches which have Indian Boarding Schools and when I hear from them, I will let you know what is likely to be done. With the enormously increased cost of living, it is claimed to be quite impossible to carry on the Schools on the present per capita grants. The Schools in Calgary seem to be in a very bad way.

Do you know what has become of Mr. Wilson lately of Elkhorn? Did he obtain any employment from your Department? He was so hurt at me on account of the closing of the School that he has never communicated with me since.

With kindest regards, I am,

Very sincerely yours,

Duncan C. Scott, Esq.,
Deputy Superintendent General,
Indian Affairs,

October 26th. 1918.

Dear Mr. Graham

I have your letter of October 22nd. No. 23-19. I quite agree with you that Wilson has had a fair chance and we are treating him well under the circumstances.

I note what you say about Elkhorn. Would it be possible to get your scheme for our own utilisation of these buildings on paper before very long? The Military Hospitals are considering the possibility of using them for soldiers who have become mentally unbalanced, and the Soldiers Settlement Board is considering the possibility of using the buildings. Your scheme would, of course, receive first attention, and we would not make any disposal of the buildings without considering it, but I think it would be advisable to present it without evitable delay.

Yours sincerely,

Deputy Superintendent General.

W. M. Graham, Esq.,
Commissioner,

Dear Sir Wilfrid:

I have thought of writing Calgary
once before; for a time we have
& I have been here for the past two
days looking over the situation with
this end in view. However, owing
to the serious illness of my brother,
& my Father writing me urging me
going to Victoria to reside. I have
decided to go there, as soon as my
family arrive from Ottawa.

The expense of moving my family
and furniture will afford; from Ottawa
to Victoria, is going to be very heavy (over $500.00)
it is my duty to make it effortless for
me to manage for some months to

Dear Mr Scott.

I had fully intended writing to you in time for Christmas, but my time has been so fully taken up since coming here, that I was unable to do so.

One case of personal affair was so long delayed in transit, that it was not until the 11th of December, that we were able to move into the house we have rented, and since then we have all been kept on the go, trying to get properly settled.

Dear Mr. Scott.

I regret being obliged to trouble you, but I have been put to considerable inconvenience through not receiving my cheque for February last, at the time expected. I shall feel most grateful to you if you will kindly have it forwarded, as soon as possible, to my new address.

We are now residing at 1452. Vining Street, and like the House very much better than the one we had on Vancouver Street.

Dr. and Mrs Clark of Reston recently paid us a visit and it was a very great pleasure to us seeing them again. I am enclosing a snap-shot picture, which was taken shortly before they returned to Reston.

My daughters join with me in sending kindest regards to you and Mrs Scott, and we do hope that some day we may have the pleasure of seeing you both again.

Faithfully yours.

The Hon. Dr. S.F.Tolmie.
Minister of Agriculture.
Ottawa.

Dear Dr. Tolmie.

In the interview you kindly granted me, shortly before you were leaving for Ottawa, you said that I might write to you, in regard to my being granted an extension of my leave of absence and that you would take the matter up with the Department and see what further could be done for me.

At the time when I wrote to Mr. Duncan C.Scott, Deputy Superintendent General, it was out of the question my continuing in the Service owing to the condition of my health. On this account and owing to my Mother's failing health and the desire on the part of my relatives that I should move out to B.C. I decided, after duly considering everything, that this was the wisest course to follow. Since coming here my health has improved, but I am not as yet physically fit to undertake strenuous work, or to undergo any heavy strain.

I mentioned to you that I had met the late Dr. J.A.J.McKenna, shortly before he died out here, and that he had asked me about the School and what had been done for me. I told him and he said, " Wilson you should have been granted a pension after the many years (28) you have spent in the Indian Work". He also said, that, it would be difficult for me at my age in life and handicapped as I was, by being in ill-health and without capital, to make a new start in life. He advised my applying for an extension of my leave of absence when the time should come and said that there was no reason why it should not be granted, owing to the circumstances of my case.

The cost of moving out here, and buying such things as were needed for the house, was over $700.00. Then living expenses are very high and I have obligations to meet, which all makes me feel anxious as to the future, especially, as I am not yet physically fit to stand any strain. The work in which I am now engaged and which keeps me in the open most of my time is without doubt the best for me to follow, if I am to regain my health.

If the Department will kindly grant me an extension of my leave for six months, or at least until the end of the present

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

fiscal year, ending March 31st./20, I would hope by that time that I would be in good health.

In this regard, I am enclosing, herewith, a report from Doctor, B.B.Holden of this City, in which reference is made to my general physical condition. I am also enclosing a copy of the letter I wrote, on Oct. 4th. /18, to Mr. Duncan C. Scott., Deputy Superintendent General, and a copy of his reply thereto.

Mr. Duncan C.Scott and Dr. H.P.Whidden, M.P. who have both shown me much kindness, will I am sure do what they further can to bring about an extension of the leave now asked, as they will fully understand the circumstances of the case.

I feel deeply grateful to you and Mr. McIntosh for the very kindly interest you have shown on my behalf. Thanking you very sincerely and with best wishes.

Believe me.

Faithfully yours.

Ottawa, Sept. 4th, 1919.

Duncan C. Scott, Esq.,
Deputy Superintendent General,
Dept. of Indian Affairs,
Ottawa.

Dear Mr. Scott:-

Many thanks for your courteous favor of the 2nd instant, and I will be greatly pleased to see you tomorrow morning if no matter of greater importance intrudes.

While at the coast I met Mr. A. E. Wilson, Clerk in the Indian Agent's office at Duck Lake, Sask., who is now on sick leave at the coast. I promised Mr. Wilson before leaving for Ottawa to interest myself in his behalf, and since my arrival here I have received a letter from him asking me to implement my promise. Mr. Wilson enclosed copy of letter to the Hon. Dr. Tolmie, Minister of Agriculture, a medical certificate from Dr. D. B. Holden, Victoria, and copy of his letter for extension to you, as well as your reply. I enclose you the two former and will be glad if you can accede to Mr. Wilson's request and be in a position to so advise me when I see you personally.

Faithfully yours,

A. K. Maclean

September 9th. 1919.

Dear Mr. McIntosh,

I am in receipt of your letter of September 4th. written on behalf of Mr. A. E. Wilson, formerly an officer of this Department. Mr. Wilson was granted a full year's leave with pay on retiring and I do not see how we can possibly further extend his leave. This was granted, not on account of Mr. Wilson's health, but because we had to close the Elkhorn Indian Industrial school, of which he was principal.

It is quite true that we offered to continue him in the service in a clerical position and transferred him to the Duck Lake Agency, but he stated he was physically unfit to do the work required and accepted the alternative offer, that is that he should have extended leave of absence with pay, and that his services should be terminated with the leave of absence.

As I have stated our regulations would not permit of anything more than a year's leave with pay, but I am making an explicit statement of the case because I have always been friendly to Mr. Wilson and have considered his interests on every occasion.

I shall be absent from the city for a couple of weeks beginning Monday next and I thought it best to write you this letter in case you might not be able to pay me your promised visit. The subject will, however, be discussed when we meet.

Yours sincerely,

J. C. McIntosh, Esq., M.P.,

Dear Mr. Scott.

Since you were here, I have had the pleasure of meeting Sir. Henry Drayton, Minister of Finance, and in having a short chat with him in regard to the matter, which you and the Hon. Dr. Tolmie, Minister of Agriculture, have so kindly taken up on my behalf.

Sir Henry Drayton was most kind and sympathetic and said that he would be pleased to support yours and Dr Tolmie's efforts in the direction stated.

I thought it advisable to let you know of this and I might further mention, that, owing to the short time I had with Sir Henry Drayton I was unable to go into details with him, in regard to the case in question.

As explained to you, it will mean everything to myself and family, if the Department should, in view of the circumstances of my case, kindly grant me some further substantial consideration at this time, and I cannot tell you, Mr. Scott, how very deeply it would be appreciated.

With very sincere regards from myself and family to you and Mrs Scott.

Believe me.

Dear Mr. Scott:-

I very often meet Mr. Wilson, late of the Elkhorn School, on the streets and he generally stops me and bores into me with those sorrowful eyes of his to make enquiry as to whether I have heard anything from you as to what is being done about his case and I have been standing him off with the answer that if he is to receive any compensation under his claim the money would have to be provided for in the estimates and that he need not expect to hear anything until these have been passed. Now that we are in the new fiscal year I thought I would drop you a line in order to keep this man out of further suspense and to find out if there is any possibility of meeting with his request.

Yours sincerely,

Dear Mr Meighen:-

When you were last in Victoria, I had the privilege of meeting you and in having a talk with you in regard to a claim which I had submitted to the Department of Indian Affairs, for further concessions being granted me , in view of the many years (28) I had spent in the service and owing to the circumstances of my case.

I further mentioned that I had taken this matter up with the Hon. Dr. Tolmie, Minister of Agriculture, and with Sir. Henry Drayton, Minister of Finance; also that I had gone fully into the particulars of the case with Mr. Duncan C.Scott, Deputy Sup't General of Indian Affairs.

I might also mention that when the Hon. Mackenzie King, Leader of the Liberal Party, was here I was enabled, through the kindness of the Rev. Mr. Chadwick of this City, to have an interview with him. Mr King was most kind and sympathetic and said that he would gladly do anything he could to further the cause in question.

You will readily understand that after being accorded these kindly interviews and being assured that everything possible would be done for me, that, it was hard for me to credit the contents of the letter, which I received yesterday, from Mr.W. E.Ditchburn, Chief Inspector of Indian Agencies.B.C. A copy of the letter is attached herewith.

In fact I had felt so certain, that, at least the account for $1,300.00 which I had submitted and which was supported by a Statutory Declaration, would be allowed, that, I obtained a loan of $400.00 to tide me over for the time being. This and other obligations which I have to meet make it most trying for me, and you have conception, Mr. Meighen, of what it is going to mean to my family, my Mother and myself, if nothing further is done.

I was in ill-health at the time when obliged to leave the service, and in August 1919 a letter from Dr.D.B.Holden(of this City)to this effect was forwarded to the Hon. Dr. Tolmie.

Surely the case is worthy of further consideration, when everything is duly considered, and I earnestly trust you will look upon it in this light and make some concession.

Sincerely yours.

Right.Hon.Arthur Meighen.
Prime Minister of Canada.

June 25, 1921.

Dear Mr. Ditchburn,-

In April the Right Honourable the Prime Minister had a letter from Mr. A.E.Wilson on the subject of his claim. It was sent to me for action, but I delayed writing you about it as there seemed to be nothing new to report. I wrote you on April 12, 1921, stating the facts,- that I could not get any support for his claims and would therefore have to drop them. When it is known that we have giv[illegible] Mr. Wilson a full year's leave with pay the conclusion was immediately arrived at that we had treated him fairly generously. The claims were not in themselves convincing and therefore the task of obtaining recognition was all the more difficult.

I wish you would tell Mr. Wilson that while the Right Honourable the Prime Minister handed these papers over to the Department, the Superintendent General cannot give favourable treatment to his claims, [redacted]

Yours very truly,

Deputy Superintendent General.

November 9,1921.

Memorandum:

Mr.Lynton,
Private Secretary to Honourable Dr.Tolmie,
Minister of Agriculture.

I have pleasure in giving you the facts regarding the claims of Mr.A.E.Wilson, formerly an officer of this Department, Principal of the Elkhorn Industrial school.

When this school was closed we endeavoured to accommodate Mr. Wilson with another position, but he found it impossible to accept anything that we could offer him, and he decided to take the year's leave of absence that we offered him in trying to obtain other employment, when he moved to Victoria, B.C.

When we were endeavouring to give him employment in the Department, it was suggested that he should be appointed Clerk at the Blackfoot Agency with headquarters at Gleichen. I mention this now in order that you may understand the reason for one of the claims that he has made.

Mr.Wilson claims that his health was so impaired that he could not take proper advantage of the year's leave of absence, and in fact failed to establish himself as he had hoped.

In the first place, if I remember correctly, he asked for an additional year's leave of absence, but when I was in Victoria in 1920, he decided to claim from the Government $1,300, which he had spent in prizes and like disbursements when he was principal of the school, and this he supported by a statutory declaration. He also wished to be paid his travelling expenses from Elkhorn to Gleichen and sent in his account therefor. These were the principal claims he made.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

4

I discussed the claims with the Minister, but he could not see his way clear to put an amount in the Estimates. This would be necessary. I was always willing to take this action, although I felt that we would be treating Mr.Wilson with great consideration by asking Parliament to recognise the claims. I thought it was preferable to put them before the Minister in this form than in the form of an additional year's leave of absence, which would also have required a vote of the House. There has been very generous sympathy for Mr. Wilson, and the Minister was not in any sense hostile to the claims but found it difficult to find reasons to support them.

I should be very glad, if Doctor Tolmie wishes, to take the matter up again with him and Sir James Lougheed, and to present the case in as favourable a light as possible. Unfortunately, Mr.Wilson's claim, supported by affidavits, has been mislaid, and as yet I have not been able to find it.

Dear Doctor Tolmie,-

I had the opportunity of laying the case of Mr.A.E. Wilson before the Honourable Sir James Lougheed, Superintendent General of Indian Affairs, and yourself this morning. As there is at present no Parliamentary appropriation from which any payments might be made to Mr. Wilson to meet his claims, it will be readily understood that the matter cannot be dealt with until the next session of Parliament. I have to assure you that at the proper time I will take a personal interest in laying the matter before the Minister and presenting Mr. Wilson's case in as favourable a light as possible, so that the Government may be induced to favourably consider the claims and provide the necessary funds.

Yours very truly,

Deputy Superintendent General.

January 27, 1922.

Memorandum:

Honourable Charles Stewart.

With reference to the papers attached hereto, consisting of a claim made on behalf of Mr.A.E.Wilson by the Rev.F.A.P.Chadwick, of Victoria, B.C., I beg to report as follows :-

Mr. A.E.Wilson was for many years the principal of an Indian industrial school at Elkhorn, Man. This school was the only institution conducted wholly by the Government. All our other residential schools are conducted by the denominations interested in them with the financial aid from the Government, but the Churches contribute generously towards the support of these schools. The cost of conducting this single Government institution was very much higher than the per capita grants paid to denominational schools and was, therefore, a constant mark for invidious comparisons. As it was difficult to get pupils for the school we decided to close it.

We endeavoured to find a place for Mr. Wilson in our service, but failed in that, as he did not find it possible to take a clerical position, and was not fitted either by temperament or experience for the position of Indian Agent.

Under these circumstances, we gave him a full year's leave of absence with pay, with the hope that he would establish himself and be successful. Unfortunately, it seems that this has not been the case, and he has applied to the Department for further consideration and assistance.

When I was in Victoria in 1920 I had several interviews with him. I think I may say that he preferred that his

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

claim should take the form of an additional year's leave with full pay, but as I pointed out that that was difficult to grant now that he had completely severed his connection with the service, he submitted the claim for $1,300.00, consisting of small amounts which he had spent in the interest of the school during the term of his principalship. This was supported by statutory declarations. He also wished to have his travelling expenses paid from Elkhorn, Man., to Gleichen, Alberta, and sent in an account therefor. Unfortunately these papers were mislaid and cannot at present be traced.

Mr. Wilson has had several influential men support his claim, and I am personally sympathetic with it, and have always so expressed myself to the Ministers who were dealing with it, although I must say that favourable treatment of the claim would be a remarkable precedent.

I am sending herewith copies of letter which I wrote to Chief Inspector Ditchburn, of Victoria, on June 25, 1921; a memorandum which I made for Mr. Lynton, Hon. Dr.S.F.Tolmie's Private Secretary, on November 9, 1921; and a letter which I wrote to the Hon.Dr.S.F.Tolmie on November 17, 1921.

I present the facts of the case somewhat in detail, as I see from Rev.Mr.Chadwick's letter that he thinks the action of the Government,(I presume he means the Department)most extraordinary,and that there was absolutely no reason for the treatment Mr. Wilson received. Mr. Wilson was fairly and considerately treated by both the Department and the Government.

It will be observed from my letter of November 17, 1921, that the matter was to be further considered by the Hon.Sir James Lougheed and the Government, and that I was to lay the matter before the Minister in due course. I am quite willing to do that now, and then it may be decided whether an item or items may be placed in the Estimates for the special purpose of relieving Mr. Wilson.

Victoria, B.C., 26th April, 1922.

Dear Mr. Scott:-

Referring to the claim advanced by Mr. A. E. Wilson, late of the Elkhorn School, I thought it best to advise you that I am of the opinion that unless something is done in trying to meet his request you will not get much peace. As you, no doubt, are aware, some time ago he enlisted the sympathies of a number of prominent people in the city of Victoria and had the Rev. Mr. Chadwick write to the Honorable Arthur Meighen and Sir James Lougheed, the late Premier and Superintendent General of Indian Affairs respectively, advancing reasons why some compensation should be given to Wilson. This resulted in a letter from Hon. Dr. Tolmie, then the Minister of Agriculture, stating that the Government intended to ask Parliament to provide in the Estimates a sufficient amount to cover the claim, and everything appeared to be rosy for Mr. Wilson. I understand, however, that the new Government are not favourably disposed to doing anything in the way of carrying out the promises of the late Government in this particular case and Mr. Wilson and his friends have got very busy lately and had further letters written to the "powers that be." I thought it best to give you this information. I had an interview recently with Rev. Mr. Chadwick, who asked me if I could not do something in the matter but I absolutely refused, stating that it was a question entirely outside of my jurisdiction and that I did not care to take any official action in the matter nor did I care to express any opinion as to the merits or demerits of the case. To you, however, I may say unofficially that it may be possible that Mr. Wilson's claim has never been viewed from the standpoint of his being so long tied up in the Indian work in the Prairie Provinces and then being retired and as there were no commercial opportunities in the immediate vicinity of his field of activities it was necessary for him

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

7

to come to the Coast to try to recuperate his health and to establish himself in order that he might make a living. This naturally must have taken a considerable portion of the year's salary which he was paid on retirement and as the work in which he had been employed for so many years was so different from commercial life it would necessarily take him some time before he could settle himself down to meet the public and talk business. I may say that he is very far removed from being an up-to-date insurance agent so far. Possibly viewing the case from this angle might be sufficient to warrant a reconsideration in his favour. I may say that Mr. Wilson nor his friends do not know that I am writing this letter.

Yours sincerely,

H. E. Dieterman

Dear Mr. Ditchburn,-

In reply to your letter of the 26th April, regarding Mr.A.E.Wilson's claim, I have to say for your own information that I reported to the Minister on January 27th, last, with reference to it, and he will, I am quite sure, be ready to consider any representations that may be made. The representations mentioned in the latter part of your letter have, I think, been considered, and I agree that they should be given due weight. I think that all that you and I can do is to wait further developments.

Yours very truly,

Deputy Superintendent General.

To the Hon.S.F.Tolmie,
Minister of Agriculture,
Victoria, B.C.

Hon. and Dear Sir,-

x x x x x

This was in October, and on arriving at Duck Lake it was found that the house in which he was expected to live was really not fit to move into at that time of the year and spend the winter with his family. Mr.Wilson was not in good health at this time, and the whole experience was, in my judgment, a terrible ordeal. He resigned in 1918, under conditions that must have been heart breaking.

(4). Mr.Wilson was given a year's salary and came to Victoria in 1918 with his family, and has been making a brave endeavour to re-establish himself and provide a home for his family, consisting of two daughters and one son. One of the girls is not very strong and the little boy has had a dangerous illness and requires constant medical attention. Mr.Wilson himself is unfit for steady work. At the same time Mr.Wilson is working very hard endeavouring to make his way. The year's salary that Mr.Wilson received is not at all sufficient compensation for the whole lifetime of devoted service that he rendered to his country. It will be admitted that when a man has given all his consideration to such an occupation as Mr.Wilson has been engaged in he is by that very experience unfitted and untrained for other lines of work or business. It is unfair to Mr.Wilson to be cast off without further compensation and it is my opinion and the opinion of a great many friends of Mr.Wilson, that he should receive an appropriate pension, at least equal to that which other Civil Servants are entitled to. I cannot impress on you too strongly my earnest conviction, after careful and impartial study of this case, that Mr.Wilson's case is an exceptional one, and that considering his long service, his ill health and the extreme difficulty he is experiencing in getting re-established, he should receive generous financial recognition, as follows :-

not in very good health and his doctor reports that he is really

1. A stated pension of $(Such as would have been entitled to if retired.

2. Remuneration for expenses in moving to Victoria,B.C.- $700.00

Yours very sincerely,
(Sgd) F.A.P.Chadwick (Rev.)

If you cannot see your way to secure this, the least remuneration he should get would be -

Travelling expenses for himself and family to Victoria..$7
A further year's salary..... 1

OFFICE OF THE MINISTER OF PUBLIC WORKS

GL

Ottawa 6th October, 1922.

Personal

Dear Mr. Scott,-

I enclose copy of correspondence relative to the case of Mr. A. E. Wilson.

Dr. King intended seeing you personally regarding this matter, but he has had to leave for the Maritime Provinces and was therefore unable to do so.

While in Victoria, Dr. King was interviewed by many prominent people, who manifested very great interest in Mr. Wilson's case. They feel that injustice has been done him and, although his retirement took place before the Calder Act became effective, they urge that everything possible be done to afford relief to Mr. Wilson, in view of the splendid record which he had when an employee of your Department.

The Minister would be glad if you would advise him if it is possible to have a recommendation made and an item noted in the Estimates to provide the necessary funds to reimburse Mr. Wilson his expenses, as outlined in the attached memo, which were incurred when he was moved to Victoria; an additional year's salary of $1,500, and such a sum as he would have been entitled to had he been retired under the Calder Act.

Yours truly,

G. Kaiserman

Private Secretary

Duncan C. Scott, Esq.,
Deputy Superintendent General,

Dear Mr. Heidman,-

I have to acknowledge the receipt of your letter of the 6th October, with inclosures, which deal with the case of Mr.A.N.Wilson. I have read the papers and I am returning them herewith.

Although I have never been able to agree that any injustice was done Mr. Wilson, I have always presented his case in as fair a light as possible. The difficulty is to get the Government to make a precedent in his case. I hope you will assure Doctor King that I will take the matter up with my Minister when we are discussing the Estimates. Mr.Stewart has already received several communications in Mr.Wilson's behalf, and the circumstances of the case are well known to us.

Yours sincerely,

Deputy Superintendent General.

+

To the Honourable
W.L.M. King
Prime Minister of Canada .

Dear Mr. King ,

I feel that I should again address you regarding the case of Mr. A.E.Wilson of Victoria , late Superintendent of the Indian School at Elkhorn . The reason for my doing so is that I had the honour recently of a most encouraging interview with Mr. Scott, Deputy Superintendent of Indian Affairs, when he was in Victoria.

Mr. Scott knows very thoroughly the details of the case , and is sympathetic towards Mr. Wilson .

I need not weary you at this time with all the reasons why Mr. Wilson should receive your best consideration , but I do feel that after nearly thirty years of service , and service of a most efficient and patriotic kind , as is attested by men and women of the highest standing in Canada, Mr . Wilson should receive a worhty financial recognition .

I feel that if you insisted that justice be rendered in this case it would have the required "punch" to bring it to pass .

So I plead with you to advise that either one of two things be done ---

(1) A pension be granted for the amount he would have been entitled to if he had not been practically ejected ,and remained till age for retirement , which would have been very soon.

(2) A special money grant of $2200.00 to pay or compensate for the unexpected and emergent expenses he was put to at the time of his retirement . (I know that he received some compensation at the time , but it proved to be altogether inadequate, and his necessary outlay in getting a house &c would in all conscience require far more than he received .

Mr. Wilson is in dire need at the present time , the blow he has been too great for him , and it would only be a matter of human justice for him to receive what I now ask for him .

With many thoughts of the old times , and with continued wishes for your future success ,

I remain Your sincerely ,

F.A.P. Chadwick

P.S. May I suggest that you consult Hon J.A. King and Hon W.R. Motherwell regarding it ?

October 4th. 1923.

Dear Mr. Chadwick,

The Rt. Hon. the Prime Minister referred your letter to him to the Hon. Charles Stewart and I had an opportunity of discussing the matter very fully with him yesterday. We went into the question very particularly and I gave Mr. Wilson's case most sympathetic presentation as he did careful and considerate hearing. The Minister did not, however, come to the conclusion that it would receive favourable attention by the Treasury Board, and he did not authorise me to insert an amount in the estimates, nor could I receive any authority for paying the bill which Mr. Wilson left with me when I was in Victoria for rent of house from the 1st. November 1918 to October 31st. 1919, $480.00.

Under the circumstances you will understand that I regret very much having to write you so unfavourably but so far as the actual presentation of this claim is concerned, and the attention of my Minister, you can be assured that everything possible was done to come to a different decision.

Yours sincerely,

Deputy Superintendent General.

Dear Mr. Woodsworth,-

I beg to acknowledge the receipt of your letter of the 24th ultimo, written on behalf of Mr. A. E. Wilson, of Victoria, B.C., and to say that I have noted the contents of same.

Mr. Wilson was for many years the Principal of an Indian industrial school at Elkhorn, and, when this school was closed, we endeavoured to place Mr. Wilson in another position, but failed in that, as he did not find it possible to take a clerical position and was not fitted either by temperament or experience for the position of Indian Agent. Under these circumstances, we gave him a full year's leave of absence, with pay, hoping that he would during that time establish himself and be successful. Unfortunately, this was not the case, and he has on many occasions applied to the Department for further consideration and assistance. His case has been most sympathetically considered, but the only way to assist him would be to obtain a special Parliamentary appropriation, and it has not been found possible to have favourable consideration given to this.

COMMISSIONER'S OFFICE,
[redacted]
VICTORIA, B.C., August 11, 1924.

Personal.

Dear Doctor:-

I am sorry to bother you again about the case of A.E. Wilson, late of the Elknorn School.

He has been anxiously awaiting my return to the Coast and apparently expected me to be able to give him some satisfactory assurance that something would be done for him. I gathered from him that he has been standing off his creditors with this hope. He seemed very down at heart when I informed him of what you told me, which was to the effect that although you had placed items on the Estimates in his favour, these had not been allowed and that he must go after the politicians who had knocked him out.

As I explained to you in Ottawa, he will lose his home unless he can get something to at least meet the interest on the mortgage. It appears that he cashed-in on a life insurance policy to make the first payment on his home and gave a mortgage of $2,500 which he has been unable to lift or even keep up the interest.

Of his two daughters, one is working in a dentist's office at a salary of $65.00 per month; the other stays at home to look after the house; a boy of fifteen goes to school. Mr. Wilson informs me that he has not earned over $300 during the past year.

To-day he informed me that he would be willing to give up all claim against the Department if he were allowed $480 which he paid as rent for the house when he first came here, together with the amount of bonus he would have received for the seven months,

Dr. Duncan C. Scott,
Ottawa,
Ont.

Dear Mr.Meighen,-

I have your note of the 11th May,with inclosure, with reference to the claim of Mr.A. E.Wilson.

I think it well to send you a copy of the memorandum which I wrote to the Hon.Dr.Tolmie's Private Secretary on Nov.9,1921, in which I deal with this case. Since then, although it has been before the Minister several times, there has been no change in the decision which was come to by Sir James Lougheed, and I have not received any direction to place an amount in the Estimates.

While I have very active sympathy for Mr.Wilson's condition, as I have received letters from him and have seen him twice or three times at Victoria, I must acknowledge a certain weakness in his claim. It really rests on his statement that his health was impaired when he began the year's leave of absence and, therefore, was not able to establish himself in commercial life. I do not think, therefore, that there is much use in bringing the claim before the Minister again.

Yours very truly,

Deputy Superintendent General.

PRIVATE PAPERS

From 22/4/18
to 4/3/29

106-0-1

485

Ottawa, March 4, 1929.

Dear Mr. Plunkett:

I have your letter of the first instant, with enclosures, concerning the request of Mr. A. E. Wilson, 615 Island Road, Victoria, B. C. In view of your representations, I made careful enquiry into his case; but I regret to state I cannot give a favourable reply.

Mr. Wilson was, for many years, the principal of an Indian residential school at Elkhorn, Man. In 1918, this school was closed, and the Department endeavoured to place him in another position. Mr. Wilson found it impossible to accept, and he decided to take a year's leave of absence with pay, which was all that could be granted.

Since that time, on many occasions, Mr. Wilson has applied to various Ministers for further consideration. Most sympathetic attention has been given; but the only way to assist him would be to obtain a special appropriation. I regret that it has not been found possible to make any further payments in his case.

Yours faithfully,

D. D. Plunkett, Esq., M. P.,
House of Commons,
Ottawa, Ont.

Ottawa, May 21, 1929.

Reverend Sir:

The Department is desirous of learning if the older girls at the Elkhorn Indian Residential School are being trained in milking cows. As most of the graduates of your school will return to reserves that are largely farming communities, it is very important that the girls be fully competent in this particular. The Department expects that the older girls, under proper supervision, will be given a course of instruction in milking, and I shall be pleased to learn that suitable arrangements have been made.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy & Secretary.

MEMORANDUM RE LANDS AT THE ELKHORN INDIAN RESIDENTIAL SCHOOL.

In 1891, the Department purchasedfrom the Rev. E. F. Wilson, for the purposes of the Elkhorn Indian Residential School, Lots 4 to 11, in Block 2, and Lots 1 to 8, in Block 3, Plan 2939, town of Birtle. (Abstract of Title entered under 314.) The purchase price was $1,548.64. This was the site of the first school which was burned in 1895. Before rebuilding, it was decided to secure a better site.

On October 6, 1898, an Order in Council set apart Sec. 35, T. 11, R. 29, W. P., for the purposes of the Indian Industrial School at Elkhorn. This section had been relinquished by the C. P. R. for this purpose - the consideration being other lands. It was in error that this section was set aside for the Indian School. It was acquired for a trade with a Mr. Wilcox, who owned land which was suitable. P. C. 2914, of December 30, 1898, rescinded the earlier O. C. and set apart, under Sec. 31, of the Dominion Lands Act, -

(a) The S. W. ¼ of Sec. 4, and the S. E. ¼ of Sec. 5, T. 12, R. 28, W.P., excepting 4-1/5 a. in Sec. 5. which comprised the C. P. R. right of way.

(b) Lots 1, 2 and 3, in Block H. and all of Blocks K. & L., in the town of Birtle.

The certificates of Title for the parcels in A. and the deed for the parcels in B. were forwarded to the Interior Department with our 116823 of October 31, 1898 (Interior Dept. File 178746). The parcels mentioned in A. had been owned by W. J. Wilcox, who was given a patent, by the Interior Department, to Section 35, which had been inadvertently set apart. The town lots mentioned in B., which are the actual site of the school buildings, were a free gift from the town of Birtle or the C. P. R., or both, on account of the location of the Indian School at Birtle. These town lots were deeded on July 7, 1897, to the Federal Crown and were included when the Department of the Interior set apart lands for the school. It later developed that there had been a misunderstanding regarding the trade with Wilcox, and a Mr. Cushing, who acted for him, having pointed this out, received a special payment of $506.50 in lieu of the fact that the original town lots, which were purchased from Wilson in 1891, were not deeded to his client.

Order in Council of May 5, 1904, approved of a trade between the C. P. R. and the Department, whereby the N.½ of L.S. 14 of the N.W. ¼ of Sec. 33, T. 11, R. 28, W.P (20 acres) was given to the Department for the purposes of the Elkhorn School, for a consideration of $150, and for 4.28 acres in the S.W.¼ of Sec. 4, T.12, R.28, which was deeded to the C. P. R. as a gravel pit. A description of this gravel pit will be found on this file.

In 1901, it developed that the old town lots, the site of the ...nal school, were not really required any longer. O. C. of ...3, 1904, authorized the Superintendent General to dispose ...ots. They were advertised for sale in January, 1913, ...old by auction on April 21, 1917. The sale of Lot 1, ... was cancelled and the land resumed by the Department. ...ember 27th, 1924, the sale of Lots 2 to 8, Block ... 5 to 11, Block 2, was cancelled and the ...d by the Department. (The sale of Lot 4, Block 2,

MEMO FOR FILE:

Miss Ida Dale, now at R. R. No. 1, Westboro, interviewed me yesterday and reports that conditions are not at all satisfactory at the Elkhorn Indian Residential School. She was bakery and dairy matron from September, 1929, to May, 1931. Her report is that Mr. Eley is drinking and that, in May and June of this year the following members of the staff, in addition to herself, have resigned or were discharged:

Miss G. E. McCarthy,
Miss M. I. Dunn,
Miss M. Nichols,
Mr. Stoddart,
Mr. Foster.

She also says that Miss Melville, now employed at St. Paul's Indian Residential School, Miss Baird and perhaps Miss Williams, now both at Lac la Ronge, could also give information regarding Mr. Eley's habits.

It appears that Dr. Westgate has recently investigated the charge which was made to him in his office by Miss Dale, so, if we do not hear from Dr. Westgate in a few weeks, I purpose writing for a report.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

I beg to inform you that the Rev. F. Eley, Principal of our Elkhorn School has been granted 2½ months leave of absence in the hope that the rest may improve his health. During the summer Mr. Eley underwent a surgical operation, but was shortly afterwards afflicted with rheumatic fever. He has gone to England to visit his aged mother, and during his absence Mr. W. H. Bradley, the Vice-Principal, has charge of the school.

Trusting this arrangement may be satisfactory to your Department, I remain,

Your obedient servant,

T. B. R. Westgate

Rev. Sir:

I have your letter of the 13th instant, informing the Department that Rev. F. Eley, Principal of the Elkhorn Indian Residential School, has been granted, on account of ill-health, 2½ months leave of absence, and that Mr. W. H. Bradley, the Vice-Principal, will have charge of the school during the period Mr. Eley is absent.

If you are assured that the work at this school will be carried on satisfactorily under the charge of Mr. Bradley, the Department will approve of him having charge during the absence of Mr. Eley. As you are aware, there will be a large number of children under his charge, also expensive equipment. The Department has no information regarding his experience, and would be pleased to have your opinion as to his fitness for the proper supervision of the work at this school.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

Sir:-

I have the honour to acknowledge the receipt of your letter, No. 106-0-1, dated the 19th instant, re leave of absence granted the Rev. F. Eley, Principal of the Elkhorn Residential School.

Mr. Bradley has been Vice-Principal of the school for some considerable time, and the Principal reposed implicit confidence in his ability to administer the school for a limited period. The present Matron, Miss C. L. Gibson, is also an experienced worker, as well as a Registered Nurse. In addition the Farm Instructor has been at the school almost since it's reopening, and the entire staff is considered efficient and well balanced.

I have the honour to be,

Sir,

Your obedient servant,

Asst. Secy-Treas.
Indian Residential School Commission.

Inspector's OFFICE,
Winnipeg, Man., December 2nd, 1932.

Dear Doctor McGill:-

I have the honour to submit the following report on the Elkhorn Indian Residential School, inspected between November 20th and 22nd, 1932.

The junior room is in charge of Miss A. C. E. Field who was ill with rheumatism at the time of my visit. Miss Field is a qualified teacher, and from previous observation, I would judge that she is doing splendid work.

The senior classroom is in charge of Mr. Wm. H. Bradley who also acts as Assistant Principal. His classroom is only open during the afternoon on account of the extra duties falling on him due to the absence of Rev. Fred Kley, the Principal. The time table is so arranged that all the senior boys attend the classroom in the afternoon, and thus the half day system is carried out. In September Mr. Bradley was ill for two weeks, therefore the classroom work has been somewhat interrupted.

The children were all well dressed, clean and tidy in appearance. The discipline, both in the classrooms and around the building, was good and the children are well mannered. At present there are 95 pupils in residence, and these, with the 6 absentees, bring the total up to 101. Mr. Bradley informed me that they could accommodate 120 pupils.

The kitchen is supervised by Miss Plant, and the food appeared well prepared. The food served

OTTAWA.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

November 22nd was as follows:-

Breakfast - Porridge with milk & sugar, Bread with syrup; Tea, & cocoa for the small children.

Lunch - Vegetable soup, bread, tea, milk, and milk pudding (rice).

Dinner - Beans, bread & jam, tea & cocoa

The children were in good health and according to the chart of weights all, with the exception of one or two, show fair gains. The food served was wholesome and well prepared, but, as noted by the menu, vegetables or meat do not play a large part.

The laundry work is supervised by Miss Shaw. The laundry is well equipped. Monday is used as wash day, and Tuesday and Wednesday for ironing. The balance of the week Miss Shaw spends in the sewing room teaching the girls to mend, etc. A few new clothes are made, but most of the children's clothes are provided by the church societies and arrive ready to wear. This arrangement is a great help to the Principal, but does not give the girls much opportunity to learn sewing, and this is one side of their training which should be stressed.

The dairy and bakery is supervised by Miss Smith. In this department the girls do most of the work, and as a result, are good bread-makers. Small bakings and buns are made from time to time, but bread required for the children is made in large quantities and mixed by a power mixer. Bread is made four times a week, each of the and at three mixings. 100 lbs. of flour is used; the fourth baking on Saturdays requires 200 lbs. The bread seen was of

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

seen was of good quality and wholesome. At present the milk is all used for the children and baking, but later, when the cows begin to freshen, butter-making will again be carried on.

The boys' supervisor is Miss Harvey. She has charge of their dormitories and playroom. I found these to be tidy, well aired, and clean. The toilets were all in good condition, and both tubs clean. Some of the mattresses are in poor condition - in fact, a number have been replaced by the use of cotton ticks filled with straw.

The girls are supervised by Miss Topping, and she is apparently rendering good service. The girls' dormitories were in good condition, and all wash basins and toilets in working order.

The fire escape door in the senior girls' dormitory was locked, but the other doors were unlocked. In my last report dated November 28th, 1931, I recommended that these doors be wired and attached to the fire alarm. This would safeguard anyone opening the door to enter or leave, unknown to the staff, and would do away with the locks. I still think this precaution should be taken. The light switches for the dormitories have been changed as recommended, and are a great improvement. I had two fire drills while at the school, one during the day and one during the night. The children got along well and were out in less than four minutes. The engineer, Mr. Caniff, keeps all the fire equipment in good condition, and extinguishers and axes can be found on each floor. The fire alarm bells appear too small, and when the laundry and pump are operating, it is difficult to hear the alarm throughout the basement. Larger bells should be

installed

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

installed or an additional one placed in the laundry. The engineer is capable of doing this work and only the material would be required.

The Matron, Miss C. L. Gibson, is a graduate nurse, and appears a capable woman for the position. Miss Gibson is a new appointment since my last visit.

The garden did not yield well, and by Christmas they will have very few vegetables except potatoes. The potato crop was also light, and the supply will hardly last until spring.

The farm crops were poor, but they are fortunate in having sufficient rough feed.

The cattle are in fair condition, and within the next few months several cows will freshen. The cattle stabled number about 20 head. In addition to this stock, they have 11 horses and about 16 pigs. At present no poultry is kept.

The interruptions in the classroom work, due to sickness, is very unfortunate, and, in cases of prolonged sickness, a substitute teacher should be provided.

The Principal, Rev. Fred Kley, had not returned from England, where he has been spending some weeks in the hopes of regaining better health. Mr. Bradley, the Acting Principal, I believe, is doing good work and, during the absence of the Principal, has handled the situation well.

Yours very truly,

A. G. Hamilton

Rev. Canon S. J. Wiskens, B.A., B.D.
(Principal)

[redacted]

The Elkhorn Indian Residential School is located on the main line of the C.P.R. It is about ¼ mile from the village of Elkhorn and 197 miles west of Winnipeg.

The School property, which belongs to the Dominion Government, consists of the main building, three residences, barns, implement sheds, granaries and other outbuildings that go to make up a well-equipped school and farm.

In addition there are 320 acres of arable land. The quarter section on which the buildings stand includes a large vegetable garden and pasture for cattle and horses.

The School rents a further 480 acres of land adjoining the Federal property and most of this is under cultivation.

[redacted]

The history of the Elkhorn Indian School has three distinct chapters.

The first chapter started in 1885 when the Rev. E. F. Wilson, founder and principal of the Indian Home at Sault Ste. Marie, took a journey through the North West and was impressed with the needs for a school similar to the one he had already established.

On his return to Ontario he endeavored to raise funds to bring such benefits to the Indians of the plains.

Unsuccessful at first, he resolved to make a last effort. He issued a pamphlet setting forth the need and stating that if anyone would give $1,000.00 to make a beginning he would go forward in faith and leave the rest with God.

This pamphlet fell into the hands of Mr. Rowswell of Elkhorn, who offered the $1,000.00 required. This gift was supplemented by others and the Dominion Government then came forward with a grant.

The new home was opened on June 10th, 1888, with four pupils and one teacher. These four children stood the new and unusual life for twelve days and then all ran away together!

Others arrived, however, and on August 6th, 1889, the home was formally opened by Archbishop Machray and given its name, "Washakada Indian Home," out of compliment to Mr. Rowswell, whose Indian name was "Washakada," meaning "all that is good."

In 1892, Mr. A. E. Wilson, son of the founder, was appointed and the success of the school was assured.

The School was at this time situated in the village itself and pupils came to it from reserves as far distant as the Blackfoot and Blood. Many came from pagan homes and accepted Christian baptism while

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
[redacted]

under tuition. Bootmaking, printing, tailoring, carpentering, tinsmithing and harness making were taught by trade instructors. Some of these instructors were resident at the School and others were local tradesmen who accepted Indian boys as apprentices.

In 1895 a destructive fire consumed most of the buildings. Within three days, however, the work was resumed in other rented premises in the village.

The second chapter opened when the Government decided to erect a new and substantial pile of buildings on the present site, which would make more extensive farming operations possible.

1897 saw the new plant occupied and under the efficient work of Mr. Wilson, who gave his best years to the Indian, the School held a leading place among the institutions of its kind.

In 1918, the Federal Department made a change of policy, which, unfortunately, resulted in the closing of the Elkhorn Indian Home after three decades of splendid service.

The third chapter started in 1923, when it was decided to make extensive alterations and additions to the School which had been vacant and neglected.

The Rev. F. Eley acted as Principal during the difficult period of reconstruction and in January, 1923, the first new pupils were admitted. The School was reopened under the administration of the Indian Residential School Commission of the Missionary Society of the Church of England in Canada.

Mr. Eley, who gave ten years of constant service, won for the School a reputation for efficiency and discipline.

The present Principal was appointed in August, 1933.

WHERE DO THE CHILDREN COME FROM?

The Elkhorn School is unique in that although a school for Indians it is not located near to any Indian reserves.

The nearest Reserve is at Griswold, over fifty miles away, whence come the Sioux Indians—a non-treaty band—originally refugees from the United States, seeking sanctuary in Canada.

In addition to the Sioux there are Crees, Ojibway and Saulteaux children coming from Fairford, Lake St. Martin, Little Saskatchewan, Scanterbury, Peguis, Fort Alexander and the many reserves north of The Pas, reaching up to York Factory and Port Nelson on the Hudson Bay, 1,000 miles away.

January 1st, 1935, saw 155 pupils in residence, ranging in ages from [illegible] years to seventeen years, and coming from about sixteen different reserves.

WHAT ARE THEY TAUGHT?

In the schoolrooms the curriculum of the Provincial Department of Education is followed and the Provincial Inspector makes regular visits, as in the White schools.

There are at present two classrooms and the children attend school on one half day each day. The Grades go up to and include Grade VII. One girl is doing her Grade XI. at the High School in town.

The Junior Class Room

The many bench trades taught in Mr. Wilson's time, forty years ago, are no longer on the curriculum, but more emphasis is put on farming, gardening and kindred occupations.

Sawing Wood

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

During the half day out of classrooms the boys work on the School farm under the direction of the Farm Instructor. While the senior boys handle the farm, others work in the garden or care for the herd of 35 Holstein cattle and attend to the horse barns, piggery, etc. Rough carpentering, engineering, painting and incidental work is done as occasion demands.

The School Barns

In addition, the boys milk the cows, assist in the Dairy and Laundry. They wash dishes, lay tables, make beds, scrub and sweep.

Milk Boys

The girls put 2,000 garments through the Laundry every week, about [illegible] half of these being repaired in the Sewing Room under the direction of the Sempstress.

The Laundry

Butter making is taught in the Dairy and more than 700 loaves are baked every week in the School Bakery.

The Dining Room

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Girls' Dormitory

General cooking is done in the main kitchen and the girls perform other necessary duties of housekeeping in various parts of the building.

The Kitchen

The success of the children in the classroom and practical arts is illustrated by the fact that at the Regina, Brandon and Elkhorn Fairs in 1934, the results achieved were as follows:

Sewing—54 entries: 34 prizes.
Cooking—5 entries: 2 prizes.
School Work—36 entries: 15 prizes.

A School Council, consisting of six senior pupils, assists the Principal in some of the tasks of School government. This Council consists

of two captains and four councillors elected from the boys' and girls' sides of the school. These chosen leaders exercise a limited measure of authority and so are trained in initiative.

Thus, the School objective is not merely a schoolroom education but a many sided development, which will enable the graduates to take their places in life as industrious and efficient members of society, able to do many practical things reasonably well.

WHAT ARE YOUR ORGANIZATIONS?

The School lantern gives entertainment and occasionally a movie picture show is provided. The usual social evenings and a "visiting" night once a week gives opportunity for boy-girl contacts under proper supervision. A club night in cold weather and a radio, presented by an ex-member of the staff, fills in a pleasant evening.

The girls have a branch of the Woman's Auxiliary and some belong to a Glee Club.

In Winter, there are two skating rinks—one for the boys and another for the girls. Hockey teams play with the White boys in the village and the Indian boys have gained an excellent name for good sportsmanship.

Senior Hockey Team

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In Summer, football is played and baseball is played by both boys and girls. Basketball is provided for the girls.

The School has a cadet corps and a gymnastic team.

Gymnastic Team

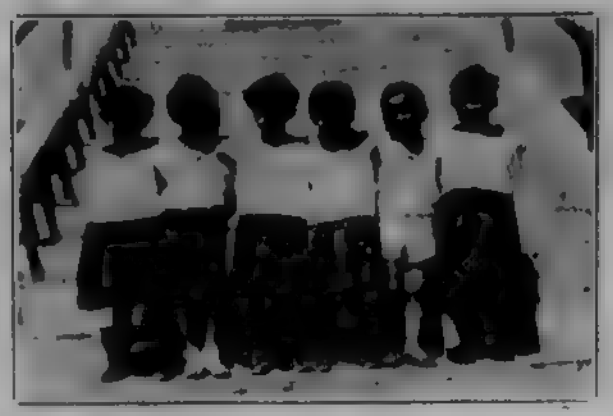
The girls have drill and hikes in the summer and all children unable to go home for their holidays have a happy time at picnics and other such treats.

Girls at Drill

WHAT IS DONE FOR THEIR HEALTH?

A resident nurse with a well-equipped dispensary cares for the sick, while the School doctor lives only a few hundred yards away.

A daily treatment is given for Trachoma. Frequent doses of cod liver oil and Parrish's food help those who need it. A carefully balanced diet in the dining room is provided and a monthly weighing of every child tells its story of progress. So little is the larger room of the School hospital used that it has been turned into a dormitory for the babies.



The Babies

WHAT IS DONE FOR THEIR RELIGIOUS LIFE?

As the School crest indicates, Religion is at the heart of all that is done.

Religion is the key stone of the bridge between the old life and the new.

No matter how well-formed and laid the stones of health, farm and classroom training may be, the passage of the pupil from admission to graduation cannot be safely accomplished unless the key stone of the bridge is well and truly laid.

So Religion is at the centre of all the work. Christ is in the kitchen and at the plough, as He is in the Chapel.

Every day is The Lord's Day. Rising bedside prayers, dining room prayers at breakfast and supper, grace before and after meals, retiring bedside prayers—all these emphasise the place of prayer in the daily Christian life.

Every Sunday morning at 7.15, and on Saints' Days there is Holy Communion in the School Chapel. These are voluntary services and always well-attended.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The School Chapel

There is a daily Bible reading and religious instruction is given in the classrooms. Sunday School lessons are taught by the staff and in 1934, thirty-two children received certificates for success in the examinations set by the General Board of Religious Education.

Confirmation Class, 1934

The Sunday services inculcate the habit of public worship and the closing minutes of the graduating pupil's life in the School are spent at the Altar, as the Principal prays a blessing.

Then the graduate goes out to battle against the wiles of the Devil, so often seeking his or her undoing on the Reserve.

WHAT OF THE GRADUATES' FUTURE?

How the graduate meets the future depends largely on how he has been prepared during the years at Residential School. How he measures up to the strange contrast of Reserve life depends on how deeply the Christ life has been seen and lived while at School.

Too often going back to the Reserve means "going back" in more ways than one. Will the reader pray for the graduate pupils?

Character is made by the impact of personality upon personality. In the Residential School character must be made by the impact of the White man's character upon that of the Indian.

Dear Reader! Will you pray that the workers in our Residential Schools may live so near the Great Personality that our Indians may find Him Whom to know is Life Eternal?

THE SCHOOL PRAYER

O Almighty God, grant Thy blessing, we beseech Thee, to the Elkhorn Residential School and its activities; bless the Missionary Society and its endeavour; the Missionaries and all Christian Workers: the pupils and their witness; prosper with Thy favour all our undertakings, especially our efforts to make this institution a light to all Thy children. Forgive our failures, kindle our love and unite us closely in the service of Thy Kingdom, through Jesus Christ our Lord. Amen.

REC'D

Dear Sir,

I beg to enclose herewith a booklet illustrative of the work done at the above School.

Under the paragraph " What is its history?" you may be interested in seeing a part explanation for the strange location of this School.

If you would be good enough to hand a copy of the booklet to Mr. Sutherland I think he will be glad to see it.

I am,

Yours obediently,

S. J. Wickens

INDIAN AFFAIRS
DEC 27 1934

E X T R A C T from Inspector Beveridge's Report regarding his visit to the ELKHORN INDIAN RESIDENTIAL SCHOOL on December 5 & 11, 1934.

Original on File 106-0-6.

The conditions noted in my 1933 report still prevail, the large enrolment (146 at time of inspection) making it necessary to relay classes in both rooms. This means that each pupil is receiving only from two and a half to three hours daily instruction in the classroom. This is not such a serious matter for the older girls who receive valuable training in the performance of household duties under supervision nor for the older boys ~~XXXXX~~ during the summer months when they also may be usefully employed on the farm. But the latter during the winter months and the younger children throughout the year lose much through lack of suitable activities and spend too much time in which they are not profitably employed. In my opinion, the addition of another classroom and teacher would do away with much of this loss, permit a more efficient organization of the work of the school and make possible much better results.

During my inspection, I looked over the unused power building. While this would not make an ideal classroom, it might with the removal of the machinery and some alterations be made to serve as such for a time. The upper storey might also be fitted up to carry on in a small way some work in manual training.

MEMORANDUM

G.

SEP 3 1935

SCHOOLS

August 29th, 1935.

Dr. McGill

It is represented to the Minister that the position of Farming Instructor at the Indian School at Elkhorn, Manitoba, is about to become vacant. In the event of the present Farming Instructor tendering his resignation will you please appoint Mr. Carl C. Dahl, of Elkhorn, as his successor. Mr. Dahl has had long experience as a farmer and in the breeding of live stock.

George Buskard,
Private Secretary.

Memorandum:

MR. BUSKARD,-

Referring to your memorandum of the 29th ultimo, relative to engaging the services of a farming instructor at the Elkhorn Indian Residential School, I have to say that, as this school is conducted under the auspices of the Church of England, the church authorities engage the staff and pay their salaries, from the per capita grant which the Department provides the school. While we insist that the various members of the staff be qualified for their positions, the appointments, as stated, are in the hands of the church authorities.

Deputy Superintendent General.

WINNIPEG, MAN. October 29, 1936.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:

I beg to inform you that owing to the condition of his wife's health, the Rev. Canon S. J. Wickens, B.A., B.D., has resigned from the Principalship of our Elkhorn School, and is leaving at the end of the current month of October to take charge of a parish in the suburbs of the ~~Parish~~ city of Victoria, B. C.

As Canon Wickens made a valuable contribution to Indian educational work during his tenure of the Principalship of this School, our Commission sincerely regret the circumstances which have made it necessary for him to retire, for the time being, from the Indian Residential School service. The members are very glad, however, to be able to report that they have secured the services of the Rev. Arthur E. Minchin, B.A. as Canon Wickens' successor, from the 1st November next. As Mr. Minchin is quite well known to your Department, having filled for some time the position of Principal of the Mackay School near the Pas, Manitoba, it does not appear to me to be necessary to furnish you with a detailed statement of his qualifications. His knowledge of the Indian people, and the very keen interest which he takes in the general welfare of their children, along with the experience he has already had as Principal of an Indian Residential School, appear to our Commission to fully justify his appointment.

Approved Recommend

As the appointment to a Principalship such as the one before us, can only be made by your Department, on the recommendation of our Society, I am sending a copy of this letter to our General Secretary, and you will no doubt hear direct from him in the matter in due course. In the meantime arrangements have been made for Mr. Minchin to take charge of the School at the date specified in the capacity of Acting Principal, and I shall be glad to know if this arrangement has the approval of your Department.

Your obedient servant,
T B R Westgate
Field Secretary, M.S.C.C.

Ottawa, November 5, 1936.

Reverend Sir:

I have your letter of the 29th ultimo, informing the Department that Reverend Canon S. J. Wickens has resigned as principal of the Elkhorn Indian Residential School as from the end of October, last. It is noted that you nominate Rev. Arthur E. Minchin, B.A., to act as principal, succeeding Canon Wickens, from the first instant.

The Department regrets that Rev. Canon Wickens has found it necessary to give up duties as principal of the Elkhorn School, where his services were entirely satisfactory. The appointment of Rev. Arthur E. Minchin as acting principal is approved, as from the first instant. The Department is aware of Mr. Minchin's qualifications, from his former services as principal of the MacKay School, The Pas, Man. It is hoped that he will meet with every success in his work at the Elkhorn School.

Mr. Inspector Hamilton, Winnipeg, is being informed of the approval granted for the appointment of Rev. Mr. Minchin as acting principal.

Yours truly,

A. F. MacKenzie,
Secretary.

EX'D.

Ottawa, November 5, 1936.

Dear Sir:

Reverend T. B. R. Westgate, D.D., Field Secretary, M. S. C. C., Winnipeg, informs the Department that Rev. Canon S. J. Wiekene has resigned from the principalship of the Elkhorn Indian Residential School, owing to the state of his wife's health.

On behalf of the M. S. C. C., Dr. Westgate nominates Rev. Arthur E. Minchin, B.A., as acting principal, to succeed Canon Wiekene, as from the first instant. Mr. Minchin is known to the Department, as he was principal of the MacKay School, The Pas, Man., [redacted] years ago. The Department is approving the appointment of Rev. Mr. Minchin, in the capacity of acting principal. It is hoped that he will meet with every success in the work, and I would request that you give him every possible assistance.

Dear Canon Gould,-

The Minister is anxious that I should discuss with you certain changes that he has in mind with respect to the administration of the Indian residential school at Kikhorn, Manitoba.

We have under consideration at the present time, a programme designed to curtail, and ultimately eradicate, the ravages of tuberculosis among Indians and we should like to have active cooperation of the churches in this [redacted].

Would it be possible for me to discuss this matter with you if I visited Toronto on Tuesday or Wednesday of next week?

Yours very sincerely,

APR 29 1958
REGISTRY

R.A. Hoey, Esq.
Supt. of Welfare & Training,
Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ont.

Dear Mr. Hoey:-

When the Reverend Arthur E. Minchin, B.A., was appointed Acting Principal of our Elkhorn School, he was informed that, in due course, a specific recommendation would be made that his status be changed from Acting Principal to Principal.

For your information I may say that Mr. Minchin was for some time Principal of the Mackay School at The Pas, Man. From there he went to Prince Albert to fill the responsible position of Principal of St. George's College. After leaving Prince Albert, Mr. Minchin had charge of an important parish in the Diocese of Brandon until he accepted the Acting Principalship of our Society's Indian Residential School at Elkhorn. He is a graduate in Arts of Saskatchewan University, and in Theology of Emmanuel College, Saskatoon. In view of his faithful and efficient services in Indian educational work, our Commission would recommend that this appointment to the Principalship of the Elkhorn School now be made.

Thanking you in advance for your sympathetic consideration of this request.

Believe me,

Yours very truly,

T.B.R. Westgate

Secretary of the Commission.

Province of
Manitoba
Department of Education

Winnipeg
Office of the Superintendent

May 18th, 1938.

Dr. T.B.R. Westgate,
Secretary, Indian Residential Schools,
184 Alexander Avenue,
Winnipeg, Manitoba.

Dear Dr. Westgate:

The Department of Education wishes to acknowledge with sincere appreciation, the cooperation of your schools in sending to us art materials for the Manitoba Art Exhibit sent recently to the Exhibition of Children's Art in Wellington, New Zealand.

In approximately one hundred school districts, different schools forwarded contributions for this exhibit. The Honorable, the Minister of Education examined the exhibit before it was mailed to New Zealand and expressed pleasure at the quality of the work.

Careful selection was made of the specimens in order to choose for shipment the best work from different types of schools, in city, suburban or rural communities. Much material has been retained at the Department and it has been suggested that a Manitoba Art Exhibit some time next year, be arranged for the school year.

In cases where a special request was sent to the Department for return of materials, these will go forward to you in the near future, or when the New Zealand Exhibit comes back next winter.

The work from Indian Schools was arranged as a special unit in the total display, and comprised a prominent part of the exhibit. One of the teachers of Art who assisted the Department of Education in assembling the Manitoba exhibit commented very favorably on the excellent work done by some of the pupils in Indian Schools. A quotation from his report follows:

> "One of the bright spots is the contribution from Indian Schools. One must congratulate the staffs for their discrimination in encouraging the pursuit of native designs characteristic of their charges. One would regret any attempt to substitute the inanity of much of our design expression for that of the splendid school of native creations. The salvation of the Indian does not lie in inducing him to think along our decorative channels but in carrying on the sense of beauty portrayed in his traditional crafts."

The cooperation of your Church in this gesture of Empire goodwill is gratefully acknowledged.

Yours most sincerely,

(Sgd) Harold C. Etter.

Superintendent of Education.

MAR 20 1942
REGISTERED

Dr. Harold W. McGill,
Director of Indian Affairs,
Ottawa, Ontario.

Dear Dr. McGill:-

On January 10th last I wrote to you recommending that the Rev. Canon A. E. Minchin, B.A., Principal of the Indian School at Elkhorn be appointed Principal of the Shingwauk School at Sault Ste Marie in succession to the Rev. C. F. Hives.

Our Indian and Eskimo Residential School Commission in Winnipeg, after very careful consideration have recommended that the Rev. C. N. Middleton, B.A., Principal of the Residential School at Wabasca be appointed in succession to the Rev. Canon A. E. Minchin as Principal of the School at Elkhorn.

The Rev. C. N. Middleton was born in Calgary, Alberta, on July 29, 1912. He graduated in Arts from St. John's College Winnipeg in 1934; was ordained Deacon in May 1936 and advanced to the Priesthood in May 1937. He was incumbent of the parish of Morden, Manitoba, prior to be appointed Principal of the Wabasca school in August 1938. His services as Principal of the Wabasca school and as missionary to the Indians in that district have been satisfactory both to the Commission and the Bishop of Athabasca in whose Diocese the school is located.

I am accordingly forwarding to the Indian Affairs Branch the recommendation of our Commission and am writing on behalf of the Executive Committee to recommend that the Rev. C. N. Middleton be appointed Principal of the Elkhorn School in succession to the Rev. Canon A. E. Minchin.

Reverend Sir:

In a letter dated March 18 last Rev. Canon Dixon recommended the transfer of Rev. C.N. Middleton from the Principalship of the Wabasca C.E. Indian Residential School to the Principalship of the Elkhorn Indian Residential School. His transfer was approved but I have not yet been officially advised that Rev. Mr. Middleton has taken over his duties.

Recently I received a report, dated April 21, from the R.C.M.P., with regard to a truant and in that report they refer to "Acting Principal G. Hicks". It might be considered, from this information, that Mr. Middleton has not yet reached Elkhorn. I am particularly anxious to know if he is in charge due to the fact that we are very much concerned with the number of cases of truancy that have occurred at this school within the past few months.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

MAY 11 1942
RECEIVED

R. A. Hoey, Esq.,
Supt. of Welfare & Training,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Mr. Hoey:

I have just received your letter of the 4th inst., #106-0-1, requesting information regarding the date when the Rev. C. N. Middleton will be able to take charge of the Elkhorn School, and beg to state, in reply, that it is fully expected he will be able to reach Elkhorn sometime during the current month of May.

I may state for your information that when Mr. Middleton wrote to me last month, requesting instruction as to the date he should leave Wabasca, he was authorized to do so as soon as he considered the road safe for him to take his wife and children over the ninety odd miles between the school and Slave Lake on the railway. As Mrs. Middleton had not been enjoying good health, and as their children are quite young, our Commission did not feel justified in asking them to make the journey during what is known in the Northland as the break-up season. As soon as he reaches Elkhorn I will advise you of that fact.

While writing, I may also say that, until an ordained man has been secured for the Principalship of the Wabasca School, Mr. C. E. Barnes, the Farm Instructor, will take charge of that school in the capacity of Acting Principal. Mr. Barnes has been on the staff for many years, and is well and favorably known to the Indian peoples in the Wabasca district. As so many of the ordained men of our Church have been called to serve as

Chaplains with the Active Forces, our difficulty in securing one for the Principalship of this School is quite a real one, but I hope to be able to tell you before many months have passed that the one required has been found.

I should have stated above that until Mr. Middleton reaches Kikhorn, Mr. Gilbert Hicks will continue in charge of that school as Acting Principal, a position he has held from the time the Rev. A. E. Minchin left to take charge of the Shingwauk School.

Dear Mr. Hoey:-

With further reference to your letter of the 4th inst. (#106-0-1) and my reply to the same on the 7th inst. regarding the date when the Rev. C.N. Middleton will be able to take over his duties as Principal of the Elkhorn School, I beg to state that I have just received from Mr. Middleton a letter in which he states that he expects to be able to leave Wabasca at the end of May. He further states that "As Mrs. Middleton is hardly well enough to travel out over the trail, she will go to Edmonton, with the baby, by plane".

I think I can assure you that there has been no unavoidable delay in arranging for Mr. Middleton's transfer, and that in this, as in all matters relating to the administration of our Society's Indian Residential Schools, our Commission are giving your Department the fullest possible cooperation.

Very kind regards,

Faithfully yours,

T.B.R. Westgate

Secretary of the Commission.

Dear Mr. Hoey:

Referring once more to your letter of May 4th (No.106-0-1) and my replies to the same on May 7th and 13th, I am now able to let you know that the Rev. C. N. Middleton arrived at the Kikhorn School on the 13th inst., and immediately entered on his duties as Acting Principal of that institution. He states that he had been delayed "owing to heavy rains and poor travelling conditions".

Yours very truly,

T. B. R. Westgate

Secretary of the Commission.

Indian Residential School Graduation

Elkhorn, Man., June 30 (Special) —One of the most successful graduations ever held at the Indian Residential school took place last Wednesday evening, June 24, in presence of over sixty guests, including Rt. Rev. W. W. H. Thomas, bishop of Brandon, and Mrs. Cousens, Brandon Dorcas secretary-treasurer. The principal, Rev. C. N. Middleton, Mrs. Middleton and Miss Rosalind Long, R.N, matron, received the guests.

Bishop Thomas congratulated the staff on the years achievement. Mrs Cousens presented the prizes to the 14 girls who took the preliminary St. John Ambulance course. Eight of the girls received acknowledgement cards, presented by Mrs. J Mc McCorkindale. Certificates were given 29 pupils for general board of Religious Education Sunday School Dominion examinations; 26 pupils (17 boys and 9 girls) came forward for graduation. The valedictory was given by Winnifred Thomas.

Memorandum:

- Mr. Hoey -

While at The Pas a delegation of Indians waited on me to air their grievances in connection with the Elkhorn School. The spokesman for the Indians was Cornelius Bignell. He reported that a delegation of Indians of which he was one attended at the Elkhorn School to check up on complaints made by their children as to conditions obtaining there.

The Indians claim to have found conditions in the School very unsatisfactory and report in particular:-

The downstairs toilet in the boys' playroom was plugged and a condition of indescribable filth exists.

The upstairs toilet in the girls' dormitory was also out of order and the girls compelled to bale it out with pails.

The beds in the girls' quarters were in a dilapidated condition tied together with the girls' stockings, strings and any other contrivance that would keep them together.

The clothing and shoes the children were asked to wear were in a deplorable condition and I asked Mr. Lovell to send you the samples that were presented for my examination.

They reported that there was no butter and no bread on the table an enquiry elicited the information that the lack of butter was a punishment handed out to the students because they would not squeal on a boy who had stolen a pound of lard to assist in making a rabbit stew which formed the piece de resistance at a feast they held in the bush utilizing rabbits snared by some of the boys. They also complained that no vegetables had been served for weeks but the School Principal showed them an order that he had that day placed for fresh vegetables.

Over

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The delegation also complained that in a dormitory of 30 or 40 boys there were only two towels made available to them.

They also complained that the school was improperly heated and the youngsters locked themselves in the clothes closets because they were the only places that were comfortable.

Mr. Cornelius Bignell who was the spokesman for the group said that they were afraid to press their complaints very strongly to the Principal as they were sure that he would take it out on the youngsters as soon as they left. Mr. Bignell is a very quiet-spoken, rational sort of person who confessed that their complaints to the Principal were made with a great deal of restraint as they felt that it was the duty of the Department rather than that of the Indians to see that the conditions in the School were remedied. He made the statement that while it was admitted that living conditions in an Indian village were not of a very high standard, they were much less crude, much less insanitary and much more convenient than their children enjoyed in the Elkhorn School. I am sorry that I overlooked discussing this matter with Inspector Hamilton when I saw him later in Winnipeg. You, however, have his report.

This memorandum is only designed to place the text of the Indian complaint before you. The Indian presentation to me was made in an entirely rational way, nobody was abused and the delegation was so restrained in their language that I was very much impressed with their sincerity. If half of what they report is true a surprise inspection of the School should be made.

Memorandum:

Dr. [redacted]

Re: Conditions at Elkhorn Residential School.

I am attaching hereto copy of a memorandum dated March 4, 1944, received by the Superintendent of Welfare and Training from Mr. D. J. Allan, Superintendent of the Reserves and Trusts Division.

I am very anxious that you should, if at all possible, undertake for us a thorough inspection of the Elkhorn School on your return trip from Ottawa. I am particularly anxious that you should report upon:-

1. The condition of the school building, especially the sanitary condition such as the lighting, toilet facilities, the adequacy of the water supply and the adequacy of the space provided in the girls' and boys' dormitories;

2. The condition of the beds in the boys' and girls' dormitories, the adequacy of the bed clothing provided, the condition of this clothing from the standpoint of cleanliness, the condition of the mattresses, etc.;

3. The clothing of the boys and girls - classroom garments, overcoats, towels, clothing provided for outside work, socks, stockings, shoes, etc.;

4. The food provided from day to day for the pupils, with special reference to the adequacy of the milk and vegetables supplied.;

5. the provision made for the heating of the building.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I am anxious to secure information with respect to the amount of vegetables produced from year to year on the school farm and the provision made for the storage of these vegetables.

It is my intention that these references should prove helpful as a guide to you in your investigation and should in no sense limit the scope of your investigation which should be as searching and as thorough as it is possible to make it. In this connection it is just possible that you may find it helpful to interview, not only the Principal, but the members of the staff and a number of the senior pupils.

I intend to make arrangements whereby Inspector Hamilton will discuss this investigation with you on your way through Winnipeg. If the time at his disposal will enable him to do so, it is just possible that Mr. Hamilton may accompany you to the school. A full and complete report on your investigation should be sent forward at the earliest convenient date.

Re: Conditions at Elkhorn Residential School.

I am sending forward herewith copies of certain correspondence relating to the operation of the Indian Residential School at Elkhorn, Manitoba. The subject matter of this correspondence, you will note, is self-explanatory.

I have asked Dr. Sims to discuss this matter with you, personally, when he arrives in Winnipeg on or about March 21. It is just possible, if the time at your disposal will enable you to do so, that you may want to accompany Dr. Sims and assist him in undertaking this investigation. On the other hand, if the time at your disposal is limited and if you have made other plans, Dr. Sims will, I feel sure, be prepared to undertake the investigation alone.

Encl.

Attention Mr. R.A. Hoey Re Elkhorn School

Dear Mr. Hoey:-

I am given to understand that an official inspection of this school was recently carried out and I have reason to anticipate that the report will not be altogether favourable. May I, therefore, be allowed to state a few considerations which I think should be borne in mind in regard to this particular school.

Before definitely assuming my duties under the Commission I visited Elkhorn last May. It was the first of our schools that I had seen and I must confess that in many respects I was really disappointed. The building was manifestly rundown and in need of very considerable work to repair floors, stairways and plaster walls. There was also much need of painting and decorating, particularly in the basement section. One amazing feature to me was the fact that in this large school there was absolutely no provision for recreation. The boys and girls had to use their respective washrooms for indoor play and the results can readily be imagined. With this consideration foremost in my mind I welcomed the plan already authorized by the Department of converting the large building on the grounds, formerly used for Manual Training, into three classrooms. This would allow for the two classrooms in the main building to be set apart for recreation and while this was not ideal it certainly represented a great step forward. I urged the Principal to do everything in his power to press forward with the completion of this plan during the summer months.

With a large enrollment and the handicaps mentioned above, I was not surprised to find trouble in the staff. I have learned to expect trouble when conditions become too difficult and the strain too great. Personal differences had developed under these conditions and I found serious friction existing among our workers. We took steps to correct this situation and made a number of changes, so that by the Fall we had enrolled eight new members of our staff and felt that we were facing a new school year with hope.

Unfortunately I soon learned that a new problem had developed in connection with the Principal. Mr. Middleton had done a good job at Wabasca but my personal opinion is that he had not the

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

necessary strength or maturity of character to handle such a large and difficult situation as that existing at Elkhorn. His domestic difficulties developed and it became evident that he was laboring under a personal strain which prevented him from concentrating upon his school duties. In an endeavour to keep in touch with the situation I have paid three visits to this particular school, and have done my best to press forward the completion of the new classrooms. It was difficult to secure labour and especially skilled help such as bricklaying for the new chimney and also the installation of the furnace. The men on the school staff did considerable work in excavating a complete basement to serve as a vegetable storage, but I think they really undertook more than they could manage and other duties suffered. I visited the school one Saturday morning towards the end of last year and was greatly disappointed to find the work almost at a standstill by reason of these factors. It was a day when the snow had melted and the grounds were so wet and muddy that the children were not allowed out. The classrooms had been scrubbed and made ready for the new week and consequently the children were milling about in the inadequate washrooms and adjoining corridors. It is easy to imagine what damage is done to walls and woodwork and plumbing under these conditions, and I felt deep sympathy for the staff in trying to cope with an impossible situation. I was again assured that the work on the new building would be pushed forward during the Christmas holiday, with every prospect of the playrooms being ready early in the New Year. A little later we gathered that Mr. Middleton would probably be resigning and I gather that he has been unable to put his plans into effect for some time now.

On receipt of some complaints about the school, our Assistant Secretary, Colonel Mernagen, paid a visit a few weeks ago. He took strong measures to see that necessary material was secured to finish the classrooms and also to install or repair plumbing that had been broken or removed. It was with deep chagrin that we heard since that at the time of the inspection one of the most necessary installations had not been made, although the new equipment had been ordered and sent to the school.

I have stated these facts to make it plain that this particular school has not been neglected but has been the object of special concern to us. I feel that the personal difficulties of the Principal have operated against efficiency and we are now bending our energies to find the strongest possible man to take hold of an admittedly difficult situation. I feel that the enrollment shows the need of this school, particularly in view of the fact that the Mackay School at The Pas has never been replaced. I trust that the Department will keep in mind our reiterated request for a new school to be built on the Hudson Bay line between The Pas and Churchill. I am convinced that it is not sound to bring these bush children down to a prairie school like Elkhorn, and that they could much more helpfully be cared for in a building situated in the north. As far as Elkhorn is concerned, I cannot feel there is need for despair if we can secure the right Principal, the provision of playrooms in the building and a sufficient expenditure to repair and put it in good order.

With kind regards, I remain,

Yours sincerely,
H. A. Alderwood
Secretary.

Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ont.
Attention Mr. R.A. Hoey.

Dear Mr. Hoey:-

I regret to advise you that a change in the Principalship at our Elkhorn school has become necessary. The Rev. C.N. Middleton has been unsettled for a considerable time on personal grounds and has given us to understand that he would probably be returning to parish life. We now understand that Mr. Middleton will be leaving the school some time this month, although we have not yet received word from him as to the exact date.

We have for some time been in touch with various men with a view to securing a suitable nomination for presentation to the Department. To safeguard ourselves against any period without a head to the school, we have asked Mr. B. Hodkinson to assume the duties of Acting Principal until a successor to Mr. Middleton is able to take charge. Mr. Hodkinson has just retired from the teaching profession and was commended to us by Dr. Fletcher. Both he and his wife formerly served on the staff at Lytton and he has had a wide experience in ordinary schools. He went to the school at the beginning of this month, so that he would be able to get a general knowledge of the business before Mr. Middleton left.

It is our confident hope that a new Principal may be appointed in time to allow him to assume his duties during the summer in good time for the reopening of the school in September.

With kind regards, I remain,

Yours sincerely,

H. A. Alderwood

Secretary.

Re: Elkhorn School.

Dear Doctor Alderwood:

I have for acknowledgment your letter of April 10, in which you submit information in respect to conditions at the Elkhorn Residential School.

I may state by way of comment that a delegation representing Indians of The Pas district waited upon Mr. Allan, Superintendent of Reserves and Trusts, at The Pas a few weeks ago and complained somewhat bitterly about conditions at the Elkhorn School. These Indians appeared anxious to have an Indian day school established at The Pas. In view of the representations made to Mr. Allan at that time, it was decided to have Dr. Simes, Superintendent of the Qu'Appelle Sanatorium, and Inspector Hamilton make an inspection of the institution, particularly the sanitary conditions. However, I have not yet received a report on the investigation, but it is altogether likely that I shall hear from either Dr. Simes or Inspector Hamilton in the course of a few days.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Re: Principalship, Elkhorn School

Dear Doctor Alderwood:

I have for acknowledgment your letter of April 10, in which you intimate that it has been found necessary to make a change in the principalship of the marginally-noted school.

I was glad to note that you have succeeded in securing the services of a qualified teacher, Mr. Hodkinson, who will take charge of the school until a permanent principal is appointed. I can only express the hope that you will find it possible to make a permanent appointment prior to the opening of the next school year.

Yours sincerely,

Owen

Re: Conditions at Elkhorn Residential School, file 106-0-1, May 3rd, 1944.

When passing through Winnipeg Dr. Simes discussed with me conditions at the Elkhorn School and requested, if possible, that I be present during his inspection. I, therefore, arranged my work and met Dr. Simes at Elkhorn on April 4th.

I understood from the Director, Dr.McGill, that Dr. Simes was being asked to make this special investigation and it was my understanding that Dr. Simes was reporting direct to Ottawa. Dr. Simes understood from the beginning that the whole matter was left to him and that I was not submitting a report.

Forward your report as Elkhorn School without delay

A.G.Hamilton.
Inspector of Indian Agencies
for Manitoba.

Attention: Mr. R. A. Hoey

Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ontario.

Dear Mr. Hoey: Elkhorn School

When visiting the above school a few days ago I was delighted to find very definite improvements already effected under the leadership of Mr. Hodkinson. He is certainly handling affairs in a business-like way and seems to have secured the hearty co-operation of the staff.

On a previous visit I urged again the full use of the military uniforms which your office is kindly making available for the schools, and was assured that Mrs. Hodkinson, who is acting as seamstress, would follow through the suggestion, and I have now had pleasure in sending you a sample pair of boy's shorts which is one of a number shown to me. I took up the question of the terrible items of clothing which were sent to you, and may say that I still find it difficult to believe that any pupil was sent home with such garments. It rather seems to me that they represent the results of some hard wear through the summer and were used to make out a good case. However, I am assured that by reason of the work now being done in the Sewing-Room every boy will go home with a new pair of khaki trousers, reduced to size in the case of the bigger boys and pairs of shorts for the juniors. New clothing is also being made for the girls and we have for some time been making strenuous efforts to secure running shoes and other footwear. As you know, it is exceedingly difficult to obtain supplies of some of these items, but we are hopeful that there will be no cause for complaint on this occasion.

With kind regards, I remain,

Yours sincerely,
H.A. Alderwood.
Secretary.

(C O P Y)

538 Dominion Public Bldg.,
Winnipeg, Manitoba,
May 29th, 1943.

Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ontario.

I inspected the Elkhorn Indian Residential School on May 18th and wish to report as follows:

There are 134 pupils enrolled: boys - 55; and girls - 79. There are three teachers and the pupils appear to be making fair progress in their respective grades. All were neatly dressed and clean in appearance.

The dining-room has been painted and now is much brighter. The floors are hardwood, but have no filler or finish. I would recommend that these floors be treated with two coats of Tremco penetrain. It will require about five gallons to do this; but the floors will have a good finish and be much easier to keep clean.

The dormitories were well aired and clean. Two have been painted and the walls and ceiling are now bright and clean.

The new class-rooms are not in use yet, but should be ready for the fall term in September. This change will provide a nice playroom and reading-room for both the girls and boys. In digging the basement under the proposed new class-rooms provision has been made for a large root cellar. The Principal found to his disappointment that some water appeared so it will now be necessary to fill in the excavation at least one foot, after which a cement floor may be required. This cement floor will involve extra expense and he requested that the Department pay for the cement. In view of the circumstances I think this should be allowed.

The children appear well fed and attached is a copy of the menu followed. You will note the quantities used for one meal are inserted in red. The children receive all the bread they desire and I found the brown bread very wholesome. Miss Long is a graduate nurse and is the matron. She is greatly interested in the children and gives careful consideration to their food requirements.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The cattle number thirty head and a fair supply of milk is provided. The milk is served to the children to drink or on porridge or in milk puddings.

The sewing-room, laundry, kitchen and bakery are well supervised and the girls receive a good training in the work of these departments.

The farm seeding was well along and they also expect to have a large garden in addition to several acres of potatoes.

The Reverend Mr. Middleton has been at Elkhorn for less than one year. He appears greatly interested in his work and I find him willing and anxious to co-operate in every respect.

I hope funds will be made available to carry out the enclosed recommendations.

(Sgd.) A.G. Hamilton,
Inspector of Indian Agencies,
for Manitoba.

Schools

Whitecane

The Pas Reserve, Man.
January 31st, 1944

To: .Allan
Supt. of Reserves and Trusts
Ottawa.

Sir:

Herein find copy of resolutions passed during a meeting held in The Pas Reserve.

It has been found entirely necessary to Petition both Governments for an improved day-school to be built in the Reserve for reasons stated herein.

Some of the parents whose children attend the Anglican Residential School at Elkhorn went to pay their children a visit as rumours had leaked out that the school was not in a fit condition to be called a Residential School. The sanitary and heating appliances were very poor, clothing and food far worse than what the parents had ever given their children. What the visitors saw said that condition were so bad that it was utterly impossible for any body to believe unless one actually saw with his own eyes. We therefore demand that an investigation be made immediately before some sickness breaks out. The school in our opinion should be closed and children be sent home. We are ready to be questioned on our findings during our visit there. We even brought back some samples of clothing which we found our children wearing.

There are enough Treaty and Non-Treaty children here right in the Pas for a large improved Day School to be built. The Governments expense would be far less and the children could go home every evening.

(signatures) Chief
2 Councillors
7 Band members.

THE PAS, MAN.
January 18th, 1944.

1. A meeting was held in The Pas Reserve. The Chief and his Councillors including the President of the Halfbreed Association with his Councillors were present.

2. The meeting was for the purpose of discussing matter pertaining to

(over)

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

educating the Treaty Indians with the non-Treaty Indians of this district.

3. A resolution was passed to petition both the Federal and Provincial Governments for an improved Day School sufficiently large enough to accommodate all the treaty and nontreaty children living round the vicinity of The Pas, as the Day Schools in the Reserve cannot take any non-treaty childred being too small.

4. We have always been informed that the Government was not much in favor of Residential Schools.

5. That the halfbreed Day School be opened with a teacher who has taught in Indian Schools and who is able to talk the language until such time as an improved Day School could be built. By past experience it has been found that children under such a teacher always got along better.

6. The reason, this petition (5) is if the children come back home (Treaty children) from Elkhorn there will not be enough room in the Day Schools in the Reserve to accommodate the above children much less the Halfbreed children.

[redacted] BRANCH

[redacted] Memorandum

Ottawa, March 4, 1944.

- Mr. [redacted] -

While at The Pas a delegation of Indians waited on me to air their grievances in connection with the Elkhorn School. The spokesman for the Indians was Cornelius Bignell. He reported that a delegation of Indians of which he was one attended at the Elkhorn School to check up on complaints made by their children as to conditions obtaining there.

The Indians claim to have found conditions in the School very unsatisfactory and report in particular:-

The downstairs toilet in the boys' playroom was plugged and a condition of indescribable filth exists.

The upstairs toilet in the girls' dormitory was also out of order and the girls compelled to bale it out with pails.

The beds in the girls' quarters were in a dilapidated condition tied together with the girls' stockings, strings and any other contrivance that would keep them together.

The clothing and shoes the children were asked to wear were in a deplorable condition and I asked Mr. Lovell to send you the samples that were presented for my examination.

They reported that there was no butter and no bread on the table an enquiry elicited the information that the lack of butter was a punishment handed out to the students because they would not squeal on a boy who had stolen a pound of lard to assist in making a rabbit stew which formed the piece de resistance at a feast they held in the bush utilizing rabbits snared by some of the boys. They also complained that no vegetables had been served for weeks but the School Principal showed them an order that he had that day placed for fresh vegetables.

Over

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The delegation also complained that in a dormitory of 30 or 40 boys there were only two towels made available to them.

They also complained that the school was improperly heated and the youngsters locked themselves in the clothes closets because they were the only places that were comfortable.

Mr. Cornelius Bignell who was the spokesman for the group said that they were afraid to press their complaints very strongly to the Principal as they were sure that he would take it out on the youngsters as soon as they left. Mr. Bignell is a very quiet-spoken, rational sort of person who confessed that their complaints to the Principal were made with a great deal of restraint as they felt that it was the duty of the Department rather than that of the Indians to see that the conditions in the School were remedied. He made the statement that while it was admitted that living conditions in an Indian village were not of a very high standard, they were much less crude, much less insanitary and much more convenient than their children enjoyed in the Elkhorn School. I am sorry that I overlooked discussing this matter with Inspector Hamilton when I saw him later in Winnipeg. You, however, have his report.

This memorandum is only designed to place the text of the Indian complaint before you. The Indian presentation to me was made in an entirely rational way, nobody was abused and the delegation was so restrained in their language that I was very much impressed with their sincerity. If half of what they report is true a surprise inspection of the School should be made.

RE: Elkhorn School

I was at this school on September 19th. A Principal has not yet been appointed and things generally are in a hopeless condition. The school is not being operated, it is just running. Mr. Young, the Indian Agent, had the day before rounded up four or five children who had run away and had them escorted back. The same night eight others left and these were still away, and several are girls.

The dormatories were none too clean--toilets, washbasins were dirty. The staff seemed unimpressed, even after pointing out the existing condition. A new toilet bowl is needed in the boys dormitory. A toilet bowl complete with flush tank is needed in the girl's washroom. Towels were scattered about the washroom with perhaps five or six on hooks.

The roof of the school is, I understand, covered with tin or some such metal. It leaks in various places and should be repaired. It might be advisable to have this examined by someone from the Survey's and Engineering Branch, Dominion Water and Power Bureau, Winnipeg, of which Mr. Gow is in charge, and a recommendation obtained. The roof on the outside classrooms also leaks and this could be examined at the same time. This roof is covered with roofing paper and tar. The school authorities have stood by all summer and fall and did nothing, while the rains soaked through and ruined the tentest used on the classroom ceiling.

I have ordered the new fire escape doors and Mr. Young will try to get a carpenter to hang them

(Cont'd)

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and at the same time make the other alterations suggested by the Fire Inspector.

I am greatly concerned about the existing conditions at this school. I am convinced the pupils should not have been allowed back until the church provided a suitable Principal and Staff. Even now I do not hesitate to say that in my opinion the school should be closed before cold weather sets in, unless the Church appoints a well qualified Principal. The man need not be a minister. An alert active business man with experience in handling a staff and knowing how to administer discipline is the requirement. A real driving force is needed and even then he will have a full time job.

If this school is left open under present management and the children continue to run away, someone will be frozen to death or killed in riding trains. I think the Department should set a date beyond which they cannot wait longer for a Principal, and that date should not be later than October 15th. There is altogether too much delay in securing a Principal whom they knew was urgently required more than 6 months ago.

I hope this matter will be taken seriously by all concerned and that I may be advised concerning the outcome.

R.A. Hoey, Esq.,
Supt., Welfare and Training,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ont.

Dear Mr. Hoey:-

I have to acknowledge your reference 106-0-1 of the 25th in regard to the Elkhorn School and have read with deep concern the letter from Inspector Hamilton.

I think the Inspector scarcely gives us credit for the continual efforts we have made to secure a Principal since the withdrawal of Mr. Middleton less than five months ago. We have endeavoured to secure the transfer of three of our experienced Principals but all in turn did not desire to change. We have twice been disappointed by an applicant withdrawing after the somewhat involved procedure had been followed and we were ready to suggest his appointment. My last disappointment was the information given to me by Canon Shepherd after my conversation with you. He has accepted a teaching position for the winter in Eastern Canada and is not available. I had hoped that he would have been able to go out almost immediately and take charge of the school for at least a few months.

With much of Inspector Hamilton's letter I am compelled to agree and can assure you that the state of this school has been a genuine burden to us. We have a number of excellent staff members who only require a strong lead to place the school on a satisfactory footing. Unfortunately, the Acting Principal has not been able to maintain a happy relationship with the Head Matron and Farm Instructor and thus internal dissension has led to the weakness described. I may say that a number of visits have been paid from this office and we were so confident that a new Principal would be secured that we urged the Acting Principal to secure the usual number of pupils. In view of the information about runaways I have asked our Assistant Secretary Treasurer to go to Elkhorn at once and he expects to spend a few days in a thorough review of the position. Beyond this I am asking the Rev. J.W. House of Gleichen, in whose judgment we have complete confidence, to spare a little time from his school in taking hold of the Elkhorn situation while we speed our efforts to reach a satisfactory conclusion. We are in communication with a former

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

member of our staff who would make an excellent Principal and if he fails us have another applicant who might be secured without too much delay. I mention these things to assure you that we do not for a moment despair of finding the right man. We could have closed the matter long since if we had not been particularly anxious about this appointment.

I shall write again as soon as Col. Mernagen returns from the school, and do not think there will be any necessity to suggest so drastic a step as closing down at this juncture.

I remain,

Yours sincerely,

H.A. Allerwood

Re: Elkhorn School,
Your file 106-0-1 - September 20th.

I am glad that at last provision has been made for a Principal for this School.

I called today at the Winnipeg Paint and Glass (Sash and Door Factory) regarding the fire escape doors, but it will be ten days yet before they can deliver the doors. There is a heavy building program going on in Winnipeg and the sash and door work is weeks behind. They have, however, promised to give my order early consideration. Only one other firm quoted and their price was almost double that given by the Winnipeg Paint and Glass.

Mr. Young, Indian Agent at Griswold, has a man in view to hang the doors and make the other alterations authorized and we hope he will be available as soon as the doors arrive. It seems rather difficult to get repair work started at both Elkhorn and Brandon, although I think Mr. Strapp will do well if given a chance. He has lots of worries at the school and in addition I understand his wife is very ill in the East.

I would, however, like to definitely recommend that Mr. Young be requested to inspect both these schools once a month and submit a report, in duplicate, through this office. If this is done we will then know exactly the conditions existing and also what improvements have been carried out. All our other schools are tied in with some Agency and checked by the Indian Agent; there is no reason why Brandon and Elkhorn should be exceptions.

A.G.Hamilton,
Inspector of Indian Agencies
for Manitoba.

Department of Mines & Resources,
Ottawa, Ont.

Dear Mr. Hoey:- Re: Elkhorn School

Further to my letter of the 27th I now beg to give you the report of our Assistant Secretary-Treasurer who has just returned after spending several days in the school. You will note that Colonel Mermagen has dealt in order with the matters raised by Inspector Hamilton and I believe you will agree that the conditions are scarcely as bad as suggested.

We are taking up strongly with the Principal of the Elkhorn Public School the matter of discrimination and unfair criticism which led to the truancy of the older girls. This is not an isolated example and certainly suggests one of the difficulties under which our boarding schools labour. The location of the Elkhorn School is far from ideal in this connection and the proximity both to railway and highway makes it very easy for children to run away when they are upset in any way.

I trust that the Inspector is following through his suggestions in regard to necessary repairs to the roof, both of the school and the new classroom building, and that he will be successful in securing a carpenter to attend to the alterations suggested by the Fire Inspector.

I am happy to advise you that the Rev. J.W. House will be at Elkhorn on the 9th and in the following month will alternate between the two schools so that his own duties may not be neglected. I have offered to co-operate with him in making this possible. We are also in touch with the Rev. C.F. Hives of Lytton, who has offered us the services of his Vice-Principal and it is possible that he may be appointed in an acting capacity in the very near future. Mr. Hives knows the Elkhorn situation and feels that his nominee is quite capable of meeting the situation.

I trust that you feel that we are doing all that is possible in the circumstances and that there is no need of making any such suggestion as drastic as closing the school if the Inspector will co-operate with us in the carrying out of the necessary repairs.

With kind regards, I remain,

Yours sincerely,
H.A. Alderwood
Secretary.

REPORT OF ASSISTANT SECRETARY-TREASURER RE ELKHORN SCHOOL

Referring to the letter dated 22nd September, written by Inspector Hamilton to the Indian Affairs Branch, Ottawa, Ont. I beg to report as follows:-

(1) That a Principal has not been appointed is due to the fact that the Commission has on several occasions been disappointed at the last moment. Prospective candidates have seemed interested until they have been asked to set a date upon which they will be able to take over their duties. In each case some obstacle has always arisen. The Acting Principal should be commended, not censured, for making the best of a difficult situation.

Mr. Young, the Indian Agent, of Griswold, did not "round up" the four or five children who had run away, but had been notified by telephone of their absence and as they were from his Reservation was requested to keep an eye open for them. They were apprehended on the main road between Elkhorn and Hargrave. Of the eight others who left the same night, Mr. Hamilton states that "some of them were girls". As a matter of fact all were girls, and the reason for their leaving was because three of them, who were High School pupils, considered they had been insulted by their teacher at the Public School, who said they were only Indians and not up to the standard of work required for their grade. The remainder went out of sympathy or because they had some cause of offence against the staff. They were all picked up by the Mounted Police and returned to the School inside twenty four hours. One other girl who disliked her teacher went away on the morning passenger train to her home at Griswold but returned the next day of her own accord. All are now back at the school and appear quite content. I made a point of interviewing each one of them and with one exception secured a promise that they would not run away again. The exception was one of the biggest girls in the school who comes from Hodgson and does not seem to get on with the other pupils.

(2) I visited the school unexpectedly and found the dormitories clean and swept. Toilets were clean and working properly but the wash basins needed cleaning. Partly this is due to the fact that the crop is now being harvested and many of the boys are being used until late in the fields. The great point is, however, that the plumbing is old and basins and taps should be renewed. The building was erected in 1897 and the whole of the interior is in a delapidated condition which no amount of scrubbing or sweeping will eradicate. Shortage of man-power has also contributed largely to the difficulties of administration. In his report, Inspector Hamilton states that even after pointing out existing conditions, the staff seemed unimpressed. What he actually said to the members of the staff was that they were "indifferent". Owing to an incomplete staff every member was doing more than their fair share of work and objected to being accused of being indifferent. A new toilet bowl is being installed in the Boys' dormitory at the present time and another toilet bowl, complete with flush tank should be provided by the Department at once. In spite of my unexpected visit I found possibly five towels on the floor or forms and all the rest hanging up.

(3) The Inspector reports that he understands that the roof of the school is leaking in several places and should be repaired. This

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

condition has been rpported to him several times during the past two years but has not been remedied. The roof of the outside classroom also leaks and this also was reported. The suggestion that someone from the Surveys and Engineering Branch, Dominion Water and Power Bureau, Winnipeg, might examine these roofs, is most timely and should have been made before this.

I further recommend that at least two extra Bath rooms be provided for both boys and girls and also than an extra toilet compartment for each be supplied.

(4) The report states that new fire escape doors and other alterations suggested by the Fire Inspector have been ordered and that Mr. Young will "try" to get a carpenter to hang them. If such difficulty is being experienced by the Indian Agent why should the School staff be expected to be more successful?

(5) Under existing conditions, I submit that everything possible is being done to carry on. The school is being administered, not just running, and as already stated the Acting Principal is doing his best under adverse conditions. He is an experienced teacher and administrator and is receiving the loyal support of the staff of twelve, nine of whom have had experience in other schools. The one exception is the Farm Instructor who has been responsible for much of the discord and insubordination and whose removal is reluctantly recommended.

Respectfully submitted,

(Sgd) E.W. Mermagen.

Re: Conditions at Elkhorn Residential School.

Dear Doctor Alderwood:

I have for acknowledgment your letter of October 5 and also copy of a report submitted to you by Colonel E. W. Hermagen, immediately following his inspection of the Elkhorn Residential School, sent forward therewith.

I was particularly pleased to note that the Reverend J. W. House will visit Elkhorn on the 9th instant and that it is his intention to alternate between the two schools until conditions at Elkhorn gradually re-adjust themselves. It is unnecessary to add that your courtesy and thoughtfulness in sending forward this information is very much appreciated.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Reverend H. A. Alderwood, D.D.,
Secretary, Indian & Eskimo
Residential School Commission, W.S.C.C.,

AIR MAIL

Mr. A.G. Hamilton, Inspector of Indian Agencies,
Winnipeg, Man.

I have your letter of the 5th instant, in connection with the Elkhorn Indian Residential School. I note from the last paragraph of your letter that you suggest monthly inspections of the Brandon and Elkhorn Schools by Indian Agent Young.

The Department feels that both of these schools require very careful supervision during the next year at least and consequently it is desired that you inspect these schools every two months during the next twelve-month period and submit a report to this office. You should make your first inspection of these two schools about the end of the present month, the next at the end of December and subsequent inspections every two months thereafter.

R.A. Hoey,
Supt. of Welfare & Training.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

EX'D.

Mr. A.G. Hamilton, Inspector of Indian Agencies,
Winnipeg, Man.

In a further letter just received from Doctor Alderwood he encloses a report made by Colonel E.W. Morragen, regarding the Elkhorn School. One of the recommendations contained in this report reads as follows:

"I recommend that at least two extra bathrooms be provided for both boys and girls and also that an extra toilet compartment for each be supplied."

On the occasion of your next inspection of the school you should ascertain if it is feasible to make the installations recommended and, if so, you should let me have an estimate of the cost.

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sirs

I would like to know
if it would be possible for me
to get a position as manager on
one of your school farms in
Manitoba or Saskatchewan
I am a Protestant 46 years of age
married Scotch Canadian
I have a lifetime experience
in farming in Manitoba and
Saskatchewan
Names of people for reference
could be furnished on request
I understand that the school at
Elkhorn Manitoba is in need of a
farm manager,
Would it be possible for me to
get this position

Yours truly
Ernest Fiddler

Dear Sir:

I have your letter of the 16th instant, with reference to the possibility of securing a position as farm manager at one of the Indian residential schools in Manitoba or Saskatchewan.

All staff at Indian residential schools is engaged by the Church which is co-operating with the Department in the management of the school concerned. I note that you state that you are a Protestant and I, therefore, suggest that you communicate with either, or both, of the following gentlemen:

Rev. H.A. Alderwood, D.D.,
Secretary, Indian and Eskimo
Residential School Commission,
M. S. C. C.,
36-45 The Bible House,
184 Alexander Ave. East,
Winnipeg, Man.

Rev. Geo. Dorey, D.D.,
Associate Secretary,
Board of Home Missions,
United Church of Canada,
299 Queen St. West,
Toronto 2, Ont.

Yours truly,

Mr. Ernest Halliday,
Donerest, Sask.

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:-

As you are already aware, we have been experiencing some difficulty, owing to war conditions, in finding a suitable Principal for the Indian School at Elkhorn, Man. I think, however, that we have now found such a man in Mr. Ralph E. Hiltz.

Mr. Hiltz has been serving for the past year as Vice-Principal of the school at Lytton. On the basis of his service he has been strongly recommended by the Principal, the Rev. C. F. Hives. He is twenty-eight years of age, has been a student for two years in the Anglican Theological College, Vancouver, and has had considerable experience in school work. Mr. Hives has reported very favourably of him as a man of high Christian character, and one with remarkable influence for good over Indian children. He would be available for duty at Elkhorn by November 1st.

On the recommendation of our Commission, therefore, I write to ask that Mr. Hiltz be appointed Principal of the Elkhorn School.

Yours truly,

L. A. Dixon

PERSONAL

Attention Mr. R. A. Hoey

Dear Mr. Hoey:

I have given careful thought to the contents of your letter of October 10th in regard to the Elkhorn School and the possibility of securing another building north of The Pas. As our Commission was meeting last Friday, I introduced the general subject in a tentative way but fuller consideration was deferred to a later date owing to pressure of business. As I had the opportunity of spending the week-end at Elkhorn, I think it well to give you my personal reaction to your suggestions.

1. I am in full sympathy with the criticisms often made as to the unwisdom of sending "bush children" from the north to such a prairie school as Elkhorn. We have one of our best school farms at this point and there is no doubt that the pupils receive valuable training in it, but this is not worth much to boys who are returning to a hunting and trapping life and will not have the opportunity of using their agricultural knowledge. The more serious objection lies in the undoubted fact that they lose the opportunity of learning the very things needed for the kind of life they will probably live, through being entirely removed from the bush environment in a number of years. It is easy, however, to understand why this is done, in the light of history. I find that the situation only arose after the destruction of the Mackay School at the Pas by fire in March 1933. This school apparently had 84 northern children in residence at the time and 50 of these were afterwards transferred to Elkhorn when the Department decided not to rebuild. I am confident that this was a mistake, has worked a hardship on the bush children, and has overcrowded Elkhorn in a harmful manner. My mind is therefore clear that whenever possible a building should be secured or built north of the Pas. The present American Hospital building might be a good solution, though I am a little doubtful of the wisdom of trying to have both school and hospital at the one spot. I think your files will show that we have on numerous occasions asked for the building of a school up the Hudson's Bay line. The Bishop of Keewatin has been particularly anxious for this, claiming that he has a very large number of children in the direction of Churchill who are without educational privileges. If the present building north of the Pas should be found

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

suitable it might well serve the area to the north as the pupils could readily be transported by train.

2. In regard to the present building at Elkhorn I cannot feel that it should lightly be abandoned. I find that at present there are roughly 70 children in residence from the south of the province and 60 from the Pas and north. Some of the latter travel 900 miles to the school while from the Pas the distance is 680 miles. In analyzing the attendance from southern reserves, I find that 37 are from Oak River and this number will probably be increased by at least five. About 30 come from the group of reserves in the Interlake area especially Peguis and Fairford. I am told that this number could be considerably increased but for the fact that the school is already overloaded. There are also three from Sintaluta and again it has been said that there should be at least ten from this point. I think it a fair conclusion therefore that Elkhorn could without difficulty have a hundred pupils from the southern part of the province and this is about all the building should be asked to carry. It would take much of the present tension out of the building with a smaller number of pupils, a smaller farm and the unitywhich could be attained when the pupils are all pretty much of one type. If Elkhorn should be closed and no building substituted in the south we should have the present problem reversed, for our Peguis and Fairford Indians in particular would have to come into Winnipeg before travelling to the Pas and there would be many objections to this.

It is true that the present Elkhorn building is badly run-down and I am expecting a full report from Mr. House, who has naturally been shocked at the contrast with his own splendid building. My personal feeling, however, is that the building has been well constructed and is sound in the main. It could certainly be put in good order at a very small cost compared with the construction of a new school.

It seems to me that our Church has really suffered a good deal since the loss of the Mackay School. Whereas according to the 1939 Census we had a larger number of Indians in the province than either the United or Roman Churches we have only had inadequate provision for 155 pupils at Elkhorn, while the United has been allowed 365 in three schools and the Roman Church 340 in four Residential Schools.

I have thought it well to write at length as various matters related to this question are likely to be decided before long. I am giving merely a personal opinion at this moment when I say that I believe the situation calls for the retention of Elkhorn and the provision of another Anglican School north of the Pas. I shall obtain further information regarding the whole question and bring it before our Commission at the earliest opportunity.

With kind regards, I remain,

Yours sincerely,

H. A. Alderwood

Secretary.

Report Re: Conditions at Elkohorn Indian Residential School

On approaching the school one received the impression that there was lack of organization, supervision and interest. The grounds were very untidy, articles of clothing and other wearing apparel were scattered over the yard, school entrances and steps. Many window panes were broken. The unbroken panes had the appearance of having been treated for a BLACKOUT, they were so dirty. Inside the building these impressions were confirmed by findings where ever you went.

At the time of my inspection, April 4th, and 5th, 1944, this school was in charge of Mr. B. Hodkinson, who had just been appointed acting principal.

145 pupils were registered, 88 of these were girls. Four pupils, two boys and one girl were taking grade 8 and one girl was taking grade 10 in the local High School. Four patients, three girls and one boy were confined to bed in the school infirmary.

1. DORMITORIES

(A) Air Space

The attached chart shows the available air space per pupil in each dormitory.

The Saskatchewan Government Public Health Regulations, require 800 cu. ft. of air for each hospital patient and at least 400 cu. ft. for each person in any public hotel. In view of these regulations it should not be unreasonable to ask that 600 cu. ft. be provided for each occupant in any room used as a dormitory, for ten months of the year.

If such is the case, this chart shows a definite over crowding exists.

(B) Ventilation

Small slides at the bottom of some windows were the only source of ventilation. Broken window panes indirectly supplemented this means of ventilation. It certainly was not adequate or satisfactory. A draft passed over the occupants of the beds opposite the open windows.

Provision could be made for all windows in dormitories to open at least six inches from the top.

(C) Beds & Bedding

All that can be said in favor of the beds is that they are of pre-war manufacture. As such they are sturdier built than it is possible to purchase at the present time. Their appearance would be improved by a coat of enamel. The springs are held together by every conceivable means, wire, cord, etc. It should be possible to secure wire links and coils to repair these springs. The springs on every bed will require extensive repairs.

"Filthy" is the only word and even that does not adequately describe the condition of mattresses, pillows, and bedding. The majority of the mattresses have long since served their usefulness.

Only the pillows in the junior girls' dormitory were noticed to have pillow slips. In all other dormitories they were conspicuous by their absence.

2. PLUMBING

(A) Toilets

The attached chart also shows toilet facilities and condition of same in each dormitory.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2. PLUMBING - continued.

(A) Toilets

Three toilet bowls were situated at the south end of the girls' wash room. Two of these were in proper working order. One did contain fecal matter. Another had a bad leak from an over head flushing tank, which flooded the floor surrounding the toilets. This leak could not be of recent origin, as there was a piece of wooden duck walk in front of the bowl, to keep the user's feet out of the water. The door at the entrance of one toilet was off its hinges.

The toilet paper containers were located outside of the toilet on the wall between the doors.

In the boys wash and play room on the south side of the building, there was plumbing for three toilet bowls but only two were installed. There were no urinals.

Not a single toilet bowl in the whole school had a seat. The majority of the bowls were badly stained, and had an uncared for appearance.

I have no recollection of seeing any outside toilets.

The Saskatchewan Provincial Health Regulations require one toilet seat to every 18 pupils.

(B) Wash Basins

The girls' washroom, which is 27' by 14' is located on the ground floor in the west half of northern portion of the building. This room is cold and uninviting, possibly due to its cement floor and poor lighting.

Ten wash basins provided with two taps each, are situated on the west wall of this room. Examination revealed that neither tap on one basin, and only one on three others were in working order. Some of the basins contained dirty water. On investigation it was found that the stoppers were made of toilet paper.

Two roller towels were hanging in this room.

The boys' washroom, which is 26' by 14' is located in the southern portion on the ground floor. It also was cold and uninviting, similar to the girls for the same reason.

Twelve basins provided with two taps each, are situated on the west wall. Neither taps on one, and only one on two other basins were working.

Two roller towels were hanging in this room.

Not a single stopper was found in either wash room. All basins had an uncared for appearance.

(C) Bathing Accomodation

Two tubs for use of the girls were partitioned off in the northern end of their play room. The floor is of cement. It was moist at the time of our visit. There was a wooden duck walk beside each tub. Both of these were in broken condition. There was a shower fixture over one tub, which was leaking. The handle for its control valve was missing. As the tub had a rusted spot, where the shower dripped, one would conclude the leak was not of recent origin.

On the boys' side a small room 9' by 14' adjacent to their play room, contained two tubs as well as a shower. The waste water from the baths and shower flows out over the floor to an open drain in the boys play and wash room.

5. HEATING FACILITIES

Even if the building had been kept in first class repair, difficulty in maintaining a satisfactory temperature would be experienced on account of its age. With the neglect, which is evident in toilets, wash basins and bathrooms, is equally evident in not maintaining the building in good repair. Poorly fitted storm windows,

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3. HEATING FACILITIES - continued

Absence of storm doors, and innumerable broken panes of glass, increase the heating difficulties.

The heating plant is a Gurney Hot Water Furnace, equipped with an automatic stoker. One section of the furnace was reported cut off when the stoker was installed a few years ago. The engineer admitted difficulty in maintaining a comfortable temperature in many of the rooms during the cold weather, especially if it was windy. From personal experience, this furnace does not appear to be any more than large enough to satisfactorily heat this building, if all its sections were in perfect working order.

If the welfare of the children had been considered, steps would have been taken to have the defective section repaired and put in order. The inability to maintain the building at a comfortable temperature did not originate during the winter months of 1943-44

4. FIRE HAZARDS

The fire escapes in the dormitories lead through a window using only the lower half. The steps up to these windows were not solid, with the confusion during a fire, they are apt to cause the pupils to fall. Serious consequences could easily result. In the laundry there is an old kitchen range used to heat the sad irons. While it was located adjacent to the chimney it had to be continually operated with all drafts wide open. Clothes on lines and on clothes horses were near this stove. This did constitute a serious fire menace as it was on the basement floor in the center of the building.

Throughout the building were fire extinguishers.

5. CLOTHING & GENERAL APPEARANCE OF THE CHILDREN

No matter where the children were contacted, in the class rooms, in the dining room, about the school, or out of doors on the play ground, they were dirty and their clothes were disgraceful. The clothing was not only dirty but torn and ragged. Their stockings were full of holes. Not a single child was observed to be wearing a good pair of boots. No difference was noticed in the clothing worn at meals, in the class room or outside. Several of the boys took off overalls when they came into the wash room from outside.

Many of the children playing out doors had a half frozen appearance.

There is no doubt about these children being very poorly clad. They certainly were not provided with sufficient clothing to keep warm during the cold winter months, if they did not have on more appropiate clothing than worn the day of this inspection.

There was no evidence of extra clothing having been issued, except what seen in the laundry and sewing room. The quantity observed in these two places did not impress one as being sufficient for a complete change for all pupils.

The provision made, for the care of clothing in use, was not such to induce or teach any child to care for their wearing apparel. For example, in the girls' washroom, along the wall 27' in length was supposed to be sufficient hooks for 88 girls to hang their coats and hats up. Along this same wall was a row of seats, which had open pigeon holes underneath. These were crammed with old boots, rubbers, dirty clothing and everything else. In the boys' washroom exactly the same unsatisfactory and untidy condition existed. Here there was a wall 28' long to provide space for 55 boys to hang outside wearing apparel.

No provision has been made for the children to keep any personal belongings they have or receive. Apparently a few did try to keep them underneath the mattresses. There are good lockers in the small boys', intermediate and junior girls' dormitories, but not a single one was in use.

When a good wind breaker was found in the manure at the cow barn, Rev. C.N.Middleton, stated, although every boy had been issued with a new wind breaker last fall, at Christmas time only five could be accounted for.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

5. CLOTHING & GENERAL APPEARANCE OF THE CHILDREN - continued

As regards dental hygiene, a tooth brush rack containing two brushes was noticed above the basins in the girls' wash room. On the boys' side the tooth brush rack was noticed in the linen room. On enquiring why it was located there, the Boys' Supervisor replied, that brushes were given out to be used immediately before going to class. From what was seen, one would conclude that dental hygiene was given very little consideration.

While visiting the laundry, it was observed that the children were getting their clothing and shoes sopping wet, during the process of removing the contents of the washing machine into a tub for rinsing. This work seemed very unnecessary, as the rinsing could have been done in the washing machine. Miss Allison, the Laundry Matron, was asked why this extra work. She replied her instructions were to get two washings from one lot of suds.

6. FOOD

A copy of the menu SUPPOSED to be in use is attached hereto, also a list of weights of all pupils taken on the day of inspection.

It is to be expected that a large percentage of pupils on returning to school, following their summer vacation, will be under weight. Such a condition should not exist a month or so before they are leaving for their summer vacation, if they have been receiving sufficient and proper diet. At the time of inspection 28% of the girls and 69.9% of the boys are underweight in this school.

The dining room was visited for the mid day and evening meals on April 4th, breakfast and mid day meal on April 5th, while these meals were being served and eaten. From observation during these four meals, it was apparent there were more OMISSIONS than SUBSTITUTIONS in the menu.

The meals were not appetitising. Each child received an enamel plate, enamel cup and a spoon. Not a single knife or fork was noticed in the dining room at any of the meals. Beans and bread appeared to constitute the main item of food, the former being the principal and only vegetable observed. The latter was the most abundant item of food on the tables. The bread was baked in the school and was of very good quality.

All food except the bread was placed on the enamel plate. The bread previously to being brought to the table was smeared on one side with warm grease. Bread was served with each meal but only at two meals was it served with lard. Approximately three slices, more properly described as hunks were placed directly on the table beside each pupil's plate.

At no time did the children receive butter.

At the mid day meal the younger children were given milk, the older ones received water. For breakfast and the evening meal all were SUPPOSED to have cocoa made from milk and sweetened with sugar.

7. FOODS AVAILABLE

Mrs D.A.Oakley, Kitchen Matron, indormed me they had must been out of potatoes for four or five days. Rev. C.N.Middleton, former principal, also informed me that it would be necessary to buy potatoes and other vegetables from now until the new crop was available.

Vegetables were supposed to be on order.

In the vegetable bins below the kitchen were a few small heads of cabbage and a small number of turnips. Neither here nor in the root cellar beneath the new class rooms, where the vegetables were supposed to have been stored, could a sufficient quantity of one or any combination of vegetables be found, for one meal for this school.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

7. FOODS AVAILABLE - continued

The meat is bought at the local butcher store. Apparently they do not buy any particular cuts of meat. On checking the counter slips for meat purchased during the month of February, they bought 40 to 80 lbs. of meat per day. The Matron and Lady in charge of the kitchen, explained that the butcher delivered hamburger very frequently. At no time did the children ever get roast meat.

During my conversation with the Matron, mention was made about securing eggs for Easter. I availed myself of the opportunity to enquire from her, how frequently the children were given an egg for breakfast or any other meal. She replied that since she had been the Matron, not on a single occasion had the children been provided with such a luxury.

Bread pudding constitutes an important item in their noon day meal. On enquiring about the source of the bread used for this purpose, I learned that it was the left over bread gathered up after each meal.

THE FOLLOWING OUTSIDE BUILDINGS WERE INSPECTED

1. PUMPING PLANT - from the septic tank which was in A1 working order.

2. NEW CLASS ROOMS - in what was formerly the old gymnasium building. They were nearing completion. I understand that this will make available for play rooms the two rooms now being used as class rooms in the main building.

3. HORSE BARN - showed the usual evidence of lack of care. Windows were broken or absent. Doors off hinges. There was an accumulation of manure. Parts of harness were lying about the barn in the manure.

4. PIG PEN - This really was the only building which showed evidence of receiving any attention. The most galling part here was when I enquired, if it was the intention to butcher the three pigs which appeared ready for market, I was told they were not for the school use, but were to be sold to the local butcher.

5. COW BARNS - Two or three of the younger boys were attempting to clean this building. All the cattle were out. The barn had not been cleaned for one week if not longer. It certainly did not have a sanitary appearance to insure a satisfactory milk supply. There was an excellent silo, which was liable to be blown down and destroyed at any time, due to carelessness in not keeping the guy wires in position and tight.

6. POULTRY HOUSE - There was a flock of poultry. The replies to my enquiries led me to believe that they received sufficient eggs to supply the school requirements. Later I learned that it supplied only the requirements of the staff.

7. VEGETABLE STORAGE & FACILITIES - Provision was made for the storage of vegetables adjacent to the furnace room under the new class rooms. The provision made was much too small for the quantity of vegetables required for the school. On the other hand it was too close to the furnace to provide the proper temperature to insure vegetables keeping well. There was an old root house in the yard. Unfortunately I did not have a flash light with me so was unable to examine its interior.

Scattered about the yard was the Machinery and Implements. These should have been under cover. They were being destroyed by the children.

Re: Conditions at Elkhorn Indian Residential School

With further reference to your memorandum of March 7thm 1944, I have the honor to submit the following report:

I sincerely regret that this report has not been completed at an earlier date, but it has been rather difficult to accurately describe the findings.

On my return from the East, arrangements were made with Inspector A.G.Hamilton, when passing through Winnipeg, to meet him at Elkhorn at 9 a.m. Tuesday, April 4th, 1944. These arrangements were carried out.

The entire day was spent at the school. Rev. C.N.Middleton, former principal, Mr. B. Hodkinson, acting principal and Miss M.K.Davies , Matron, accompanied us through the school. As I wished to be present for the serving of a breakfast, dinner and supper, and to recheck some of my findings, I remained in the district over night and revisited the school on April 5th, 1944.

I regret to have to report that I never anticipated finding conditions in any school, as existed in the Elkhorn Residential School. Mr. Cornelius Bigwell's statement, made to Mr. D.J.Allan, sums up the situation perfectly when he says:

"While it was admitted that living conditions in an Indian village were not of a very high standard, they were much less crude, much less insanitary and much more convenient than their children enjoyed in the Elkhorn School"

The indians have every justification to complain. They are to be congratulated on the gentlemanly manner of action taken to have matters remedied. This lack of supervision and interest in the school and pupils, as well as mismanagement, is not of recent origin. It has been going on for and indefinite period. A climax has been reached, which calls for drastic action, if this school is going to properly serve its pupils and obtain the results which are expected by the Indian Department, in return for their Per Capita Grant.

When the findings are considered from every angle, nothing favorable can be said for the present administration of this institution. To permit present conditions to continue will eventually not only bring severe public criticism on the Indian Affairs Branch, but serve no useful purpose in uplifting or helping the Indians.

A satisfactory school staff no doubt can be obtained.

Dear Doctor Alderwood:

I am sending forward herewith, for your information, copy of a report on conditions at the Elkhorn Indian Residential School, submitted to this Branch by Dr. A. B. Simes, Superintendent of the Qu'Appelle Indian Hospital.

I am sending forward also a copy of my letter to Canon Dixon. You will note that it is my intention to visit Toronto during the week ending November 18, if I can possibly spare the time to do so.

Yours sincerely,

Encl.

R. A. Hoey,
Supt. of Welfare & Training.

Ottawa, October 27, 1944.

Dear Canon Dixon:

I am sending forward herewith, for your information, copy of a report on the Elkhorn Indian Residential School, submitted to this Branch by Dr. A. B. Simes, Medical Superintendent of the Qu'Appelle Indian Hospital.

I may state, by way of explanation, that immediately following this inspection, Dr. Simes was called upon to accompany the members of a treaty party into the North Country - hence the delay in sending forward his report.

There are certain sections in this report that are really very disturbing. The Elkhorn school is old and in a somewhat dilapidated condition, and it has been my feeling for a number of years that it should be abandoned, or rather that a school to replace it should be built in the territory immediately north of The Pas. I was not surprised, therefore, to find that the physical condition of the building was somewhat unsatisfactory from the standpoint of sanitation and comfort. What disturbed me most was the fact that 28% of the girls and 69.9% of the boys were under-weight. This supports to some extent the contention made by a group of Indians who interviewed Mr. Allan, Superintendent of Reserves and Trusts, at The Pas, early last spring. These Indians were emphatic in their declaration that children were poorly clad and poorly fed at the institution.

I am well aware, of course, that these are exceptional times in which we are living and I know something of the attempts made by Dr. Alderwood to secure

Rev. Canon L. A. Dixon, M.A., O.B.E.,
General Secretary, M.S.C.C.,

CANADA

a principal for this school, and I have no intention at the moment to focus responsibility for the conditions that exist at Elkhorn. A regrettable feature of the whole matter, however, would appear to be the wide-spread publicity given to conditions at the school. I am not speaking in any exaggerated sense when I state that dozens of reports have reached me during the last year or so on conditions at the school and the treatment to which the pupils were subjected.

I have already discussed the subject matter of this report very fully with the Director. I am this morning sending forward a copy to the Minister for his information. Dr. McGill is of the opinion that I should discuss this matter with you, personally, and has suggested that I visit Toronto, if at all possible, some time during the week ending November 18. If I find it possible to visit Toronto at that time, I will be glad to take advantage of the opportunity to discuss with you also the future of the Mohawk Institute.

Yours sincerely,

H. A. Hoey,
Supt. of Welfare & Training.

Ottawa, October 27, 1944.

[illegible]

[illegible]

I am sending forward herewith, for your information, copy of a report received by this Branch from Dr. A. E. Simes, following his inspection of the Elkhorn Indian Residential School.

I may state that immediately following this inspection arrangements were made whereby Dr. Simes accompanied one of the parties engaged in the payment of this year's treaty money. This explains, no doubt, to some extent, his delay in sending forward the report.

Dr. Simes, accustomed, as he is, to a well equipped, up-to-date hospital, may be somewhat severe in his criticisms of conditions at the Elkhorn School. The school, however, is an old one and is, no doubt, in a somewhat insanitary and dilapidated condition. This school was closed during the last war and was re-opened in the early twenties. The most disturbing feature of the report is the underweight of the children in attendance. The figures submitted by Dr. Simes bear out to some extent the contention of the Indians who met Mr. Allan when he visited The Pas early last spring. A large group of Indian parents, on that occasion, took the position that the children in attendance at Elkhorn were under-nourished and were not properly clad.

I have discussed the subject matter of this report very fully with the Superintendent of Welfare and Training, and it is our opinion that Mr. Hoey should visit Toronto, perhaps during the week ending November 18

AIR MAIL

Dear Canon Dixon:

With reference to your letter of the 27th instant, I regret that your letter of the 19th instant was inadvertently overlooked.

I have noted your remarks about Mr. Ralph R. Hilts and the Department approves his appointment as principal of the Elkhorn School.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

AIR MAIL

Mr. A.G. Hamilton, Inspector of Indian Agencies,
Winnipeg, Man.

On the recommendation of Reverend Canon L.A. Dixon, General Secretary of the M. S. C. C., the Department is approving the appointment of Mr. Ralph E. Hiltz as Principal of the Elkhorn Residential School. Mr. Hiltz is 28 years of [redacted] and has had considerable experience in Indian school work, having served as Vice-Principal at the St. George's Indian Residential School at Lytton. The Principal of the latter school recommends him very highly. It is expected that he will be available for duty early in November.

R.A. Hoey,
Supt. of Welfare & Training.

REPORT ON ELKHORN SCHOOL

COPY

The Secretary,
I. R. S. Commission,
Winnipeg, Manitoba.

Dear Sir:

I have just come back from a ten days' visit to Elkhorn School, and I would like to give you some of my impressions and to ask that you take up certain matters concerning building and equipment with the Department of Indian Affairs.

At the outset I must confess that I went to the School with an idea of recommending it be closed. Current stories coupled with Inspector Hamilton's report led me to believe that it wasn't fair to keep that number of Indian Children under our care when everything suggested our accommodation being inadequate, and the administration poor. After staying a week at the school and trying to investigate all angles of school life I came to the conclusion that my first ideas were all wrong. I found that the school staff was able and efficient. They were working under a great handicap of not having a settled principal nor matron, but they were doing an excellent job. The children were well fed, clothed, and properly cared for. To a certain degree they were quite happy. There were a number of adjustments necessary in routine matters, but these were not of a very serious nature. The school was quite well cared for and clean, but the building is in need of considerable repair.

I find that the most serious difficulties connected with the school concern:—

(1) Overcrowding with diverse tribes.

(2) Lack of co-operation from the Reserves.

(3) Unsound general policy.

(1) This school was originally built to take one hundred pupils, but since the Mckay school was burned down an attempt has been made to cram in anything up to one hundred and fifty pupils. Some adjustment to the building was made supposedly to allow this. Outside classrooms were built and original classrooms were turned into playrooms. This gave children more floor space for rainy days, but nothing was done to increase washroom, bathroom, toilet or laundry accommodation. That means half the school is capable of handling a hundred and fifty pupils, but the other half is barely dufficient to handle the original one hundred. I found there were two toilets, six wash basins, and only two baths on each side of the building. On the girls side there are eighty children, and you can see how utterly impossible it is for two toilets to accommodate them. On this score alone the children have to be fetched out of bed an hour earlier than necessary. Before meal times it is absolutely impossible for each child to wash or relieve itself. There isn't a chance to have these places as clean as they should be because even the toilet flush system will not operate fast enough to handle the enormous demand. What really surprised me was the efficiency of the Supervisors' organization. This is the only thing that kept the system in operation and passibly sanitary.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I understand Inspector Hamilton and others inspected this building, and complained about the unsanitary conditions, but I am of the opinion that they must have complained without much thought and a thorough investigation. If they had faced the situation with an open mind they would have realized that any criticism they made was really levelled at themselves, because it is the Department's responsibility to provide adequate toilet and washroom accommodation. It was their business to get to the root of the thing, and it certainly does not reflect credit on their administration when none of them saw the very thing which made effective sanitation and operation impossible.

(2) Lack of co-operation from Reserves: All Indian Schools are very much affected by conditions on the Reserves from which the children are recruited. I think Elkhorn suffers much more from this than most schools because distances from schools to Reserves are great. Distance just adds that little bit of nervousness in the minds of parents who cannot see their children from one year's end to another. Reserves all over the country are all so infested with this Nationalist propaganda which tends to make the Indian dissatisfied with anything that is done with him. From the tenor of telephone calls from as far away as Griswold and the Pas, I gathered that parents all over were in a ferment over the welfare of thie children. As far as I could find Indian Agents did nothing to alleviate, but rather lent their voices with that of the Indians to criticise and knock everything that was done in the school. Since it is the Department's responsibility to educate these Indian children, and they have made no provision for carrying this out other than by Elkhorn, I would consider it the duty of all Agents to assist the school in every possible way. This they do not do and in consequence parents put their children up to running away from school upon the slightest provocation. This is the secret of Elkhorn's truancy problem.

(3) Unsound general policy: I am of the opinion that our Church made a mistake when it attempted to handle The Pas situation with that of Elkhorn. I think it would have been wiser to have left the Indians up North until a new school was built and made Elkhorn-as it was intended to be the school for Southern Saskatchewan and Manitoba. Hindsight is better than foresight. As things stand today you have a sharp division in this school. There is the Northern group, Bushmen, Fishers and Trappers who are entirely out of their element in Southern surroundings, and there is the Southern group, mostly agriculturalists who are at home there. These do not entirely fuse in the school and there is consequently an undercurrent of division. From an administrative point of view this is an imposible situation.

There are now 61 children who come from Reserves North of The Pas. The nearest one is 680 miles from Elkhorn, and farthest from 900 to 1000 miles. No wonder these children are discontented, and the parents worried.

My suggestion would be that you face the Government with this situation and urge them to make provision for a school in that Northern area and leave Elkhorn for the South. There are hundreds of Indians in both areas belonging to our church who can have no possibility of educating their children under our present system.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I believe there is some doubt about the Elkhorn building being capable of sufficient replenishment to make a good school. After very careful inspection I have come to the conclusion that the building can be put into excellent shape with some repairs which are enumerated below.

Floors - The floors in all five dormitories are worn through. These would need new flooring.

Hallways - these are in similar condition and also need flooring.

Stairs - There are seven flights of stairs from the dormitories to play rooms, all of these are worn out and in places are quite dangerous. They should be rebuilt.

Doors - two doors need replacing, and 13 others need repairing or rehanging. Outside doors will have to be changed so they will swing outwards.

Ceilings - One ceiling needs either replastering or fixing with plaster board, and a few little spots of plaster need repairing.

I got a carpenter named Carl E. Dahl of Elkhorn, to go over these repairs with me and give an estimate of material and labour. You will see that he estimates the cost of material at $1,157.08, and labour $692.00, making a total of $1849.08. His estimate is attached.

If this repair work was done I would suggest covering the hallway and passageway with battleship linoleum (Brown). This would preserve the floors which are already good and tend to brighten up the appearance of the school. It would require 120 years of material two yards wide to effect this.

I would also suggest enough paint to brighten up all floors and trimmings inside the building. For this purpose we would need:

White enamel	3	gals.
Inside white, Flat	3	"
Inside green, Flat	3	"
Rosewood varnish stain for school desks	2	"
Light Oak floor paint	20	"
Cream Inside Flat	5	"
French Grey	5	"
Outside Green	3	"
Linseed Oil	3	"
Turpentine	5	"
Brushes 4" long hair	3	
Brushes 2" " "	2	
Brushes 1" " "	1	

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Bathroom Facilities:

There ought to be at least two more toilets, two baths, anf four wash basins installed on each side. I cannot tell the cost of this, but no doubt the Department would send its engineer to estimate this for us. In urgency I would say this matter should have priority over all else.

Fire Escape Doors:

In two dormitories fire exit is made through a window. For safety sake doors should be installed here. I understood this was reported to Mr. Hamilton and he promised to do something about it. So far nothing has been done. It might be advisable to log this matter.

Roof:

The roof leaks in several places. This also was brought to the attention of the Inspector, but nothing has been done. I personally inspected both the school roof and the classroom roof and found them in perfect shape except for some small cracks in the roofing material. I secured the carpenter Mr. Dahl and instructed him to procure roofing cement and stop the cracks. This, I expect, is already done.

Porch for Junior Classroom:

When little children go from the main school to classroom in bad weather they have to take their coats. There is no place for them to hang these inside. I think this matter also was discussed with Mr. Hamilton, but nothing was done. As this is an emergency I have instructed Mr. Dahl to put an 8' x8' porch at the classroom door with pegs forhanging clothes. It will cost approximately $30.00. I hope the Department can be prevailed upon to pay this bill.

General:

There are some minor repairs which can be effected by the school staff. These I have not bothered to enumerate because they are already being done.

Septic Tanks:

I almost forgot this item. The rotary pump for emptying septic tanks needs repair. This also Mr. Hamilton promised to do but nothing has been done.

I should say that the main building at Elkhorn is in very good condition barring the things needing repairs as stated above. It was well built and is quite substantial. I would consider the cost of putting it in first-class condition well worth while. A matter of three or four thousand dollars is nothing compared with the cost of new school buildings which would become inevitable if this one were to go out of business. I would strongly urge you to take this matter up with a vew to securing the Departments's co-operation immediately.

Attention Mr. R. A. Hoey

Dear Mr. Hoey:

I think it well to pass on to you immediately the enclosed report which has come to hand from Mr. House. It is a careful review of the situation by one who is well experienced in school work and who came to Elkhorn with his mind open to receive impressions. I am interested to find that Mr. House is led to stress some of the points I tried to make in writing to you about possible developments north of The Pas.

I feel that the report is scarcely fair to Inspector Hamilton in some of its references, as the writer was not aware of all the facts. My conclusion for some time has been that the Inspector had decided that the school ought to be closed and therefore was not spending money on the building as he felt it would be wasted. He told me some time ago that he was prepared to recommend that considerable repairs should be put in hand but was holding back his requisition until assured that a competent Principal would be appointed. I did not feel that this was altogether unfair, and yet felt that the Inspector scarcely gave us enough credit for our real concern and our repeated efforts to secure the right kind of appointment.

Mr. House advises me that he is returning to Elkhorn in a few days and will remain there until after November first, by which time we trust that Mr. Hiltz will have been able to arrive and take charge. I understand that his appointment as Acting Principal has been recommended to you by our Head Office and I trust soon to receive the approval of the Department. It will be most valuable if he can commence his duties under the direction of Mr. House.

With kind regards, I remain,

Yours sincerely,

H. A. Alderwood.

Secretary.

EXD.

A few days ago I sent on to you copy of a report on conditions at the Elkhorn Indian Residential School, submitted to this Branch by Dr. Simes. In this connection I am sending forward copy of a report received by Dr. Alderwood from the Reverend John W. House, Principal of the Old Sun (C.E.) Residential School, Gleichen, Alberta.

It would appear that the Anglican Church authorities, having failed until now to [redacted] principal, asked Mr. House to visit the Elkhorn School and to report on conditions as he might find them at the institution. Although a new principal has now been appointed, Dr. Alderwood informed me that Mr. House will continue to visit Elkhorn at stated intervals, until conditions are measurably satisfactory to all parties concerned.

Encl.

Acting Director.

Attention:- Mr. R. A. Hoey.

Dear Mr. Hoey:-

Your letter of October 27th with reference to Elkhorn is very disquieting. I have read carefully through the copy of the report from Dr. Simes with reference to his visit to the school on April 4th last. If, as you say, a copy of the report was being sent forward to the Minister, I trust that in all fairness you sent with it copies of the reports by Colonel Mermagen, Mr. Hodkinson and Mr. House, as sent to you by Dr. Alderwood under date of his letters of Oct. 5th October 5th, October 24th respectively - also of Dr. Alderwood's letter of April 10th. These documents set out the extenuating circumstances which Dr. Simes appears to have over-looked, and also report the remedies and improvements which have been effected since his visit six months ago.

Yours sincerely,

L. A. Dixon

Re: Conditions Elkhorn Residential School.

Dear Canon Dixon:

I have for acknowledgment your letter of November 1, in which you express the hope that I have sent forward to the Minister, for his information, copies of reports on conditions at Elkhorn, received from time to time from Dr. Alderwood and Mr. House.

Mr. House's report seems to be rather complete and is dated Old Sun School, Gleichen, Alberta, October 20, 1944. It has already been submitted to the Minister and the subject matter of this report has also been discussed with the Deputy Minister and with the Chief Executive Assistant. In fact, I have done everything humanly possible to present all the facts relating to conditions at this particular school before the Minister and his Deputy. My personal opinion is that conditions at the schools are perhaps not quite as bad as Dr. Sines in his report would suggest and not quite as good as one would gather from reading Mr. House's report. I am particularly interested, of course, in the diet provided for the children and this, in my judgment, should be corrected at once.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

DEPARTMENT
OF
MINES AND RESOURCES

NOV 1[illegible] 1941

Ottawa, November 6, 1941

Memorandum to:

Dr. H.W. McGill

Re Elkhorn Indian Residential School

I have read Doctor Simes' report dated October 19th of the inspection made by him, in company with Inspector Hamilton, of the conditions existing at the above school, complaints about which had been previously received by the Department.

It is very disturbing to know that such conditions as reported by Doctor Simes should be allowed to exist in any of our residential schools. While Doctor Simes made his inspection early in April, his report is dated October 19th. It is to be regretted that he should have taken this long to have made his report. It is inferred from your memorandum that Inspector Hamilton did not make a separate report and, as a result, the first time the matter was brought to your attention was after you had received Doctor Simes' report. Consequently, no steps were taken to remedy the situation before the end of the school year.

It is difficult to understand how the conditions at this school should have been allowed to get into such a state without them having been brought to your notice, either by Inspector Hamilton or by the School Inspector. Have you asked Inspector Hamilton for an explanation of this?

The report which you received from Doctor Alderwood, enclosed with your memorandum of November 2nd, would appear to indicate that there has been a substantial improvement. However, the report indicates that there are some very major repairs to be made in the school before all of the conditions complained of by Doctor Simes can be remedied. It is assumed that after Mr. Hoey has discussed the matter with the Anglican Mission Board he will make some definite recommendations.

Charles Camsell

Deputy Minister.

ATTENTION MR. R. A. HOEY

Dear Mr. Hoey:

I have to acknowledge your letter 106-0-1 forwarding copy of report on conditions at Elkhorn School by Dr. A. B. Simes. The entire statement is a certainly dreadful one and makes very painful reading, but I am compelled to ask why seven months should be allowed to elapse after such conditions were reported. If things were really as bad as claimed they should surely have been dealt with immediately, and the pupils not left to suffer for so many months more. If you will kindly refer to my letter of April 10th, it will, I believe, serve to explain many of the statements made in the report. We have ourselves been deeply concerned with conditions in this particular school and regret that an inspection should have to be made when matters in general were probably at their lowest point. I have already pleaded that the personal difficulties of the Principal are responsible for much of this decline at Elkhorn. In the spring of the year he was passing through the painful experience of undertaking divorce proceedings against his wife. We did not realize until later what an effect this was having on all his work. He apparently lost his grip of the situation and the staff became discouraged and depressed, so that the school was at its very worst when the spotlight was turned upon it.

I cannot therefore agree that the poor conditions found at the beginning of April have existed for a long time. Until June 1943, the Head Matron of this school was Nurse R. M. Long, a thoroughly qualified and experienced lady who kept standards of nutrition and health up to a high point. She was most systematic and thorough in caring for the children's well-being. All were regularly weighed and those below par received extra food and care. Her menu was carefully prepared on scientific lines and was accepted by the Commission as a model and commended to all of the schools. A copy of this menu is attached and I may say that it is still the basis of the meals at Elkhorn, though of necessity many items of food are harder to obtain under war conditions. The underweight reported may largely be due to the fact that a very severe epidemic of "flu" had been experienced during the winter, which affected the majority of pupils and staff. The Principal wrote us as late as March 22nd expressing satisfaction that the weighing on that date showed that only three children had failed to show a gain since the previous test.

The report of Dr. Simes contains no recognition of the fact

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

that we have been at war for over five years and that many difficulties have increased with the passing of time. I have repeatedly been forced to confess lately that our work in these schools seems to be slipping to lower standards. Costs are continually rising; many items of food and equipment can not be obtained; workers are harder to secure; changes are too frequent and we have to accept less competent persons than we desire. Since Nurse Long left to assume charge of a T. B. Preventorium we have had three matrons and have failed up to now in our efforts to secure a graduate nurse. The matron in charge at the time of the inspection was a teacher who was acting in a temporary way. The absence of the young people of the nation on active service has crippled us greatly in the matter of athletic and recreational activities. The young men and women who formerly guided the boys and girls in their sports are scarcely to be obtained today. I have been painfully conscious that there is unrest among our pupils, because we seem to have lost the ability to give them the interesting Scout and Guide and other programs and to direct them in their play for lack of younger members of our staff.

There is further the labour situation which offers good wages to many Indians so that we can not get their help. Older boys and girls are also being kept at home to earn money and our schools are short of this type of assistance. The milking of our large herd at Elkhorn has become a serious problem recently on this account. At the present time one man has been trying to keep this large building warm and in good repair and we have only retained his services with difficulty for he has twice been called for military service. The farm instructor has been desperate for lack of help and we have tried in vain to secure this, for we are unable to pay the wages being offered elsewhere.

This leads me to the real cause of many of the things which are undoubtedly wrong or inadequate in this school. In speaking critically of food, clothing and supervision, the critic should surely refer to the question of income. If the Government is responsible for maintaining these schools and for giving the churches which administer them sufficient grants for the purpose then some criticism might well be turned in that direction. For years the churches have pleaded for more help and have demonstrated their inability to maintain adequate standards in the face of steadily rising costs. Even with the $15.00 special grant promised for this year the allowance for each pupil at Elkhorn is only 50¢ per day. Necessary operating costs, even with low salaries and inadequate staff, take three-fourths of this income. Thus out of the Government grant only 12½¢ per day is left to feed the children and nothing at all for clothing. If Missionary funds and the efforts of devoted church workers did not supplement the Government grants the system would long since have broken down. When Dr. Simes speaks strongly over the lack of butter, eggs and roast meat, who is he blaming? The lack of potatoes was due to culpable neglect and is not likely to occur again. Usually this school produces an excellent crop of vegetables but in 1942 the results were very poor owing to lack of moisture. An ample supply was on order at the time and received soon after. I may say that Elkhorn has continued to receive the same quantities of food as in other schools and that there has been no reduction in spite of rising costs.

It is a little discouraging that the investigator should not find anything favourable in the administration except the cleanliness of the pig pens. If he had looked a little more deeply I think he might have found some things that were satisfactory. For example,

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the school ought at least to be tested in some measure by its educational results. My impression is that the reports of the Provincial School Inspector will show that we have been able to maintain three efficient teachers whose work was warmly commended. My personal observations have suggested that splendid work has been done in teaching the children to sing, and I have nowhere seen happier faces or heard better singing than in this school. I further believe that if Dr. Simes had visited such a building as that at Brandon before or after being at Elkhorn he would have had more sympathy with our staff in their infinitely more difficult task.

Dr. Simes asks if the necessary expenditures for satisfactory occupancy of the building can be justified. My personal conclusion, which has been recently supported by Principal House, is that it can. I am confident that conditions at this moment are infinitely better than they were seven months ago. We have a new Principal eagerly taking hold of the situation, a new Farm Instructor, and a competent staff of fifteen which will stand comparison. The three new class-rooms which have taken so much of the time and strength of the staff in the past two years are now in use, and two play rooms have at last been made available in the building. I understand that new plumbing equipment has been installed and that repairs are being undertaken through the interest of Inspector Hamilton. In spite of the amount of unfavourable criticism there was no difficulty in securing a full quota of pupils this fall, and I was specially surprised to note an even larger number than usual coming from the Pas area.

I am sorry to have had to write at such length but need scarcely say that we have been deeply disturbed not only at this report but at the continued attitude of defeatism towards this particular school. I cannot help feeling that Dr. Simes went to the school with the conviction in his mind that it ought to be closed. He looked for reasons to support this conviction and had no difficulty in finding them. If it can be decided by all concerned that Elkhorn is necessary and is definitely going to continue, so that effective measures may be taken to bring the building up to a worthy standard, I believe there is every hope of a real advance from this point. We have confidence in our present staff, six having come to us since the spring, and shall do our utmost to support them.

With kind regards, I remain,

Yours sincerely,

H. A. Alderwood

Secretary.

Re: Operation of Elkhorn School.

Dear Doctor Alderwood:

I desire to acknowledge receipt of your letter of November 6 and to thank you for the information contained therein.

You will be interested to learn that it is my intention to discuss conditions at Elkhorn and a number of other matters, at Toronto, with Canon Dixon, during the course of the present week. I can assure you that the officials of this Branch appreciate very fully the difficulties confronting the principals of residential schools in the operation of these institutions in recent years and particularly during the war period. In this connection, however, may I remind you of a conversation I had with you about two years ago, a conversation, a broad outline of which was later embodied in a personal letter to you. In that conversation and in that letter I expressed the opinion that our residential schools throughout the Dominion were being subjected to a great deal of unfair criticism and that a great many citizens appeared to be losing their faith in the usefulness of these Indian schools. I suggested to you then that men like Canon Middleton, yourself and others that might be selected should be encouraged to appear before the public - Rotary Clubs, Church Societies, regular Church Congregations, and tell the simple story of what men and women in charge of our schools were attempting to do. I would not be frank with you if I did not state that I have been somewhat disappointed at the apparent unwillingness of the Churches - and in this I include all the churches - to defend publicly our residential schools against a great deal of meaningless

criticism, directed against them, particularly during the last year or two. A number of our residential schools at this time are experiencing a great deal of difficulty in securing the number of pupils authorized by the Department. This difficulty is likely to be accentuated when Indians qualify under the so-called Baby Bonus. It would appear, therefore, that the time has come for the Churches and the Government to undertake a very careful survey of our whole Indian educational setup.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Recommendations mentioned in the attached report on Elkhorn Residential School.

1. Pump for Septic Tank. Second quotation sent from Mumford and Sealand in my letter dated October 4th. This is an urgent need.
   PRICE NOT INSTALLED — $576.00

2. Repairs to plumbing and installing of extra tubs and toilet bowls ..... approximately — 350.00

3. Repairs to stairs as outlined.
   Should be authorized at once before someone breaks through and gets hurt.
   approximately — 401.00

4. Purchase of 58 mattresses ....approximately — 280.00

5. Paint requirements ---- perhaps — 225.00

6. 24 strong, unpainted kitchen chairs ... approx. — 80.00

7. 2 heavy, well-made kitchen work tables. " — 40.00

8. Re-flooring of halls and if possible the dormitories ..... estimated cost — 2000.00

November 7th, 1944.

Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ontario.

I was at the Elkhorn Indian School on October 31st and November 1st. Mr.R.E.Hilts had just arrived the previous afternoon and Mr.House, the Acting Principal, was preparing to return to his school in Alberta.

Mr. House had only been at the school a few weeks; but he is an experienced principal and even in a short time made many improvements. The building throughout was much cleaner. The toilets were all working. The staff appeared more co-operative and the children were more content and happier. The question of discipline appears no problem and I am inclined to think Mr. Hilts will handle the situation quite well.

Mr. House had a carpenter building a porch at the entrance to one of the classrooms. This porch protected the door and made accommodation for the children's clothing. I understand the total expense for material and labor will not exceed $100.00.

The Farming Instructor, who I feel was a disturbing element on the staff, has resigned and a Mr. Dahl has taken over the position. Mr. Dahl is an experienced farmer and also a first-class carpenter. He is expected to keep the barns and out-buildings in good repair.

Mr. House found the school without vegetables. He immediately purchased a large quantity of potatoes, cabbage, turnips, beets, onions and carrots. All these vegetables are of excellent quality and should last throughout most of the winter; especially the potatoes.

Mr. Gow, of the Dominion Water Power Bureau, purchased the tar necessary to repair the roof of the school and the classroom. I took the material up by car and the repair work was to be done by the engineer and Mr. Dahl.

The fire escape doors had just arrived and Mr. Hilts writes that they have already been installed.

The children appeared clean, but were none too well clothed. Mr. Hilts noticed this himself and assures me that this will be corrected as soon as possible.

The meals served were well cooked and there appeared ample for all. Breakfast consisted of porridge with milk, bread with jam, peanut butter or lard; cocoa or milk to drink. Dinner was potatoes, one other vegetable, meat, gravy, bread, milk pudding, and water to drink except for the small ones and they receive milk. Supper consisted of soup, bread with lard, dried fruit or jam, cocoa or milk to drink.

The milk supply at present is eight gallons at night and about the same in the morning. The cook stated that any shortage was supplemented by dry milk.

ARCHIVES PUBLIQUES
CANADA

Now in reference to the plumbing referred to in your letter 106-0-1, dated October 21st, 1944. I found one toilet bowl broken. This, of course, must be renewed. The additional four bowls and four baths are no doubt needed. Mr. Yates from Brandon had men working at Virden and I was able to get his advice concerning the proposed installations. He checked both the boys and girls' side of the building and agreed that the present arrangements were inadequate. He pointed out the work involved in taking up the cement and renewing old pipe which is practically worn our or clogged. He explained that on work of this nature it was difficult to give a definite price; because almost always unforeseen difficulties would arise. He intimated the complet job would cost in the neighborhood of $550.00. The material would be five toilet bowls complete, four bath tubs, 10 pair taps (washbasin), necessary pipe and valve fixtures.

I have already recommended the purchase of a new pump for the septic tank. This is urgently needed because the one in use is practically finished. If it fails to operate the sewerage will back up into the school and make operating impossible. Please advise if the pump has been ordered.

I would recommend that authority be granted at once for the following repairs:-

1. The re-treading of four stairways. This entails a lot of work because the underpart of the stairway is plastered and this must all be removed.

2. The renewing of worn treads in two other stairways.

3. Reflooring two hallways first floor in hall at top of stairway.

4. Renewing half the ceiling in boys' playroom by use of plaster board.

5. One door to make and hang.

6. Patch plaster in hall and girls' dormitory.

Cost of material above six items - approx.	$226.85
" " labour " " "	175.00
	$401.85

This quotation was submitted by Mr.H.Middleton, Elkhorn.

I would further recommend the purchase of fifty-eight mattresses:-

35 size	6' 2" x 30"
9 "	5' 8" x 30"
14 "	5' 8" x 30"

Parkhills state they will cost approximately $240.00

Parts of this building have not been painted for many years and a large quantity of paint is needed. Mr. Hills writes,- "Will be glad to get the paint. Just can't wait to roll up my sleeves and get to work". In the face of such willingness to do the work I trust the paint will be ordered immediately. There is a long winter ahead and a lot of inside painting can be done. I trust the quantity requested will be granted. The list is as follows,-

....

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES

Brushes 4" long hair	3
" 2" " "	2
" 1" " "	1

Mr. Hilts wants the children's meals served hot and to do this he is placing a senior pupil at both ends of each table. The pupils placed thus will serve the food after the children are seated. In order to accommodate the waiters he requires twenty-four strong unpainted chairs. I urge that these be granted. Furthermore I recommend two strong, well-built kitchen tables for use in the kitchen. The two now in use are past repairing. These tables could perhaps be built and shipped from Winnipeg. The size of top required is

1. 30" x 60"
2. 24" x 36"

These tables require to be strongly made and should be supplied with a thick, heavy top of 1½" lumber.

The floors in the main halls and in all dormitories are badly worn. In some places it is worn through, especially in the dormitories. I think we should start and renew the hall floors and if funds are available the dormitories should also be done. It would perhaps be easier to get the required help now than in the spring, therefore I urge that the matter be favorably considered. I at least urge that we go as far as we can with this work during the present fiscal year, because it must be done and the labor situation may be much worse.

This, as you know, is an old building and other repairs on equipment will arise. However, if the improvements outlined above are authorised the building will be much improved and the labour of cleaning made much easier.

Mr. Yates just notified me that both the hot and cold pressure tanks have sprung leaks. He has sent up plugs and we are hopeful of getting by for the winter months. If we are fortunate to do this, these tanks will need replacing next summer.

EXD.

Dear Mr. Hoey:

I enclose, for your information, copies of Inspector Hamilton's reports on the Elkhorn and Brandon Residential Schools. These reached us this morning and I thought that you might like to have them when you are discussing these institutions with the Church officials.

Our financial statement was also received today and it shows the appropriation in a very healthy condition. I am writing to Mr. Hamilton authorizing repairs to the plumbing and installing of extra tubs and toilet bowls at a cost of $550, repairs to stairs at a cost of $401.85 and purchase of the kitchen chairs and heavy work tables for the kitchen.

Purchase requisitions are being sent to the Purchasing Agent for the 58 mattresses and the paint.

With reference to the report on Brandon, I would direct your attention to the sixth paragraph. Possibly you could have Doctor Dorey write a letter to Mr. Strapp, as suggested by Mr. Hamilton.

Yours truly,

Mr. R.A. Hoey,
Royal York Hotel,

Attention
Mr. R.A. Hoey,
Supt. Welfare & Training,
Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ont.

Dear Mr. Hoey:- Re Kikhorn School

I have to thank you for your letter #106-0-1 of Nov. 13th. As I am looking forward to being in Ottawa on the 23rd and 24th I shall look forward to the chance of discussing a number of matters with you.

May I just say now that I have had many opportunities in the past year of commending the work of our Residential Schools to Church congregations and Societies. I also circularized a number of our Principals and know that many of them have been using whatever opportunities they could. I have also the promise of our Missionary Society to take one Principal each year for a period and allow him to travel around as a missionary deputation. The difficulty about this to date has been that with reduced staffs it has seemed impossible to release any Principal at such a time. The Woman's Auxiliary of our Church has also agreed to use some of our workers in this way but again they desire that they be released in the winter season when it is so hard for us to release any members of the staff.

For my part I have been taking Kodachrome pictures and am now seeking opportunities to show these in various quarters.

I just mention these facts to indicate that I am alive to the need you mention and may say that we are deeply conscious that our work is at present under fire from many quarters and not least from critics within the Church. I shall certainly welcome a thorough going survey of the whole problem of Indian education and believe that this would be most valuable for the sake of all parties concerned.

With kind regards, I remain,

Yours sincerely,
H. A. Alderwood.
Secretary.

LXD.

Dear Mr. Hamilton:

Early this month Indian Agent Waite submitted an application for the admission of Priscilla Beardy to the Elkhorn Residential School and her admission to that school was approved by official letter of the 8th instant. Today I am in receipt of a letter from the Principal of Elkhorn which reads in part as follows:

"Re: Priscilla Beardy, Lake St. Martin Reserve. Department Authority 106-0-10, November 8, 1944.

[redacted] take any more new children. School is already overcrowded. We have 130 children and not a spare inch of space."

For some years past the authorized pupilage at the Elkhorn School has been 155, although a review of the returns received from that [redacted] within the last year and a half indicates that they have never had that number of pupils. For the June quarter, 1943, there was an average of 134, for the September quarter, 1943, there was an average of 138, for the December quarter, 1943, there was an average of 146 and for the March quarter, 1944, there was an average of 136.

It is quite possible that in view of conditions existing at the school 130 to 135 is sufficient. However, You will note from the Principal's letter that he considers that not more than 130 children

Mr. A.G. Hamilton,
Inspector of Indian Agencies,
Winnipeg, Man.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

can be taken. I have no desire to overcrowd this building, or to insist on 155, but I wish you would let [redacted] have your comments on the matter, as, if the 155 pupils are not required, it would mean that we could possibly provide per capita allowance for 25 pupils at some other school where additional per capita grant is required without increasing the total appropriation.

An early reply would be appreciated.

Yours truly,

Philip Phelan,
Chief, Training Division.

Re: Authorized Pupilage - Elkhorn
File 106-0-1, November 28th.

You of course know that Dr. Simes made a careful inspection of conditions at Elkhorn and reported that "this chart shows a definite overcrowing exists"., and at that time there were 143 pupils in residence.

In view of Dr. Simes' report and the statement made by Mr. Hiltz, I think the only thing to do is to reduce the number authorised to 130 and use the per capita grant thus saved at some Church of England School where additional housing space is available.

Ottawa,
December 18, 1944.

Memorandum:

MR. HOEY

Please note my letter of November 28 to Inspector Hamilton, also his reply of December 11.

In the current year's appropriation we are providing per capita allowance at the Elkhorn School for a pupilage of 155 at $170 each. It is evident from Mr. Hamilton's letter that we will not be required to pay grant at this school for a pupilage of over 130. Consequently, if you thought it necessary, the pupilage at some other Church of England school could be increased by 25. I am bringing this matter to your attention due to the fact that when Reverend Mr. Ellis was here recently he stated that it was his intention to communicate with the Branch requesting an increase in pupilage at the St. Alban's Residential School.

REGISTERED

Attention Mr. R.A. Hoey

Acting Director, Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ont.

Dear Mr. Hoey:- Re: Elkhorn School

I think it well at this time to advise you of the progress being made at the above school. Our new Principal, Mr. R.E. Hiltz, has been into the city once or twice to discuss matters with us and we have also had the opportunity of discussing matters with Inspector Hamilton.

We have been delighted with the manner in which Mr. Hiltz has tackled the problem. He came to the school with the experience of Lytton and the example of Rev. C.F. Hives to guide him. Very many of the difficulties pointed out by Dr. Simes were quickly remedied. Mr. Hiltz has engaged extra local help to carry out repair work and to assist in the cleansing and furnishing of the building in certain directions where the work had been too much for the ordinary staff. He seems to have been able to create a new spirit of loyalty and enthusiasm among the staff, and we are confident that the spirit of the school has been changed.

Several staff changes have taken place and we are confident that the new workers secured will do much to raise the tone of the school. The new Farm Instructor has already made changes which have greatly increased the supply of milk and we have confidence that in the coming year he will be able to develop the garden along new lines.

In the matter of food, Mr. Hiltz has declared that in the main supplies were adequate but he has made a number of changes making for greater variety and attractiveness. We have approved of his suggestion that bread should be secured from a bakery at Virden and are well satisfied that this is of high quality. As a result the bakery worker is now acting as an assistant to the Kitchen Matron and fuller supervision can be given to the preparation of the meals. The children are receiving less bread, more milk, more fruit and in general we feel confident that little fault could now be found with the food. The Principal has also introduced a better system in the serving of the meals so that the food is warm and appetizing when received.

In the matter of clothing Mr. Hiltz found that a number

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of items were short and this again was a result of bad management, as the Woman's Auxiliary of our Missionary Society freely supplies adequate clothing when it is ordered by the school. Our records show that about $4,200.00 was spent in 1943 and there ought to have been adequate supplies. In the matter of bedding there was a real shortage in some lines and Mr. Hiltz has sent in very heavy requisitions which are now being filled. I understand that the Department has been securing new mattresses and we have on order a large quantity of blankets from the Army surplus supplies.

As for the building, I am delighted to know that various repairs are being undertaken now by the Department. New stairs were being built and I understand that considerable painting will be done in the near future. The Principal has had all the lockers removed from the dormitories and these are being placed in the playrooms. This will serve to increase the air space and we have instructed the Principal to keep his attendance down to 130 so that there may be no complaint of overcrowding.

The Principal has thrown himself enthusiastically into the task of reviving organizations that had been allowed to lapse. Both the Scout troop and Guide Company are now functioning and a choir is being trained to give a candlelight service at Christmas time in the village Church. We have gladly authorized the necessary expenditure to have the children robed for choir work, and believe this will help to lift the spirit of the institution. Mr. Hiltz is already working along various lines to have a real graduation at the close of the school year, including a program of sports, drills and other entertainment. It is his desire to have the school in such condition at that time that he may invite Dr. Simes and other representatives of the Department and community, that all may be satisfied that real progress has been attained.

I need scarcely say that it gives me great pleasure to note this change for the better and to assure you that we shall support our staff to the utmost in what they are doing.

With kind regards,

Yours sincerely,

H. A. Ackerwood.

Secretary.

Dr. Aldsrwood.

Dear Sir:

In my recent visit to my two grandchildren, Nancy May and Muriel Sinclair. at Elkhorn School. I regret to inform you that I am very unsatisfied the way the children are cared and fed. While at the School I ate the same food as the children, which is unnourishing for any child.

They get no butter at all, and only get milk in the mornings.

Those two things they get plenty at home. At the time I was leaving Muriel was sick, otherwise I would of brought them back with me. Under such terrible conditions I am asking the Indian Dept. to get the little girls home.

If you want any more information I will be glad to explain myself.

Sincerely,

(Sgd) Mrs. W. Sinclair.

Dear Inspector Hamilton,

Received the enclosed letter from the Commission today. I think and feel that it is an outrage against justice to the school. If this is allowed to go on (and you know how tales like this spread), it will spell defeat for any good which might be done here. Without this it is hard enough!

Would you kindly confirm the same or deny it as you see fit from you visit, and forward to the Commission, unless you feel that I am the type that simply staged a show for your visit.

Sincerely,

REH:MO

EX'D.

Ottawa, January 16, 1945.

Dear Mr. Hamilton:

The Principal of the Elkhorn Indian Residential School has forwarded to this office a copy of his letter of January 10, addressed to you. This concerns a complaint made by Mrs. Sinclair regarding the food served at the Elkhorn School. I note that the Principal has requested you to write the M.S.C.C.. I would appreciate it if you would let me have a copy of your letter to the Commission.

Yours sincerely,

Philip Phelan,
Chief, Training Division.

Re: Complaint of Mrs. Sinclair.

I was at Elkhorn School on January 9th and again on January 11th.

The School is now in charge of Mr. Hilts and gradually he is getting a better staff of workers. The building is being repaired and paint is on hand for painting.

I found the children well clothed and clean. The meals were as follows:-

Breakfast - Porridge with milk,
Bread with jam or peanut butter or lard,
Cocoa.

Dinner - Potatoes, one other vegetable,
Meat Stew with brown gravy,
Rice pudding with raisins,
Bread.

Supper - Soup - vegetables and meat cooked in soup,
Bread - 1 slice with peanut butter,
1 slice with lard mixed with butter,
Stewed prunes,
Milk for small children,
Tea for older ones.

I talked to both the Sinclair girls. The one was still in the infirmary but quite better and was up playing around with the other pupils; in fact, none were really sick. The other girl was attending school and apparently quite well. She appeared happy.

Mr. Hilts has not been at the school long; but he is greatly interested in his work, and I think he is liked by the children. Certainly he is interested in their welfare. I will be at Elkhorn again in February or March and will write you again about the two girls and conditions. I think Mr. and Mrs. Sinclair should await my further report before insisting that the children be returned.

528 Dominion Public Bldg.,
Winnipeg, Manitoba,
January 17th, 1945.

Dear Sir,-

Sorry you were absent when I arrived back Thursday. Your letter to Mr. Young caused my return.

Now this is what I learned.- The Cook arrived in the kitchen about 5.10 p.m. and left at 6 p.m., - perhaps to get her own dinner. The supper was soup, 2 slices of bread,-spread - prunes, milk and tea. The soup ran short before the last table was served and consequently they had to go back and rob some of the other bowls. The quantity required was from 1 to 1½ gals. short. The bread was cut about ½" thick and each got 2 slices. I understood you would not allow any extra should a child ask. No child should leave the table hungry, and I know you do not intend they should. Would you see in the future that extra bread is available for any child desiring more.

The soup served was good and contained meat and vegetables; however, could the suppers not be varied by serving pork and beans, or macaroni and tomatoes, or scalloped potatoes and cold meat, or salmon loaf. Eggs scrambled or as an omelette might also be used. I know this means work for your kitchen matron but after all she wants the position and should be willing to do the work. The staff is there for the benefit of the children and this fact should be recognised.

Now one other matter. I feel cold water at noon is a poor drink, especially in winter. How about cocoa or tea ? I believe it would be greatly appreciated and would add greatly to the menu. If your milk is short dry milk is available and there is no waste.

I hope with some new staff the strain will get lighter and I would be glad of your comments on the above proposals.

Yours very truly,

A.G.Hamilton,
Inspector of Indian Agencies
for Manitoba.

Re: Elkhorn School - File 106-0-1,
dated January 16th, 1945 -
Complaint of Mrs. Sinclair.

Mr. Hilts wrote a similar letter to Mr. Young, the Indian Agent, Griswold, and this arrived in the mail before I left the Agency. I immediately decided to again visit the school. Unfortunately Mr. Hilts had left for Winnipeg to discuss the complaint with the Commission. As the result of this visit I was not entirely convinced that the food supplied, especially for supper, was adequate and I wrote Mr. Hilts and now enclose a copy of that letter for your information.

On my return to Winnipeg a letter awaited me from Mrs. Sinclair forwarded by Mr. Clarke. I enclose a copy of my reply. Mr. and Mrs. Sinclair are grandparents to the two girls. They are very fine people and keep one of the cleanest homes on the Agency. Mr. Sinclair is an excellent provider for his table. I think the girls are none too rugged and thus the grandparents are greatly concerned. No doubt Mrs. Sinclair will visit the school again and unless conditions measure up to her expectations I am confident she will insist on taking the girls home.

I discussed the incident with Dr. Alderwood and am sending him a copy of my letter to Mr. Hilts.

I firmly believe Mr. Hilts is trying hard to improve conditions at Elkhorn. However, he needs the co-operation of a first-class staff, along with sympathetic understanding both from his Commission and the Department, and without this I doubt if Mr. Hilts or anyone else can bring the Elkhorn School up to the standard desired.

A. G. Hamilton,

CHILDREN'S SUPPER MENU

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
Macaroni & Tomatoes or Cheese Orange or Apple Bread & Spread # Koffy or Postum	Soup, Fruit, Bread, Johnny Cake Cocoa	Fish Chowder Biscuits & Jam Bread Cocoa	Scalloped Potatoes, Cold Meat, Bread & Spread Koffy or Postum	Scrambled Eggs or Shepherd's Pie - Bread & Spread Cocoa	Soup, Bread & Spread Apple Sauce Cake Koffy or Postum	[illegible] Bread & Spread Cocoa

Koffy is made from apples and is similar to postum.

Use raw vegetable salad as an augment to Monday's and Thursday's supper made from shredded cabbage, carrot, cooked potato, onion, and a little home made dressing if possible.

Potatoes left from dinner plus meat scraps can be used to make extra dishes to be given to children who work on the farm or are undernourished or do heavy work.

Milk used can be either powdered or whole.

Hot drinks three times a day.

Dear Inspector:

Thank you for your letter of the 17th. The food problem will easily cured when I have the competent help I desire. February 1st should look after that. As for the bread: two slices on the table was my order. After they had eaten their dinner, vegetables and all, they could have more, not before. Otherwise, they leave their meal in preference for the bread. Co-operation in this field has been lacking.

I made out a menu for suppers, of which I enclose a copy; but at present to get it done, I have to do everything but cook it. This will come around with a little patience and time. On the whole, I think that even now it is a hundred per cent better than I found it.

Again thank you for your assistance in a somewhat difficult undertaking. However I have been blessed with an overabundance of confidence, which reserve I now draw on.

Sincerely,

"R.E.Hilts"

Principal.

P.S. Confirming my telegram, the plumbers arrived 1.50 p.m. January 22nd.

Dear Mr. Hoey:-

When I wrote to you in November last with reference to the appointment of Mr. Ralph Hiltz as Principal of the Elkhorn School, it was in the hope that Mr. Hiltz would remain in the school for a period of years. Unfortunately however he has resigned.

On the nomination of our Commission in Winnipeg, therefore, I am writing to ask that the Rev. B.O.G. Dixon be appointed as Principal in his place.

Mr. Dixon was born in England. He holds the degree of B.A. from Durham and B.Sc. from Cambridge. He has in the past served as senior teacher at Elkhorn and as Vice Principal at Alert Bay. In 1940 he accepted the position as Principal of the school for Canadian children in Kobe but was obliged to return within the year on account of the war. Since then he has been in charge of the Indian Mission of Moosehide in the Yukon. His wife is a graduate of the University of Saskatchewan and of the School of Social Studies in Toronto.

From all that we know of him we have reason to hope that Mr. Dixon would be a desirable man as Principal at Elkhorn and I should be grateful if he might be so appointed.

Yours sincerely,

L. A. Dixon

From ELKHORN MERCURY, May 3, 1945.

ELKHORN [redacted] Indian

School Delights Big Stadium Crowd

For the first time in many years, the Anglican Indian Residential School here has presented the public of town and district with an entertainment which reflected some of the former glories of the institution, when the school was really part and parcel of the social circle of the town. There was a record attendance at "Concertime" last Friday.

To Principal Hilts and his efficient staff we extend our congratulations on the success of the event, the outstanding features of which were—"Sanctus," wonderfully handled by the school chapel choir; and "The Crime a ballet," a mythical tableau of musical rhythm well staged by six of the students, featuring the Misses Stranger in the titular roles.

Individual items of outstanding merit were the Highland Fling and the Sailor's Hornpipe, both given under the instruction of Miss H. Corder of the school's teaching staff who took part in the numbers. Bert Hartley did a bang-up job as a sailor too.

There was excellence in all the vocal offerings and Miss [redacted]Gibney was in good voice as usual. There was a certain richness too in the solo offering of Miss Hives, the Matron, and in the duet sung with her assistant, Mrs. Powell. Two well enjoyed numbers.

Staging and lighting were just splendid.

A little buck dancing and two comedy hits rounded out the program.

It is understood that a repeat performance will be given in the Stadium, Friday, May 5th. Several have intimated their intention to return for the offering. Those who haven't yet seen it will be well rewarded by taking it in.

---

though regrets were voiced because of the coming departure of the guest of honor, from Elkhorn. An expression of good-will toward Mrs. Lee was found in a tangible gift of friendship.

As a member of the family, even before the family was, Miss Waddington has long been acquainted throughout the entire Elkhorn district. As chief of the Servus Store which sold out last July, she helped to give this community very efficient service and there were many who were sorry that, due to failing health, it became necessary to sever her business connections here. A goodly number of her women acquaintances gathered together on Wednesday afternoon, April 25th, at the home of Mr. and Mrs. E. W. Shepherd to honor Miss Waddington in a remembrance handkerchief shower, amid expressions of friendship over the cheering cup of tea.

Elkhorn Board of Trade also took opportunity on this occasion of marking Miss Waddington's departure, by delegating its president to present to her, on behalf of the members, an express order, which carried with it hearty wishes for the happiness of the recipient in her new surroundings.

This respected family left for Virden last Thursday. Bill will, of course continue to commute between here and his business headquarters in his capacity as mortician.

ACT I

This is a fictional legend of the Pagan days of the Indians of North America, when the early missionaries were trying, sometimes against great odds, to gain a foothold and to bring the tribes out of their ancient superstition and fears of old taboos. The great Goddess of the tribe of Dackou was the Goddess of the Moon, to whom was offered human sacrifices, which constituted the greatest feast of the year.

No, a young brave, who as a youth had been lost from the village, was found by some missionaries, who took him in. In the subsequent years he became wise in the teachings of the great Christian God, Gitchimanitou. When he was a child, he had a friend, Little One, whom he grew to love very much. Now Little One was a Pagan and a great leader under her father the Chief.

One day as the feast was on and the Priestess to the Moon Goddess was in attendance, White Cloud, now a handsome Christian brave, returned to this Pagan scene to claim his love. The tribe are all stunned by his appearance as he stands gazing at Little One. Even the Medicine Man, dancing wildly, is a little afraid.

The Princess Little One recognizes him and runs with outstretched arms to embrace her love. He is indignant and thrusts her from him. She falls to the ground. Rising, she pleads with him. He tells her of Gitchimanitou who can truly make them happy. She is reluctant to forsake her Pagan ways. He leaves her. As he leaves, the Priestess casts an evil spell over him and then turns and goes to the Princess, persuading her to continue with the sacrifice.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ACT II

The Moon Goddess sees from her abode in the starry heights, that Little One has great love for White Club and knows that she would be doomed to destruction should the Princess accept White Cloud's offer of a new life.

Then follows the Dance of the Totems representing the Pagan worship of the tribe,and the Dance of the Little White Spirits, which shows the influx of the new belief into the life of the tribe.

Then appear the attendants of the Moon Goddess, and finally the Moon Goddess herself, in all her splendor, amid the showering of star dust. The Moon Goddess offers the Princess worldly wealth, and failing thus to hold her, tries to force her into submission by threatening that evil powers would descend on her. The Princess collapses sobbing to the ground. The Moon Goddess departs and the White spirits comfort her in her distress. The soft rays of the full moon bathe the scene in a strange tranquility, disturbed only by the glow of a distant campfire.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ACT III

White Cloud is seated by a fire. Little One is standing by the totems. It is twilight. The attendants and the Priestess to the Moon Goddess appear and as they dance, the Moon Goddess enters and condemns White Cloud as evil and taboo. White Cloud is stabbed by a frenzied brave and falls to the ground. Little One runs to him and as she kneels there, the White Spirits enter holding a cross. If the cross touches the spirit of evil, it dies. Knowing this the Moon Goddess tries to escape, but is surrounded. Forced to touch the cross, she dies by the lake. White Cloud revives and all kneel as a light appears reflecting the glory of Gitchimanitou. White Cloud rises and walks off slowly into the light leading Little One by the hand.

OUR AIM

In producing Moon Goddess it has been our aim to put before the public for their approval, something different in the field of entertainment; but more than that, it has taught these children to whom, often, there comes little opportunity for such things; confidence and independence. They are capable and should have the chance to develop latent talents which are surely here presented.

In one short month this show has been organized, trained ,and staged with ordinary children all under the age of sixteen. If this can be accomplished in so short a time, it is proof enough that a show on a Dominion basis, picking talent from all the Indian Schools and bringing them together in one school for six months, training them, then begin a Canadian tour from Coast to Coast. During this time they should also receive schooling in classroom work.

We are sure this would put the Indian in and before the public in a much better standing than many receive them now, and that when possibilities are known and promoted, would raise considerably their own morale to make them better citizens and good Canadians.

We would appreciate any remarks on this subject and suggestions for its continuance to a successful conclusion.

Sincerely,

R. E. Hiltz,
Director,
Box 170, Elkhorn, Manitoba.

OTTAWA, Ontario.

Sir:

I am taking the liberty of forwarding to you my remarks as a spectator at a presentation staged by the children of St. Mark's Indian School and attaching a copy of the program.

You will note that these children had only one month training. Their performance was to me a revelation of what Indian children can be taught, not only within a month but even if given unlimited time. I could not have believed without seeing it, that such a standard of dramatic effect could be produced with Indians. While I am not acquainted with Mr. Hiltz, it is obvious he possesses a high degree of directing ability. I am also informed that he has spent a great deal of his personal funds for costumes, etc. for this production.

The performance of the choir in Ave Maria and the Lord's Prayer was of equally high order but due to their immaturity expression and feeling was somewhat lacking.

I invite your attention to the inside of the back cover where the suggestion is made that the most promising children be selected from all Indian Schools and brought together for six months' training for a play. From the result I saw of one month of training, it is certain the result would be greatly to the credit of the Indian people and the Department. If such a play toured Canada, the white population would be very greatly impressed and surprised at the ability of the Indians. Education of the white people is as important factor as education of the Indians, in the problem of Indian progress.

(P.T.O.)

I trust this suggestion may receive your earnest consideration as this play has been a sensation wherever shown in this locality.

Yours truly,

W. Barr Murray

(W. Barr MURRAY), Lt.-Col.,

Ottawa, June 26, 1945.

Dear Colonel Murray:

I am in receipt of your letter of the 21st instant, with reference to the recent presentation staged by the children of the Elkhorn Indian Residential School.

The Department is pleased to know that the pupils performed in such a satisfactory manner and we were glad to hear from you to that effect.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Lt.-Col. W. Barr Murray,
Commanding Officer,
Brandon Military Hospital,
Brandon, Man.

Attention: Dr. Harold W. McGill

Re: Conditions at Elkhorn Indian Residential School

With further reference to your memorandum of March 7th, 1944, I have the honor to submit the following report:

I sincerely regret that this report has not been completed at an earlier date, but it has been rather difficult to accurately describe the findings.

On my return from the East, arrangements were made with Inspector A. G. Hamilton, when passing through Winnipeg, to meet him at Elkhorn at 9 a.m., Tuesday, April 4th, 1944. These arrangements were carried out.

The entire day was spent at the school. Rev. C.H. Middleton, former principal, Mr. B. Hodkinson, acting principal and Miss H.K. Davies, Matron, accompanied us through the school. As I wished to be present for the serving of a breakfast, dinner and supper, and to recheck some of my findings, I remained in the district over night and revisited the school on April 5th, 1944.

I regret to have to report that I never anticipated finding conditions in any school, as existed in the Elkhorn Residential School. Mr. Cornelius Bigwell's statement, made to Mr. D. J. Allan, sums up the situation perfectly when he says:

"While it was admitted that living conditions in an Indian village were not of a very high standard, they were much less crude, much less insanitary and much more convenient than their children enjoyed in the Elkhorn School."

The Indians have every justification to complain. They are to be congratulated on the gentlemanly manner of action taken to have matters remedied. This lack of supervision and interest in the school and pupils, as well as mismanagement, is not of recent origin. It has been going on for an indefinite period. A climax has been reached, which calls for drastic action, if this school is going to properly serve its pupils and obtain the results which are expected by the Indian Department, in return for their Per Capita Grant.

When the findings are considered from every angle, nothing favorable can be said for the present administration of this institution. To permit present conditions to continue will eventually not only bring severe public criticism on the Indian Affairs Branch, but serve no useful purpose in uplifting or helping the Indians.

A satisfactory school staff no doubt can be obtained.

Report Re: Conditions at Elkhorn Indian Residential School.

On approaching the school one received the impression that there was lack of organization, supervision and interest. The grounds were very untidy, articles of clothing and other wearing apparel were scattered over the yard, school entrances and steps. Many window panes were broken. The unbroken panes had the appearance of having been treated for a BLACKOUT, they were so dirty. Inside the building these impressions were confirmed by findings wherever you went.

At the time of my inspection, April 4th and 5th, 1944, this school was in charge of Mr. B. Hodkinson, who had just been appointed acting principal.

143 pupils were registered, 68 of these were girls. Four pupils, two boys and one girl, were taking grade 8 and one girl was taking grade 10 in the local High School. Four patients, three girls and one boy, were confined to bed in the school infirmary.

[redacted]

(A) Air Space

The attached chart shows the available air space per pupil in each dormitory.

The Saskatchewan Government Public Health Regulations, require 800 cu. ft. of air for each hospital patient and at least 400 cu. ft. for each person in any public hotel. In view of these regulations it should not be unreasonable to ask that 600 cu. ft. be provided for each occupant in any room used as a dormitory, for ten months of the year.

If such is the case, this chart shows a definite over crowding exists.

(B) Ventilation

Small slides at the bottom of some windows were the only source of ventilation. Broken window panes indirectly supplemented this means of ventilation. It certainly was not adequate or satisfactory. A draft passed over the occupants of the beds opposite the open windows.

Provision could be made for all windows in dormitories to open at least six inches from the top.

(C) Beds & Bedding

All that can be said in favor of the beds is that they are of pre-war manufacture. As such they are sturdier built than it is possible to purchase at the present time. Their appearance would be improved by a coat of enamel. The springs are held together by every conceivable means, wire, cord, etc. It should be possible to secure wire links and coils to repair these springs. The springs on every bed will require extensive repairs.

"Filthy" is the only word and even that does not adequately describe the condition of mattresses, pillows,

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and bedding. The majority of the mattresses have long since served their usefulness.

Only the pillows in the junior girls' dormitory were noticed to have pillow slips. In all other dormitories they were conspicuous by their absence.

[redacted]

(A) Toilets

The attached chart also shows toilet facilities and condition of same in each dormitory.

Three toilet bowls were situated at the south end of the girls' wash room. Two of these were in proper working order. One did contain fecal matter. Another had a bad leak from an over head flushing tank, which flooded the floor surrounding the toilets. This leak could not be of recent origin, as there was a piece of wooden duck walk in front of the bowl, to keep the user's feet out of the water. The door at the entrance of one toilet was off its hinges.

The toilet paper containers were located outside of the toilet on the wall between the doors.

In the boys wash and play room on the south side of the building, there was plumbing for three toilet bowls but only two were installed. There were no urinals.

Not a single toilet bowl in the whole school had a seat. The majority of the bowls were badly stained, and had an unecared for appearance.

I have no recollection of seeing any outside toilets.

The Saskatchewan Provincial Health Regulations require one toilet seat to every 15 pupils.

(B) Wash Basins

The girls' washroom, which is 27' by 14' is located on the ground floor in the west half of northern portion of the building. This room is cold and uninviting, possibly due to its cement floor and poor lighting.

Ten wash basins provided with two taps each, are situated on the west wall of this room. Examination revealed that neither tap on one basin, and only one on three others were in working order. Some of the basins contained dirty water. On investigation it was found that the stoppers were made of toilet paper.

Two roller towels were hanging in this room.

The boys' washroom, which is 26' by 14' is located in the southern portion on the ground floor. It also was cold and uninviting, similar to the girls for the same reason.

Twelve basins provided with two taps each, are situated on the west wall. Neither taps on one, and only one on two other basins were working.

Two roller towels were hanging in this room.

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Not a single stopper was found in either wash room. All basins had an unclean for appearance.

(C) Bathing Accommodation

Two tubs for use of the girls were partitioned off in the northern end of their play room. The floor is of cement. It was moist at the time of our visit. There was a wooden duck walk beside each tub. Both of these were in broken condition. There was a shower fixture over one tub, which was leaking. The handle for its control valve was missing. As the tub had a rusted spot, where the shower dripped, one would conclude the leak was not of recent origin.

On the boys' side a small room 9' by 14' adjacent to their play room, contained two tubs as well as a shower. The waste water from the baths and shower flows out over the floor to an open drain in the boys play and wash room.

3. HEATING FACILITIES

Even if the building had been kept in first class repair, difficulty in maintaining a satisfactory temperature would be experienced on account of its age. With the neglect, which is evident in toilets, wash basins and bathrooms, is equally evident in not maintaining the building in good repair. Poorly fitted storm windows, absence of storm doors, and innumerable broken panes of glass, increase the heating difficulties.

The heating plant is a Gurney Hot Water Furnace, equipped with an automatic stoker. One section of the furnace was reported out off when the stoker was installed a few years ago. The engineer admitted difficulty in maintaining a comfortable temperature in many of the rooms during the cold weather, especially if it was windy. From personal experience, this furnace does not appear to be any more than large enough to satisfactorily heat this building, if all its sections were in perfect working order.

If the welfare of the children had been considered, steps would have been taken to have the defective section repaired and put in order. The inability to maintain the building at a comfortable temperature did not originate during the winter months of 1943-44.

4. FIRE HAZARDS

The fire escapes in the dormitories lead through a window using only the lower half. The steps up to these windows were not solid, with the confusion during a fire, they are apt to cause the pupils to fall. Serious consequences could easily result. In the laundry there is an old kitchen range used to heat the sad irons. While it was located adjacent to the chimney it had to be continually operated with all drafts wide open. Clothes on lines and on clothes horses were near this stove. This did constitute a serious fire menace as it was on the basement floor in the center of the building.

Throughout the building were fire extinguishers.

5. CLOTHING & GENERAL -

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

5. CLOTHING & GENERAL APPEARANCE OF THE CHILDREN

No matter where the children were contacted, in the class rooms, in the dining room, about the school, or out of doors on the play ground, they were dirty and their clothes were disgraceful. The clothing was not only dirty but torn and ragged. Their stockings were full of holes. Not a single child was observed to be wearing a good pair of boots. No difference was noticed in the clothing worn at meals, in the class room or outside. Several of the boys took off overalls when they came into the wash room from outside.

Many of the children playing out doors had a half frozen appearance.

There is no doubt about these children being very poorly clad. They certainly were not provided with sufficient clothing to keep warm during the cold winter months, if they did not have on more appropriate clothing than worn the day of this inspection.

There was no evidence of extra clothing having been issued, except what seen in the laundry and sewing room. The quantity observed in these two places did not impress one as being sufficient for a complete change for all pupils.

The provision made, for the care of clothing in use, was not such to induce or teach any child to care for their wearing apparel. For example, in the girls' washroom, along the wall 27' in length was supposed to be sufficient hooks for 88 girls to hang their coats and hats up. Along this same wall was a row of seats, which had open pigeon holes underneath. These were crammed with old boots, rubbers, dirty clothing and everything else. In the boys' washroom exactly the same unsatisfactory and untidy condition existed. Here there was a wall 26' long to provide space for 55 boys to hang outside wearing apparel.

No provision has been made for the children to keep any personal belongings they have or receive. Apparently a few did try to keep them underneath the mattresses. There are good lockers in the small boys', intermediate and junior girls' dormitories, but not a single one was in use.

When a good wind breaker was found in the manure at the cow barn, Rev. C.N. Middleton, stated, although every boy had been issued with a new wind breaker last fall, at Christmas time only five could be accounted for.

As regards dental hygiene, a tooth brush rack containing two brushes was noticed above the basins in the girls' wash room. On the boys' side the tooth brush rack was noticed in the linen room. On enquiring why it was located there, the Boys' Supervisor replied that brushes were given out to be used immediately before going to class. From what was seen, one would conclude that dental hygiene was given very little consideration.

While visiting the laundry, it was observed that the children were getting their clothing and shoes sopping wet, during the process of removing the contents of the washing machine into a tub for rinsing. This work seemed very

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

unnecessary, as the rinsing could have been done in the washing machine. Miss Allison, the Laundry Matron, was asked why this extra work. She replied her instructions were to get two washings from one lot of suds.

6. FOOD

A copy of the menu SUPPOSED to be in use is attached hereto, also a list of weights of all pupils taken on the day of inspection.

It is to be expected that a large percentage of pupils on returning to school, following their summer vacation, will be under weight. Such a condition should not exist a month or so before they are leaving for their summer vacation, if they have been receiving sufficient and proper diet. At the time of inspection 28% of the girls and 69.9% of the boys are underweight in this school.

The dining room was visited for the mid day and evening meals on April 4th, breakfast and mid day meal on April 5th, while these meals were being served and eaten. From observation during these four meals, it was apparent there were more OMISSIONS than SUBSTITUTIONS in the menu.

The meals were not appetizing. Each child received an enamel plate, enamel cup and a spoon. Not a single knife or fork was noticed in the dining room at any of the meals. Beans and bread appeared to constitute the main item of food, the former being the principal and only vegetable observed. The latter was the most abundant item of food on the tables. The bread was baked in the school and was of very good quality.

All food except the bread was placed on the enamel plate. The bread previously to being brought to the table was smeared on one side with warm grease. Bread was served with each meal but only at two meals was it served with lard. Approximately three slices, more properly described as hunks, were placed directly on the table beside each pupil's plate.

At no time did the children receive butter.

At the mid day meal the younger children were given milk, the older ones received water. For breakfast and the evening meal all were SUPPOSED to have cocoa made from milk and sweetened with sugar.

7. FOODS AVAILABLE

Mrs. D. A. Oakley, Kitchen Matron, informed me they had just been out of potatoes for four or five days. Rev. C. N. Middleton, former principal, also informed me that it would be necessary to buy potatoes and other vegetables from now until the new crop was available.

Vegetables were supposed to be on order.

In the vegetable bins below the kitchen were a few small heads of cabbage and a small number of turnips. Neither here nor in the root cellar beneath the new class

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

rooms, where the vegetables were supposed to have been stored, could a sufficient quantity of one or any combination of vegetables be found, for one meal for this school.

The meat is bought at the local butcher store. Apparently they do not buy any particular cuts of meat. On checking the counter slips for meat purchased during the month of February, they bought 40 to 60 lbs. of meat per day. The Matron and Lady in charge of the kitchen explained that the butcher delivered hamburger very frequently. At no time did the children ever get roast meat.

During my conversation with the Matron, mention was made about securing eggs for Easter. I availed myself of the opportunity to enquire from her how frequently the children were given an egg for breakfast or any other meal. She replied that since she had been the Matron not on a single occasion had the children been provided with such a luxury.

Bread pudding constitutes an important item in their noon day meal. On enquiring about the source of the bread used for this purpose, I learned that it was left over bread gathered up after each meal.

THE FOLLOWING OUTSIDE BUILDINGS WERE INSPECTED

1. PUMPING PLANT - from the septic tank which was in A 1 working order.

2. NEW CLASS ROOMS - in what was formerly the old gymnasium building. They were nearing completion. I understand that this will make available for play rooms the two rooms now being used as class rooms in the main building.

3. HORSE BARN - showed the usual evidence of lack of care. Windows were broken or absent. Doors off hinges. There was an accumulation of manure. Parts of harness were lying about the barn in the manure.

4. PIG PEN - This really was the only building which showed evidence of receiving any attention. The most galling part here was when I enquired if it was the intention to butcher the three pigs which appeared ready for market, I was told they were not for the school use, but were to be sold to the local butcher.

5. COW BARNS - Two or three of the younger boys were attempting to clean this building. All the cattle were out. The barn had not been cleaned for one week if not longer. It certainly did not have a sanitary appearance to insure a satisfactory milk supply. There was an excellent silo, which was liable to be blown down and destroyed at any time, due to carelessness in not keeping the guy wires in position and tight.

6. POULTRY HOUSE - There was a flock of poultry. The replies to my enquiries led me to believe that they received sufficient eggs to supply the school requirements. Later I learned that it supplied only the requirements of the staff.

7. VEGETABLE STORAGE & FACILITIES - Provision was made for the storage of vegetables adjacent to the furnace room under the new class rooms. The provision made was much too small

GORDON JONES ARRIVES BACK HOME

We are elated at having Gordon Jones back in his old home town. He arrived on Monday. Sorry his wife wasn't with him for we feel sure that she's as nice a gal as Gordon is a pal. A hearty welcome awaits her.

In the meantime Gordon will enjoy a month's vacation here

after which he will report back to M.D. 10 headquarters for further duty or an honorable discharge which we do not doubt he accorded him because of an eye injury received in battle. He appears to be in good health now. We are truly happy to announce the return of this native son.

ST. MARK'S ANGLICAN INDIAN SCHOOL GRADUATION

One of the most colorful and successful graduating days ever held at the Indian School here was staged on Friday, June 22nd, when 15 young men and women students of the institution received their diplomas. The graduation class was as follows:

Rose Keyewahkeo, Gladys Taylor, Eva Pruden, Nancy Thompson, Dorothy Thomas, Dorothy Antoine, Ina Prax, Sally Paul and Melita Thomas.

David Stranger, Freeman Stranger Andrew Kirkness, Adam Branth, Kenneth Wascouna, Robinson Nascapow.

The day's exercises were replete with everything traditional regarding graduation time.

Morning prayer was said at 8 a.m. Then followed school sports which were concluded by the Cadet and Girl Guide inspection by Major Cummings, Cadet Chief for M.D. 10 and Lieut. Reynolds, the young lady in charge of girl guide work for the province. Following the inspection the students paraded and created a very fine picture of the discipline for which the various types of training is given.

Along about 1 p.m. the graduating class and guests from the town and outside points were banqueted in the spacious dining hall which was neatly arrayed for the occasion. Approximately 100 sat down to the well-prepared repast which concluded with a toast list aptly proposed and responded to after Principal Hiltz proposed "The King."

Those contributing to the toast list were Mr. Slaney, F. C. Norris, Bert Hartley, Rev. Hives, Miss Hives, Miss Gibney, Miss Manred of the Church of England Travelling Sunday School Mission, Major Cummings of M.D. 10, Lieut. Reynolds, Winnipeg, Mr. and Mrs. G. E. Bartley, Miss Stranger and David Stranger, Lieut. J. C. H. Forward, M.S.C.C., Winnipeg, and Miss Betsie Ewing.

Out-of-town guests were: Rev. Hives of Lytton B.C., Lieut. F. C. H. Forward, Winnipeg, Major Cummings, Winnipeg, Lieut. Reynolds, Winnipeg, Misses Manred and Ewing of Swan River.

Now came the presentations—

Diplomas were first presented to the graduating class. Then the following awards were made by a number of the guests, including Mrs. Bert Hartley and Mr. Carl Dahl, whose names do not appear above.

General Proficiency — David Stranger, grade 9; Rose Keyewahkan, grade 7; Audrey White grade 6; Betty Stranger grade 5; Robinson Nascapow, grade 4; Robert Sumner, grade 3; Lawrence Whitehead, grade 2; Samson Thomas, grade 1; Nellie Rose Young, primary.

Reading prizes—Grade 7 Olive Whitehead, 1; Freeman Stranger, 2. Grade 6 Harriet Beardy, 1; Felix Waters, 2. Grade 5 Elizabeth Whitehead, 1; Dennis Stranger 2. Grade 4 Jeanette Stranger 1; Ernest Flett, 2. Grade 3 Roderick George 1; Gertie Dorion, 2. Grade 2 Matilda Constant 1; Juna Constant 2. Grade 1 Nancy May Sinclair 1; Victoria Stewart 2. Primary John Arthur 1; Raymond Ross 2.

Writing prizes — Grade 7 Ethel Cheske, 1; Gladys Taylor, 2. Grade 6 Sally Harris, 1; Kenneth Wascouna, 2. Grade 5 Lillian Whitehead, 1; Dorothy Thomas, 2. Grade 4 Marion Dorion, 1; Edith Antoine, 2. Grade 3 Gordon Lathlin, 1; Freddie Ironman, 2. Grade 2 Mary Monk, 1; Lorie McGuilvray, 2. Grade 1 Lillian Mayham, 1; Miss Spence, 2. Primary Norman Dorion, 1; Andrew Williams, 2.

Arithmetic prizes — Grade 7, Dorothy Antoine, 1; Sally Paull, 2. Grade 6 Freddy Ironman, 1; Walter Noel, 2. Grade 5, Catherine Paul, 1; Gladys Antoine, 2. Grade 4 Evelyn Wascouna, 1; Burman Pratt, 2. Grade 3 Cora Keyewahkeo, 1; Nancy Flett 2. Grade 2 Alex Woodhouse 1; Rosine McGillivray, 2. Grade 1 Jackie Young, 1; Mason Williams, 2. Primary Simon Tobacco, 1; Gilbert Thomson, 2.

Good Conduct prizes — Junior, Samson Thomas. Intermediate, William Garson, Senior, Walter Noel.

The "All Round Girl" prize was won by Rose Keyewahkeo, and Andrew Kirkness earned off the "All Round Boy" award.

Gladys Taylor was adjudged the "Best House Girl" while Robinson Nascapow received the "Best Farm Boy" prize.

When commencing the prize winners, it is interesting to know just what these awards represented. It was disclosed to the visitors that there was real merit in the school work of the students. A visit to the class rooms pointed out the excellence of the efforts of these real Canadian youngsters, amongst whom are embryo artists of the finest calibre. Our [illegible] of inspection proved to us that the efforts of the [illegible] Department and the M.S.C.C. are mighty well directed.

One should, of course, [illegible] appreciance of the fact that much credit is reflected on the staff of [illegible] instructors when success is attained in such a manner so that which St. Mark's (Anglican) Indian School has enjoyed of late. Particularly is this so since Mr. Hiltz took charge in November last year. It is very apparent that he is the possessor of humanitarian traits which make him peculiarly useful in his chosen avocation. It is rather too bad that the powers that be have seen fit to return him to his former field of activity at Lytton, B.C. for while he has only been here eight months, he has accomplished a great deal. The best wishes of Elkhorn and district will go with him when he returns to his former haunts at the end of this month.

We understand that he will be followed by another principal from the west, a young man who was formerly vice-principal here (Capt. Dixon, C.A.) who is now fully demobilized. Knowing the school through past first-hand contact with it, Rev. Dixon should be successful here too.

In the meantime the institution is being closed for two months, with just a skeleton staff in charge. It will re-open in full strength in September and it is believed that several members of the present staff will return to carry on their very exacting duties.

Those who have given Mr. Hiltz such splendid co-operation during the past term are:

Miss J. Hives, Matron; Mrs. E. Aikwyn, Senior Teacher, Mrs. M. Toone, Intermediate Teacher, Miss M. Gibney, Junior Teacher; Capt. H. Miller Boy's Supervisor; Mrs. J. Paterson, Kitchen Matron, Mrs. D. Oakey, Sewing Matron; Miss H. Corder, Asst. Girl's Supervisor; Mr. C. Dahl, Farm Supervisor; Mr. Bert Hartley, Engineer; Mrs. B. Powell, Boy's Matron; Mr. C. Tuthill, Asst. Farm Instructor; Miss H. Tuthill, Girl's Supervisor; Miss M. Woodburn, Laundry Matron.

GEORGE CANART R.C.A.F. HAS RETURNED

Another popular young person, George Canart, returned home this week to enjoy a happy reunion with his parents Mr. and Mrs. Jean Canart, S.W. 5-12-29. It is learned from an unofficial source, that George may proceed to another part of the globe when his furlough expires.

George is another of those quiet members of the armed services who escape the klieg lights of publicity. He has now completed a tour of service as an R.C.A.F. [illegible] and has seen active service in North Africa and Europe.

KENNETH CROSBY IS NOW REHABILITATED

It would appear to the casual observer that Ken Crosby has come into his own since the exciting experiences he enjoyed overseas and since he returned one really does enjoy things as when they survive them he appears to be settling down to the grind of civilian life. This grind will be grace-

fully tempered by the arrival of his wife and children from overseas. They joined him last week. Monday we chanced to observe Ken carefully inspecting his new Dodge truck bright in color brisk in action and a good bet to further the business for which he has chosen the slogan "Ken's Transfer."

TIME BOMBS

Nothing cooks your goose quicker than a boiling temper.

Only what we do makes what we say believable.

Eight hours a day working for your country does not make you a patriot if the other sixteen hours are lived selfishly.

Frosty relations mean frozen assets.

Breed over our pet dislikes and they'll hatch out to infest the nation.

Our troubles are just kick-backs from our faults.

Saving face seems even less worth while when it's a false face.

Moving heaven and earth to have our own way makes hell on earth.

It's an open heart that opens doors.

Happiness

To have your hand in mine is happiness enough itself
The world is our cathedral, and love is our benediction.
There is no beginning, there can be no end
All of it is dreamlike with awakening not to be feared.
For it is a dream which I shall always own!

Scanlon—Lesnick

At Medwin's Roman Catholic church was the scene of a pretty wedding on June 9 when Anne second daughter of Mrs P Lesnick and the late Mr Lesnick, became the bride of A B Cornelius Geoffrey Scanlon R NY R son of Mrs W Jackson of Shelburne. Rev Father Podpinski officiated The bride was given in marriage by her brother Dr J Mc[illegible] and she wore a gown of white [illegible] satin (heirloom) on princess lines. Her flower tie veil was held by a wreath of white carnations and she carried American Beauty roses.

The bride's attendant was Miss Peggy Christie, whose floor length gown was of blue taffeta with headdress of blue netting and flowers. Her bouquet was of assorted carnations. The groomsman was Mr Arthur Scanlon of Winnipeg.

Following the ceremony a reception was held at the Olympia grill after which the young couple left on a trip to Winnipeg. The bride wore for travelling a suit of navy crepe with white accessories and a corsage of roses. Later they will go to the east coast to reside.

A Fetherstone Orchard has arrived home to spend his leave with his parents Mr and Mrs F M Orchard 364 Sixteenth street.

Mr and Mrs P P F Burke left today for Carleton Place Ont to attend the marriage of their niece Miss Agnes Ritchie and P A T Jarvis which takes place on June 23.

Neutral Rebekah lodge will meet on Monday evening in the I.O.O.F lodge rooms.

Mr and Mrs J R Howard of Hamilton are guests of the latter's sister Mrs [illegible] Robinson.

Mrs [illegible] Mingle [illegible] and sister Mr and Mrs [illegible] Hazard, over the week-end.

The auxiliary to the Canadian Legion will hold a whist drive in the Legion hall on Monday evening.

Mr and Mrs R M Matheson left today for the east and will spend the summer at Muskoka Lakes.

Mrs. Maud Hays announces the engagement of her daughter Irene to Mr W H Pierce. The marriage will take place on June 23 at 11 a.m. in St Matthew's pro-cathedral.

Some sixty friends of Mrs L Currie gathered at her farm home at Minnota and Monday to honor the occasion of her birthday. Her entire family was present. After many kind words of congratulation from old friends tea was served on the lawn.

Col E Stanley Nash, formerly commandant of A3 Artillery training centre at Camp Shilo, left Friday for Ottawa. He was accompanied by Mrs. Nash and daughter Mary Lou. Mrs Nash will rejoin Col Nash at the expiration of a leave.

Mrs W Kinnaird entertained at a miscellaneous shower last evening in honor of Miss Constance Gray a bride-elect of this month. The gifts were presented to the honor guest in a prettily decorated basket. Tea honors were done by Mrs. W Gray and assisting in the tea room were Misses Gwen Washington, and Jean Drinkwater.

Mr. A. Fra[illegible] has received a cable [illegible] stating her son Flt Lt Jack Fraser D.F.C. is [illegible]

The members of the Navy league of the Y.M.C.A. with Mrs Shaw presiding, spent the afternoon at the lag day on for June 30 and they were informed that there would be no further meetings in July or August. A social hour following the business portion of the meeting. Mrs. H Fisher and Mrs J Shanks were hostesses.

Following choir practice on Thursday evening the members of St George's choir were delightfully entertained at the home of Mr and Mrs A Noble. After a pleasant social hour lunch was served by the hostess assisted by Misses Betty Veale Marjorie Graham and Mrs W Tucker. During the evening Mr R Seaton who leaves shortly to reside in the east was presented with a bill fold by members of the choir.

K Hadley is visiting here from San Francisco. Miss Edith Van Somerens of Winnipeg is the guest of Miss Grace Paterson. Mr and Mrs V McIntosh of Whitewood are guests in the city.

What the Stars Say

For Sunday June 17
By Carpenter Arnold

Sunday's horoscope shows that while important issues of expansive and significant scope may come up for consideration yet there are many factors of adverse complexion or disappointing situations to be met. It may be difficult to reach conflicts or arrive at pleasant and happy or profitable decisions where there are hints of trickery or false appearances making for loss, friction and disagreement. Be wise.

Those whose birthday it is, although endowed by a promising opening for gain, advancement prospects or some definite prospect of attaining cherished goals or important ambitions of scope and application may find opposition, trickery fraud and misconstruction, equilibrium does not only in funds but in energies, pursuits and happiness, happiness and peace of mind. Be alert to fraud with papers, emotions and refrain from false moves or over-hasty conduct.

A child born on this day may have high ambitions and efficiency to attain them with honors and pleasant personal reactions but may be subjected by trickery fraud or sinister betrayal or misunderstanding.

For Monday June 18

Monday's astrological forecast is for a rather fortunate turn in public affairs with dramatic and happy realizations or celebrations of a community or fraternal nature yet there are signs of serious moon aspects, some sinister attacks or other under cover aggressions to surprise. It is advised that all urges of obligations and responsibility, justice and duty of a private quality be strictly adhered to and enforced prudently.

Those whose birthday it is may enjoy some public approval and honors with celebrations and dramatic events yet be confronted by obstacles delays, sinister and underhanded matters to try the temper and test the soul in all connections, observe a sense of duty obligations and be just and fair.

MRS S. H MINMAN,
Baptist missionary on furlough from India, who will give a number of addresses at the Baptist convention in Brandon, June 30-July 2.

[illegible] in all material [illegible] personal and moral.

A boon on this day may save many, ink and allegations in life you enjoy honors and public support and confidence.

Awards Made at Closing Exercises At Collegiate

Rev. Nelson Mercer Spoke to Students on Need for Stability

The graduating classes and the student body attended the annual commencement exercises at Brandon collegiate on Friday afternoon with Ed Watson, president of the student council, in charge of the program. Prizes were given for academic work as well as awards in the different fields of sports and for other school activities. Rev. Nelson Mercer was guest speaker and the school song was implemented by George Fulton, chairman J H Donnelly and Dr Mary Matheson both T A Scrivin was also among the platform guests.

Mrs Roy Wilson regent of Tecumseh chapter I.O.D.E. and Mrs L J Fraser educational secretary were present to make the different awards given annually by the chapter. The Laura Secord essay contest in the grade ten students at the collegiate and this year the contest was on a basis. In these were planned as a result Roland Harper Daisy Begin and Arthur Barrie. Each received a war saving certificate. Bonnie being first in the local contest Roland Harper was first in the provincial contest and received a pair of books. The Ethel M Chapman cup presented annually by T A chapter was won this year by Gladys Salisbury who had an average of 8 per cent in English and History in grade eleven. The Amy G Hearn memorial cup presented by the Brandon Business and Professional Women's club to the girl in grade eleven who has shown the most outstanding character and all round ability was awarded to Margaret Ann Hill. Both Queen Irene Hope Allen Tom Kirk Deleen Mae Sanders Jim Lyn Herrick Bill Bell Jack Harrison Judy Sykes Ann Doe Spence Jo a Carter Pat Lich ens Norman Smith Ken Bell Lyn Cronie Bob Cronie Theodore Lattey Pat McClintock Irene Tait Ralph Wooten Doug Cuthbert Irene Tait Joe Bing Lorna Hill Stephen Lin McNeil Murray Hopkins Frank Wiedmann Lyell Cramp Joe Mills were presented the cup by Mrs Clark Gladys Salisbury Ila Bell and Roland Harper. I E Reid principal and the school for most points on the day in the senior Room 71.

Governor General's Medal

The governor general's medal this year was won by Ed Watson and Mrs Donnelly in making this award offered the warmest congratulations for his being voted the [illegible] who had used the most valuable year he was and for back at almost. Ed Watson was presented with a [illegible] his wonderful work in many school activities and this was given by Miss Hazel Dot. 4th

T A Sc[illegible] awarded a medal and read the names of winners from grade eleven and four from grade ten. Mr [illegible] brought greetings from the [illegible] board and referred the subject to the [illegible] to make a safe and [illegible] decision. [illegible] of thinking ahead to the [illegible] and not [illegible] to [illegible] [illegible] [illegible]

ACT I

This is a fictional legend of the Pagan days of the Indians of North America, when the early missionaries were trying, sometimes against great odds, to gain a foothold and to bring the tribes out of their ancient superstition and fears of old taboos. The great Goddess of the tribe of Dackou was the Goddess of the Moon, to whom was offered human sacrifices, which constituted the greatest feast of the year.

No, a young brave, who as a youth had been lost from the village, was found by some missionaries, who took him in. In the subsequent years he became wise in the teachings of the great Christian God, Gitchimanitou. When he was a child, he had a friend, Little One, whom he grew to love very much. Now Little One was a Pagan and a great leader under her father the Chief.

One day as the feast was on and the Priestess to the Moon Goddess was in attendance, White Cloud, now a handsome Christian brave, returned to this Pagan scene to claim his love. The tribe are all stunned by his appearance as he stands gazing at Little One. Even the Medicine Man, dancing wildly, is a little afraid.

The Princess Little One recognizes him and runs with outstretched arms to embrace her love. He is indignant and thrusts her from him. She falls to the ground. Rising, she pleads with him. He tells her of Gitchimanitou who can truly make them happy. She is reluctant to forsake her Pagan ways. He leaves her. As he leaves, the Priestess casts an evil spell over him and then turns and goes to the Princess, persuading her to continue with the sacrifice.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ACT II

The Moon Goddess sees from her abode in the starry heights, that Little One has great love for White Club and knows that she would be doomed to destruction should the Princess accept White Cloud's offer of a new life.

Then follows the Dance of the Totems representing the Pagan worship of the tribe,and the Dance of the Little White Spirits, which shows the influx of the new belief into the life of the tribe.

Then appear the attendants of the Moon Goddess, and finally the Moon Goddess herself, in all her splendor, amid the showering of star dust. The Moon Goddess offers the Princess worldly wealth, and failing thus to hold her, tries to force her into submission by threatening that evil powers would descend on her. The Princess collapses sobbing to the ground. The Moon Goddess departs and the White spirits comfort her in her distress. The soft rays of the full moon bathe the scene in a strange tranquility, disturbed only by the glow of a distant campfire.

ACT III

White Cloud is seated by a fire. Little One is standing by the totems. It is twilight. The attendants and the Priestess to the Moon Goddess appear and as they dance, the Moon Goddess enters and condemns White Cloud as evil and taboo. White Cloud is stabbed by a frenzied brave and falls to the ground. Little One runs to him and as she kneels there, the White Spirits enter holding a cross. If the cross touches the spirit of evil, it dies. Knowing this the Moon Goddess tries to escape, but is surrounded. Forced to touch the cross, she dies by the lake. White Cloud revives and all kneel as a light appears reflecting the glory of Gitchimanitou. White Cloud rises and walks off slowly into the light leading Little One by the hand.

OUR AIM

In producing Moon Goddess it has been our aim to put before the public for their approval, something different in the field of entertainment; but more than that, it has taught these children to whom, often, there comes little opportunity for such things; confidence and independence. They are capable and should have the chance to develop latent talents which are surely here presented.

In one short month this show has been organized, trained ,and staged with ordinary children all under the age of sixteen. If this can be accomplished in so short a time, it is proof enough that a show on a Dominion basis, picking talent from all the Indian Schools and bringing them together in one school for six months, training them, then begin a Canadian tour from Coast to Coast. During this time they should also receive schooling in classroom work.

We are sure this would put the Indian in and before the public in a much better standing than many receive them now, and that when possibilities are known and promoted, would raise considerably their own morale to make them better citizens and good Canadians.

We would appreciate any remarks on this subject and suggestions for its continuance to a successful conclusion.

Sincerely,

R. E. Hiltz,
Director,
Box 170, Elkhorn, Manitoba.

QUARTERLY REPORT ENDING JUNE 30th, 1925, ON BIRTLE INDIAN AGENCY

xx xx xx

Education:-

The pupils at the Birtle Residential School made good progress in the class-rooms, as they have been spending a full day in school. This placed a lot of extra work of the staff. Mr. Webb, the Principal of the School, has made many changes in the system of operating the school, and they have all been beneficial to the pupils, and also to the Women's Missionary Society, who operate the school. His farming methods have been very good and the farm has paid well during his management. I am sure he deserves credit for the work he has done at the school. The Indians however all desire day schools on the Reserves.

EXTRACT from letter from A.G. Hamilton, Inspector of Indian Agencies, dated 11th October, 1945.

ORIGINAL ON FILE: 106-0-5

"I was at the Elkhorn Indian Residential School on September 26th, 1945.

The School is now in charge of Rev. Mr. Dixon. He has only been there about three months but already appears to have a fair grasp of the situation. He has a new Matron, Miss Beanland, who has been loaned from a school in Alberta. She is a graduate nurse and appears very capable.

The School has been greatly improved as the result of the work done by Mr. Hiltz. The halls and many of the rooms have been painted, and all the halls are covered with linoleum.

The children are well dressed and neat in appearance.

The dormitories were clean and the beds neatly made.

The nurse has prepared a menu which appears carefully planned. I believe the children now are well fed.

The farm crop is light. They have no garden and so it will be necessary to purchase all the vegetables. Already the new Principal is ploughing garden land for next year and he plans on producing plenty for the School. The garden at this School has been neglected for years; but I believe from now on this work will receive special attention.

The Farming Instructor, Mr. Dahl, certainly has not measured up to his responsibility and is being relieved of his duties. I hope the School will be more successful in their next selection."

Elocution: Builds confidence and corrects wrong speech habits.

Ballet: Builds body through exercise, teaches co-ordination of mind and body, develops posture and gives self-confidence.

Music: Gives expansion of rhythm which is so natural to the Indians.

All these combined will make a fine show and will present the talents of the Indians to more of the cultured public who should be introduced to and made conscious of their responsibility in the welfare of the Indians.

Anxious to hear from you at your earliest convenience.

J. E. Mathews Esq., M.P.
House of Commons,
Ottawa, Ontario.

Dear Sir:

In the production of our show (Provincial) we have progressed to the point that, when summed up, we need financial and moral support from the Department.

I have just come from a lengthy discussion on the subject with Major McKay, Commissioner for Indian Affairs in B. C. and his support is certain.

In view of my previous correspondence with you and the fact that you are in direct contact with Officials of the Indian Department, influences me to avail myself once again of your generous co-operation by asking if you will assist the effort by helping to obtain a grant of $500.00 for this show.

It is hoped that we may get started by early January. The show will be ready for presentation in Vancouver at the peak of the entertainment season which is late March or early April.

The Commissioner will make all necessary arrangements for training and rehearsing the production at the Government School at Lytton and Principal Hives, I know, will be most agreeable.

Might I suggest that the funds raised be used to expand the effort so that this form of education may become an integral part of the Indian Educational System.

Major D.M. MacKay, Indian Commissioner for B.C.,
P.O. Box 70, Vancouver, B.C.

Mr. R.E. Hiltz, now living in Vancouver, was Principal of the Elkhorn Indian Residential School for several months. He gave up duties at the end of June last. While at Elkhorn he organized special graduation exercises and the performance of "The Moon Goddess" which was presented in the City of Brandon by a total Indian cast. While he lived in that section of the country he apparently became acquainted with Mr. J.E. Matthews, M.P., and Mr. Matthews has forwarded to us two or three letters which he has recently received from Mr. Hiltz.

I enclose for your information a copy of Mr. Hiltz' last letter to Mr. Matthews and Mr. Hoey has requested me to bring this matter to your attention in order that you may let us have your comments.

Phillip Phelan,
Chief, Training Division.

Your File 106-0-1

I have your letter of December 14th, 1945, enclosing a copy of a letter from Mr. R. E. Hiltz, a former Principal of the Elkhorn Indian Residential School, addressed to Mr. J. E. Matthews, M.P., requesting assistance to obtain a grant for furthering instruction in dramatic art at our Indian Residential Schools.

Mr. Hiltz recently discussed this matter with me, suggesting that instruction in this connection be started at St. George's Indian Residential school where a production similar to that presented in the City of Brandon could be prepared. I advised Mr. Hiltz that although I was in sympathy with any move that would bring Indian talent more prominently before our people, I felt that the Department would wish consideration of the matter held over until after a School Inspector for British Columbia had been appointed and that I understood a move was already underway to fill the existing vacancy.

Needless to say I gave no assurance whatever regarding arrangements as suggested in the fifth paragraph of Mr. Hiltz' letter as this would, of course, be a responsibility for the Principal to undertake.

Should the Department approve of organizing this form of education in British Columbia Indian schools, it might be in order to use funds of the B.C. Special Vote to assist in meeting the costs involved.

D. M. MacKay,
Indian Commissioner for B.C.

I submit the following report on the Elkhorn Indian Residential School, inspected May 3rd, 1946.

There are 108 Children in residence and they are accommodated in three classrooms. The work seen was good and I consider that they are making fair progress.

The dormitories were well aired and tidy. The beds were neatly made and the bedding clean. All plumbing was in good working order.

The toilets and washrooms are well kept, tidy and clean. Towels are provided for each child and these are numbered, and hung on hooks. The walls are painted a light colour and I found the place well aired. There is a marked improvement in the care and appearance of these rooms.

The food is well cooked and the children have ample at each meal. Mr. Dixon, the Principal, provides the same food for staff and children and he and the staff eat in the same room as the children, in fact there is one staff member at the head of each table. I believe this change is good because the children are well supervised during meal time. The staff member knows that each child gets plenty of food and also can give some instruction in table manners.

There was no sickness and the children appeared contented and happy.

The roof of the school building still leaks in places. The roof is covered with a metal material and the nails work loose allowing a driving rain to leak through. A heavy coveringof tar and sand might eliminate the trouble. The outside walls of the top storey of the school are metal like the roof. This at one time was painted red. The paint has gradually disappeared and the metal is badly rusting. I would strongly recommend that it receive a coat of red paint. The school is very high and this work would need to be done by experienced painters.

Repair work is required on the horse barn, granary and cow barn. The foundations need re-enforcing and considerable new lumber will be required to do the repair work. I suggested to Mr. Dixon that he get someone to give an estimate on the work and material, and forward it to his

Commission. This quotation will then go forward for the Department's approval.

The new septic tank pump has given excellent service and is in good condition. The new farming instructor, Mr. Thomas, is doing good work. He has the garden ground in excellent condition for seeding and is determined there will be no shortage of potatoes or vegetables. He has also rebuilt a considerable length of fence, and has greatly improved generally the outside appearance of the yards. I am convinced that this man will do good work.

I would also recommend that a quantity of paint be provided for the barns. After the buildings are repaired paint will be required. It will take about two five gallon tins of red barn paint and four gallons of outside white. If green is available two gallons (outside green) should also be provided.

Mr. Dixon, the Principal, appears greatly interested in his work. He apparently is well liked by the children and discipline appears now to be no great problem. I am confident one can look forward to a marked improvement at Elkhron School under the new management.

1. With reference to the above, and further to the marginally-noted I have to report that the suspect, James KEEWATINCAPPO, was arrested on 6-9-46 by the R.C.M.P. i/c Roseburn detachment on a charge of Taking Auto Without Consent, Sec.285(3) C.C. Subject had been working for Gordon WORKMAN, Solsgirth Manitoba, and had taken WORKMAN's car the previous night. As Cpl.MURRAY knew that this Indian was suspected in regard to the theft of money from Miss HAUGEN, he immediately telephoned the writer.

2. Accompanied by S/Cst.S.B.PEACH, the writer immediately proceeded to Roseburn by P.C./6331, and James KEEWATINCAPPO was thoroughly interrogated. He was able to give a fairly good account of his movements however, and he absolutely denied being in or near Birtle on the night of August 24/25th, when this offence occurred.

3. The following day, 7-9-46, patrol was made to the Solsgirth district, where Gordon WORKMAN was interviewed in the matter. Mr.WORKMAN corroborated KEEWATINCAPPO's story as to his movements on the week-end in question, and it is fairly certain that he was not in or near the town of Birtle.

4. Since this time, several more patrols have been made and inquiries have been continued with all dilligence in the hope of learning of some other likely Indian having been at Birtle about August 24th. To date these inquiries have been without result.

Ottawa, December 29, 1947.

Dear Sir:-

It has been brought to our attention that there has been some discrepancy between the date of discharge of day and residential school pupils in northern Manitoba. Teachers of Indian day schools have complained that residential school pupils were sent home in the middle of June. As a result Indian parents complain because of the fact that day school pupils are still in attendance. They do not understand why pupils in one school have more teaching days than in the other.

The Indian school calendar for the 1947-48 academic year was published in the June issue of the Bulletin. It is meant to be adhered to by all Indian schools. If variations are made from the program laid down therein, it must be with the approval of the Department.

You will realize the necessity for this co-ordination in our educational program and the necessity for synchronization between residential and day schools.

Yours sincerely,

Bernard F. Neary,
Supt. of Welfare & Training.

Jan. 2nd 1948

Col. B. F. Neary,
Supt. of Welfare & Training,
Indian Affairs Branch,
Booth Bldg.,
Ottawa, Ont

Dear Sir;

Regarding your letter of the 29 ultimo, concerning vacations in this School, may I state that I was unaware of the regulations on this count, applying to residential schools, and have been doing the same as was done last year, i.e. having only the minimum of holidays observed throught out the term.

The reasons for this policy are manifold. First of all we have not adiquate playroom space, no gymnasium, not even a reading room, hence no indoor sports equipment to speak of. This of course works a hardship on the Staff, which are , at this season of the year, and as it is the case this year short handed, over worked to say the least. Leaving scarcely any option in the matter, unless one wishes to be left with an even shorter Staff due to illness. (I have one such case on my hands now and consider I am more or less fortunate at that.) And as it is so hard to obtain people to work in these schools, I can see no other way to deal with the situation, than to have them in the Classrooms as much as possible.

As for outdoor sports we have an open air rink, which as a rule takes more time to keep the snow off than the Children get to skate on it. And as I understand neither the Church nor your Dept. make any allowance for the equipment for this form of sport, or as far as I know any outdoor winter sport.

We have a 16mm. sound projection machine but other than the National Film Board and Dept. of Education we cannot afford films and these are not exactly entertaining.

Then again the classrooms are so difficult to heat if there is a wind that often one or another of the classes return to the Children's dinning room, which interferes with their schooling actualy. The Engineer is working on a forced circulation idea that we hope will alleviate the situation to some extent and perhaps carry us over till Spring without a general exodus of the teaching Staff.

REC'D.

Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ont.

Welfare & Training

Dear Sir:

Some of the parents of The Pas Band, who have children attending the Elkhorn Residential School visited their children during the Xmas holidays at Elkhorn. Many complaints were brought back by them and reported to me and the Chief and Councillors of The Pas Band. These complaints were recorded and I immediately got in touch with Inspector Hamilton of Winnipeg, and gave him all the details I had. The Chief and one Indian that had four children attending this school made a trip to Elkhorn to verify conditions. They reported similar complaints which I forwarded to Mr. Hamilton.

Mr. Hamilton has made an inspection of the conditions at this school and will be submitting a report to you. Although it is not as bad as reported, conditions are far from satisfactory, and many of the parents of The Pas Band intend to bring their children home unless some improvement is made.

I have now informed the Chief that a report has been submitted to Ottawa, and he may rest assured that the children will be given better food, clothing, and a general clean-up of conditions is anticipated. Mr. Hamilton's report will give in detail, I am sure, the complaints submitted, and suggestions for improvements.

Chief Bignell has stated that the children will remain there at present to see if the changes asked for are made. Only four children have returned to The Pas, those of Charlie Constant, and they are now attending the Pas Day School. I am submitting this to let you know that I am doing all I can to encourage the parents to leave their children at Elkhorn, as conditions will be improved.

Your obedient servant Jas Bowman AY Indian AGT

Dear Mr. Hoey:-

I write to recommend two new principals for the schools at Elkhorn and Peigan respectively.

1. With the transfer of the Rev. B.O.G. Dixon from Elkhorn to Alert Bay approval is asked for the appointment of the Rev. W. W. J. Woods to succeed Mr. Dixon at Elkhorn. Mr. Woods is a man of fifty years of age, who has spent his ministry on the Prairies and in British Columbia. He was for some years the missionary on the Gordon's Reserve, at which time he acted as Chaplain in the Gordon's School. He is married and has one daugher twelve years of age. From all enquiries made regarding him he would seem to be a promising man for the Elkhorn School.

Elkhorn 116-1-1

2. To fill the vacancy in the Peigan School caused by the passing of the late Canon J. W. House, I wish to recommend the Rev. John Dalton, at present in Vancouver. Mr. Dalton was born in Prince Albert thirty-two years ago. He served for a time as a teacher in the school at Cardross and later in Moose Factory as Assistant Principal. We have made careful investigation regarding his previous record and feel satisfied in recommending him for appointment as Principal at Peigan.

I should be grateful if these two appointments might be approved.

Yours sincerely,

R.A. Dixon

Mr. J.P.B. Ostrander, Regional Supervisor,
Indian Agencies, Regina, Sask.,
and Mr. J. Waito, Field Agent, Winnipeg, Manitoba.

May 21, 1948.

~~Elkhorn Indian Residential School.~~
~~Lac La Ronge Indian Residential School.~~
~~Prince Albert Indian Residential School.~~

At a meeting held this morning with Education Division officials and Comptroller of the N.M.G.C., the future role of the above three Residential Schools was thoroughly discussed.

It was decided to advance the following proposals for consideration by the Regional Superviseors of Manitoba and of Saskatchewan. Therefore, this letter is addressed jointly to these officials and the Department is anxious to have your frank expression of opinion concerning these suggestions:

(a) ~~That the roolage of the Elkhorn Residential School be reduced to 60 pupils.~~

Mr. Dowsett has just returned from a thorough inspection visit to this school and he is convinced that the present classroom block is entirely unsuitable for future use as classrooms. He feels that with a reduced pupilage, the present dormitory or eating room or gymnasium building can be used to provide a second classroom without using the old classroom block. This would seem that only two classrooms would function at this school.

It is then proposed to have the other 60 children from this school sent to the new Lac La Ronge Residential

Indian Affairs. (RG 10, Volume 6268, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

School at present situated in the army camp at Prince Albert. It will be necessary to make a careful check of the home reserves of the children involved but it is felt that in some instances it will actually be shorter to send these children to Prince Albert rather than to Kilburn. It is also understood that rail facilities are better to Prince Albert from certain points (for example, The Pas).

(b) That the present and pupilage of the Lac la Ronge School (presently situated in the army camp at Prince Albert) be raised from 120 to 150 pupils.

It will of course be necessary to provide additional beds, etc., for the accommodation of these extra children.

(c) That the lease on the St. Alban's School be renewed and that the pupilage be left at the present rate of 100.

The future of this school can be decided when definite agreement has been reached with the Province of Saskatchewan with regard to the operation of a hostel at Lac la Ronge.

To summarize the situation -

the following changes would be made:

(a)	Present Pupilage	Proposed New Pupilage
Kilburn	130	60
Lac la Ronge	120	150

The above proposals are advanced in view of the age and general deterioration of the Kilburn School plus the fact that we have available in the Prince Albert Army Camp a school which can accommodate a considerably larger number of pupils than that for which we originally provided equipment and materials.

Bernard F. Neary,
Superintendent of Education.

Dear Colonel Neary, re: Elkhorn, Lac la Ronge, Prince Albert

I have read with considerable interest your letter of May 21st to Agents Ostrander and Waite and must say that you have summarised the situation clearly. I might point out, however, that in (a) of page 2 the "present pupilage" totals 250 while "Proposed New Pupilage" totals 240, a matter of ten less. It might be found that children are available to help the total to 250 under the new scheme.

In connection with the above, I would like to confirm the information of my conversation over the phone of 26/5/48 in that Bishop Martin has verbally agreed to such a plan provided that, if St. Alban's pupilage is set at 100 and the Indian Affairs Branch wishes to renew the lease, necessary adjustment be made in the annual rental fee in consideration of the rising cost of repair materials.

Yours faithfully,

Henry G. Cook

Superintendent.

Attention: Mr. B. F. Neary.

With reference to your letter of May 21st, 106-0-1, regarding reducing the pupilage at Elkhorn School from 120 to 60 pupils.

I inspected this school on Monday and found the plaster falling, floors in poor shape, hot water tank and heater needing replacements, and heating generally - with exception of the furnace - in poor condition. I would recommend that this school be closed, as the building is very old and more or less of a fire trap.

Most of these pupils are closer to Prince Albert than Elkhorn, as follows:

34 from The Pas Reserve
12 from Gillam - which goes through The Pas
9 from Split Lake
4 from York Factory
1 from Cumberland House
5 from Shoal Lake - Shoal Lake is 200 miles from Prince Albert. These pupils take the railroad at Mafeking, which is less than 200 miles from Prince Albert on a direct line.
2 from Moose Lake
2 from Pikwitonei - mile 214 on the Hudson Bay Railroad. These pupils also go to The Pas.
4 from Cedar Lake
1 from Churchill
2 from Little Red River Reserve - which is only about 35 miles north of Prince Albert.
1 from Fort La Corne
1 from Baffin Island - This pupil has been badly burned, and is an orphan. She is able to go to school, but needs medical attention, and would be far better off in Prince Albert.

This makes a grand total of 78 children, who are closer on a direct route, to Prince Albert than to Elkhorn. The balance of 43 pupils are:

10 from Fisher River Agency
26 from Griswold
3 from Selkirk
4 from Portage la Prairie Agency.

- over -

Indian Affairs. (RG 10, Volume 6262, file 578-1, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I am of the opinion that the pupilage in Prince Albert should be raised to accommodate these children, and the balance be placed in various Church of England Schools closer to Winnipeg. If this school was reduced to 60 pupils as suggested, the overhead would be very near the same, as the building would have to be heated. The grant would not carry the school, which would mean that they would be cutting down on the children's food and care.

Yours truly,

R. S. Davis.
Regional Supervisor of
Indian Agencies.

This letter is written with the idea of re-dividing all the pupils care

I am in receipt of Department Army Signal of the 26th instant reading as follows:

"RELET JUNE 21st PRINCE ALBERT RESIDENTIAL SCHOOL STOP
WE HAVE NO INFORMATION HERE REGARDING ELKHORN SCHOOL
BEING CLOSED ENTIRELY STOP"

I have not been officially informed that the Elkhorn School is being closed entirely but the matter was introduced at the meeting which we held at Prince Albert when Major Clarke, Superintendent E.S. Jones, General Turner, and Reverend C.W. Fisher were present. I believe that Mr. Fisher mentioned that he had received a letter from Canon Cooke to that effect and asking Mr. Fisher to be prepared to accept all of the Elkhorn children as a result of the necessity to close the school entirely.

I would suggest that Canon Cooke be interviewed in this connection.

July 14, 1948.

Mr. R.S. Davis, Regional Supervisor
of Indian Agencies, Winnipeg, Manitoba.

Elkhorn Residential School

Reference your 209-11 ACE of June 5.

A meeting of officials of the Indian School Administration of the M.S.C.C. and our Education Division was recently held here to discuss the future policy with regard to the Elkhorn Residential School, the Prince Albert Residential School and the Lac la Ronge Residential School (at present being conducted in the Army Camp at Prince Albert).

Serious consideration was given to your recommendation that the Elkhorn Residential School be closed. After some discussion it was decided that such action would have to be delayed until we at least could begin our new residential school programme. We realize only too well the condition of the school plant at Elkhorn but we simply cannot provide adequate educational facilities elsewhere in time for school opening.

The worst building at Elkhorn is the classroom block. It has been decided to reduce the pupilage at Elkhorn to 75 which will eliminate the necessity of using this classroom block. The Principal and yourself can then consider the best way of re-arranging the present rooms. Mr. Doucet felt that one of the present dormitories or the sewing room or even the pump-house building could be used as classrooms. This would mean that only two classrooms would be operated.

Education Division

Dear Sir:

We wish to be advised if the Elkhorn Indian Residential School is to be operated this term, and if so how many children from this Agency can attend. Is it permissable to send some of the Children to Prince Albert Indian Residential School?

Your obedient servant,

E. Law

E. Law,

EXC.

Ottawa, August 23, 1948.

Mr. Eric Law, Superintendent,
Indian Agency, The Pas, Manitoba.

Elkhorn Indian Residential School

Reference your 147-128 of August 16th.

The Department has indicated that this school is to operate for the 1948-49 academic year, but on a reduced pupilage.

The Reverend Principal and Mr. Davis are meeting in Winnipeg to discuss the details of arranging for pupils from northern Manitoba to be either transported to Elkhorn or to Prince Albert.

You will receive your instructions in this regard directly from Mr. Davis.

Bernard F. Neary
Superintendent of Education.

c/c to Mr. Davis.

Rev. W.W.J. Woods,
Principal,
Elkhorn Indian Res. School,
Elkhorn, Man.

Dear Mr. Woods:

In view of increasing duties, it will not be possible for Regional Supervisor Davis to inspect the Elkhorn Residential School frequently.

In view of the above, we are directing Mr. W. Young, Indian Agent, Griswold, to inspect the Elkhorn School at least every two months.

I have no doubt that you will extend every courtesy to him on the occasion of his inspections.

Yours sincerely,

Bernard F. Neary
Superintendent of Education.

Winnipeg, Man.,
Nov. 23, 1948.

Colonel Neary:

Elkhorn Indian Residential School:

I visited this school briefly on November 18.

Activities, including two classrooms, are restricted to the main building which looks cleaner and brighter than heretofore. Some improvements are still to be made in the boys' washroom and the laundry but no s ubstantial outlay of money seems necessary or is recommended.

The pupilage has not yet been filled and seems unlikely to be unless we take the view that the efficiency of certain day schools would be improved by reducing the enrolment thereat. This step might be combined with a tightening of the restrictions governing absence of day school pupils.

Now that the school has been operating for three months it might be well to suggest to the school authorities that they estimate what the cost for the whole year is going to be and whether it might be advantageous to combine this school with another at the earliest opportunity. Such a fusion might solve some staff problems as well as monetary deficits.

Sir;-

Herewith is voucher #3945 of Lake Winnipeg Inspectorate, this covers the cost of a belt to replace one that was damaged beyond repair I understand,and which is the driving belt of the Electric Light Plant of the Elkhorn Indian Residnetial School.

On the 30th Dec,1926 I received the following telegram from the Rev'd Principal of the Elkhorn Indian Residential School;- "Elkhorn 28 Dec. 1926."
"Belt on big engine of power house tonight completely wrecked,
"must have endless new belt,length 34 feet 11 inches,width 6"
(5th) "by Wednesday (~~5th~~ Jan-1927) afternoon. Will you order and
"ship same by express at once letter to follow."

I immediately ordered the belt and rushed it,so that the new belt was with them on Saturday the 1st Jan-1927,this was acknowledged by Rev'd Principal on the 4th Jan,1927.

This action was necessary in order to save the battery of of the plant.

I beg now to submit my action for consideration and approv

"CHEF" HOTEL RANGE

Fig. No. 1
Interior Construction of Chef Range

The accompanying cut serves to illustrate the c
ceptionally heavy construction of the Chef Ho
Range. It will be observed on close examinat
that all parts of the Range are fully protected f
the wasting process of extreme heat, and where
wear is the greater additional strength has b
added. The thick lining of specially-manufactu
firebrick cannot be equalled for service, apart f
the important consideration of easy and economi
replacement. The three thicknesses, viz., st
asbestos, steel, shown clearly on the oven door,
typical of how thoroughly the Chef is mad
note the heavy grates, the roomy space un
for accommodating the ashes, and the protec
top of oven where heat is intense when passing
The flue construction is shown, from which it wil
seen that the heat passes freely around the ov
thus heating all sides evenly.

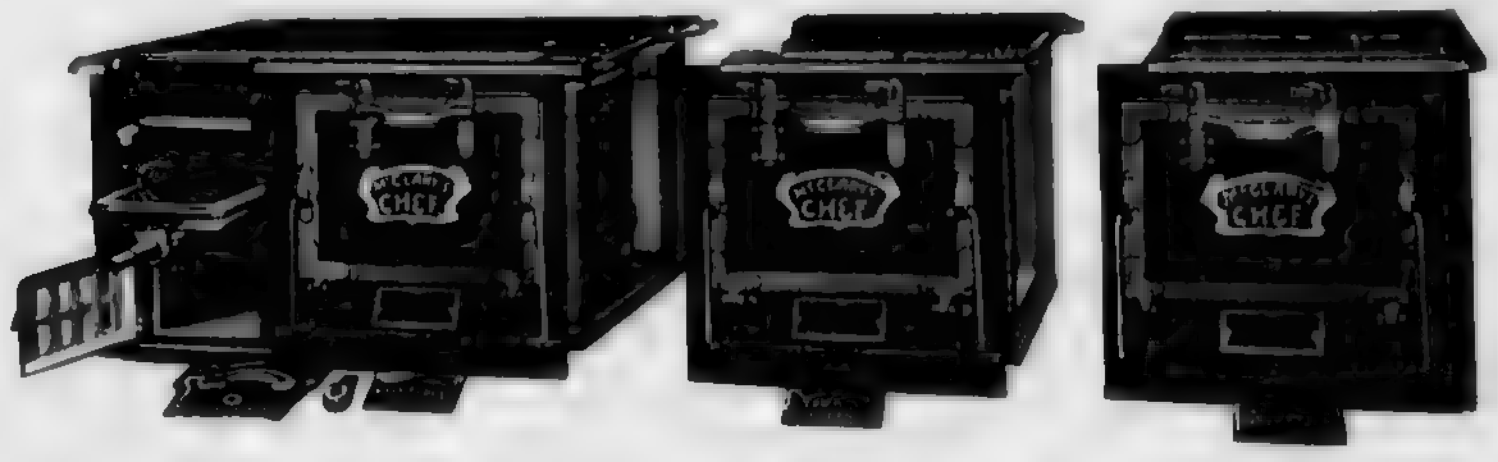

Fig. No. 2
Showing Simple Method of Attaching Extra Ovens to Range

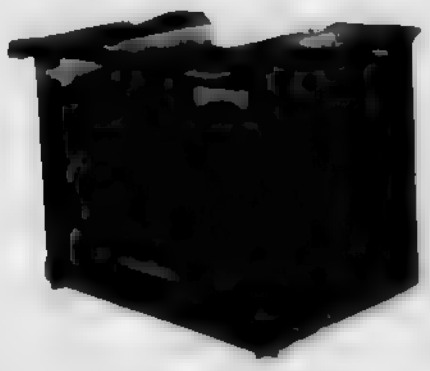

Fig. No. 3
Flue Construction

Here we have the three Ovens separated to demonstrate how the R
be readily equipped with any number of Ovens. The entire right
of the Range can be instantly removed, and connection with the
Ovens made with a strip of metal running down front and back of t
With the removal of the end of the Range the flues are left free for t
pass along the top and around the additional Ovens with ease. Fig
shows the construction of the flues.

CHEF HOTEL RANGE

For use in Hotels, Restaurants, Clubs, Private and Public Institutions

BURNS HARD COAL AND WOOD

Specially Adapted for Burning Any Grade of Canadian Soft Coal

ONSTRUCTION :

By: The Body is of 10-Gauge Highest-grade Steel, ⅛" ck, riveted, bolted and lined with pure firebrick. Ends and of Range braced with heavy angle iron.

: The Top is of heavy cast-iron, burnished to a smooth by a special process. Outside frame ¾" thick, with flanges to support French plates, which are 1⅜" thick.

ons: Walls of Heavy Steel Plate, with sides and top of piece—steel-plate bottom strengthened with cast-iron eners. Top is covered with asbestos and protected by cast-iron grating. Outside and top edges protected by cast-iron shields.

Doors: Doors of Heavy Gauge Steel Plate, with 1½x¼" d wrought-iron frames with reinforced corners. Door s made of ⅝" wrought-iron bars.

Catch, permitting door to be slightly open if desired.

s: Of Firebrick—manufactured for this purpose by cial process.
ebox lined in front with 6" firebrick; other three sides with firebrick.
pit Bottom with 1" firebrick.
Bottom of Ovens with 1" firebrick.
k of Oven, 6" solid firebrick.
over top of Oven Door, 3" brick.
bricks are standard size and replaced by any bricks ilable locally.

: Heavy, Semicircular, Cast-iron Grate.

Connection: Of Cast-iron with hinged clean- underside.

URES :

"Chef" Hotel Range is constructed to give unlimited and baking results to satisfy requirements of the ng nature. Built of the finest materials available, undergo rigid tests before use. Only the most men are permitted to assist in the building up of The entire fabric of the "Chef" Range enables it the heaviest strain to which it may be subjected.

The Burnished Top: Clean and sanitary—Toasting, Frying and Broiling can readily be done on its smooth surface.

The Cooking Surface: A clear cooking surface without impediments to hinder operations.

Sectional Ring Cover over Fire: Permits pots of any size to come into direct contact with the heat.

Smoke Pipe: May be attached to top or at the back—under certain conditions down draft flues may be arranged for.

Grates: Heavy semicircular grates readily cut out clinkers and ashes by gently rocking shaker to and fro. Entire contents of firebox may be dumped into ash-pan by turning Grate completely over.

The Grate is easily removed by loosening four nuts on the outside, the grate-plate falling away, permitting grates to be taken out without further trouble.

Ovens: Have holes near top of back for ventilating purposes; these are protected by a shield.

Control and Heating handled from the front of the Range by dampers for each oven and direct damper when lighting fire.

With the sheet-flue construction each Oven can be handled and heated separately so that the temperature of each Oven can be regulated independently.

HOT BLAST FOR SOFT COAL

The requirements for burning soft coal are adequately met by the air passing up to the top of the fire from the lower side at the back of the firebox. During its passage through the space at the back of the firebox, the cold air comes in contact with the hot surface and becomes intensely heated. This gives a supply of fresh, superheated air to the top of the fire, providing complete combustion and carrying the flame and the heat the full length of the three ovens. By this meth more heat is obtained without added use of fuel, and all ovens are satisfactorily heated.

PRINCIPAL
REV. FRED ELEY, D.P.I

TELEPHONES
OFFICE 27
PRINCIPAL'S RESIDENCE 19

ANGLICAN INDIAN RESIDENTIAL SCHOOL

ELKHORN, MAN. March 12th, 1927.

Dear Mr.Orr:-

You will, no doubt, recall your visit to this School prior to the re-opening, when you so kindly went into the furnishing and equiping of the same.

You will remember also that the big Kitchen Range was repaired and fixed up. This however is on it's last legs and we have for some time had considerable trouble as it is an old type of range and everything seems to be burnt out, breaking and going wrong.

I feel the most economical way to deal with this proposition would be to replace these two old ranges by a new one containing four ovens and two fire boxes. The combined cooking surface of the present range is 148" by 31".

I am enclosing two pages from The McClary Company's catalogue illustrating a range, which appears to me to be servicable for a School such as this. However, of course, this is merely a suggestion and I am quite satisfied in leaving this matter in your hands.

Will you please forgive me also for stating the fact that during the summer months we have experienced a good deal of discomfort from the heat thrown off the ranges in the Kitchen. Also, during the winter months the unpleasant smell of cooking penetrates the building, especially to the Staff rooms in the front of the building. Could this be overcome by installing a hanging canopy over the range with a vent with damper leading through the wall at the back of range into the open air?

Thanking you for the kindness and interest you have shown in the past and trusting you will give this matter your kind and sympathetic consideration.

With kind regards.

Your obedient servant,

Fred Eley.

March 15, 1927.

R

MEMORANDUM: Mr. Scott.

I have received a letter today from the Reverend Mr. Eley, Principal of the Elkhorn Indian Residential School, advising that the kitchen range at this school requires to be replaced. I may say that the present range is the old one that was in the building when it was remodelled several years ago, and repairs were made in order that it could be used for a few years. It appears now, however, that it is beyond repair, and I would recommend that Mr. Dunn be authorized to purchase a new range, consisting of four ovens and two fire boxes.

ARCHITECT.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

March 16, 1927.

Dear Mr. Kipp,-

Replying to your letter of the 12th instant, with reference to the new kitchen range required for your Institution, I beg to say that Mr. Bunn has today been authorized to purchase a new range, but has been requested to ascertain first if the present chimney is large enough to accommodate the type of stove you ask for, that is a two five, four cook. If the chimney flue is not large enough it will be necessary to use a smaller size.

With reference to your request for a survey over this range for ventilation purposes if you would let me know what the cost will be the matter will be given consideration.

Yours very truly,

D. CURRY CHR.
Architect for the Department.

Rev. Fred Kipp,
Principal, Elkhorn Indian Residential School,
Elkhorn, Man.

Sir,-

The Reverend Mr. Kiby has reported that the kitchen range now in use at the Kitchener school is beyond repair and that a new one is required. I would ask you to please purchase and have a new range installed. The purchase should be made to the best advantage.

Mr. Kiby has asked for a four oven, two fire range, but before purchasing this class you should ascertain if the chimney vent for the kitchen range is large enough for one of this class. If not it will be necessary to purchase a smaller one.

Your obedient servant,

J. D. Nicholson.
Asst. Deputy and Secretary.

IN YOUR REPLY REFER TO
No. 209-11A O.E.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
D REGINA, SASK., March 23rd, 1927

Sir:-

On the 1st. February last, I wrote you with regard to repairs at residential schools, as to whose duty it was to keep the equipment in repair, etc. You replied by letter #160-1 of the 8th. instant, in which you stated that any requests I might receive for reimbursement on account of repairs paid for by school authorities should be forwarded to the Department for consideration.

I am now in receipt of a letter from Rev. F. Eley, Principal of the Elkhorn Indian Residential School, in which he makes a request that the boilers and engines at his institution should receive an overhauling by a competent mechanic. I do not know that we would be wise in appointing a man to go and do the overhauling, but it would be well to have an expert look over these engines and see what is required and give us an estimate of the cost of putting them in repair. It is dangerous to send a man to the school and tell him to do what overhauling is necessary, because my experience has been that in such cases they are very liable to do a lot of unnecessary work and run the expense up very high. I am awaiting your instructions in this matter.

Your obedient servant,

W. M. Graham,
- Indian Commissioner.

Sir:

I have your No. 209-11A O.E. of the 23rd instant, with reference to overhauling the boilers and engines at the Elkhorn Indian Residential School. Please let the Department know where you can get a competent mechanic for this work, and estimate what it would cost to engage his services. I may state that the Department has lately purchased one jacket heater for this school, as the old one had cracked.

Your obedient servant,

J. D. McLEAN

ANGLICAN INDIAN RESIDENTIAL SCHOOL

ELKHORN, MAN. March 26th, 1927.

Sir:-

With reference to the telegram signed by Dr. Westgate, of March 25th, I have the honor to report as follows.

For some time past we have experienced difficulty with the Jacket Heater, which supplies hot water for bathing, laundry and general purposes. While away with Mr. Inspector Christianson on a trip to the Reserves North of Fairford last January one section of the heater cracked right above the fire-bed. A new section was ordered by Dr. Westgate of Winnipeg from the Crane people and upon my arrival at the School this had been installed by the Engineer.

Last Saturday the next section cracked in the same place. I at once telephoned to Crane Ltd., of Winnipeg, also notified The Rev.T.B.R.Westgate,D.D. The Crane Ltd. informed me that they had not a spare section in stock and were doubtful whether they could procure one. If so it would have to come from Buffalo, U.S.A. Their expert suggested that we try to seal the crack and sent down, by Express, on the evening train two cans of Se-Ment-Ol. The directions were carefully carried out under my personal supervision and we tried everything possible up to twelve o'clock midnight. Sunday morning the section was leaking just as bad as ever.

On Monday morning we telephoned Crane Ltd. again and after a long consultation with their expert he suggested we try another form of cement, X Liquid. We received two cans of X Liquid on the evening train and again the instructions were

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

carefully carried out under my supervision. We ever tried to seal up the crack in the section that was taken out last January and after working till past twelve o'clock midnight everything proved unsuccessful.

Tuesday morning the section in the Jacket Heater was still leaking. Upon examining the interior of the sections we found them to be coated with an eighth to a quarter of an inch of lime deposit, undoubtedly due to the hardness of the water.

Yesterday I was in Winnipeg and spent the whole morning in consultation with Mr. Inspector J.R. Munn, who at once agreed that our trouble was due to the hard water existing in Elkhorn. We at once advised that we send a wire to the Department stating our trouble and recommending that the most economical way would be to purchase a new Jacket Heater as soon as possible. The danger existing under present circumstances being due to the fact that we have on various occassions been troubled with steam in the Hot Water line leading from the Jacket Heater. Should the lime deposit at any time block the circulation of the water we would be subject to an explosion.

In the afternoon of Friday I interviewed Dr.Westgate with regard to this matter and the telegram was sent.

So far we have not experienced any trouble with the Hot Water Furnace, which heats the building, no doubt due to the fact that the water in this system is in circulation and used over and over again. Therefore there cannot be anything like as much lime deposit in the sections but from time to time water has to be run into the expansion tank to keep up the water level in the radiators and sections of the Boiler. However, should anything like this happen to the Hot Water Boiler during the winter months, it would be impossible to secure sections within two or three weeks, which would mean considerable damage to the building even though the water be drained off.

In order to overcome the purchasing or replacing of Jacket Heaters and to eliminate any sections of the Hot Water Section Furnace from future trouble it might be advisable to have the water analized to ascertain the real nature of the water and if advisable install a soft water plant

I have the honor to be, Sir,

Your obedient servant,

(Rev. Fred [illegible])
Principal.

Ottawa, April 1st, 1927.

Rev. Sir:

I have your letter of the 26th ultimo, reporting on the difficulty experienced with the jacket heater which supplies the hot water for laundry and general purposes at the Elkhorn Indian Residential School. In this connection I may say that Mr. Inspector Bama has been instructed to arrange for the purchase and early installation of a jacket heater.

You may arrange to have the water analysed in order to ascertain its suitableness for use in the hot water heating system at the school. The provincial government have, no doubt, an analyst in Winnipeg who would perform this service, and you should communicate with him and ascertain full particulars as to the bottling and any other details in connection with the preparation of the sample of water required. When you have received the analyst's report, I shall be pleased if you will forward a copy of same to the Department. We would pay any cost involved in having this water analysed upon receipt of vouchers, in duplicate, properly certified by you in the usual manner.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

THE NATIONAL TESTING LABORATORIES, LIMITED.

Room 301 - 223 James Street.

Winnipeg, April 13, 1927.

Rev. Fred Eley,
Principal,
Anglican Indian Residential School,
Elkhorn, Man.

Dear Sir:

We beg to report as follows on sample of water received from you on April 11th - Lab. No. W 1004.

Results stated in Parts per Million

Calcium	94
Magnesium	21
Sodium	Absent
Carbonates	145
Chlorine	10
Sulphates	73
Alkalinity	241
Total Hardness	306
Permanent Hardness	55

The analysis shows the water to be quite high in temporary hardness. The effect of a high temporary hardness in a water is that when the water is heated it will deposit a scale of Calcium and Magnesium Carbonate on the heated surface. This will in time give rise to the burning out of the metal which probably explains your trouble.

Yours truly,

THE NATIONAL TESTING LABORATORIES LTD.

(sgd) Arc. Blackie.

MEMORANDUM: Mr. Forster.

noted for Estimates - no action at present

With reference to the result of the analysis of the sample of water from the Elkhorn Indian Residential School, I beg to say that the present condition of the water can be easily remedied by the installation of a water softener. These are easily and economically operated, and the cost of the apparatus would depend on the quantity of water used daily. For a consumption of 5,000 gallons per day the expenditure would amount to about $1,200.00. If the Department should decide to instal an apparatus of this kind I will obtain prices providing I am furnished with the quantity of water used daily.

ELKHORN, MAN. May 9th, 1927.

Dear Mr. Orr:-

With reference to your letter of March 17th 1927, regarding new Kitchen Range, I beg to report that Mr. Inspector Bunn took action at once and we now have the new range installed and working perfectly.

The chimney itself is 12 inches in diameter with a Flue Draft, on either side, of 10 inches. It was therefore necessary to purchase 25 feet of 12 inch galvanized iron pipe with two elbows to connect the range. This I purchased locally after telephoning to Mr. Inspector Bunn and obtaining his permission.

The old range was connected up with a 10 inch smoke pipe and it is my intention, if we secure a canopy, to use the old 10 inch pipe for the purpose of connecting the canopy to the Draft Flue, which runs parallel to the chimney.

In your letter of the 13th instant you asked me to furnish you with the cost of a canopy over the range for ventilation purposes. I herewith enclose rough sketch of proposed canopy made of galvanized iron and have secured a price from the local tinsmith, T.W. Wallet, Esq., Elkhorn, who claims he can make the same, ready to hang for the sum of thirty five dollars ($ 35.00) net lots. This canopy, as you will at once realize will indeed be a boon and really necessary in order to draw off the heat in the summer months and also a coil of cooking.

Thanking you very much for your kindness with reference to the range and trusting you will give the matter of the canopy your kind consideration.

I have the honor to be, Sir,

Your obedient servant,

Fred Eley.

Sir:-

I have your letter of the 4th instant, No. 106-0-5, informing me that a new root house is required at the Elkhorn Indian Residential School. This is not the case, and the Principal does not think it is necessary. What is needed is the re-roofing of the existing root house. Mr. Inspector Murison made a report on this sometime ago, but later developments have shown that the place requires re-roofing and I am having steps taken to have this done. The cost will not be $600.00 or anything like it.

I feel satisfied that we will hear from Dr. Westgate if this matter is again brought to his attention, but this cannot be helped. He likely will not be satisfied with what I have said; however, the facts are as I stated.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

The Secretary,

October 29th, 1927.

Dear Sir:-

I beg to acknowledge receipt of your letter of the 27th instant with reference to circular letter No. 87 regarding question of fire fighting equipment etc. at this School.

I have the honor to report as follows:

1. With reference to the fire fighting equipment

(a) An additional number of large fire extinguishers should be supplied, not only for the Main Building, but for the two other houses on the plant and would suggest having six extra 2½ gallon fire extinguishers.

(b) In case of fire our water supply would be inadequate and I would suggest that we had a reserve water tower or reservoir.

(c) At the present time we have 700 feet of 2" Flax Hose in the building, some of which is not in very good condition.

2. With reference to Exits and Fire Escapes

The exits from all five dormitories are certainly unsatisfactory as these are just plain iron ladders, which cannot be used in ordinary fire drill without loss of life. Theyare reached by ordinary push up windows, too high for the average child to get out, covered by storm windows, without a red exit light over same.

I would suggest that an extra fire escape be placed in the center of the building, somewhere on the north side and that the fire escape from the hospital be a form of chute.

The locks on the classification doors and dormitory doors are all in very poor condition and in case of emergency keys would be jammed in them, thus causing trouble.

We have fire drill at regular intervals and can clear the School in 2 minutes by using the ordinary stairways inside the building, but in the actual case of fire more lives would be lost by using the present fire escapes than by the fire itself.

This afternoon Mr. Indian Agent Lacomby visited the School with Mr. Inspector Harrison who was on his way to Birtle and I took the opportunity of discussing and pointing out the above to the Inspector. If you think it wise when the Inspector returns from Birtle, I shall be grateful if he could stay at the School for a short time in order that might obtain his advice and suggestions regarding the above matter.

Thanking you, Sir, for your kindness and interest

I have the honor to be,

Your obedient

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
D
REGINA, SASK., November 1st, 1927.

NOV 5 1927

Sir:-

I beg to enclose herewith copy of a letter that I received from the Rev. Principal of the Elkhorn Indian Residential School, with reference to the fire fighting equipment at his institution, and making a request for additional fire protection.

O.K. H.P. I think that half a dozen 2½ gallon fire extinguishers might be furnished for this school. I doubt whether anything more can be done with regard to putting in an additional supply of water. The supply here is as great as it is at any of our other schools; the thing is to keep the engine going if a fire should occur. The additional hose should be supplied.

O.K.

You will note what the Principal says regarding fire escapes; these do appear to be risky. Iron ladders leading from windows are not satisfactory, and I quite agree that these children could not come down these ladders in the event of a panic. I am not very much taken with even iron treads fire escapes - the ordinary steps, but would be more in favour of a chute. I believe this is what we should have at all schools. I was at the Qu'Appelle Industrial School the other day and they were afraid to bring the children down the steps, but at the Convent close to our school they have an iron chute and the children come down this in a very short time. There is no reason why we should not have these. With reference to the Principal's remark regarding locks on inside doors being in poor condition, I think we might replace these locks.

Your obedient servant,

The Secretary,

Sir,-

I have your 209-11A C.R. of the first instant enclosing copy of letter from the Reverend Principal of the Kilborn Indian Residential School with reference to fire fighting equipment and escapes. A number of larger extinguishers will be ordered immediately by the Department. You may purchase what additional hose is required.

I should be grateful if you would immediately inquire into the cost of the chute recommended for this school and compare its efficiency with the sliding pole type of fire escape. As soon as you are in a position to make a recommendation with estimate of the cost, I should be grateful for a night letter.

Your obedient servant,

J. D. McLean.

Ottawa, November 5th, 1927.

Reverend Sir,-

With reference to your letter of the 29th ultimo enclosing a copy of your letter of even date to Mr. Commissioner Graham, I have to inform you that Mr. Graham's recommendation is now to hand and he is being authorised to supply what additional hose is necessary and to inquire into the type and cost of a suitable additional fire escape. The Department is today placing an order with the Pyrene Manufacturing Co., Toronto, for 5 - 5 gallon pump tanks. These should be placed at strategic points in the main building and some of the smaller extinguishers that you now have can be used for the outbuildings and other purposes mentioned in your report of the 29th ultimo.

The above mentioned firm is being requested to forward their account to you, in duplicate, covering the cost of the extinguishers and, when these are received, please certify same in the usual manner and send to the Department for payment.

Your obedient servant,

J. D. McLean.
Asst. Deputy and Secretary.

Dear Mr. [redacted]:

I have your 208-114 F. of the 17th instant, with reference to fire escapes at the Portage Indian Residential School. The cost of the separate chute is so high, that I believe we should equip with the sliding pole type with suitable platforms at each floor level. I note that you consider these are the next best. You may make immediate arrangements for the installation of two of this type at the Portage School and two at Elkhorn. You should make the best possible arrangements and see that they are placed where they will be most efficient.

Yours very truly,

Duncan C. Scott

Anglican Indian Residential School

Elkhorn, Man. November 17th, 1927.

Dear Sir:-

I beg to acknowledge receipt of your letter of the 3rd instant, No. 209-11A A.C.E., with reference to accounts submitted for material and work on root cellar.

In July last Mr. E.A.Parsons looked over the situation and stated then that it was difficult to figure on such work until the tearing down had been completed in order that a very thorough examination might be made to ascertain just what would be required to make the building absolutely frost-proof. However, he gave an approximate cost of $ 400.00, but after the work had been started felt convinced that unless the walls were lined with lumber, then papered and lined again, also that unless the roof was lined and papered and a ceiling put in, it certainly could not be frost-proof

Last Fall we covered the old roof and ends of the root cellar with approximately 5' of manure and even then the frost went through leaving us, this Spring, with hundreds of bushels of frozen potatoes.

I, therefore, pointed out very clearly to Mr. Parsons that unless he could make the cellar frost-proof, he might just as well leave it alone and in order to make this secure, more lumber and work was put on than he had figured in the first place.

The work is well done and I feel certain cannot be anything but frost-proof.

Trusting the above will meet with your approval, and thanking you for your kindness in this matter.

I have the honor to be, Sir,

Your obedient servant,

COMMISSIONER'S OFFICE,

REGINA, SASK., November 22nd, 1927.

Sir:-

I enclose for payment two vouchers representing the cost of repairing the root cellar at the Elkhorn Indian Residential School and making it frost proof.

An expenditure of $600.00 was authorised under Department letter 106-0-5 dated the 4th of July last, and after discussing the matter with Inspector W. Murison, I came to the conclusion that this amount would be more than sufficient, and this impression was later confirmed by a letter received from the Reverend Principal, in which he stated that he had secured figures from the local contractor, Mr. E. A. Parsons, who gave an estimate of approximately $400.00. While Mr. Parsons qualified this by stating that it was difficult to estimate on such a job, I was not prepared to ultimately receive vouchers so considerably in access of this sum. I wrote to the Reverend Principal on the subject and asked for an explanation, and a copy of his reply dated the 17th instant, is enclosed herewith.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE.
REGINA, SASK., Feb. 6th, 1928.

W.

Sir,

I enclose a list of repairs required at the Indian Residential School at Elkhorn, forwarded to me by the Reverend Principal and submitted for the consideration of the Department. It will be noted under Item No. 4 that the laundry engine referred to is one of an old type, and it might be more satisfactory to replace it by another 6 H.P. engine similar to the one recently purchased for the new St. Phillips School in the Polly Agency, which cost approximately $200.00.

Ottawa, February 10, 1928.

Sir:

I have your 209-11A C.E. of the 6th instant, with reference to repairs required to the mechanical plant at the Elkhorn Indian Residential School. You may authorize the Rev. Principal to incur an expenditure of $51.75 in connection with repairs mentioned on the first page of the list he forwarded, i. e., on the engine used with the lighting plant, on the engine for pumping the septic tank and on the farm engine. You may purchase one 6 H. P. engine, at an approximate cost of $200, to replace the worn out one in the laundry. You may expend $34.50 in the repairs to the sectional boiler.

Relative to the other requests, I should like to have a report regarding the necessity of supplying such expensive faucets as mentioned in the second page of the list and such expensive belts as mentioned in the last page. In any case, I believe these should be charged against the per capita or other earnings of the school and the Rev. Principal should arrange purchase. I am returning the list for your guidance.

Your obedient servant,

A. F. MacKenzie.

Ottawa, February 10th, 1928.

Dear Sir:-

I beg to draw your attention to the fact that on the 28th November last the Department sent you official cheque No. 4169 for $270.30 in payment of your account dated 1st November for material used in erection of a verandah on the residence of the Principal of the Elkhorn Indian School. The second item in the account was shown as $42.80. It would appear, however, that the number of feet of lumber mentioned should have been 383 1/3 instead of 951 feet. The error resulted in your receiving an overpayment of $25.55. Kindly look into the matter and make refund of $25.55 without delay.

Yours truly,

F. H. Paget,
Chief Accountant.

O.C.S. BRANCH
JUN 20 1928

Sir:-

See file 106-0-21B

On the 9th November last, I reported the damage done by a cyclone to the Elkhorn Residential School, and intimated that the silo would need to be repaired and reset on its base.

I have had some correspondence with the Reverend Principal, and have had prices from three different parties; one says he finds it difficult to estimate what work would be required, and asks for payment for himself and two men on a time basis, which will involve an expenditure for labour of $1.40 per hour. Any material needed would be extra, of course. Two other men have based their prices on an inclusive charge; one Mr. C. G. Webster undertakes to do the work for $150.00 and Mr. J. C. Balkwill for $225.00.

If you will sanction the work being done, I would suggest that Mr. C. G. Webster be given the work.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Sir:

I have your 209-11A G.R. of the 16th instant, stating the prices which you have received for repairs required to the silo at the Elkhorn Indian Residential School, which was damaged by a cyclone last summer. In this connection I beg to say that you may arrange with Mr. G. S. Webster to carry out the repairs required. It is noted that he will undertake to do this work, including labour and materials, for the sum of $150.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

-- COPY -- 106-0-5.

(Original on No. 106-0-12.)

Ottawa, June 22nd, 1928.

Rev. Sir:

I have your letter of the 16th instant, furnishing an estimate of the costs of the material and labour required in carrying out certain improvements in the Principal's residence at the Kitkahm Indian Residential School.

In reply I beg to say that the Department will approve of your incurring the expenditure as mentioned in your letter for the following:

1. Interior painting.
2. Kitchen linoleum.
3. Slip covers for living-room upholstered furniture.
4. Curtain material.
5. Awnings for south windows.
6. Paper for living-room.

It is noted that the material and making up of slip covers for the living-room furniture will amount to $77.50. The Department will also approve of your engaging the services of the local paper hanger to do the paper hanging in the living-room, at a cost of approximately $10. It is also noted that the school staff will be able to furnish the labour in the interior painting, laying of linoleum, making up of curtains and drapes, and in installing shade blind for verandah.

After these supplies have been purchased and the work completed, please forward itemized accounts, in duplicate, covering the cost, which should be kept within the estimate submitted by you, if possible.

Your obedient servant,

D. C. MacKenzie,
Acting Asst. Deputy and Secretary.

COMMISSIONER'S OFFICE,
REGINA, SASK., 4th July, 1928.

Sir:

I enclose and recommend for payment Regina Voucher No. 6317 in favor of the Manitoba Bridge and Iron Works, Limited, representing the cost of erecting two fire escapes at the Elkhorn Residential School, under Department Authority 127-1-b, dated 26th November last.

Several types of fire escapes were suggested, but it was finally decided that the ordinary steel stair type would be the most satisfactory. The Representative of the Manitoba Bridge and Iron Works at Regina was not able to furnish me with complete particulars in regard to the erection of the desired type, and I, therefore, on a visit to Winnipeg called at the Company's office and arranged that they should send a representative to the school to look over the type of building and give me a price on the erection of the fire escapes. This they did and I enclose with the voucher copy of their letter of the 1st February last. You will note, however, on referring to the voucher that the escapes were actually erected for less than the amount which they quoted. The clause in their quotation letter referring to performing other work on a cost plus 10% basis had reference to fixing up the walls of the building after the erection of the fire escapes; such as, replastering etc., and a voucher covering these extras will be forwarded to you when I have received from the Company a more detailed statement of their account, which amounts to approximately $240.00. With the voucher enclosed are blue prints of the fire escapes which were erected.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

W. REGINA, SASK., 17th August, 1928.

Sir,-

I enclose for payment Regina Voucher No. 5408, representing work performed by the Manitoba Bridge and Iron Works, Limited, in connection with the erection of fire escapes at the Elkhorn Indian Residential School, and in this connection refer you to my letter of the 4th July last under cover of which a former voucher in favor of this Company was submitted.

You will note a charge appearing therein for Overhead Expense, and in reply to an enquiry of mine I received from the Company an explanation as follows:-
"With reference to the Overhead Expense, we believe that "you will agree that it is customary for manufacturing "concerns to charge an indirect Expense Account on all jobs "and we presume it is the practice in your Department to "allow same. In this instance the Casualty Insurance amounts "to $5.65 or $6.00 per 100 on the labor and is included in "the amount of $52.04. If however, the Department refuses "to allow general Overhead Expense charges we suggest that "the amount of $46.39 be deducted leaving the insurance "charge to stand." As this is the first account I have received at any time including Overhead Expenses, I have allowed them to stand in the voucher for the consideration of the Department.

MANITOBA BRIDGE & IRON WORKS LIMITED

Winnipeg, Man.
February 1st, 1928

Mr. W. M. Graham,
Indian Commissioner,
Regina, Sask.

Dear Sir:- Re - Elkhorn Indian School
Your No. 209-11A C.E.

Replying to your letter of January 31st, we acknowledge receipt of your instructions to proceed with work on the fire escape required for the above noted Indian School.

Our man has already left to visit the ground to secure all necessary information to commence construction. The layout will be submitted to you before actual work is commenced in the shop.

As arranged with you, we will take care of this work on a basis of the following approximate prices -

Fire Escape Baloony - $5.00 per square foot, erected.
" " Stairs - 10.00 " lineal " "

All other work to be on a cost plus basis, that is, cost to ourselves plus 10% profit.

We thank you for the business, and assure you that it is receiving our most careful attention.

Yours truly,

MANITOBA BRIDGE AND IRON WORKS LTD.

IN YOUR REPLY REFER TO
No. 209-11A O.S.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
W. REGINA, SASK. 29th November, 1928.

Sir:-

On a recent visit to the Elkhorn School, the Principal drew my attention to the handicap they experience in their playground activities in not having swings or see saws. I asked him to procure prices from the local lumber yard for the material necessary, and he now informs me that the expenditure will be $97.00. I beg to recommend that this be allowed.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Sir:

I have your No. 209-11A C.E. of the 24th instant, recommending that authority be granted to supply the material necessary in installing playground equipment at the Elkhorn Indian Residential School.

In this connection I beg to say that the Department will approve of the expenditure required in the installing of swings and see saws, and the total cost, including materials, should not exceed the estimate furnished by you, viz. $97.

Your obedient servant,

J. D. McLEAN

ANGLICAN INDIAN RESIDENTIAL SCHOOL

ELKHORN, MAN. February 6th., 1929.

Dear Sir:-

I have the honour to report that our batteries in connection with the School lighting plant are absolutely dead. When the engine is shut down in the evening around ten o'clock, there is hardly enough light for one to see to get into bed. The exit lights, naturally, are practically useless. Last year I reported this state of affairs to the Globelite Battery Company, Limited, of Winnipeg, who shortly afterwards sent out their representative to inspect the batteries. At that time, he told us that the batteries were practically dead, and would cease to give light at almost any time. However, with careful handling, we have been able to carry on up to the present time.

As I arrived back last night with forty-four children from the Gordon's School, (according to instructions received from the Indian Commissioner) we have now a total of one hundred and sixty-four children in residence in this School, and I feel it my duty to report this matter of the batteries and to suggest that a new set be installed, in order that we may run no risks from lack of light.

I might also mention that the Reverend Dr. Westgate, Field Secretary of the M.S.C.C., visited us last week, saw the condition of the batteries, and instructed me to write you on the subject.

The present batteries were installed in 1925.

There is some talk of the town of Elkhorn being supplied with electric light by the Manitoba Power Commission, who would run a pole line from the town of Virden, situated some twenty-two miles east of Elkhorn. When talking to the Mayor of Elkhorn the other day

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

about this matter,he told me that nothing definite had been arranged,and he could not say when a decision would be made. If they do finally arrange to secure this light,the very earliest that this could be supplied would be some time next Fall. However,in the meantime we are sadly in need of light.

Trusting that you will give this matter your kind consideration,

I have the honour to be,sir,

Your obedient servant,

Fred Eley.

(Rev.Fred Eley)
Principal.

O T T A W A.
Feb. 12, 1929.

MEMORANDUM:

Dr. Scott.

A letter has been received from the Reverend Principal of the Elkhorn School, advising that the storage batteries used in connection with their electric lighting plant are unfit for further use. The batteries were installed in 1925.

For the last few days the Elkhorn School have had 44 children from the Gordon's School which was destroyed by fire. As the batteries are dead they are without lights except when the generating plant is in operation. I would recommend that new batteries be provided immediately and that Mr. Graham be authorized to purchase same. The cost of the new batteries will be approximately Nine Hundred Dollars ($900.00).

Ottawa, March 22, 1929.

Reverend Sir:

I have your letter of the 16th instant, recommending that the Department provide a building at the Elkhorn Indian Residential School for vocational training and for classrooms. In reply I beg to state that there are no funds available for this purpose, and, in any case, the Department doubts the advisability of increasing the accommodation at Elkhorn. I should be pleased to have an estimate of the cost of fitting up one of the present buildings for manual training purposes. The Department can give favourable consideration to this improvement and to the supplying of tools for manual training work.

Recommendations re Vocational work for the Anglican Indian Residential School, Elkhorn, Manitoba.

After having the privilege of looking over this splendidly conducted institution by Rev. Mr. Eley, I spent considerable time in looking into the possibilities of providing a greater measure of vocational training.

1. In order that the boy who will return to the reserve may be a greater asset to his people in that he will be able to plan and build houses, stables, poultry and such other buildings as are needed and to repair those already built.

2. For the increasing number of boys, who, because they have considerable mechanical aptitude are anxious to find a place in the industrial world, as workers in country garages, operators of farm tractors and possibly have their own repair shop for the automobile is finding its way even to the Reserves.

In looking over the plant I noticed one two story frame building about 33' x 60' which has been sturdily built and is in pretty fair shape and well suited to the purpose for which it was probably built. It might be possible to fix the lower story of this building for a woodworking shop but it is just a question whether it would warrant the expenditure that would be needed to put it into shape for use during the winter months which in a school like this is the logical time, since there is so much work to be done on the farm and in the garden during the summer months.

I would think that the minimum amount of work that would be required to put it in shape would beabout as follows:-

1. The old floor would have to be taken out and a new cement floor put in its place.
The old floor having sunk in several places and is unfit for use.

2. One side of the lower story would have to be re-modelled in order to get the necessary light.

3. Some system of heating would have to be installed and this would be somewhat difficult as the building does not appear to have been built with that end in view.

4. The walls would need to be plaster in order to retain the heat.

5. A new ceiling would be needed.

This building is well built and if wide doors were placed at intervals along the sides it would make a very fine implement shed and storage warehouse. It is the right distance away from the other buildings for this purpose.

Blueprints

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Since additional class romm accomodation and dormitory space is badly needed, it would appear to me that if some additional funds were provided to add to what it would take to put this building in shape a separate building to house all the educational departments of the institution would be a good investment. The class rooms vacated could be converted into dormitories and an assembly room could be provided and would help to correct the natural stolid characteristic of the Indian boys and girls. Such a building could be very compactly built.

Owing to the high water table in this district it would not be necessary to have a basement. In fact basement rooms are not desirable in a building where shops are provided for vocational work because of the difficulty of bringing in machines, etc. for repairs or for demonstration purposes.

The attached plan will give a fair general idea of the accomodation which such a building would provide.

1.	On the ground floor would be a vocational woodworking shop	35' x 50'
	A metal working, auto mechanics shop	36' x 50'
	One class room for related instruction	34' x 35'
	One class room for general work	34' x 35'
2.	On the second floor would be a Senior Classroom	35' x 44'
	A Junior Classroom	34' x 35'
	Teachers room	10' x 14'
	Auditorium	35' x 90'

I have not shown the elevation and the windows, doors, stairs, etc., are only approximately located. If the height of the first story is 14 feet it will make provision for a mezzanine floor at the end of both shops which will be found very convenient for storage and as a location for dismantled engines, etc.

I would not recommend the establishment of Manual Training in this institution but is near relative vocational training which means that the objective would be training for making a living where as Manual Training work supplements the other school subjects and its aim is cultural rather than vocational.

In chosing a teacher for building construction a good all round mechanic with a good general education will be the safest yet for in addition to teaching how to build houses, etc., he should teach the boys how to lath and plaster, how to do cement work, how to build a chimney, how to shingle, how to glaze windows and how to paint.

The benches should be similar to those used by carpenters and can be built by the pupils. If the lumber used is sent dressed it will not be necessary to provide any woodworking machines.

½ doz. Brad Awls
1 " Files assorted
1 " 1 1/8" Vice screws and nuts
3 only Screw Drivers, 4", 6", 10".
2 only Bow saws, 14" blade.

If funds are available for a few machines, the following might be purchased,-

One single surfacer,	24"	-	$500.00 approximately
One Band Saw	24"	-	350.00 "
One Bench Jointer	6"	-	110.00 "
One Grind Stone			25.00 "

(All fitted with motors if current is available).

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

These machines would be of an auxiliary nature and not necessarily for the purpose of teaching the boys how to operate them although they would learn that part of the work.

Equipment for the metal working shop need not be of an expensive nature.
The Institution already has several makes of motors, engines, etc. The farm will provide a tractor for winter study and used automobiles can be purchased at a very small price. Soldering, babbiting and vulcanising equipments are not expensive.

For the first year the Engineer could probably handle this work and later on as the number of older boys increase a second instructor could be provided.

The Institution itself will provide a wide variety of work and in one end of the woodworking room a wide door is shown so that such structures as garages, chicken houses, granaries, etc., could be built on order and would find ready sale for the value of the material used in i ts construction.

Perhaps for a start the first story only might be built and when it is time to finish it possibly the older pupils would have gained sufficient experience to do a considerable part of the woodwork.

The walls should be either brick or re-inforced concrete.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:- Re:- Vocational training etc., at Elkhorn School.

With further reference to my letter of Dec. 11th last, addressed to the Deputy Superintendent General, and his reply on Dec. 19th, re the development of vocational training in our Society's Indian Residential Schools, and more particularly with regard to the development of this branch of education in our Elkhorn School, I beg to state that our Commission were fortunate enough to secure the services of Mr. S. T. Newton, Director of Technical Education in the Province of Manitoba, to visit the Elkhorn School and to submit a report and recommendations in this connection. Mr. Newton's recommendations have been carefully considered by our Commission and approved, and I was instructed to forward to you a copy of the same with a request that the building and equipment be provided at your earliest convenience. As the sum of $15,000.00 was included in our list of requirements at this School this year to provide a new class-room, etc., it is hoped that this building may be provided during the coming summer. Additional class-room space, as you are no doubt aware, is very urgently required at this institution, and our Commission feel that the building recommended by the Director of Technical Education in the enclosed statement would meet this need, in addition to providing space for the vocational training, and an assembly room which might be used as a chapel as well. I am enclosing blue print plans of the proposed building as submitted by Mr. Newton along with his recommendations, and trust that this important matter may receive your prompt and sympathetic consideration.

I have the honour to be, Sir,
Your obedient servant,

T.B.R. Westgate

Field Secretary M.S.C.C.

Duncan C. Scott, Esq., C.M.G.,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Ont.

Dear Mr. Scott:-

With further reference to my letter of December 11 last, and your reply to the same on December 19, relative to the development of manual training in the Indian Schools administered by our Society, and more particularly with regard to the development of this branch of education at our Elkhorn School, you will have before you the recommendations prepared in this connection by the Director of Technical Education in the Province of Manitoba, and submitted to your Department in my letter of the 16th. ulto.

The Acting Assistant Deputy & Secretary when acknowledging the receipt of these recommendations in his letter of March 22, #106-0-11, stated that no funds were available to provide a building at the Elkhown School for educational training and classroom purposes, but requested an estimate of the cost of fitting up one of the present buildings for manual training purposes.

Immediately after receiving this request, I applied to the Principal of the Elkhorn School for an estimate of the cost of fitting up the building which was used, I believe, as a gymnasium by the School Management, before this institution passed under our Society's control. In his reply, dated the 9th. inst. he states, in part, as follows:-

> "This building is a very old one, and originally was the Main Hall and Boys' Dormitory of the old School, when situated in the town of Elkhorn, some three quarters of a mile from the present site. It was then moved from the town, and placed where it now stands. Without hesitation, I firmly state that it would be an absolute waste of money to fix up this building for either class rooms or manual training purposes. The foundation

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"has completely gone, the flooring is badly sunk in the middle, and the building is practically held together by rods running down from the ventilators. It would have to be removed from the present foundations, and absolutely remodelled to give the lighting necessary for the work to be carried on there. Furthermore, the building is so old that the lumber in it is of the old style, and would not fit in with lumber used at the present time, such as "tongue and groove", the nails are also of the older style, which would greatly increase the difficulty in reconstructing the place."

The information contained in the above statement, appears to me to fully support the suggestion made by the Director of Technical Education in his recommendations that this building might be made to serve as an implement shed and storage warehouse, and that it would be, as the Principal states, a waste of money to attempt to fix it up for either classroom or manual training purposes. Even to fix it up as an implement shed, etc., would it seems to me, cost more than it would be worth. The Principal himself hesitates to name any amount which will be required for this purpose, but states that he does not believe that the work could be done for an expenditure of less than $5,000 or $6,000.00.

As our Commission and the School Management have felt keenly for some years, the need of additional classroom space at this School, and have included in their list of requirements submitted to your Department for the last three years, the sum of $15,000.00 each year for this purpose, it seems to me and to our Commission, who went very carefully into this matter at their last meeting, that the only satisfactory way to provide the additional classroom space required, would be to erect a new building in close proximity to the main school building. As the School has no assembly room, and no chapel large enough to accommodate the staff and pupils, our Commission felt that the additional classroom space could be provided in such a way that it would serve as an assembly room and chapel as well. They also felt that when providing this classroom space, provision might be included in the plan for the development of vocational training. This would mean a two storied building, and they still consider that the classroom and vocational training facilities which this School requires, cannot be supplied in any cheaper or more satisfactory way. They are of the opinion, and they instructed me to lay this recommendation before you, that if funds are not available this year to erect the two storied building, that a one storied building be erected at once and fitted up temporarily and used as classrooms until a further appropriation has been secured next year to complete the second storey.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

As the main school building is only provided with two classrooms at present, and these are by no means sufficient for 120 pupils, you will understand how difficult it is for the School Management to carry on the classroom work with an enrolment of 164 pupils, such as they have at present.

Our Commission greatly hope that you may be able to give this matter your own personal attention and take steps immediately to provide the additional classroom space which is so urgently required.

Believe me,

Yours very truly,

T.B.R. Meighen

April 17, 1929.

Dear Mr. Graham:

There has been correspondence with Dr. Westgate regarding additional classroom facilities for the Elkhorn Indian Residential School. It has been represented that a two-storey building is really required for this school. Church officers have forwarded a rough sketch of a very large building, on the ground floor of which would be three large rooms for a carpenter shop and machine shop and two classrooms, and on the second floor, two classrooms and an auditorium, which might be used as a chapel as well. The Department replied some time ago that there were no funds for this purpose; but, as there are now 164 pupils enrolled and as we are extremely desirous of commencing a course in manual training at this school, I am writing to you, asking for your recommendation concerning the added accommodation that is required. The classroom facilities are not adequate for a pupilage of 120, and there should be a carpenter shop and machine shop at this school. There is an old building on the school property, which, at one time, the Department thought might be used for manual training: but the Reverend Principal and others have stated that it would not be suitable for this purpose and that it was really hardly worth repairing for the purposes of an implement shed.

I should be glad to have your recommendation at an early date. There are no funds specifically provided for building activity at this school this year; but, in view of the urgency of the matter, it might be possible to make some temporary arrangements, which could later be improved and taken into the general scheme for the school buildings.

Yours very truly,

A. B. [illegible]

J. D. McLean,

IN YOUR REPLY REFER TO
No. 209-11A O.E.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE.
REGINA, SASK., April 24th, 1929

Sir:-

I beg to acknowledge receipt of your letter of the 17th. instant No. 106-0-5, informing me that there has been correspondence with Dr. Westgate regarding additional classroom facilities at the Elkhorn Indian Residential School, and that it has been represented that a two-storey building is required. In reply I beg to say that it is a surprise to me to learn that additional classroom facilities are required, as I have always considered that the school was amply equipped, and this is borne out by the fact that I have never had a request from the Inspectors or other officers to have additional space provided. In view of this I am strongly opposed to incurring a large expenditure for this accommodation. I note it is stated that there are 160 pupils enrolled at the school at the present time. This, of course, is only a temporary arrangement, and if we rebuild the Gordon School the enrolment will go back to 120, or probably less, as we have always had great difficulty in keeping the enrolment up to 120 in the past, the fact that they have 160 pupils enrolled there at the present time is not sufficient reason for asking that additional classroom space be provided.

As regards the old building which is on the ground, I cannot agree that this could not be fixed up to accommodate the manual training class, as I am quite sure it could. All the manual training they can give at the school is work on the machinery, and carpenter work. A combined wood work and iron work shop would be the proper thing, and for a small outlay of money the old building in question could be made to answer this purpose quite well.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Reverend Sir:

With further reference to your letter of the 11th instant, concerning classroom facilities and carpenter and blacksmith shops at the Elkhorn Indian Residential School, I have now to inform you that a report has been received from Mr. Commissioner Graham. The Department desires to postpone making a decision regarding classroom facilities until after the Gordon Residential School pupils have returned. In the meantime, temporary arrangements should be made for the extra classroom space required. As you were informed in official letter of the 17th instant, there are no funds available for a new building at this school, and Mr. Graham is of the opinion that the old building, to which you refer, could very well be used, temporarily, as a carpenter and blacksmith shop.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

COMMISSIONER'S OFFICE,
REGINA, SASK., May 15th, 1929

Sir:-

With reference to your letter of the 17th. ultimo, 106-0-5, and my reply of the 24th. April, I beg to inform you that I visited the Elkhorn School a couple of days ago and went thoroughly into the question of additional classroom space at that institution, and I am quite convinced that the present accommodation is quite adequate for the school requirements, and that the Department should not be called on to provide additional space.

With regard to the chapel, this is not needed. The chapel adjoins the dining room and the two rooms can be thrown into one, which answers the purpose quite well.

106-0-11

I note in your letter you state that the Department is anxious to commence a course in manual training at this school, and in this connection I may say that I have not found the manual training taught at our schools in the past to be of very great benefit to the pupils, and I am of the opinion that we would get much better results if this money were spent in giving them a proper equipment to farm with and teaching them how to handle it at the schools. In the past we have equipped hundreds of Indians with outfits of tools and fitted them up as carpenters and not one per cent of them are working at their trade on the reserve, and I do not know that the boy who has had manual training is any better fitted to go out on the farm and make a living than the fellow who has not.

-The general-

The general training that a boy receives at the school fits him for handling machinery and doing any repair work that might have to be done around the farm, and I think our efforts should be along the lines of agriculture, and agriculture only. We found this out long ago. At one time at the Qu'Appelle School we had a carpenter shop, tin shop, shoe shop, and so on, and the boys received a thorough training in these lines of work, but this has all been done away with and I do not think we should start it up again. I am stressing this point, because I would hate to see any expenditure on this particular line of work, as I know we have not obtained results from it in the past.

The old building referred to in your letter of the 17th. April can be put in shape and should be used as a manual training room and gymnasium. The upstairs could be used as a storeroom for the paints, tools, etc. that are necessary around an institution of this kind. It would take $1200.00 to put the building in shape and I am of the opinion that this should be done at once. It would be of great assistance to the Principal to have a place that the boys could use as a recreation room, and also a place to keep tools and do repair work in. The building is an old one, but with an expenditure of $1200.00 it could be made as good as new.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Ottawa, June 1, 1929.

Sir:

I have your 209-11A C.E. of the 15th ultimo, and, in reply, I have to authorize an expenditure of approximately $1,000 for painting and repairs at the Elkhorn Indian Residential School. There was an item of $1,500 in this connection; but, as new batteries and certain other improvements have been authorized, I have to request you to keep the expenditure as low as possible.

I have also your 209-11A C.E. of the same date, concerning classroom space at this institution. I note it is adequate. Your remarks concerning manual training are receiving careful attention. I regret that there are no funds to put the old building referred to in good condition for a manual training room and gymnasium. This will have to stand until an appropriation can be secured for the purpose.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

RECORDS

ELKHORN, MANITOBA, June 1st., 1929.

Dear Sir:-

I enclose herewith certified accounts of the Taylor Lumber Co.,L't'd.,of Elkhorn,Man.,for lumber,nails,etc.,used in the screening of the Farm Instructor's verandah last Summer,the work being done by authority of Mr.Russell Ferrier,on the occasion of his visit to the School in the Summer of 1928.

As the Taylor Lumber Co.,L't'd., were anxious to receive their money,I paid the account by cheque on March 31st.,intending to send the account in at once.However,the account was unfortunately mislaid among some other papers in my office,and I only discovered yesterday that it had not been forwarded to you.

Kindly accept my apologies for the delay in sending in the account.I trust that it will not too greatly inconvenience you.

I have the honour to be,sir,

Your obedient servant,

Fred Eley

(Rev.Fred Eley)
Principal.

D REGINA, SASK., June 18th, 1929

Sir:-

I beg to inform you that while at the Elkhorn School recently I arranged for the necessary painting and repairs at that institution, and I should be glad to have an accountable cheque for about $300.00 to cover the cost of labour. The Principal is having his staff and the older boys do most of the work, but it will be necessary to hire one or two competent men to do the painting on the roofs, etc., as I do not consider it would be safe to have the boys working on the roofs.

O.K. R.O.

Your obedient servant,

W. M. Graham

JUL 4 1929

IN YOUR REPLY REFER TO
No. 209-11A O.E.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE.

W. REGINA, SASK., 29th June, 1929.

Sir:-

Referring again to my letter of the 15th ultimo, and Department reply No. 106-0-5, dated the 1st instant, I would be glad if the Department would reconsider the question of providing $1,200.00 to put in shape the old building referred to in your letter of the 17th April to be used as a manual training room and gymnasium. The repainting of the school and out-buildings is under way now. This school is close to the main highway entering the province of Saskatchewan, on which of course there is constant traffic and the appearance of this old building is a disfigurement. The remodeling and painting of it will give the premises needed uniformity.

There was an item of $4,000.00 which is being saved by omitting an expenditure of $4,000.00 provided for at the Portage la Prairie school, $2,000.00 of which has now been allocated to build a new day school at the Ley Reserve. If $1,200.00 out of what remains can be used at Elkhorn, I shall be very glad and would like to have your authority.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Ottawa, July 4, 1929.

Sir:

I have your 209-11A C.E. of the 29th ultimo, with reference to improvements at the Elkhorn Indian Residential School. It is difficult for the Department to decide what should be done with the old building referred to in your letter. The Rev. Principal, on April 9th, last, wrote in part as follows: "This building is a very old one and originally was the main hall and boys' dormitory . . . . in the town. It was moved from the town and placed where it now stands. Without hesitation, I firmly state that it would be an absolute waste of money to fix up this building for either classrooms or manual training purposes. The foundation has completely gone. The floor is badly sunk in the middle and the building is practically held together by rods running down from the ventilators. It would have to be removed from the present foundation and absolutely remodelled to give the lighting necessary. Furthermore, the building is so old, that the lumber in it is of the old style and would not fit in with lumber used at the present time." I may say that Dr. Westgate, also, has written it would be a waste of money to fix it up for manual training purposes or even an implement shed.

I should like to ask if you have personally examined this building lately, as the report of the Rev. Principal is such that the Department hesitates to spend money on it.

Your obedient servant,

A. F. MacKenzie.

R

Sir:-

I beg to acknowledge receipt of your letter of the 4th. instant No. 106-0-5 with reference to improvements at the Elkhorn Indian Residential School. I note you state that it is difficult for the Department to decide what should be done with the old building referred to in my letter of the 29th. ultimo, and you quote the Rev. Principal as having said that it was very old and unfit for use. I presume this is your grounds for hesitating. It may be a surprise to you to know that when I went over this building with the Rev. Principal a few weeks ago he was very much in favour of having it remodelled, and thought it would meet the requirements quite well. Once more I would point out to the Department that the Principals of these schools, including Mr. Eley, who is a very excellent man, have not had the practical knowledge to enable them to judge and give advice in matters of this kind. I may say that Mr. Inspector Murison is of the same opinion as myself, namely, that for a small expenditure of money we could put this building in splendid shape. No private individual would think of discarding such a building as we have there and erecting another at a cost of probably $4000.00, and I trust the Department will grant the necessary authority to have the present building put in shape.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

REGINA SASK.

Mr. W. M. Graham,
Indian Commissioner,
Regina, Sask.

Dear Sir:

Re- Elkhorn Indian School
Your No. 209-11A-C.E.

Replying to your letter of January 31st, we acknowledge receipt of your instructions to proceed with work on the fire escape required for the above noted Indian School.

Our man has already left to visit the ground to secure all necessary information to commence construction. The layout will be submitted to you before actual work is commenced in the Shop.

As arranged with you, we will take care of this work on a basis of the following approximate prices -

Fire Escape Balcony - $ 5.00 per square foot, erected.
" " Stairs - 10.00 " lineal " "

All other work to be on a cost plus basis, that is, cost to ourselves plus 10% profit.

We thank you for the business, and assure you that it is receiving our most careful attention.

Yours truly,

MANITOBA BRIDGE & IRON WORKS LIMITED.

W.T.E. Smith.

(Copy) for Dr. Scott's information

Ottawa, Ontario,
12th October, 1929.

Dear Mr. McKenzie,

Your letter of the 9th instant addressed to Mr. Gibson regarding the question of having the Indian School at Elkhorn tied into your provincial Hydro system was referred to me for attention.

I immediately took it up with Dr. Scott who advised me that when this matter was first brought to his attention, he got in touch with the Principal of the School and asked him to find out the cost of installing and also the rates which the Hydro intended charging.

Dr. Scott advised me that the principle of installing the Hydro electricity has been approved but no action can be taken until he is aware what the cost will be.

Yours sincerely,

W.J.F. Pratt,
Private Secretary.

VILLAGE OF ELKHORN, MAN.

W. DAVEY, Mayor
C. W. CROSBY, Secretary-Treasurer

ELKHORN, Manitoba, Octr. 21st. 192

Ottawa, Dept. of Indian Affairs

Dear Sirs -

Re Indian School, Elkhorn and Hydro -

Hon. D.C.McKenzie has forwarded me a copy of your letter to him, dated Ottawa, Octr.12th. - re the above.

I am enclosing herewith a copy of an estimate of the approximate cost of lighting and power, the Indian School under their present system and the rate for Hydro electricity as submitted to them by our Council in July last.

You will note in the estimate as submitted by the School that no allowance has been made for salary of engineer or for battery replacement. If these additional expenses are charged, as they should be, to current costs, the figures (total Cost) $929.56 would be considerably increased. Also note that the figures $1100.00 for light are wrongly quoted - see the rate as submitted by the Council.

We were led to believe that both the estimate and the rate quoted by the Village were already in your hands.

Yours truly,

Charles W. Crosby Clerk.

Ottawa, October 28, 1929.

Dear Sir:

I have your letter of the 21st instant, with enclosures, with reference to the installation of Hydro electricity at the Elkhorn Indian Residential School.

The Department would like a little more information in this connection, and I should be grateful if you would let me know to whom one must look for this service. Is it to the village of Elkhorn or to the Hydro Commission? If to the village, you might be good enough to prepare a formal offer to this Department, indicating who is to meet the cost of installation and stating definitely the fees to be charged. Cannot fees be charged on a monthly basis? In the enclosure, you state that power will be available at 8¢ per kilowatt hour, subject to discount or reduction. Please let me know the amount of the discount or reduction.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Charles W. Crosby, Esq.,
Clerk, Village of Elkhorn,
Elkhorn,
Man.

DEPT. OF INDIAN AFFAIRS
OCT 28 1929
RECORD

October 18, 1929.

Mr. W.J.F.Pratt,
Private Secretary,
Superintendent General of Indian Affairs,
Ottawa, Canada.

Dear Sir:

This will acknowledge receipt of your favor of October 12th, and will advise you that I am today writing the Mayor of Elkhorn, asking him to furnish Dr. Scott with the information desired.

I trust this will facilitate the early tying in of the Indian School at Elkhorn to their Hydro plant.

Thanking you for your interest in the matter,

Very truly yours,

(Sgd.) D. G. McKenzie.

Referred to the Deputy
Minister of Indian Affairs
OCT 25 '29

No. 809-114 O.B.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE.

W. REGINA, SASK., 4th December, 1929.

Sir:-

I beg to advise the Department that when last I visited the Elkhorn school the question of the kitchen sinks was brought to my attention. They are past repair and have never been suitable on account of being too small. They are only the average size of a house sink and with so many dishes to wash it has always been a difficulty and a burden for the girls in the kitchen. I shall be glad to receive authority to purchase two new sinks at a cost of about $50.00 each.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Ottawa, December 10, 1929.

Sir:

I have your 209-11A C.R. of the 4th instant, requesting authority to purchase new sinks for the kitchen at the Kikhorn Indian Residential School.

In reply I have to say that you may arrange for the purchase of two new sinks and have same installed in the kitchen of the above school. We note you estimate the cost to be approximately $50 each. Please forward the usual certified account covering the cost.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

APR 22 1930

J.D.McLean, Esq.
Deptmt. of Indian Affairs, Ottawa, Ont.

Dear Sir:-

Re Elkhorn Indian School and Hydro -

Hon.D.G.McKenzie has forwarded me a copy of a letter from Hon.T.A.Crerar to whom he had written in connection with the above, and from whose letter it would appear that your Department has been waiting for further information from the Village of Elkhorn.

I regret that your letter of October 28th., last has remained unanswered but our Council were hoping to receive advice from Dr. Scott that the rates for current as quoted in our letter of Oct. 21st. were satisfactory.

As there appears to be some misunderstanding in connection with this service may I explain that the line from the Provincial Hydro station at Virden was built at the cost of the ratepayers of the Village of Elkhorn. That some half mile or more of line was extended through the School grounds to the buildings and all that is now necessary is for the school to hook on. There should be no costs as regards installation, the school being already wired. The current would be metered through Elkhorn Municipal meter and the amount used by the school read from their meters and charged to them monthly in like manner as other users of current at Elkhorn.

Our rates, as approved by the Commission, are -Light 20¢ per K.W. and Power 8¢ per. K.W. The rates to the school, hereby submitted for your approval are:-

First 3000 K.W. consumed, 20¢ per K.W. next 2000 K.W. consumed 16¢ per K.W. all in excess of 5000 K.W. 12¢. for Light.

For Power 8¢ per K.W. No discounts.

Trusting that this is the information that you require,

Yours truly,

Clerk.

Dear Mr. Crosby:-

Re Indian School and Hydro -

I beg to acknowledge receipt of your letter of the 1st. Inst., with reference to special rates for Electric current, light and power. We are of the opinion that we shall now be able to take advantage of your Provincial Hydro System, and have this day written fully to the Department at Ottawa, with reference to this matter. Upon hearing from the Department I will communicate with you again.

Thanking you for your kindness, and interest in this matter,

Believe me to be,

Yours very faithfully,

(Rev. Fred Hoey.)

Rev.F.Eley.
Elkhorn, Man.

Dear Mr.Eley,

Re Indian School and Hydro.

The Council have been trying to secure, through the Department of Indian Affairs, Ottawa and the Department of Natural Resources, Winnipeg advice in submitting to you rates which would enable you to take advantage of our Provincial Hydro System, and if possible, without increasing the cost of your present system of lighting and power.

At a special meeting of Council held on April 25th. the following rates, approved by the Hon.D.C.McKenzie were endorsed by resolution, Viz - That the following rates for electric current be submitted to the Rev.Principal of the School -

LIGHT -

16¢ per K.W.H. for the first 300 K.W.Hs. per month
12¢ per K.W.H. for the balance

Power -

7½ ¢ per K.W.H.

Your consideration of, and approval if possible, of these rates would greatly assist in making Hydro a success at Elkhorn.

Yours truly,

Sgd. C.W.Crosby.
Clerk.

Architect

ELKHORN, MANITOBA, May 5th. 1930.

Dear Sir:-

I beg to acknowledge receipt of your letter of April 24th. 1930, No 106-0-5, with reference to connecting of this School with the Provincial Hydro System.

I beg to report that the line was extended to the School buildings, but with reference to cost in connection with the installation, I beg to state first of all, there would be cost of the transformers, secondly, that of running extra wires for the purpose of using power, and thirdly, the advisibility of having a thorough inspection of our outside wiring system.

I also have the honour to report, that when the Hydro was turned on, the Village of Elkhorn, the rate given bythe Village of Elkhorn was somewhat excessive, and from a financial point of view it was impossible to take advantage of the light and power. However, I am in receipt of a letter dated May 1st.1930 from the Village Council, and enclose copy herewith for your information. You will see by this that we have been offered a special rate, and I am now of the opinion, that we should take advantage of this, providing the Department would be willing to provide us with Meters to take the place of the various gas engines we now have in use. This would lessen the danger of fire, and the cost of many repairs for the various engines. We would approximately require the following :-

1. Four or five H.P.Meter for Septic Tank Pump.
2. Six H.P.Meter for pumping water and laundry.
3. Two and half HP.Meter for Bread Mixer.
4. Movable ten H.P.Meter for driving Farm Chopper, Ensilage Cutter, and Circular Saw.

I also wish to report the necessity of having continuous service, especially with reference to light in a School where there are so many children. It appears that the majority of light consumers in the Village of Elkhorn, are somewhat dissatisfied with the service as given by the Hydro, as many times the power has been turned off

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

when most required. This of course would be most unsatisfactory and dangerous in a building such as this with so many children. Therefore, we shall be pleased if the Department would look into this matter before we link up with the Hydro, so that there may be a guarantee of continuous service.

Thanking you Sir, for your kindness, and interest in our welfare, and waiting instructions,

I have the honour to be, Sir,

Your obedient servant,

Fred Eley.

May 12, 1920.

Rev. Sir,-

Replying to your letter of the 5th instant, with further reference to the connecting up of the Kilborn School with the Provincial Hydro system, I would ask you to please make arrangements to have the necessary connections made between the school and the Hydro line. It might be advisable to have these connections made in such a way that in the event of the Hydro system failing you could switch over to the existing electric lighting plant.

With reference to your request for motors it is not considered advisable to provide a portable 10 H.P. motor for driving the farm chopper, etc., as it would be much more convenient and safe to use a gas engine. I would ask you, however, to obtain and submit a price for the installation of the other three motors mentioned in your letter. When this is received further instructions will be sent you.

Your obedient servant,

A. F. MacKenzie.

COMMISSIONER'S OFFICE,
REGINA, SASK., May 9th, 1930

Dear Mr. Scott:-

I am informed by the Rev. Mr. Eley, Principal of the Elkhorn Indian Residential School, that the Department has been corresponding with him regarding the connecting up of the school with the Provincial Hydro Electric system.

This power line has been in the Elkhorn district for two years now, and I have for some time been considering the advisability of having the school connected up, and am now of the opinion that it should be.

This letter is written to remind the Department that we have an up-to-date lighting plant at this school which could be used at some other institution, even at one of the new schools we are building, if the Department decide to use the Hydro power at Elkhorn.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Dear Sir,-

Replying to your letter of the 9th instant with reference to the connecting up of the Kiihorn school with the hydro electric power system, I have instructed the [illegible] Mr. Riley to connect up the school lighting system with the hydro electric. There seems at the present time to be some doubt as to whether the hydro are giving continuous service, and as it is necessary that the school be supplied with light at all times I have instructed the Principal to have the wiring so arranged that in case the power from the hydro line fails, he can switch over to his own electric lighting plant.

Yours very truly,

DCL

Rev. Sir:

I have your letter of the 15th instant, relative to the supplying of 15 Firegas fire extinguishers for the use of the school and outbuildings in connection with the Elkhorn Indian Residential School.

In reply I have to say that the Department has in the past supplied a number of fire extinguishers and fire equipment for your school. I would request that you inform the Department of the number, size and type of fire extinguishers at present at the school and where they are distributed. The number of these extinguishers in the main school building and also in the outbuildings should be stated. You should also state how you would propose distributing the 15 extinguishers which you now ask for. When we have this information, consideration will be given to placing an order here for any further quantity of extinguishers that may be considered necessary. Please furnish your report as asked for above at an early date.

Memorandum:

DR. SCOTT.

With reference to a portable electric motor for the Elkhorn Indian Residential School, I have to report that department officers consider it would be a source of danger to the children that are running around the buildings at all hours of the day. A trailing power wire, no matter how carefully insulated and guarded is, if nothing more, a source of worry where children are playing. It is believed that a gas engine can be operated as economically for such purposes as sawing wood, chopping feed and ensilage. I may say that three electric motors have been authorized - one for the septic tank pump, another for pumping water and running laundry machinery and a third for operating the bread mixer.

Dear Mr. Scott:-

I have your letter of the 15th. instant regarding the connecting up of the Elkhorn School with the hydro electric power system. This power is likely to be brought over from the main system in Winnipeg in a very short time, and when this is done there is no reason whatever, in my opinion, why we should not use the engine and dynamo that are on hand at this institution elsewhere. There will be no necessity for having this plant kept at the school, any more than a town that is connected with the hydro power should have a standby plant. It would never be used.

Yours very truly,

W.M. Graham,
Indian Commissioner.

CONTRACTING ELECTRICAL ENGINEERS
ELECTRAGISTS

334 MAIN STREET

WINNIPEG

June 25, 1930.

Captain The Rev. Fred Eley,
Anglican Indian School,
Elkhorn, Manitoba.

Dear Sir:

Re. Anglican Indian School, Elkhorn.

At your request we investigated the wiring of the above buildings with a view to installing new services in order that the lighting system of the school and outbuildings can be connected to the Manitoba Hydro Commission's lines; also the wiring and connecting up of three motors, and repairing existing wiring to meet with the requirements of Mr. Wilkes, the Hydro Commission's Inspector, a copy of whose report is herewith enclosed.

The price for repairing and putting into good condition the present wiring is itemized in accordance with the Inspector's report.

Item 1 - Principal's Residence - Sixty-nine Dollars, ($69.00).

Item 2 - Farmers' Residence - Forty-three Dollars, ($43.00).

Item 3 - Power House - Five Dollars, ($5.00).

Item 4 - Garage & Gym. - Twenty-four Dollars, ($24.00).

Item 5 - Granary - Sixteen Dollars and Fifty Cents ($16.50).

Item 6 - Piggery - Fifteen Dollars, ($15.00).

Item 7 - Horse Barn - Seventeen Dollars and Sixty Cents, ($17.60).

Item 8 - Lower Barn & Root House - Seventy-six Dollars, ($76.00).

Item 9 - Cow Barn - Thirty-one Dollars and Sixty Cents, ($31.60).

Item 10- Main Building - Fifty-six Dollars, ($56.00).

Item 11- Pole Line - Four hundred and Thirty-seven Dollars, ($437.00).

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Captain The Rev. Fred Eley-2. June 25, 1930.

It will be necessary in this last item to instal six new poles complete with necessary anchors and guy wires. There will be approximately one thousand feet of #8 wire used in order to change the present system to a 3-wire system, and 260 feet of No. 1/0 wire to feed the main building.

The following is for new work that will be necessary to make the change for the new services:

The service as we understand it will enter the power house and from there will be connected through a double throw switch so that the present plant can be operated in case of emergency. In the power house will be the necessary fuses and distribution to take care of the other buildings.

The service will consist of a 200 ampere 3 pole service switch, service and feeder wires to be 3 - 3/0 wires in 3" conduit, this to be fed from the double throw switch which will be mounted behind present switchboard, and terminate on the outside of the wall nearest the school building. This will cost Three hundred and Sixty-one Dollars, ($361.00).

In addition to this it will be necessary to change the present feeder in the school building from a 2-wire to 3-wire system, and to change the present service switch from a 2-wire to a 3-wire. This will cost One Hundred and Seventy Dollars, ($170.00).

For wiring and connecting up one 5 HP septic tank motor; 1 - 7½ HP pump motor in the laundry; and one 2 HP motor in the bakery from the service point to the motor terminal, building concrete base for motors, erecting the necessary counter shafting, pulleys and bolts, all complete and in complete operation - Four Hundred and Eighty Dollars, ($480.00).

We will also supply 1 - 2 HP motor complete for $69.85, 1 - 5 HP motor $93.50, 1 - 7½ HP motor - $123.00. These motors are for 220 volts, 3 phase, 1800 r.p.m. and complete with pulley and base.

It may be necessary in order to meet with the requirements of the Power Commission to use magnetic switches. These will cost for the 2 and 5 HP motors $22.00 each, and for the 7½ HP motor $31.00.

"DO IT ELECTRICALLY"

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES

SCHUMACHER-MACKENZIE LIMITED

Captain The Rev. Fred Kley -5. June 25, 1930.

It is quite possible that motors of this size will not be required, and that they can be somewhat smaller, but this can only be arrived at by connecting up one of the motors and testing out the HP when it is in operation.

We will also instal service for stove and water heater for the Principal's residence for the sum of Fifty-eight Dollars and Forty-five Cents, ($58.45).

We will instal this work complete to meet with the requirements of the Hydro Power Commission within as short a time as possible. It will take approximately one month to complete the work from date of contract.

Yours very truly,

SCHUMACHER-MACKENZIE LIMITED,

AKM/DW.

MANITOBA POWER COMMISSION
LEGISLATIVE BUILDING
WINNIPEG

November 3, 1930.

Rev. F. Eley,
Principal,
Anglican Indian Residential School,
Elkhorn, Manitoba.

Dear Sir:

With reference to the electrical installation at the above school, we made several inspections during the time the repair work was in progress.

On our second inspection we found poor insulation tests in the following buildings:

Main Building
Principal's Residence
Cow Barn

On our third inspection some ground rods showed a poor test. The electrician in charge was notified of these tests and was instructed to remedy same, and additional ground rods were installed to get a satisfactory test.

At the present time, installation is in a good condition, and we suggest that all future repairs, alterations, or additions be made by a competent electrician and that all such changes be reported to this office or to our Plant Engineer at Virden, so that a proper inspection may be made of same.

Enclosed herewith is the present test of insulation and grounds.

Yours truly,

Man. Power Commission,

G. Watt

Chief Engineer.

CONTRACTING ELECTRICAL ENGINEERS

334 MAIN STREET

WINNIPEG

Aug. 27, 1930.

Captain The Rev. Fred Eley,
Anglican Indian School,
Elkhorn, Man.

Dear Sir:

In our letter of June 25th, the item for the power service for the main building was omitted and was not noted until we were going over the job item by item with Mr. Walker, who is doing the job there.

The power service includes the service wiring from the pole, service switches and distribution for the 7½ HP motor for the laundry, and the 2 HP motor for the bake shop, and will cost Two Hundred and Eighty Dollars, ($280.00).

Yours very truly,

SCHUMACHER-MACKENZIE LIMITED,

EXTRACT FROM REPORT OF MR. A. G. HAMILTON, INSPECTOR OF INDIAN AGENCIES, DATED DECEMBER 18TH, 1930, ON HIS INSPECTION OF THE ELKHORN INDIAN RES. SCHOOL.

Original on File 106-0-6.

In all the dormitories the electric light switch is inside the dormitory and locks with a key. In cases of fire, this would be a poor arrangement as it takes too long to get the lights on. This switch should be in the hall on the opposite side of the wall, then it would not need to be locked and could be easily reached as the hall light is kept burning. The change should not incur any great expense.

OK

Fire drill is observed and was carried out during my inspection. The drill was given after all the children had retired, and without any excitement they were able to get out in seven minutes.

Last visit

The fire escape on the west wing of the building is only a ladder hanging against the wall and very unsuitable for children. The infirmary, as well as a small dormitory, is at this end of the building, and a proper fire escape should be provided. The present ladder is not used for drill and the children are obliged to go the length of the building and into another dormitory in order to reach the fire escapes. Fire extinguishers are placed throughout the building in convenient places and all the fire hose appeared to be in good condition.

1

A small dressing room adjoining the infirmary should be provided with a radiator. Last year, the radiator froze and broke and, at present, the only heat obtainable is from the hall. This room is provided with running water and wash basin and, unless a radiator is provided, further trouble is likely to arise from freezing.

Later

The stairs to the boys' washroom are badly worn and the treads should be renewed. The floors in the classrooms and staff rooms are badly in need of paint, as are also the front stairs and the wood work in the bathrooms. In many places, the paint is entirely gone, while in other places, small patches remain. The floors are scrubbed each week and were clean throughout the building.

EXTRACT FROM LETTER OF INDIAN COMMISSIONER GRAHAM, DATED JANUARY 8th, 1931, ENCLOSING ABOVE REPORT.

The Inspector comments on the fire escape on the west wing of the building, which is only a ladder hanging against the wall. This matter has been brought to your attention before. I do not think it is a satisfactory escape.

Mr. Hamilton mentions the need for a small radiator in the dressing room adjoining the infirmary. I think this will have to rest in abeyance for the present year. Some slight repairs to the flooring are required. I think this work should be done and it can be gone on with at any time provided the necessary authority is given. I am not in fav[or] of painting the Principal's residence this year, owing t[o] the financial conditions existing.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

106-0-5.

Ottawa, January 17, 1931.

Sir:

I have your letter of the 8th instant, enclosing the report of Mr. Inspector Hamilton on his inspection of the Elkhorn Indian Residential School.

Relative to his recommendation that the electric light switches in the dormitories be changed from their present position to the wall outside the dormitories where they could be easily reached, I have to say that the suggestion of the Inspector should be carried out. You may, therefore, arrange to have the switches changed to the outside wall of the dormitories, where they could be easily reached by a member of the staff. If this were done, it is considered that it would not be necessary to keep the switches locked.

Relative to the providing of a fire escape of a satisfactory type on the outside west wall of the building, to replace the present hanging ladder, I shall be pleased if you will furnish your recommendation as to the type of escape you would recommend and the approximate cost of supplying and installing same.

Regarding the installing of a radiator in the dressing room adjoining the infirmary, and the renewing of the treads of the stairs to the boys' washroom, and the painting of the floors in the classrooms and staff rooms, also front stairs and woodwork in the bathrooms, I have to say that this work will have to stand over until a later date, as we have no funds at the present time to provide the expenditure required for the purpose.

It is noted that you are not in favour of painting the Principal's residence this year, and this work will also have to stand over.

Your obedient servant,

A. F. MacKenzie,
Secretary.

COMMISSIONER'S OFFICE.
ED
REGINA, SASK., January 21st, 1931.

Sir:-

I beg to acknowledge receipt of Department letter 106-0-5 of the 17th instant, and in reply would recommend a third escape for the Elkhorn Church of England School, similar to the two installed in 1928. The cost will probably be between six and seven hundred dollars. The present escapes were manufactured and installed by the Manitoba Bridge & Iron Works of Winnipeg.

The Department's remarks, with reference to the light switches and the other work recommended by the Inspector, are noted.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

The Secretary,
Dept. of Indian Affairs,

Ottawa, January 27th, 1931.

Sir,-

I have your No. 209-11A C. E. of the 21st instant regarding the installing of a third fire escape on the outside west wall of the Elkhorn Indian Residential School and giving an estimate of the cost. In reply I have to say that the Department will approve of your arranging for the installation of the additional fire escape, to be of the same type as the present escapes.

As our funds for the balance of the present fiscal year are entirely assigned, it is hoped that you will be able to defer payment of the account covering the cost until our appropriation for the next fiscal year is available.

Your obedient servant,

A. F. MacKenzie.

Mr. W.M. Graham,
Indian Commissioner,
Dominion of Canada,
Dept. of Indian Affairs,
Regina, Sask.

Dear Sir:

RE - Cont. C-396. Fire Escape at Elkhorn.

Having had one of our men visit the Indian School at Elkhorn to take measurements for the new fire escape we are making for you on the above contract, we take pleasure in quoting you as follows -

1- Fire escape, similar in design to those supplied by us in 1928, but of the size necessary for the position indicated to us by your Principal, Rev. F. Eley.

Price - Nine Hundred and Sixty Seven Dollars ($967.00) erected in place, including Federal Government Sales Tax at 1%.

This fire escape will have two balconies more than those referred to above which we supplied you sometime ago, and slightly greater length of stair. We have allowed in this price for the taking down of the existing ladder and balconies, but not for any structural alterations to the building, or for patching plaster where bolts go through the walls.

Owing to the location of an existing wooden porch under the proposed position of the new balconies it is not possible to have doors in place of the windows

- over -

COMMISSIONER'S OFFICE,
D REGINA, SASK., Feb. 27th, 1931

Sir:-

I beg to inform you that Mr. Eley, Principal of the Elkhorn Indian Residential School, was in my office this morning, and has made a request to have the undermentioned supplied for his school. Mr. Eley, as you know, very seldom calls upon the Department for assistance, and I would be inclined to recommend that his requests be granted, as follows,-

1 laundry stove, for heating irons
2 doz. spring taps for wash basins

He also asks that he be allowed to employ a carpenter for a week, fixing up things about the place, such as repairing the wooden stair treads, and the drain to the sewage disposal. I believe the necessary material for these repairs would cost about $30.00, and the labour about $30.00.

I think everything the Principal asks for could be covered by $100.00 and I would ask you to let me have the necessary authority for this expenditure.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

The Secretary,
Dept. of Indian Affairs,

Ottawa, March 5, 1931.

Sir:

I have your 209-11 A C.E. of the 27th ultimo, relative to the request of the Principal of the Elkhorn Indian Residential School to be supplied with a laundry stove for heating irons and two dozen spring taps for wash basins, and that he be allowed to employ a carpenter for one week in carrying out repairs.

In reply I have to say that the Department will approve of the purchase of a laundry stove of a type that will be satisfactory for heating irons, also two dozen spring taps for the wash basins. The Principal may also employ a carpenter for approximately one week, and purchase the necessary material for the repairs. Accounts, in duplicate, properly certified, should be forwarded covering the expenditure incurred.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Dear Sir;

I beg to acknowledge receipt of your letter dated April 5th. with reference to the Fairbanks-Morse heavy duty engine in the Power-house of this School.

The Hydro has been giving satisfaction, and I do not think that we shall require the engine, although we wired last Fall in such a way as to able to use our own plant,in case the Hydro failed. We also have a set of batteries, now surplus to our requirements.

The heavy duty engine was purchased in 1923 and cost $2,404.00. The price of the same engine this year is $2,045.00. The Fairbanks-Morse people are of the opinion that this engine should be worth at least $500.00.

Should the Department sell this engine, would it be possible for us to be supplied with an ironing machine for our laundry. The ironing has always been a difficulty with us.

IN YOUR REPLY REFER TO
No. 209-11

ALSO TO DATE OF THIS LETTER

W. REGINA, SASK. 28th Nov. 1931.

Inspector Hamilton's Report on the Elkhorn Residential School

Dear Mr. Graham:-

I have the honour to submit the following report on the Elkhorn Indian Residential School, inspected on November 9th and 10th, 1931.

The senior class room is in charge of Mr. Bradley, who also acts as assistant to the Principal. There are thirty-eight children on the roll and the grades are arranged as follows;-

Grade	3	- 7
"	4	- 20
"	5	- 6
"	6	- 4
"	7	- 1

The register was marked to date and the attendance regular. The children were well dressed, neat, and clean. The class room was well aired and tidy.

The children speak out clearly and are well mannered. They read with understanding and I found their book work well done and neatly set down. I would judge Mr. Bradley is rendering good service as a teacher.

The junior room is in charge of Miss Field. The roll calls for forty-five and the grades are arranged as follows;-

Grade	1	- 29
"	2	- 10
"	3	- 6

These children made excellent response to Miss Field, and speak out well. They are well mannered, - bright, and -

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

bright, and attentive.

The room was tidy. The children well clothed and clean.

The dormitories were clean, and well aired. The beds were all neatly made, and the bedding clean. The girls are provided with night gowns and the boy's pyjamas.

Miss Shaw is in charge of the laundry. This department is well equipped with machinery, and the work is well done. Miss Shaw, aside from the use of the power machinery, instructs the girls in the use of small washing machines and teaches them how to do properly a family size washing. When not in the laundry, Miss Shaw instructs the girls in the mending of their clothes and this requires the balance of her time. No sewing teacher is provided; consequently the children do not receive instruction in the making of new garments, at least not to any extent. This, I feel, is a great mistake, as every girl on leaving school should know how to make her own clothes and do the necessary sewing for children.

Miss Palmer is in charge of the bakery and dairy and renders good service. In this department more of the senior girls should be given a chance to become bread makers. A baking of the proper size for a family could perhaps be made each day by some girl. At present the work is carried on by one or two girls and very little of the individual instruction has been given.

Miss Howe is kitchen matron and I found the food well prepared and wholesome. The kitchen is large, bright and well equipped.

Miss Lindsay, the Matron, appears to keep close supervision over the school, and the halls, dining room, and staff-rooms were all tidy and showed care and good house-

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

keeping.

The fire equipment is in splendid condition and the fire escape added last year has made a wonderful improvement. Fire drill was observed and the children were able to get out in less than three minutes. I might say the children had all retired and in some cases were asleep when the fire alarm was sounded. No member of the staff was aware that fire drill was to be observed. The doors leading from the dormitories to the fire escapes are all pad-locked. The engineer, who is a graduate of Toronto University in electrical engineering, offered to connect these doors with the fire alarm so that if opened the alarm would be sounded. This would do away with the locks and would entail very little expense.

The dormitory lights can only be put on from a switch in the dormitory and this switch is operated by a key. This is an awkward arrangement and the switches would be much handier if placed outside the dormitory door and the ordinary switch used. Again this work could be properly carried out by the engineer if proper switches and a small amount of wire were provided.

The food served on the day of my visit was as follows;-

Breakfast;- porridge, bread, lard and tea

Dinner;- meat, dumplings, potatoes, gravy, bread, tea, and pudding

Supper;- bread spread with peanut butter and tea.

At all meals the children appeared to receive plenty, but no waste is allowed.

- The yards -

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The yards about the school were clean, and, I believe, are well looked after.

The garden yielded a fair return and the potatoe crop was excellent.

Poultry is kept, but this year, due to disease, the flock went back and the Principal informed me that he intended killing off the present birds. The premises will then be thoroughly cleaned and made ready for next year.

At present sixteen cows are being milked, but a number of the cows will soon be dry. Hay is scarce and they have no feed grain for the stock. The grain crop was cut for green feed, but yielded very light.

The horse barn was clean and all tools and harness neatly put away. Six horses are kept, and they were in fair condition.

I noticed one side of the barn roof is only partly stained. A few gallons of stain would complete the work and greatly add to the appearance of the buildings.

The children in this school receive a good training. They are obedient and respectful and progress is being made in the various departments. The Reverend Mr. Eley keeps in close touch with the work and is respected by the staff and pupils.

I have the honour to be,

Sir,

Your obedient servant,

A. G. Hamilton,
Inspector of Indian Agencies

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

DEC 4 1931

IN YOUR REPLY REFER TO
No. 209-11
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

REGINA, SASK., December 1st, 1931.

Dear Mr. Scott:

I am enclosing herewith Inspector Hamilton's report on the Elkhorn Indian Residential School, which he inspected during the month of November.

You will note that conditions at this school are good. The children are well fed, the classroom work is good, and everything about the institution is as it should be. The stock is well cared for, and the boys receive a good training in farm work. The girls at this school milk cows during certain periods of the year - chickens are also kept. In fact, the Department hear very little from this school, simply because we have a competent Principal in charge. All schools could be managed in the same way if we had the right type of man in charge.

There is one matter, however, which required attention. The Inspector found the doors, leading from the dormitories to the fire escapes, padlocked. This is absolutely wrong. If there were a fire and a panic occurred, there would probably be a great loss of life. I have instructed the Principal by telephone to have the locks removed at once.

With regard to the light switches, the change suggested should certainly be made. They should not be operated by a key. I have been talking to the Principal over the telephone, and he informs me that the switches have now been changed, at a cost of $12.00. He stated that he hopes the Department will re-imburse him for this.

Duncan C. Scott, Esq.,
Deputy Superintendent General,
Dept. of Indian Affairs,
OTTAWA.

106-0-5.

EX'L.

Ottawa, December 7, 1931.

Sir:

I have your 209-11 of the 1st instant, enclosing Mr. Inspector Hamilton's report on his recent inspection of the Elkhorn Indian Residential School. In this connection I have to say that the Department is pleased to note the general conditions at this school are satisfactory; that the children are well fed and that progress is being made in the classroom work; also that the boys are receiving good training in farm work.

It is noted that you have instructed the Principal to have the locks removed from the doors in the dormitories which lead to the fire escape.

The Department will approve of an expenditure of approximately $12 in having the change made in the lighting switches, as suggested by the Inspector, and you may forward a certified account in the usual manner covering this expenditure.

Regarding the suggestion of the Inspector that a few gallons of stain be supplied to complete the side of the barn roof, which, at present, is only partly stained, I have to say that, if you consider this work should be carried out at the present time, you may arrange for the Principal to obtain the stain required and have the work carried out.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

Sir:

I have to request that you will inform the Department concerning the condition of the electric lighting equipment which is on hand and surplus to requirements at the Elkhorn Indian Residential School. In this connection I would refer you to your letter dated May 2, 1931. Please state the condition of the batteries and the voltage of the plant that was in use before the school was connected up with the Hydro. It is desired to have as full particulars as possible. I may say that the Department has a request from one of the residential schools in Saskatchewan for electric light equipment, and the above information is required in order to decide whether the equipment at Elkhorn would be satisfactory to forward to this point.

Your obedient servant,

A. F. MacKenzie,
Secretary.

INDIAN RESIDENTIAL SCHOOL COMMISSION, M.S.C.C.

Elkhorn, Man., January 17, 1933.

Dear Sir:-

I beg to report that our School Bake Oven is in urgent need of repair. It is a John G. Pendrith Bake Oven, made in Toronto. Therefore bricks and repairs will have to be shipped from that City. It is impossible to quote a price, but I do not think the repairs will amount to very much and we shall be able to do the work ourselves.

Will you be good enough to grant authority to have this matter fixed up as soon as possible.

Thanking you in anticipation,

I have the honour to be, Sir,

Your obedient servant,

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

I enclose herewith a list of requirements for our Elkhorn School which our Commission desire to be provided by your Department next year. This list has just come to hand from the Principal, who states that he delayed sending it until he had had an opportunity of discussing the needs with your Mr. Sutherland. Mr. Sutherland will know how very necessary all the items mentioned are. In the list I sent you with my letter of Oct. 11th, you may cancel general repairs ($500.00), but the new building for classroom instruction and vocational training should remain, and the following items be added to it:-

1. New low pressure boiler for the heating system.
   Estimated cost $?
2. Electric refrigerator for the dairy.
   Estimated cost $795.00.

The J. H. Ashdown Co. of Winnipeg, have given the following quotation in this connection:-
"We propose to build a Walk-in cooler, the dimensions of which would be 6 ft. x 8 ft. high. The walls of this to be constructed of fir, insulated with 4" of Armstrong's compressed corkboard and lined inside with special cgerless Spruce "V" joint. The equipment necessary to maintain this box at an average temperature of 38° would be one only model AB375 Frigidaire compressor and a model DX1866 cooling coil. The compressor would have a 3/4 horse motor thereon.

For the complete installation of this equipment in Elkhorn we wish to quote a net price of Seven Hundred and Ninety-Five Dollars ($795.00).

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

" The above equipment is fully guaranteed by the manufacturer and should have ample capacity to take care of the requirements for your institution in the best possible manner."

3. Two waggons for the Farm.
Estimated cost $250.00

4. Equipment for Manual Instruction, to be given in the gymnasium.
Estimated cost $500.00

5. Bath for the Hospital.
Estimated cost $150.00

6. Drainage for the Piggery.
Estimated cost $200.00

7. More land (320 acres)
Estimated cost $5,440.00.

Your obedient servant,

Ottawa, October 19, 1933.

Rev. Sir:

I have your letter of the 14th instant, containing a list of requirements which your Commission desire to have provided at the Elkhorn Indian Residential School during the coming fiscal year.

In this connection I have to say that, when our Estimates are being prepared, full consideration will be given to providing the funds required to meet the various requirements. I regret we will have no funds this year to provide the cost of any of the items mentioned in your letter.

Regarding the supplying of a new low pressure boiler for the heating system, I would request that you furnish information as to the cost involved in the purchase and installation of the boiler.

When Mr. Sutherland of this Department saw you in Winnipeg, he authorized the supplying of a cream separator, which has been delivered at the school. If you will forward a certified account, in triplicate, covering the cost, payment will be made. In forwarding the account, please state whether you wish the cheque sent to your Commission or to the firm who supplied the separator.

Your obedient servant,

A. F. MacKenzie,
Secretary.

INSPECTOR'S OFFICE

OCT 31 1933

WINNIPEG, MAN., October 27th., 1933.

Sir:-

I have a letter from Canon S. J. Wickens, Principal of the Elkhorn Indian Residential School, stating that he was informed by Mr.Sutherland that $300.00 of money appropriated for the Elkhorn School was still available for this year - 1933. He was advised that this should be spent in the repairing of the plaster, paint, and for carpentering work where it is most needed. Canon Wickens is anxious to proceed with this work and writes asking that definite authority be granted.

$300 available

E.D.D.

Ottawa, November 4, 1933

Sir:

I have your 209-11A C.E. of the 27th ultimo, regarding the request of the Principal of the Elkhorn Indian Residential School for authority to incur an expenditure of $300 - which is available in our Appropriation for the current fiscal year - for the purpose of carrying out repairs to the school building.

In reply I have to say that the Department will approve of the Principal, under your oversight, incurring an expenditure before the end of the present fiscal year, for the purpose of repairing the plaster and paint and for general carpentry work, where most needed. In this connection, the amount of $300 is not to be exceeded. The Principal and yourself should arrange for the purchase of any materials required from firms on the approved list. It is presumed that the greater part of the work can be performed by the staff, without expense to the Department.

I enclose an encumbrance certificate, authorizing the expenditure of the above stated amount. Please obtain itemized accounts, in triplicate, for the cost of the material and for any outside labour which it is necessary to employ. These accounts, you should attach to proper voucher forms, certify in the usual manner and forward for payment. You should state on each copy of the voucher that the expenditure was incurred under authority of E. R. No. 1098, and it must be accounted for before the end of March, next.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Dear Sir,

I would be very much obliged if you could send me a plan of the main building and power house of this School. Our staff is quite new and I have failed to find any drawings indicating the pipe and valve lines within and without the plant. Just now my engineer is concerned about the power house and a water cistern supposed to be beneath it. If you have such information and drawings I would greatly appreciate a copy of the information being sent to me at your earliest convenience.

Thanking you,

I am,

Yours truly,

S. J. Wickens

DEPT. OF INDIAN AFFAIRS
DEC 1933

ELKHORN, MANITOBA, Dec. 6th, 1933

J. D. Sutherland
Acting Superintendent of Indian Education,
Dept. of Indian Affairs,
Ottawa,

Dear Sir,

I have already received enquiries about the installation of the new boiler in this School and the visit of one expert prompts me to lay before you the opinion he expressed.

There are 97 radiators containing 6390 sq. feet of radiation. Mains and risers would add 20% to this making a heating load of 7668 sq. feet. Changing from water to steam would be reduction in number of these radiators and some change in those retained.

The expert in question, who by the way dubs the present boiler "a freak", was the engineer who scrapped the mate to it from the old Brandon School. He believes that a hot water boiler might be installed to burn Souris Coal and so avoid the expense of alteration to the radiators.

I do not know how far the Department has gone in the whole matter but the fact that Engineers are already asking for information suggests that we may in 1934 anticipate the much needed new heating system.

The above information and the fact that the boiler is a Gurney Oxford Smoke Consuming No K 1267 W with a catalogue capacity of 12000 sq. feet , fire and water grates 48x44 may be of value to you.

Thanking you for your interest in our problems,

I am,

Yours truly,

E. J. Wickens

(Principal)

M&N.

Ottawa, December 13, 1933.

Reverend Sir:

I have your letter of the 6th instant, addressed to Mr. Sutherland of this Department, with reference to the enquiries you have received regarding the installation of a new boiler in the Elkhorn Indian Residential School, to improve the present heating system.

In this connection I have to say that Rev. Dr. Westgate, Field Secretary, M.S.C.C., when forwarding the requirements for your school, requested that funds be provided in our Estimates for the next year to install a new low pressure boiler. He did not state the cost involved. This was necessary before it could be decided if it would be possible to include the amount in the Estimates for next year. Dr. Westgate was therefore requested to submit an estimate of the cost involved in the purchase and installation of the boiler.

I am not in a position to state whether funds for the purpose will be available but consider it rather doubtful, as it was found necessary to curtail the Appropriation for Indian Education for the next fiscal year. However, the Department will be pleased to have an estimate of the cost in this connection, for future consideration.

Your obedient servant,

A. F. MacKenzie,
Secretary.

"There is an outside door leading to the boiler room measuring 4'4" by 8'.

There are also two windows separated by an 18' wall of masonry, 4'4" high. With this masonry removed an aperture 7'by 4'4" would be realised.

I understand that certain work would need to be done on the radiators to convert them into steam heating radiators."

Winnipeg, Man.

Dear Sirs:-

In reply to your letter of the 20th instant, re the boiler required for our Elkhorn School, I beg to submit the following information received from the Principal:-

" At present there is a down draft Gurney boiler for a hot water system.
It has four hot water inlets and four hot water outlets attached.
There is an outside door leading to the boiler room measuring 6'6" by 3'.
There are also two windows separated by an 18" wall of masonry, 4'4" high. With this masonry removed an aperture 7' by 4'4" would be realised.
I understand that certain work would need to be done on the radiators to convert them into steam heating radiators."

Should the above information be inefficient for your purpose, please write to me again or 'phone me at 94-8112.

Yours very truly,

TERW/JP

Field Secretary, M.S.G.C.

Dear Sir:-

We have been asked by The Western Steel Products, to get in touch with you regarding some work in the School at Elkhorn, Manitoba.

They gave us the size of Boiler as you gave them, and we have just found out that this size boiler was made by the Gurney Foundry some years ago, but is not made any more, so if you have any further information about this heating work, if you will let us know, we will have someone call and see you at your convenience.

Our Telephone number is, 92-767 and a call will get us any time after 8.30 A.M., until 5 P.M.

Youre very truly,

BALLANTYNE & WETMORE LIMITED

Re-Indian School at Elkhorn.

Dear Sir:-

Since talking with you on the 'Phone, we have been geting data on the Boiler required for the above building at Elkhorn, but before we can give you an estimate on the changing the Heating System over to Steam, we would have to have some further information about the number of radiators in building.

Would it be possible for you to get this information for us? We would like to know the number of radiators on each floor, that is the number in Basement, the number on Ground Floor and on the Second floor etc., if you could get this for us, we could give you a close approximate price.

Yours very truly,

BALLANTYNE & WETMORE LIMITED

Dear Canon Wiebens:-

The firms which have been asked to tender for the new boiler at your school desire to know the number of radiators on each floor, including the basement, and I shall be obliged if you will let me have this information. Please state separately the number on each floor. I presume this information is necessary to estimate the cost of changing from the hot water to the steam heating system.

Faithfully yours,

TBRM/W

Re-Indian Residential
School at Elkhorn,Man.

Dear Sir:-

We estimate the cost of taking out the present Hot Water Boiler at the Elkhorn Indian School,and installing a new Gurney Bright Idea Hot Water Boiler complete as per Specification attached,based on the list of radiators which you so kindly got for us and your letter of November 30th.,and the information we received from the Gurney Foundry Co.,about the different boilers,to be Approximately:-

TWO THOUSAND SIX HUNDRED DOLLARS, ($2,600.00)

We estimate the cost of taking down the present Hot Water Boiler and installing a Gurney Bright Idea Steam Boiler,fitted complete as per specification,together with all radiator connections changed over to steam as per attached specification for "Changes to Steam",to be approximately :-

THREE THOUSAND SIX HUNDRED AND FIFTY DOLLARS,($3,650.00)

For the system of,an open return system with pump and receiver and webster traps on all radiators,we estimate approximately :-

FOUR THOUSAND TWO HUNDRED DOLLARS, ($4.200.00)

We have given you our ideas of the approximate cost of the changes in your Boilers and Heating System for the Indian Residential School at Elkhorn,Manitoba,and we might say,that as we understand you want this information to get an appropiation for the work,and that when you get ready for the work to be done,we can give you a much closer figure,but think this should do for your present requirements.

Yours very truly,

PALLANTYNE & WETMORE LIMITED

SPECIFICATION FOR CHANGING

BOILER AND CONNECTIONS FOR HOT WATER HEATING,

AND FOR CHANGING SYSTEM TO

LOW PRESSURE STEAM HEATING, AT ELKHORN, MAN.

INDIAN RESIDENTIAL SCHOOL.

Take out present Gurney Down Draft Hot Water Boiler, and supply and install a "Gurney Bright Idea" Hot Water Boiler, size W-40-12, of a Net Capacity of 7875 Square Feet, BOILER TO BE COVERED With Asbestos Blocks wired on and plastered ½" thick outside blocks with Asbestos Cement mixed with enough Portland Cement to make a hard smooth surface.

Supply a new Smoke Breeching full size of Boiler Flue, and connect to chimney and to have a clean-out door near boiler.

Make a new Header of Pipe and Fittings of full size of outlets from Boiler and connect all the present Flow and Return lines into the new headers, using flange unions where ever necessary.

FOR CHANGES TO STEAM.

Take out Present Gurney Down Draft Hot Water Boiler, and supply and install one "Gurney Bright Idea" Steam Boiler complete with all fittings to comply with Regulations for Steam Boilers, for the Province of Manitoba, including Steam Gauge, Water Column, Gauge Cocks, Regulator and Safety Valve, Firing Tools and Tube Cleaner. Boiler to be covered with Asbestos Blocks wired on and plastered ½" thick with Asbestos cement and enough Portland Cement to make a hard smooth surface. Size of Boiler to be S-40-14 of a Net Capacity of 7500 Square Feet.

Supply a new Smoke breeching of full size of Boiler Flue, and connect to Chimney and have a cleanout door near boiler.

Make Connections between the present Heating Mains and new Boiler Steam supply and return, and change all connections to present Radiators, using Nickle Plated Steam Valves on both supply and return connections, also a N.P. Automatic Air Vent on each radiator, radiators to be drilled and tapped to take new air valves.

OR. FOR A OPEN RETURN
SYSTEM OF LOW PRESSURE STEAM HEATING WITH PUMP AND
RECEIVER.

ALL changes as above for "Changes to Steam, except that instead of connecting the returns direct into boiler, that the Returns run to an open Receiver and all condensation be returned to boiler by an electrically driven pump, and that each radiator have a "Webster" or "Dunham" trap at return end of radiator instead of steam valve.

This system of Steam Heating is more economical to operate, although slightly more expensive to install in the first place.

ILLUSTRATING FRONT VIEW, NEW BRIGHT IDEA STEAM BOILER

Gurney New Bright Idea, Sectional, Cast Iron Heating Boiler

For Steam and Water

For apartment houses and other large installations no other boiler will give such care free satisfaction as this New Bright Idea Boiler. It has all the well known advantages of cast iron construction plus rapid heating and the utmost fuel economy. It is built in seven sizes for either steam or hot water

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 7

ILLUSTRATING REGULAR INTERMEDIATE SECTION

Note in this Illustration the Slender Horizontal Water Heating Surfaces and the Generous Vertical Tubes for Quick Water Circulation.

ILLUSTRATING OUTSIDE OF BACK SECTION

The Large Smoke Hood and the Two Balanced Check Dampers are Clearly Shown. Also Note the Cleanout Door for the Secondary Combustion Chamber.

ILLUSTRATING A SECTIONAL VIEW OF THE NEW BRIGHT IDEA BOILER

Note the Intense Fire in the Secondary Combustion Chamber and the Double Gallery Flue Design which Provides Three Crown Heating Surfaces.

heating and any of the smaller sizes can be converted into larger boilers—this is interesting in case future additions to the building are contemplated.

Water Tube Design

In the sectional view it will be noted that the slim water tubes present a large heating surface in comparison to the amount of water they contain. This design means quick response and economy in operation.

Three Crown Heating Surfaces

A distinctive feature of this boiler is that the double gallery flue design provides three separate and distinct crown heating surfaces—this is the most effective heating surface in any boiler. The fire travel is from the front to the back of the firebox, then to the front through the first flue level and to the back of the boiler through the upper gallery. The fire travel is the same in all sizes of this boiler.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 7

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Auxilliary Air

At a suitable point at the rear of the firebox auxilliary air is introduced ensuring complete combustion of any gases that pass out of the firebox, making the operation of the boiler practically smokeless. The amount of air is readily controlled by the ratchet doors at the side of the boiler.

Secondary Combustion Chamber

In the six larger sizes a bridgewall section is placed at the back of the firebox forming a secondary combustion chamber where the gases burn when mixed with the auxilliary air. (See table of arrangement of sections on the back cover of this catalogue.)

Large Cleanout Doors

Large cleanout doors at the front of the boiler make it simple to clean all the flues. In addition there is a cleanout door at the back of the base through which the secondary combustion chamber may be [redacted]

The Grates

The grate bars are so designed that even small sizes of coal may be used. They are easy to operate for either shaking or dumping. The entire grate assembly can be removed from the front of the boiler by first removing the front base panel.

Oil Burning

Due to the all cast iron construction and the long fire travel it is an excellent boiler for use with any oil burning equipment.

Easy to Erect

It will be found that this New Bright Idea Boiler is easy to erect, due to accurate machining and a simplified method of pulling up the sections. And when installed its clean pleasing lines and generous proportions give this boiler a smart appearance. It looks, and is capable of doing a first class heating job.

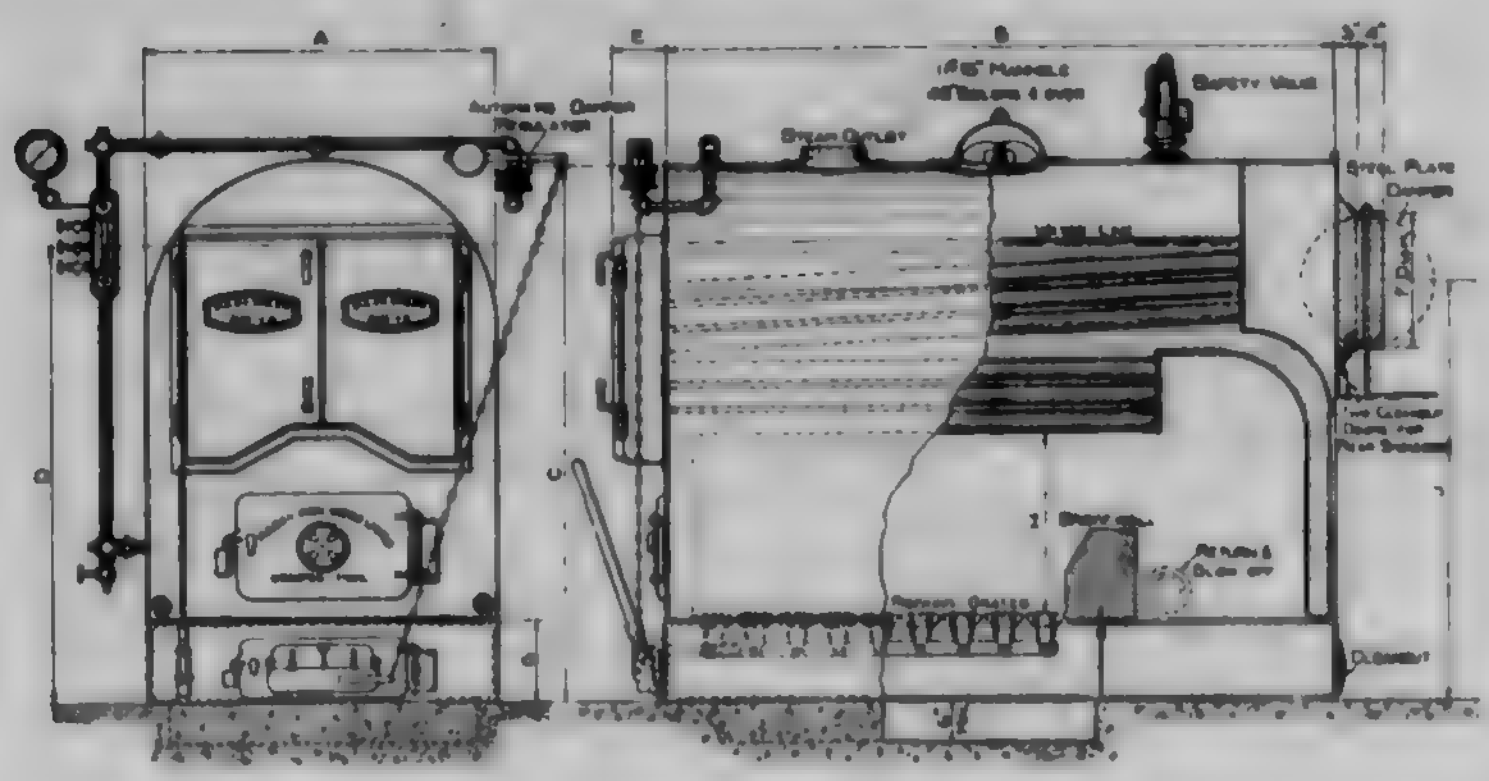
VULCA BOILERS



The Vulca Fire Tube Steel Heating Boiler is a low priced heating boiler designed for efficient and economical operation. It is built up in a compact unit of all-steel construction electrically welded. Some of the outstanding features that have been built into this boiler are: Unrestricted circulation of water; Low water line; Large amount of direct heating surface; Long three pass fire travel and a combustion chamber large enough to burn our low grade Western coals.

Vulca Boilers have a manhole on the top of the boiler for sizes V8 and over and a hand-hole in the front head for smaller sizes. They are also equipped with sufficient washout plugs to properly inspect and clean the boiler. Soot doors are also placed where required so that the boiler may be given a thorough cleaning whenever it may be found necessary.

Vulca Boilers are built to comply with the Canadian Inter-Provincial Regulations for the construction and inspection of boilers. Although they are Government registered for 15 lbs. per square inch working pressure, they are designed for 30 lbs. per square inch working pressure and are tested in our shops to a pressure of 60 lbs. per square inch. Such rigid tests insure the customer against faulty construction.

Vulca Boilers are constructed of Flange Quality Plate 55,000-65,000 lbs. per square inch tensile strength. All castings, including grates, are of good quality grey iron and are of rugged construction.

Vulca Boilers are furnished with the following: Base, Grates, Safety Valve, Water Column piped to Boiler, Pressure Gauge, Gauge Cocks, Balanced Damper in Ash Pit Door with automatic regulator, Damper in rear Smoke Outlet, Firing Tools and Bridge Wall Fire Bricks.

No Fittings are supplied with Hot Water Boilers.

V23	1827	25500	20400	39	23100	78	144	122	103½	16	34	15	44½	95	10	2 5	1 3 1 3½	330	33 5	1190

The gross boiler ratings in above table are based on the recognised standard that one square foot of heating surface is equal to 14 square feet of radiation at the steam outlet of the boiler
The net rating is obtained by deducting 20% from the gross rating to take care of losses due to mains, risers and returns.
For Hot Water Heating add 66% to Radiation. For Stoker, Gas or Oil Fired Boilers, add 20% to Radiation
Full ratings can only be developed if Breeching and Chimney is large enough for the Boiler

Dear Sir:

Re - Indian Residential School
Elkhorn, Manitoba

Enclosed is our quotation on Low Pressure Heating Boiler for the Indian Residential School at Elkhorn, Man. From the information received from you, we estimate that there is 6150 square feet of hot water radiation at present, and from the note at top of the list of radiators that it is the intention to change the heating system from Hot Water to Steam.

This would mean that each radiator would delivery more heat per unit area. We are therefore quoting on a boiler having capacity to take care of the same number of square feet of steam radiation as you now have hot water radiation. This boiler should therefore have ample capacity to heat the buildings and furnish heat for the hot water requirements as well.

As requested, the price is on the boiler installed in the building. In addition there would be cost of changing the piping to the radiators, as larger delivery pipes is required for steam. The cost of making this change is difficult to estimate without seeing the building, in any case it would be necessary for you to have a Plumbing and Heating Contractor quote on this work for you.

Dear Sir:

THIS QUOTATION IS CONDITIONAL ON SATISFACTORY TERMS IN RESPECT TO PAYMENT AND SECURITY BEING ARRANGED, TO PROMPT ACCEPTANCE, AND TO DOMINION GOVERNMENT SALES TAX, UNLESS OTHERWISE SPECIFIED.

WE WILL NOT BE RESPONSIBLE FOR DELAYS DUE TO FIRES, STRIKES, LABOR DIFFICULTIES, ACCIDENTS, DELAYS IN TRANSPORTATION, OR OTHER CAUSES BEYOND OUR CONTROL.

Re - Indian Residential School
Elkhorn, Manitoba

We are pleased to quote you the sum of $1,421.00 for:

One - (1) "Vulca V10" Fire Tube Steel Heating Boiler, 54" wide, 96" long, 101" high (1'0" higher than standard listed in our catalogue.) Having 568 square feet of Heating Surface, and a rated net capacity of 6300 square feet of steam radiation. Boiler is supplied complete with: Base, Grates, Safety Valve, Water Column piped to Boiler, Pressure Gauge, Gauge Cocks, Balanced Damper in Ash Pit Door with automatic regulator, Damper in rear Smoke Outlet, Firing Tools and Bridge Wall Fire Bricks.

Our price includes delivery to Elkhorn, taking out old boiler, placing new boiler in position ready for steam fitter to connect up, making pit and making good building.

It does not include sales tax or insulation covering of boiler. This last item is usually included in the Heating Contractors price

Dear Sirs:-

I have been requested by the Department of Indian Affairs to furnish quotations on a low pressure boiler for the heating system of our Indian Residential School at Kikhorn, Manitoba, and will be obliged if you will furnish me with the same at your earliest convenience, your quotation to include the cost of the boiler, and the installation of the same.

The school is situated within a few hundred yards (say 500) of the C.P.R. station at Kikhorn. The boiler at present in use is a Gurney Downdraft #1.267SK. and the cost of installation would include the removal of this boiler as well as the placing of the new one.

Should you require any further information will you please 'phone to me. My 'phone number is 94-612.

Yours very truly,

TERW/JP

The Secretary,
The Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:- Re: New Boiler for Heating System, Elkhorn School.

In your letter of October 19th. last, No. 106-0-5, you requested me to furnish you with information as to the cost involved in the purchase and installation of a new low pressure boiler for the heating system at our Elkhorn School.

Enclosed herewith you will find a copy of the letter I sent out on November 17th. 1933, to various firms in Winnipeg, and the original of the replies received.

Enclosed also you will find (1) a list of the radiators and coils in the school and (2) a statement showing the door and window space in the basement wall which would have to be enlarged to admit of the removal of the old boiler and the installation of the new one.

Your obedient servant,

T B R Westgate

Ottawa, January 26, 1934.

Reverend Sir:

I have your letter of the 19th instant, supplying information as to the cost involved in the purchase and installation of a new low pressure boiler for the heating system at the Elkhorn Indian Residential School and forwarding quotations which you received.

In reply I have to say that the Department is requesting Mr. Inspector Hamilton, Winnipeg, to arrange for having the present boilers at the school inspected by a Provincial Boiler Inspector and to report concerning the urgency of supplying and installing a new boiler. I may add that no funds have been provided in our Estimates for the coming fiscal year to cover the cost. Unless it is extremely urgent that a new boiler be supplied, it would not be possible to provide the funds.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Ottawa, January 26, 1934.

Sir:

Reverend Dr. Westgate, Field Secretary, M. S. C. C., has requested that a new low pressure boiler be supplied for use in connection with the heating system at the Elkhorn Indian Residential School. He has forwarded quotations which he received for the supplying and installing of a boiler and for making certain alterations to the heating system.

The Department has been unable to provide any funds for the purpose in the Estimates for the coming fiscal year. In this connection, however, I would request that you arrange with the Provincial Boiler Inspector to visit the school and inspect the boilers. The Department will pay the inspection fees and other expenses in this connection, upon receipt of a certified voucher, in triplicate, from the Inspector. I would request that you obtain the Inspector's report and forward it to the Department.

We are not aware as to the urgency of supplying and installing a new boiler. You might report if, in your opinion, it would be necessary to provide same in the near future. Dr. Westgate is being informed that there will be no funds during the coming fiscal year for this purpose.

Your obedient servant,

D. M.

D. M. MacKenzie,
Secretary.

Dear Sir:

Re-Indian Residential School, Elkhorn, Manitoba.

With reference to your letter to Manitoba Bridge and Iron Works.

We are prepared to furnish labor and material necessary to install one Fire Tube Steel Heating Boiler, 96" long 54" wide 101" High, having 568 square feet of Heating Surface, and a rated net capacity of 6300 square feet of steam radiation, completely equipped for wood or coal firing.

Remove old boiler, construct pit, cut out and repair opening in walls of building, cover boiler with 1½" Aircell Blocks and Asbestos Cement, replace disturbed covering on pipes, make necessary changes to smoke pipe, and connect flow and return openings to existing mains, all complete for the sum of:

SEVENTEEN HUNDRED DOLLARS($1,700.00)

Should you contemplate the changing of system of heating throughout the building, from hot water to a two pipe Low-pressure Steam Heating System. We are prepared to furnish Return Trap on Mains, steam valves and return trap on each of the existing radiators, with necessary pipe, fittings, valves and labor all complete for the sum of:

FOURTEEN HUNDRED AND FIFTY NINE DOLLARS($1,459.00)

Dear Dr.Westgate;

I am enclosing herewith a tender for the supply of and installation of a Heating boiler for the school at Elkhorn.

We have a very competent heating engineer who made a visit to the school some time last month,and went very carefully over the situation,and this estimate is based upon his examination and report.

I believe that Canon Wickens referred to his visit,without mentioning his name,in a communication to you containing some information our engineer had given him.

We shall be glad if you will have this tender placed before the proper department for consideration,and with the writers personal regards,

We are ,

Yours very truly,

Johnson Hardware Co Ltd.

IMPORTERS

Cor. Ninth Street and Rosser Ave.
BRANDON, MAN. Jan.23rd.1934.

Tender for supply and insatallation of Heating
Boiler at The Indian Residential School. ELKHORN.

We quote on a Brownweld Steel Hot Water Boiler the dimensions of which are as follows.

Hot water capacity	12.880 sq.feet.
Heating surface	575. " "
Grate area	20.5 " "
Width of boiler	48 inches
Length of Boiler only	96 "
Height of Boiler	115 "
Overall length of boiler	122 "
Height of Fire box	50 "
Width of Fire box	41½ "
Weight of Boiler	10.700 lbs.

Our price for this Boiler installed complete with all connections, including changes to Boiler pit, and outside wall is:-

One Thousand, Eight Hundred and Forty-Five Dollars. $1.845.00

This Boiler has a 50 inch high Fire Box and anything less that this height would not burn Lignite Coal economically.

In order to make a complete success of the Hot Water Heating in this building it will be necessary to instal Two 3" circulating pumps.

Our price on these installed complete and valved, and bypassed so that the system will still work on gravity in case of the current should be cut off.

Four Hundred and Eighty Dollars .....$480.00.

this price includes all electric connections complete.

An electric blower system #3 for this job would cost completely installed.

One Hundred and Sixty Five Dollars. .....$165.00.

Yours very truly,

Johnson Hardware Co Ltd.

SCHOOLS BRANCH FEB 1 1934

The Secretary,
Dept. of Indian Affairs,
Ottawa,
Ont.

Dear Sir,

Referring to your letter 106-0-5, Dec.13th. 1933 I beg to submit the experience of this School over the recent week-end.

Our Engineer fired his boiler at 11 p.m. and again at 3 a.m. up to the safe limit and all windows were closed on the West side from which direction a cold wind was blowing.

Neverthe less, Sunday morning found the following parts of our plumbing system completely frozen:-

3rd. floor Girls' Dormitory	Taps and Toilet
3rd. floor Mens'	Toilet
2nd. floor Hospital	Taps and Toilet
2nd. floor Dispensary	Taps
1st. floor Kitchen	Taps

Owing to the danger of using a blow torch so near woodwork the Hospital plumbing is still completely frozen. Since however , the Hospital is the coldest room in the building when the wind is westward I believe it would be impossible to use it in the case of any illness of long duration.

I trust that this information will help to strengthen our claims for consideration when the matter of a new boiler is discussed by the Department.

I am,

Yours faithfully,

S. J. Wickens

Dear Sir:

The Rev. F. Eley will retire from the Principalship of our Elkhorn School on July 31st next, and our Commission are recommending to the Executive Committee of our Society that this position be given to the Rev. Canon S. J. Wickens, B.A., B.D., who is at present Rector of St. George's Church, Brandon, Man.

Our Commission have no doubt whatever about Canon Wickens' qualifications for the position in question, and this opinion is confirmed in the following letter from the Rt. Rev. Dr. Thomas, Lord Bishop of Brandon, within whose Diocese the Elkhorn School is situated:

Brandon, May 12th, 1933.

"My dear Dr. Westgate:-

I do not know a better man in my Diocese to succeed the Rev. F. Eley in the Principalship of the Elkhorn Residential School than the Rev. Canon S. J. Wickens, B.A., B.D., Rector of St. George's, Brandon, and I therefore recommend that he be considered by the Commission for the position.

He is well known to most, if not all, of its members, and on that account it is not necessary for me to enlarge on his qualifications. He is a devout and sincere Priest of the Church, and has made a success of every task entrusted to his care. From a practical and business point of view he has had

BUREAU OF LABOR & FIRE PREVENTION BRANCH

Brandon, Manitoba,
February 9, 1934.

Mr. R. A. Stewart,
Chief Boiler Inspector,
Bureau of Labor,
Winnipeg, Manitoba.

Dear Sir:-

As requested in your letter of January 30th, I have made an inspection of the boilers at the Elkhorn Indian School. Reports for same are attached.

The school is heated by a hot water system. The boiler is a Gurney cast section size 5 x 11 x 10 sections with top and lower fire grates. I was informed by the Superintendent of the School that they have been having a little trouble in heating the building. On several occasions during the winter the water pipes have been frozen. The present system is not very satisfactory and far from being economical. With the top and lower grates there is no room for burning all the gases before going up the chimney. I believe that if there was a good fire box type boiler installed say about 54 inches in diameter and 12 feet long with plenty fire box height that it would pay for itself in fuel in two years, and they would have no trouble in heating the school. On checking up the radiators I find there are ninety-seven and I believe there is some 6390 square feet of radiation. The present system has no circulating pumps and I believe that if there was two three inch circulating pumps installed it would make a considerable difference in heating the building with the system that they now have.

Personally I would strongly recommend that some change be made in the heating system before next winter comes around.

Yours very truly,

(Sgd) E. Moodie
Inspector

Sir:-

In reply to your letter dated January 26th, No. 106-0-5, I now attach copy of a report of the Boiler Inspector, Mr. E. Moodie, in connection with the boiler at the Elkhorn Indian Residential School.

It will be noted that Mr. Moodie has suggested that circulating pumps be installed, and states that he feels this would make a considerable difference in heating the building. He does not altogether condemn the present boiler and heating system, but points out that it is not satisfactory nor economical. I visited this school during the past year and received no serious complaints in connection with the boiler. The Department letter is the first information I received that a new boiler was being asked for. If it is the Department's intention to make any change, the work should be done during the summer and not left until the cold weather sets in.

Your obedient servant,

A. G. Hamilton

RECORDS

Dear Sir,

Mr. Sutherland, during his visit to this School last year noted the need of a new heating boiler and this item was quoted in our needs for 1934.

The Provincial Boiler Inspector came here early in the present year and reported to Inspector Hamilton upon the same need.

If this work is to be putin hand I would be obligad if you could inform me as soon as possible as my summer arrangements must be determined by any building construction that may be contemplated by the Department.

I am,

Yours truly,

S. J. Wickens

Elkhorn, Manitoba, May 31st, 1934.

Mr. A. G. Hamilton,
Inspector of Indian Agencies,
Indian Department,
Winnipeg, Man.

Dear Sir,

I believe you are aware that a very unhealthy condition obtains with respect to the outside toilets of this school.

I have discussed this matter with the Medical Officer and he approves the moving of these two buildings to a site where we can use the healthier pit method. Mr.Sutherland advised an immediate change of system and I remember you deplored the present arrangement.

I have secured prices for moving these buildings off their cement foundation and placing them on skids for subsequent yearly movement. This job can be done at $20.00 each and includes timber for skids.

I should be glad if you could authorize such improvement and recommend payment by the Department for the same. The dry weather and lack of rain is aggravating an unpleasant situation which an abundance of flies may make dangerous.

I am,

Yours truly,

Sir:-

I have received a letter from the Rev. Canon Wickens, Principal of the Elkhorn Indian Residential School, in which he states that the eavetroughing on the older part of the building is in bad condition and should be repaired. He gives as an estimated cost the sum of $165.00.

I have no doubt some repair work is needed, but this work is usually done in the spring, rather than in the fall. We will not likely receive much rain from now on and if the repair work is carried out at the present time, some additional work will no doubt be needed again in the spring. I think it would be well to include the necessary cost in the estimates for 1935-36. However, I shall be glad if the Department will advise me as to their wish in connection with the matter.

Ottawa, August 28, 1934.

Sir:

I beg to acknowledge receipt of your 209-11A C.E. of the 22nd instant, regarding the request which you received from the Principal of the Elkhorn Indian Residential School, that repairs be made to the eave troughing on the older part of the school building, as this is in bad condition. It is noted that you give an estimate of the cost.

In this connection I have to say that certain funds were provided in the Estimates for the current fiscal year for absolutely necessary repairs at this school. For your information, I may say that the amount provided for carrying out these general repairs was $500.00, but, except in case of absolute necessity, it is not intended that expenditure to that amount be incurred. If you consider that the eave troughing should be repaired, you may arrange to have the work carried out, and the cost should not exceed the estimate as mentioned by the Principal. You should see that the work is satisfactorily completed, by a firm on the approved list. You might inform the Department if the work is being proceeded with, in order that the necessary encumbrance, authorizing the expenditure, may be obtained.

If any other minor repairs are required to the buildings before the extreme cold weather sets in, you should give full details, with an estimate of the cost, and, if they are not in excess of the appropriation provided, favourable consideration will be given to authorising the work.

Your obedient servant,

A. F. MacKenzie,
Secretary.

MEMORANDUM:

The Honourable the Superintendent General,-

It is necessary to have the eave troughing repaired on the older part of the building of the Elkhorn Indian Residential School, in the federal district of Brandon, Man. It is estimated that the cost of carrying out the repairs will be, approximately, $150.00. Mr. Inspector Hamilton, Winnipeg, was authorized to have the repairs completed by a firm on the approved list. He states that there is no local tinsmith on the approved list in Elkhorn.

I would request to be advised the name of the firm in Elkhorn or Brandon to carry out the work.

Sir:-

With further reference to Department letter No. 106-0-5 dated August 28th, I visited the Elkhorn Residential School recently, and find that certain repairs are needed, namely:-

Outside steps at the school, new barn doors, roofing and tar for gymnasium - Estimated cost; Material $75.00; Labour $25.00	$100.00
Paint for exterior of Principal's residence and to finish work already started within the school - Approx. $100.00	100.00

I would recommend that this be granted and will be glad to know, as requested in my letter of September 5th, if it will be in order to have the local tinsmith proceed with the work as outlined therein. The total expenditure involved should not exceed approximately $400.00.

The season is getting late and an immediate reply will be appreciated.

Ottawa, September 26, 1934.

Sir,-

I have your 209-11A C.E. of the 17th instant, enumerating the repairs required at the Elkhorn Indian Residential School. In reply I have to say that the Department will approve of a total expenditure for repairs during the current fiscal year to an amount not exceeding $400., the following work to be carried out:-

Outside steps at the school, new barn doors, roofing and tar for gymnasium.

Paint for exterior of Principal's residence and to finish work already started within the school.

The expenditure of $400 above authorized is to include the sum of $165 in connection with repairs to the eavestroughing.

You should arrange for the purchase of any material required from firms on the approved list and, also, for any outside labour. It is expected, however, that the school authorities will perform as much of the labour as possible. After the repairs have been completed, please forward accounts, in triplicate, covering the cost of materials, etc. I enclose herewith encumbrance certificate authorizing an expenditure to the amount stated above. Please state on each copy of the vouchers that the expenditure was incurred under authority of E. R. No. 2505.

Regarding the tinsmith to be employed in repairing the eavestroughing, I beg to say that, as you were informed in official letter of the 19th instant, Mr. S. W. Mallett of Elkhorn may be asked to undertake the work.

Your obedient servant,

T. R. L. MacInnes.
Acting Secretary.

NOV 30 1934

Sir:-

When at Elkhorn School recently, I discovered that the fire alarm bell on the first floor did not ring. I understand this has been the case for some time and the engineer at the school is unable to locate the trouble. It is very important that this bell be put in working order and I would ask for authority to secure a competent electrician from Virden in order to have the necessary repairs carried out.

This is a matter which should not be left in abeyance and I would appreciate having immediate authority to incur the necessary expenditure.

Ottawa, December 1st, 1934.

Sir:

I have your 208-11A C.E., of the 27th ultimo, regarding the condition of the fire alarm bell at the Elkhorn Indian Residential School. In this connection I have to say that it is not understood why a member of the staff should not be able to carry out the repairs required to place the bell in a good, serviceable condition. We are not aware if the bell is operated by batteries or connected with the lighting system.

If you consider it to be absolutely necessary to have an electrician effect the repairs, you may arrange for such service. However, the expense should be kept as low as possible. This bell should be placed in good condition at the earliest possible date. Please forward an account, in triplicate, properly certified, covering the cost of the repairs.

Your obedient servant,

A. F. MacKenzie,
Secretary.

DEPT. OF INDIAN AFFAIRS
DEC 4 1934
RECORDS

INSPECTOR'S OFFICE

ED WINNIPEG, MAN. November 29th, 1934.

Dear Doctor McGill:

I have the honour to submit the following report in connection with the Elkhorn Indian Residential School which I inspected between November 13th and 16th, 1934.

The senior classroom is in charge of Mr. Crampton who, I understand, holds his Grade 12 certificate. He is greatly interested in the work and the children are making steady progress. The grades are as follows:

Grade	IV	- 20
"	V	- 17
"	VI	- 14
"	VII	- 8

I consider the pupils well along in their various grades. Their articulation is much improved and they read with understanding. They write well and are fairly accurate in arithmetic and spelling. The work in English and composition is much improved.

The junior room is in charge of Miss Fryer who holds her Manitoba certificate. There are 88 on the roll, arranged as follows:

Grade	I	- 48
"	II	- 18
"	III	- 22

Miss Fryer is quite young but a born teacher and is doing excellent work. The children are alert and, through good management, always kept busy. The lessons are made attractive and interesting.

The number

Dr. Harold W. McGill,
Deputy Superintendent General,
Dept. of Indian Affairs,
OTTAWA.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 7

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The number enrolled will, of course, only permit of the half day system. The Reverend Principal would like most of the children in class all day as many are too young to work and there is really little for them to do. Now that the enrolment has reached almost 150, an outside classroom should be provided. I understand this has been asked for by the church authorities and, with the present large enrolment, is much needed.

Since last spring a large amount of interior painting has been done, which work has improved the building and added greatly to its brightness. The girls' dormitory was being painted at the time of my visit. The work was being done by one of the staff and two boys.

I visited the various departments and found a competent person in charge. The girls receive a good training in cooking, butter making, sewing, and general housekeeping. The boys are taught all general farm work and gardening.

Fire drill was held at 6 A.M. and the children and staff were out of the building in five minutes. The staff were not aware that the alarm would be given. I also tested the fire hose and checked the various fire extinguishers. All were filled and in good condition. Under separate cover, I reported that one fire alarm bell did not ring and asked for authority to have same repaired.

This school is of frame construction and every precaution should be taken against fire. The water pressure could be improved by changing the system and pumping direct

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 7

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

pumping direct to the main water pipe which feeds the fire hose. This would give a better flow of water and would not be effected should a break occur in the plumbing throughout the building. To change this would entail a small expense of perhaps thirty to forty dollars as several feet of 1½" pipe and two valves would be required. The engineer claims he can do the necessary work.

Dec 18/ - Apr 18/35

In view of the enrolment and the frame construction of the building, I feel a night watchman should be provided and a punch clock installed with at least eight stations. No doubt a reliable man could be obtained from the town of Elkhorn for $25. or $30. per month. His services would perhaps not be needed for more than six months and would be the best protection we could give against fire hazard. The Rev. Canon Wickens would appreciate this added safeguard, but pointed out that the school was not in a financial position to pay the extra salary. I would be glad if the Department could see fit to incur the added expense.

The farm crop was practically nil and already feed is being purchased for the stock. The garden was also a failure, as well as the potato crop. These extra demands on the grant have been a heavy drain and made financing very difficult.

The cows are in fair condition, but at present most of them are dry. There are twenty-five head, some of which will soon freshen.

The horses are thin, but receiving good care.

<u>The school</u>

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 7

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The school is badly in need of two wagons. There is at present one wagon belonging to the school and that is only in fair condition. It is necessary to continually borrow, which is unsatisfactory at an institution of this kind. A lot of teaming is done in connection with the hauling of coal and feed and extra equipment should be provided.

The children appear well fed and attached is the menu followed during the week of my visit. The menu is quite varied and I believe carefully followed. The children, I understand, receive all the bread they desire and the supervisor in charge of the bakery stated she baked an average of 160 loaves per day. The Matron, Nurse Morrice, prepares the menu and sees that same is followed.

The dormitories were clean and well aired. The toilets were all in good repair, the bedding clean, and the beds neatly made. One dormitory could be greatly improved by cutting two or three more windows on the one side. This would allow for more light and better ventilation. The dormitory is on the third floor and the wall is frame, sheeted outside with tin.

The Rev. Canon Wickens was new to the Indian work when he took charge of the Elkhorn School. He is greatly interested and desirous of making his school rank among the best.

Yours very truly,

A. G. Hamilton

Sir:

I am directed to acknowledge receipt of your 209-11 of the 29th ultimo, reporting on your recent visit to the Elkhorn Indian Residential School.

You may arrange for the purchase and delivery of the pipe and valves required to improve the water pressure. It is noted that the expenditure in this regard will not exceed $40.

You may authorize the Principal to engage a night watchman for the period December 15, 1934, to April 15, 1935. Payment will be allowed at the rate of $30 a month. Vouchers should be issued from time to time and they should be prepared in the manner shown on the enclosed form.

Your obedient servant,

A. F. MacKenzie,
Secretary.

INSPECTOR'S OFFICE
RECEIVED
DEC 15
WINNIPEG, MAN. December 13th, 1934.

Sir:-

I wish to acknowledge Department letter No. 106-0-5 dated December 8th, regarding the employment of a night watchman for the Elkhorn Indian Residential School. In this connection I would like to be advised if it is not possible to install a night watchman's punch clock. In most cases where night watchman are employed, without some means of checking them up, I find that they spend most of their time in the furnace room where it is warm and where they can quite comfortable sleep away the hours of the night. This was my feeling in relation to the night watchman at the McKay Indian Residential School and I think I pointed this out in my last report on the school dated March 22nd, 1933.

I am very much concerned in connection with the fire hazard at the Elkhorn School and would appreciate knowing if the Department are in a position to install the suggested clock. I am instructing the school authorities to employ a night watchman.

I note that the enclosed sample voucher is made out in favour of the Rev. Canon Wickens. Might I suggest that it be made out in favour of the man employed and signed and forwarded by Canon Wickens. I shall be glad to be advised in connection with the matter.

Your obedient servant,

A. G. Hamilton
Inspector of Indian Agencies

Ottawa, December 20, 1934.

Sir:

I have your 209-11 of the 13th instant, regarding the employment of a night watchman and the supplying of a watchman's clock for the Elkhorn Indian Residential School.

In reply I have to say that an order is being placed here to supply a watchman's clock, with 8 stations, and one year's supply of dials. This will be sent the Principal. It is hoped that the Principal has secured a competent man for this service and that he has begun duties as from the 15th instant.

The amount we allow towards salary is by way of a grant only. The Principal may have to supplement the amount the Department allows. At all schools where grants are allowed for salaries of night watchmen, the cheques are drawn in favour of the Principal and sent to him quarterly, and he arranges for payment of the watchman's services. Canon Wickens or yourself may prepare and forward the vouchers for the grant due at the rate allowed. They should be in triplicate and prepared in the manner shown on the sample voucher which was supplied you.

Your obedient servant,

A. F. MacKenzie,
Secretary.

ED WINNIPEG, MAN., December 21st, 1934.

DEC 27 1934

Sir:-

I have just received a copy of Inspector Beveridge's report in connection with the Elkhorn Indian Residential School. I do not approve of the suggestion made by Inspector Beveridge in connection with the use of the power building as another classroom. It would take considerable money to remodel the building and after the expense was incurred we would not have a suitable classroom. I referred to the lack of classroom space in my recent report on the Elkhorn Indian Residential School and if further accommodation can be provided, I would recommend that a new building be erected.

Your obedient servant,

A. G. Hamilton

Sir:

The Department is in receipt of your account for $99.90, covering the cost of a watchman's clock shipped to the Indian residential school at Elkhorn, Man. (Your file No. M 4003 - Order No. 1050).

Your account includes an item of $1.20 for freight charges on the clock. The Department requires a receipt from the railway company before payment of this item can be made. I would appreciate if you would secure and forward this to me as soon as possible, in order that cheque may be issued.

Your obedient servant,

A. F. MacKenzie,
Secretary.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

INSPECTOR'S OFFICE

DEPT. OF INDIAN AFFAIRS
SEP 22 1935

ED WINNIPEG, MAN. January 25th, 1935.

Sir:-

Attached hereto is Voucher No. 19, amounting to $16.69, in favour of D. C. Forster, Virden, Manitoba. This voucher is in payment for work done in connection with the fire alarm bell at the Elkhorn Indian Residential School and was authorized by Department Letter 106-0-5 dated December 1st, 1934.

Although Mr. Forster is a first-class electrician, he has not been able to get the fire alarm bells operating properly. It was discovered that the alarm bell on the first floor would ring if the one in the bakery in the basement was disconnected. I have therefore instructed Canon Wickens to disconnect the one in the bakery, in view of the fact that the bakery is in the basement and the exit is easily made, either by door or window. Canon Wickens states that he has been informed that the hall bell in question never did ring and it is possible that the wiring in connection with these bells should be renewed. The electrician also suggests that a new transformer might step the current up sufficient to ring all the bells.

Either of these undertakings would cost considerable money and before entailing any further expense, I thought it best to place the matter before the Department and will await instructions.

Your obedient servant,

A. G. Hamilton

WINNIPEG, MAN., March 25th, 1935.

Sir:-

I have just had a letter from Rev. Canon Wickens, Principal of the Elkhorn Indian Residential School, requesting that 2 lengths of fire hose be supplied for the basement and 1 for the first floor. He points out that when water is pumped through the hose, considerable leakage takes place and the fabric appears to be split in several places. The following is an extract from Canon Wickens' letter:

> "The material wanted is as far as I can see in Ashdowns' Catalogue as follows:-
>
> Page 1433, Unlined fibre Mill, 1½" and 100 feet long. The price for the one length was $31.50 excluding male and female couplings. This would take the place of the hose in the basement (laundry) which is in bad condition."

I would appreciate having authority to make the necessary purchase.

Your obedient servant,

A. G. Hamilton
Inspector of Indian Agencies
Manitoba.

ANGLICAN INDIAN RESIDENTIAL SCHOOL, ELKHORN

Elkhorn, Man., May 18th, 1935.

Inspector A. G. Hamilton,
Dept. of Indian Affairs,
Commercial Bldg.,
Winnipeg, Man.

Dear Sir:

In reply to yours of the 17th inst. respecting the fire alarm bells of this School, I beg to recommend that the advice of the expert be adopted.

The present situation finds us just as we were last year. The hall bell does not ring and the expertment of deadening the bakery bell to release power for the hall bell did not prove to be satisfactory.

I believe that we should change the present transformer to the 100 watt size and get the Virden expert to make the necessary resistor.

It looks as if the total price should not be more than $15.00 and if our own engineer can install there should be no other costs. Our engineer, I might say is a very capable man, and I have confidence in his ability to handle the job.

I am,

Yours truly,

(Sgd) S. J. Wickens

Dept.Letter 106-0-5 dated December 1st, 1934.

Sir:-

I wish to refer to my letter of January 25th, 1935, and now enclose copy of one received from Canon Wickens, Principal of the Anglican Indian Residential School at Elkhorn. I am afraid Canon Wickens' estimate of $15.00 is low and I doubt if it will cover the cost of the work necessary.

The bells should be made to operate and I would ask for authority to incur the necessary expense.

Your obedient servant,

A. G. Hamilton
Inspector of Indian Agencies

Sir:

I have your letter of the 26th ultimo, enclosing copy of a communication which you received from the Principal of the Elkhorn Indian Residential School respecting the fire alarm bells at the school.

In this connection I have to say that you may arrange with the Principal to have these bells placed in a satisfactory condition. It is noted that the Principal suggests a change in the present transformer. Any supplies required should be purchased, and the school engineer should carry out the work of installing the equipment. All cost should be kept as low as possible.

Accounts, in triplicate, properly certified, covering the expenditure incurred should be forwarded for payment.

Your obedient servant,

A. F. MacKenzie,
Secretary.

COPY

106-0-5.

Orig. on 106-0-14.

Ottawa, July 25, 1935.

Sir:

I have your 209-11A C.E. of the 18th instant, enclosing copy of a communication from the Principal of the Elkhorn Indian Residential School, in which he requests that two wagons and a binder be purchased, for use on the school farm.

In this connection might I state that the following amounts are provided in the Appropriation for Indian Education for the current fiscal year:-

Electric refrigerator for the dairy -	$600.
Painting and general repairs -	500.

No funds were provided to purchase farm equipment. If, after you discuss the matter with the Principal, it is considered that the two farm wagons are more urgent than expending the funds provided for painting and repairs, the Department will approve of you arranging for the purchase of two wagons, from a firm on the approved list. If the purchase is made, you should obtain an account, in triplicate, which you should attach to proper voucher forms, certify in the usual manner and forward for payment.

Regarding the providing of cold storage equipment and any minor repairs and painting, I would request that you inform the Department of the approximate cost of the cold storage equipment, where same could be installed and also that you will state in detail the minor repairs and painting that could be carried out for the balance of the appropriation after the purchase of the wagons.

With reference to the purchase of a binder, the Department is not prepared to authorize the expenditure required, as it is considered that the school authorities should be able to purchase this equipment, especially if the crop turns out as well as anticipated.

Your obedient servant,

Sgd T.R.L. MacInnes

INSPECTOR'S OFFICE

R

AUG 23 1935

WINNIPEG, MAN., August 21st, 1935.

Sir:-

In reply to Department Letter 106-0-14 dated July 25th, I wish to refer to the amount of $500. allowed for painting and general repairs.

I discussed this matter with Canon Wickens, Principal of the Elkhorn Indian Residential School and, as a result, purchased the two wagons and boxes, at a cost of $259.70. This leaves a balance of $240.30.

The jacket heater has been leaking badly for some weeks and the fire pot should be renewed. Canon Wickens states the heater was purchased from the Lease Western Foundry, of Winnipeg, and that the cost of the necessary repair will be approximately $75.00. This further reduces our amount to approximately $165.30.

259.70
75.
65.
399.70

The machine shed doors should be re-hung, and the track and hangers necessary will cost approximately $65.00.

The balance of the $500. should be used in the purchase of paint, most of which will be used on the outside buildings. When the barns were painted some years ago, there was apparently a shortage of shingle stain and the roof of the main barn was never completed. A quantity of red paint is also needed for the walls.

If these expenditures meet with the Department's approval, I would like to have authority by wire in order that the work may be carried out at once, especially in connection with the jacket heater.

Your obedient servant,

A. G. Hamilton
Inspector of Indian Agencies
Manitoba.

106-0-5.

Ottawa, August 27, 1935.

Sir:

I have your 209-11A C.E. of the 21st instant, regarding the purposes for which the Principal and yourself recommend the $500.00 available for painting and general repairs be used at the Elkhorn Indian Residential School.

In this connection I have to confirm the following night lettergram of yesterday's date:-

> "May expend amount available for painting and repairs, Elkhorn School, for purposes mentioned, your letter twenty-first instant, including repairs, jacket heater. If necessary, you may expend further amount not exceeding one hundred dollars, purchase paint for outbuildings."

It is noted you have purchased two wagons and boxes, at a cost of $259.70; that you recommend the jacket heater be repaired, at a cost of approximately $75.00, and the machine shed doors rehung at a cost of approximately $65.00. The Department notes, further, your recommendation that the balance - approximately $100.00 - be used in the purchase of paint for the outside buildings. It is thought that, possibly, this will not be sufficient to purchase the quantity of paint required, and, as advised in telegram above referred to, if necessary, you may incur a further expense of $100.00 in excess of the $500.00 which you were informed was available, in the purchase of paint.

It is understood that the staff of the school will perform the labour in connection with the painting, without expense to the Department.

Please obtain itemized accounts, covering all expenditures, which you should attach to proper voucher forms, certify in the usual manner and forward for payment.

When you have full information regarding the cold storage equipment, the Department will be pleased to receive particulars.

Your obedient servant,

A. F. Mackenzie,
Secretary.

E.C.

Dear Sir:

Replying to Department Letter 106-0-5 dated August 27th, I wish to submit the only quotation I have been able to obtain on a frigidaire for the Elkhorn Indian Residential School.

Mr. F. C. Collins has submitted a quotation for $764.00. This is slightly in excess of his quotation for the Brandon School, which was $639.00. The difference is due largely to the fact that it is necessary to construct the box necessary for frigidaire. This box is 4'6 x 6'6 x 7'6. I think quotation is quite fair and would like authority to place the order.

The other two firms were asked to quote, but Mr. S. H. Brown wrote stating he could not submit a quotation, owing to the source of supply being in U.S.A. The Brandon Heating and Plumbing Co. have not yet submitted a quotation, although I wrote several times, my last letter being on September 17th in which I stated that the quotation should be in my office not latter than September 20th.

Yours truly,

A. G. Hamilton,
Inspector of Indian Agencies,
Manitoba.

The Secretary,
Dept. of Indian Affairs,
OTTAWA.

October 7, 1936.

Memorandum:

MR. BUSKARD,-

Funds are available, in the Appropriation for Indian Education for the current fiscal year, to install cold storage equipment in the Indian Residential School, Elkhorn (Electoral District of Brandon), Man. Mr. Inspector Hamilton requested quotations from the same firms as directed by you for similar equipment at the Brandon Indian Residential School. In this connection I would refer to your memorandum dated August 8th, inst. He reports as follows:-

"Mr. F. C. Collins has submitted a quotation for $764.00. This is slightly in excess of his quotation for the Brandon School, which was $635.00. The difference is due largely to the fact that it is necessary to construct the box necessary for the frigidaire. This box is 4'6 x 6'6 x 7'6. I think the quotation is quite fair and would like authority to place the order.

"The other two firms were asked to quote, but Mr. S. H. Brown wrote stating he could not submit a quotation, owing to the source of supply being in U. S. A. The Brandon Heating and Plumbing Co. have not yet submitted a quotation, although I wrote several times, my last letter being on September 17th, in which I stated that the quotation should be in my office not later than September 30th."

I would recommend, for approval, that the order for supplying the equipment for the Elkhorn Indian Residential School be placed with Mr. F. C. Collins, Brandon, Man., at the price quoted, viz.: $764.00.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

October 7, 1935.

Memorandum:

MR. BUSKARD,-

Funds are available, in the Appropriation for Indian Education for the current fiscal year, to install cold storage equipment in the Indian Residential School Elkhorn (Electoral District of Brandon), Man. Mr. Inspector Hamilton requested quotations from the same firms as directed by you for similar equipment at the Brandon, Indian Residential School. In this connection I would refer to your memorandum dated August 8th, last. He reports as follows:-

"Mr. F. C. Collins has submitted a quotation for $764.00. This is slightly in excess of his quotation for the Brandon School, which was $639.00. The difference is due largely to the fact that it is necessary to construct the box necessary for the frigidaire. This box is 4'6 x 6'6 x 7'6. I think the quotation is quite fair and would like authority to place the order.

"The other two firms were asked to quote, but Mr. S. H. Brown wrote stating he could not submit a quotation, owing to the source of supply being in U. S. A. The Brandon Heating and Plumbing Co. have not yet submitted a quotation, although I wrote several times, my last letter being on September 17th, in which I stated that the quotation should be in my office not later than September 20th."

I would recommend, for approval, that the order for supplying the equipment for the Elkhorn Indian Residential School be placed with Mr. F. C. Collins, Brandon, Man., at the price quoted, viz.: $764.00.

Harold W. Hill

Deputy Superintendent General.

Dr. Moffitt: Kindly prepare requisition for this amount. H.W.H. 9/10/35.

Ottawa, October 10, 1935.

Sir:

I have your 209-11A C.E. of the 30th ultimo, submitting the quotation which you received for the installing of cold storage equipment at the Elkhorn Indian Residential School.

In reply I have to say that you may place the order for the supplying of this equipment with Mr. F. C. Collins, at the price quoted by him, viz.: $764.00. It is noted that it will be necessary to construct the box in which to install the system, and it is understood that his quotation includes this work.

E.R. 3804

You should see that a satisfactory job is carried out by Mr. Collins in the supplying and installing of the cold storage equipment. After the work has been completed to the satisfaction of the Principal and yourself, please obtain an account, in triplicate, from Mr. Collins. This, you should attach to proper voucher forms, certify in the usual manner and forward for payment.

It is hoped, when this equipment is installed, it will be satisfactory and provide the necessary cold storage facilities for the use of the Elkhorn School.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

106-0-6

Ottawa, November 5, 1935.

Sir:

The Department is informed that there is, surplus to requirements, in the power house at the Elkhorn Indian Residential School, a 25 h. p. Fairbanks-Morse "Y" horizontal engine. The Anglican School at Onion Lake, Sask., is in need of a new engine to operate the lighting plant, and it has occurred to the Department that the engine at Elkhorn would be satisfactory for the purpose. I would request that, at your early convenience, you will have the engine referred to, at the Elkhorn School, examined, and, if you consider it is in fair condition, you might have any necessary repairs made and arrange to ship the engine, addressed to Rev. Henry Ellis, Lloydminster, Sask.

Any expense, in connection with overhauling and placing the engine in good condition, and also the transportation charges will be paid, upon receipt of vouchers, in triplicate, properly certified.

Mr. Inspector Murison, who visited the Onion Lake C. E. Residential School, has drawn the Department's attention to the need of a new engine, and he is being informed of the engine that is surplus to requirements at Elkhorn. I would request that, after examination of the engine at Elkhorn, if you consider it satisfactory, that you will inform Mr. Murison. The Department will leave the matter in your hands, in the hope that it will be possible to utilize the engine at Elkhorn at the Onion Lake C. E. Indian Residential School.

Your obedient servant,

A. F. MacKenzie,
Secretary.

RECORDS

INSPECTOR'S OFFICE

ED

WINNIPEG, MAN., November 25th, 1935.

Sir:-

I wish to refer to Department Letter 106-0-5 dated November 5th, and to say that I visited the Elkhorn Indian Residential School in company with Mr. Moore from the Manitoba Power Commission Station at Virden. Mr. Moore checked over the engine and stated that it needed a thorough overhauling and new piston rings. He recommended that, if possible, I secure the services of Mr. Jim Read, of Virden. He stated Mr. Read thoroughly understood that particular type of engine and was a reliable man.

I interviewed Mr. Read on my return to Virden and he agreed to do the work. Mr. Read requested 50¢ per hour for his own time and 25¢ per hour for his helper. The repair work will perhaps require two or three days and it will take about the same length of time to load the engine. This is a very heavy engine and a lot of work is required in removing it from its present location. The generator will need to be moved, as well as a large cement slab on which it rests. The door casings and also a portion of the wall will have to be taken out. It will be necessary to procure proper skids and securely fasten the engine to them.

The Rev. Canon Wickens will more or less supervise the work and I have the assurance of all that the expense will be kept as low as possible. I have already ordered the piston rings, which will be in Elkhorn today, and, if all goes well, the engine should be loaded by the end of the week.

When the work is completed, the vouchers will be forwarded immediately.

Your obedient servant,

A. G. Hamilton

WINNIPEG, MAN. November 26th, 1935.

Sir:-

In view of the fact that the engine is being removed from the power house at the Elkhorn Indian Residential School, I think the Department should consider the advisability of disposing of the generator and switchboard.

The generator is No. D9807A, Type FF. This is a very large generator and I imagine cost several hundred dollars. The switchboard is from Ferguson Paulin Limited, Equipment Specialists, Toronto. It is in good condition and is an expensive piece of equipment.

If these could be used at some other institution, even at a later date, I think it would be well to have them shipped as soon as possible. However, if they are of no further use in the Department, it might be well, if permission could be secured, to sell them. Rev. Canon Wickens is very anxious to make use of the power house building for a class room and this will be dealt with in a separate letter.

A reply in connection with the disposition of the above equipment will be appreciated.

Your obedient servant,

A. G. Hamilton

INSPECTOR'S OFFICE

ED WINNIPEG, MAN., November 26th, 1935.

Sir:-

Since the McKay Indian Residential School was burned down, the pupilage at the Elkhorn School has increased. The junior classroom is greatly overcrowded and Canon Wickens states it is practically impossible to carry on the work with the two classrooms now in use. He states in a letter that the Church of England Commission is ready to send a third teacher as soon as a classroom can be made ready.

The old power house is well located. It is of brick construction and Canon Wickens estimates that it will cost approximately $345.00 to equip and remodel the building to make a suitable classroom. Of the $345. estimated, $100. of this is for remodelling and decorating the room. The balance is to provide the necessary equipment, including desks.

This additional classroom is certainly needed and I know of no cheaper way of providing the necessary space. I would like to be advised if funds are available to carry out the suggested alterations.

Your obedient servant,

A. G. Hamilton
Inspector of Indian Agencies
Manitoba.

Ottawa, December 6, 1935.

Dear Sir:

I have your 209-11A C.E. of the 26th ultimo, relative to the fitting up of an additional classroom in the old power house at the Elkhorn Indian Residential School.

In reply I have to say that the Department will have no funds available during the present fiscal year to remodel and decorate the room and supply desks.

I have also your letter of the 26th ultimo, regarding the advisability of disposing of the generator and switch board that was used in connection with the lighting system at the Elkhorn Indian Residential School. At present, the Department is not aware of any other residential school requiring this equipment. The Principal should arrange to see that the switch board and generator are properly stored, as it may be possible, at a later date, to arrange for their transfer to some other residential school.

In disposing of surplus equipment, the property of the Government, it is necessary that the arrangements for the sale be made by the Chief Salvage Officer, Ottawa. Later, if we are unable to use this equipment, the matter could be referred to the Salvage Officer to arrange for either the disposal to some other government department or for the sale of same.

Yours truly,

A. F. MacKenzie,
Secretary.

INSPECTOR'S OFFICE

ED WINNIPEG, MAN., December 12th, 1935.

Sir:-

With reference to Department Letter No. 106-0-5 dated October 10th, 1935, I am today forwarding Voucher No. 277, in favour of the Ace Service Station, Brandon, amounting to $764.00, covering the installation of the Kelvinator Refrigerator Equipment in the Elkhorn Indian Residential School.

For your information, I quote hereunder an excerpt from Rev. Canon Wicken's letter dated the 11th instant:

> "This refrigerator has been working for about one week and we find that it is functioning satisfactorily. We were advised that it might be necessary to adjust the working of the machine so that it would step down to a lower temperature. These adjustments have been made and the response has been satisfactory. We shall find the equipment a valuable addition to our plant."

Your obedient servant,

A. G. Hamilton

December 11, 1935.

A.G. Hamilton, Esq.,
Inspector of Indian Agencies,
Fourth Floor, Commercial Building,
Winnipeg, Man.

Dear Inspector Hamilton:-

I have received your letter of the 10th instant and deeply regret that the Department has no funds available during the present fiscal year to provide the extra class-room at our Alkhorn School.

In view of the urgency of this need, which is, I believe, very well known to you, I have been authorized to say that our Commission will advance the money required to fix up the power house for class-room purposes, from January 1st next, if the Department will undertake to refund the amount thus spent, as soon as their appropriation for the fiscal year 1936-37 is available. It is estimated by the Principal that the amount required will be approximately $345.00.

I commend this offer to the favourable consideration of your Department, and remain

Very sincerely yours,

TBRW/KH

Field Secretary, M.S.C.C.

Approved
Supt. Gen.

Sir:-

I wish to refer to Department Letter No. 106-0-5 dated December 6th, and now enclose herewith copy of a letter received from Dr. Westgate.

There is no doubt that the classroom work at the Elkhorn School is made very difficult, due to overcrowding. The Church authorities are apparently willing to finance the necessary improvements, providing they have definite assurance that they will be re-imbursed during the coming fiscal year.

The estimate of $345.00, as submitted by the Rev. S. J. Wickens, is, I consider, low. I am quite sure the cost will be in the neighbourhood of at least $450.

I do not know if the Department are prepared to assume this responsibility, but would like to be advised in order that I may reply to Dr. Westgate's letter.

Your obedient servant,

A. G. Hamilton

106-0-5.

Ottawa, December 17, 1935.

Dear Sir:

I have your 209-11A C.E. of the 11th instant, enclosing copy of a communication which you received from Rev. Dr. Westgate, Field Secretary, M. S. C. C., requesting that an additional classroom be fitted up in the old power house at the Elkhorn Indian Residential School and giving an estimate of the cost of the repairs required and the furnishings.

In this connection I would say the Department finds that it will be possible to provide funds, to an amount not exceeding $450, in remodelling and equipping the building for classroom purposes. I have therefore to request that you will arrange for the purchase, from the proper source of supply, of any materials required and for any labour other than that which can be carried out by the staff of the school.

You should have the Principal prepare a list, stating the desks that will be required and the size and the number of each size. It would be advisable to arrange the desks in rows of the same size desk and request that a front and rear seat be supplied. Purchase of the equipment will be arranged from here. The length and width of the blackboard required and any classroom material should also be given.

After the work in remodelling and placing the classroom in readiness for the furnishings is completed, you should forward itemized accounts, in triplicate, properly certified, covering the cost. These accounts should reach the Department not later than the end of March, next, in order that payment can be made from our Appropriation for the present fiscal year.

In fitting up this additional classroom, it is distinctly understood that the church authorities will arrange for a qualified teacher and for payment of salary. The entire expense in the fitting up and furnishing of the classroom is not to exceed the sum of $450.

Yours truly,

A. F. MacKenzie,
Secretary.

Ottawa, January 16th, 1936.

Dear Sir,-

The Department finds it necessary to return your voucher No. 14, for $77.50.

While the voucher is issued in favour of Mr. J. R. Read, the account attached is from Forster's Garage and Electric Shop. Mr. Read should prepare his account on his own letterhead and, if he has not a letterhead, he should prepare an account on plain paper and sign same.

It is noted that this voucher covers the cost of overhauling the Fairbanks-Morse engine which was being shipped from the Elkhorn Indian Residential School to the Onion Lake C.E. Indian Residential School. Your voucher No. 281 of December 30th, last, in favour of Gillis & Warren requested payment for work similar to that done by Mr. Read. When returning the voucher in favour of Mr. Read, you should explain why it was apparently necessary to secure his services when similar work had been done by Messrs. Gillis & Warren.

Yours truly,

A. F. MacKenzie.

RECORDS

ED WINNIPEG, MAN. January 20th, 1936.

Sir:-

In reply to your letter 106-0-5 dated January 16th, re Voucher No. 14 for $77.50, in favour of J.R.Read, Virden, I am returning the voucher made out as instructed.

You refer to Voucher No. 281, of December 30th, last, in favour of Gillis & Warren, for overhauling the Fairbanks-Morse engine. The voucher was not for overhauling, but for re-babbiting and boring two main bearings of the engine. This work could not be done at the Elkhorn School as it was machine work.

The attached voucher, in favour of Mr. Read, is for the general overhauling of the engine and testing it. It also covers the cost of placing the engine on skids, cutting it off the cement base, assembling all the pipes and tanks which go with it, and having same properly loaded ready for shipment. In a letter from Canon Wickens, in connection with this matter, he stated both men worked hard on the job and certainly worked the total hours indicated.

I trust the voucher will be paid without further delay.

Your obedient servant,

A. G. Hamilton

A. G. HAMILTON
INSPECTOR OF INDIAN AGENCIES
MANITOBA

IN YOUR REPLY REFER TO
No. 209-11A C. E.
ALSO TO DATE OF THIS LETTER

DEPARTMENT OF INDIAN AFFAIRS
CANADA

INSPECTOR'S OFFICE

ED WINNIPEG, MAN., March 2nd, 1936.

Sir:-

I wish to refer to Department Letter No. 106-0-5 dated December 17th, 1935, and to advise the Department that on January 11th, I visited the Elkhorn Indian Residential School and arranged with the Principal, the Rev. Canon Wickens, to have the necessary work done in connection with the classroom.

The material and work in connection with this we estimated would cost approximately $225., leaving $225. for the purchase of equipment.

On January 31st, I received a letter from Canon Wickens, enclosing a list of equipment required. He stated that, owing to the severe cold weather, they had not been able to do any work in connection with the classroom. It was necessary to remodel the door of this building and transfer the electrical fixtures to another building. This called for considerable outside work, which it was impossible to do when the thermometer registered from 20 to 40 below zero.

In his last letter, Canon Wickens was of the opinion that the expense could be kept within the amount suggested and requested that the list be forwarded. I have just had a phone call today from Canon Wickens, and as the weather has now become milder, he expected to have the work completed within the next eight or ten days.

The Secretary,
Dept. of Indian Affairs,
OTTAWA.

EX'D.

Ottawa, March 6, 1936.

Dear Sir:

I have your 209-11A. C.E., of the 2nd instant, submitting a list of desks, blackboard, etc., required to fit up an additional classroom in the old power house at the Elkhorn Indian Residential School.

In reply I have to say that an order for the desks will be placed here, and a requisition is being forwarded to the Government Stationery Office to supply the quantity of blackboard, with necessary moulding and chalk trough. These will be shipped to the Principal's address.

You may arrange for the purchase and delivery of a stove - McLary's "Mascot", at the price mentioned, viz.: $49.50. You should forward the account, in triplicate, properly certified, covering the cost. Should any stove pipe be required, it should also be obtained.

It is noted that the Principal is taking steps to remodel and fit up the classroom and is removing the electrical fixtures to another building. I would request that you have all accounts covering the expense forwarded in time to reach the Department before the end of the present month, in order that payment can be made from the appropriation before our books close for the current fiscal year. I may add that the account covering the cost of the desks will be sent you. Please attach it to proper voucher forms, certify in the usual manner and forward to the Department.

Yours truly,

A. F. MacKenzie,
Secretary.

INSPECTOR'S OFFICE

WINNIPEG, MAN., March 24th, 1936.

Sir:-

I wish to refer to Department Letter No.106-0-5 dated December 17th, 1935, and would point out that the cost of remodelling the old power house into a classroom will slightly exceed the estimate made by Rev. Canon Wickens. The bill from the electricians was almost double that estimated. It was necessary to get a man from Brandon as the Virden electrician did not wish to undertake the work. Unexpected expenditures arose, due to new material being required. As the work was started, it was necessary to complete the job.

The following is a list of expenses incurred, with the exception of the blackboard, the bills for which did not pass through this office.

Vr.	66	Boyd Electric	$49.00 ✓
	67	Chas. G. Webster	58.25 ✓
	68	Beaver Dodge Ltd.	100.00 ✓
	70	Boyd Electric	56.60 ✓
	72	Christie School Supply	119.60 ✓
	73	Beaver Dodge Ltd.	25.00 ✓
			$ 408.45

I have been advised by Canon Wickens that he was unable to get the necessary brick work done in connection with the door. He states the cost will be approximately $20. It will not be possible to have this work done before the end of the fiscal year, consequently it will be necessary

The Secretary,
Dept. of Indian Affairs,
OTTAWA.

necessary to obtain new authority for the expenditure.

It will also be noted that I have not purchased the stove, but this can be supplied by Ashdown's for approximately $38. If authority were granted by wire, I could have the voucher forwarded immediately.

Your obedient servant,

A. G. Hamilton

EX'D.

Ottawa, March 27, 1936.

Dear Sir:

I have your 209-11A C.E. of the 24th instant, with reference to the expenses incurred in remodelling the old power house into a classroom at the Elkhorn Indian Residential School. It is noted that the accounts for the work amount to the sum of $406.45, and they have been passed for payment.

It is also noted that the necessary brick work in connection with the door has not been completed and that it will not be possible to have this work done before the end of the present fiscal year. It will be satisfactory to have this work completed and the accounts forwarded for payment from the appropriation for the coming fiscal year.

Regarding the purchase of a stove for the classroom, I beg to confirm the following day letter of today's date:

"Your letter twenty-fourth may purchase stove classroom Elkhorn. Have account dated previous to thirty-first instant."

In this connection, the Department would like to have the stove purchased and the account dated previous to the 31st instant, in order that payment can be made from the current year's appropriation. It is noted that the cost of the stove will be approximately $36.00.

Yours truly,

T. R. L. MacInnes,
Acting Secretary.

INSPECTOR'S OFFICE

ED

WINNIPEG, MAN., May 19th, 1936.

Sir:-

I have received a letter from the Rev. Canon Wickens, in which he states that the runway for the water of the septic tank at the Elkhorn Indian Residential School is badly perished and most of the liquid is deposited between the new classroom and the waste ground. He states he has had the trough patched at various times with some old eavetroughing, but the whole frame work should be re-built.

I was at the school last week and agree with Canon Wickens that this work should be carried out and, indeed, as soon as possible. In his letter, he suggests using open galvanised troughing. However, in discussing this with Mr. Yates, of Brandon, he is of the opinion that the liquid may have some acid effect and the trough would probably rust through quickly. I would recommend that we continue to use the wood. The runway is 320 ft. in length and even the posts will need to be renewed. The cost for the material and labour will be approximately $125.

I would appreciate having the necessary instructions in order that the work may be carried out at once.

EXT.

Ottawa, May 23, 1936.

Dear Sir:

I have your 209-11A C.E. of the 19th instant, regarding the repairs required to the runway for the water of the septic tank at the Elkhorn Indian Residential School and giving an estimate of the cost.

The Department will approve of an expenditure of approximately $125.00 for material and labour in repairing the runway, using a wood trough. You may arrange for the purchase of the material and labour and have the septic tank placed in a satisfactory condition. The Department agrees with you, that galvanized troughing would rust through in a short time and that wood troughing would be more serviceable and lasting.

After the work has been completed, please forward itemized accounts, in triplicate, covering the cost of the material and for the labour that it is necessary to employ, over and above what the school staff can perform. The number of days or hours the labour is employed and the rate paid should be stated.

For your information, I may say that the sum of $400.00 is available in our Appropriation for carrying out miscellaneous repairs, etc., to this school. After deducting the cost of repairing the septic tank, there would remain approximately the sum of $275.00, and, if any other minor repairs are required to the school, I should be pleased if you would advise the Department, stating in detail what the Principal and yourself would recommend, the material and labour required and the approximate cost.

Yours truly,

T. R. L. MacInnes,
Acting Secretary.

INSPECTOR'S OFFICE -

JUL 22 ... RECORDS

WINNIPEG, MAN.....July 18, 1936.....

Dear Sir:

I wish to refer to Department letter 106-0-5, dated May 23rd.

I note in this letter that the amount available in this year's appropriation for the Elk Horn School is $400. We have already incurred the following expenses:-- material and labor in repairing the runway from the septic tank, $125; in replacing the liquid receiver in the Kelvinator Condensing Unit damaged by frost, $44.32; a total of 169.32.

I have just received a letter from the Rev. Canon Wickens stating that he is short about thirty gallons of green shingle stain and consequently is unable to finish painting the implement shed. He says that all the buildings are now painted except two cottages and these cottages are badly in need of paint, and I would recommend that the work be carried out.

Canon Wickens is willing to do the work and the paint required to do the cottages and finish the implement shed will cost approximately $120. This will still leave over $100 of appropriation and I would appreciate having authority to make the necessary purchase.

Yours truly,

A. G. Hamilton,
Inspector of Indian Affairs,
Manitoba.

ED WINNIPEG, MAN., September 15th, 1936.

DEPT. OF INDIAN AFFAIRS
SEP 17 1936
RECORDS

Sir:-

The Rev. Canon Wickens has forwarded a request submitted by the Principal of the Onion Lake Indian Residential School and forwarded through the Commission, asking that, if possible, the electrical panel board, with the Voltmeter and Ammeter instruments, not in use at the Elkhorn School, be sent there.

In connection with this matter, I would refer to my letter 209-11A C.E. dated November 26th, 1935, and the Department's reply - Letter No. 106-0-5 dated December 6th. Unless the fixtures are slated for some other point, I would recommend that they be sent to the Onion Lake School.

An early reply will be appreciated.

Your obedient servant,

A. G. Hamilton

DEPT. OF INDIAN AFFAIRS
SEP 17 ...
RECEIVED

EXECUTIVE OFFICE

WINNIPEG, MAN., September 15th., 1936.

ED

Sir:-

I have received a request from the Rev. Canon Wickens, Principal of the Elkhorn Indian Residential School, for the following mattresses and bedsteads:

22 - 6 ft.	Mattresses	6 —	180.00
8 - 5 ft.	"	6	48.00
4 - 6 ft.	Bedsteads -	5.50	22.00
4 - 5 ft.	"	5	20
			108.98

The Principal states these are urgently needed and points out he is short the eight beds.

I examined the mattresses while at the school recently and have no hesitation in stating that new mattresses should be supplied.

I would refer to my letter dated July 18th, requesting authority to purchase a further supply of paint. The paint cost $121.70, leaving $108.98 available for repairs. If further funds are not available, would the Department consider purchasing beds and mattresses to the extent of $108.98? The purchase would at least somewhat relieve the situation.

Available - yes
Spent
3106?

Ottawa, September 12, 1936.

Dear Sir:

I have your 209-11A C.E. of the 15th instant, regarding the request that the electrical panel board with voltmeter and ammeter instruments, surplus to requirements at the Elkhorn Indian Residential School, be forwarded to the Church of England Indian Residential School at Onion Lake, Sask.

In reply I have to say the Department will approve the transfer of this equipment. We are not aware if it is in satisfactory condition for use at the Onion Lake School, without being overhauled and any needed repairs carried out. If it is necessary to overhaul and make any repairs, this should be attended to, before the equipment is shipped to Onion Lake. The Department will approve of the expenditure required in this connection and also payment for the transportation charges to Lloydminster, Sask., the nearest shipping point to the Onion Lake School. You should forward accounts, in triplicate, stating in detail any work carried out in overhauling the equipment, and also attach receipts for the transportation charges. You may have Rev. Canon Wickens arrange for any work that may be required to place the equipment in good condition and for shipping same to the Onion Lake C. E. School.

Yours truly,

A. F. MacKenzie,
Secretary.

EX'D.

Ottawa, September 18, 1936.

Dear Sir:

I have your 209-11A C.E. of the 15th instant, regarding the request of the Principal of the Elkhorn Indian Residential School, to be supplied with a number of mattresses and beds, as stated in your letter. In this connection I have to inform you that an order will be placed here to supply the following:-

22 Mattresses 6' x 2½';
8 " 5' x 2½';

4 Institution Beds, 6' x 2½';
4 " " 5' x 2½'.

The account, in triplicate, covering the cost, will be forwarded to Rev. Canon S. J. Wiskens. You might inform the Principal that the order will be placed for supplying the above equipment and that, when the shipment arrives, he is to certify the account and send to the Department for payment.

The supplying of this equipment, together with the other expenditure that has been incurred at this school, in repairing the septic tank and Kelvinator and purchasing paint, will exceed the appropriation provided for this school. Except in case of emergency, there will be no further funds available for the Elkhorn School during the current fiscal year.

Yours truly,

A. F. MacKenzie,
Secretary.

EXTRACT FROM REPORT OF INSPECTOR A. G. HAMILTON DATED DECEMBER 6, 1937, ON HIS INSPECTION OF THE ELKHORN INDIAN RESIDENTIAL SCHOOL.

- Original on No. 106-0-6 -

The fire escapes are all in good condition and extinguishers are placed in convenient places throughout the building. The doors leading to the escapes were locked and there was considerable delay in securing a key to fit. The Principal is much concerned and wishes this changed. He is willing to have the engineer install a bell system, but requests the Department to provide the material. I would recommend that this request be granted. The material will cost approximately $50.

The building throughout was clean, and I consider the school well managed. The staff sitting room should be refurnished. The rug is worn out and unfit for further use and the chairs will hardly hold together; in fact, the chair which looks most inviting should be discarded as the springs rest on the floor. A chesterfield, six chairs, and a rug are needed. The staff spend their spare time in the sitting room, which is as it should be. It creates a good spirit and tends to prevent the forming of groups. I would recommend that authority be granted to make the necessary purchases, at an approximate cost of $150.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 7

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, December 23rd, 1936.

Dear Sir,-

With reference to your report of the 8th instant regarding the Elkhorn Indian Residential School, you may have a bell system installed for the doors leading to the fire escapes. It is noted that the material will cost approximately $50.00 and that the work will be done by the school staff. The fire escape doors should be kept unlocked while the dormitories are occupied.

In connection with your recommendation for refurnishing the staff sitting room, you may arrange for the purchase and delivery, from a firm on the approved list, of the articles of furniture that you consider necessary, at a cost not exceeding $150.00.

Yours truly,

R. A. Hoey.
Supt. of Welfare & Training.

RECORDS

ED WINNIPEG, MAN., December 28th, 1936.

Dear Sir:

I have just been advised by the Rev. A. E. Minchin, Principal of the Elkhorn Indian Residential School, that two of the 5 gal. fire extinguishers are badly rusted and leak. He states that the pumps appear to be in fair condition and suggests that they might be fitted into new tanks. I am not sure that this suggestion can satisfactorily be carried out.

I think we should take every precaution against fire, especially in a school such as Elkhorn and would recommend that two new 5 gal. extinguishers be supplied.

Ottawa, January 4, 1937.

Reverend Sir:

The Department is advised, by Mr. Inspector Hamilton, that two of the 5-gallon fire extinguishers at the Elkhorn Indian Residential School are badly rusted and leaking.

It is considered that these extinguishers would not warrant repairs, and the Department is therefore placing an order with the Pyrene Manufacturing Company of Canada, Limited, Toronto, to forward, addressed to you, four pressure type extinguishers, complete with chemical, to replace the two 5-gallon extinguishers, which may be discarded. The above company have been requested to prepay freight charges and to forward to you their account, in triplicate, covering the cost of the extinguishers, with receipt for the freight charges attached.

When you receive the extinguishers, if in good condition, you should certify the account in the usual manner and forward to the Department for payment. You should see that these new extinguishers are placed in strategic positions in the school, where they would be immediately available in case of fire.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Ottawa, January 4, 1937.

Dear Sir:

I have your 209-11A C.E., of the 28th ultimo, regarding the condition of two 5-gallon fire extinguishers in use at Elkhorn Indian Residential School.

In this connection I have to say that the Department is not now supplying this type of extinguisher. We are placing an order with the Pyrene Manufacturing Company of Canada, Limited, Toronto, to supply, instead, four pressure type fire extinguishers with chemicals. These will be shipped to the Acting Principal, who is being informed of the order placed for the supplying of the above number of extinguishers.

Yours truly,

over

INSPECTOR'S OFFICE

WINNIPEG, MAN., February 9th, 1937.

Dear Sir:

Under separate cover, I am forwarding Voucher No. 43, in favour of The T. Eaton Co. Ltd., payment for furniture and freight, amounting to $153.19. The authority for this was granted in Department Letter 106-0-5 dated December 23rd, 1936.

I have exceeded the amount authorised by $3.19, but I trust this will be paid. The freight amounted to slightly more than I anticipated. The furniture shipped was absolutely needed and is indeed greatly appreciated. The Principal wrote stating the staff worked nearly all night unpacking and arranging the furniture.

Yours very truly,

A. G. Hamilton

Dear Sir:

I was in Elkhorn last week and, while there, examined the pump in connection with the Indian Residential School.

The pump was made by the Economy Pumping Machinery Co. Chicago, and is called "Economy". It is a triple plunger type and I am unable to get any information here with regard to repairs. The pump has been in use many years and the repairs required, I am told, will cost at least $100.00. The crank shaft should be removed and sent in to be machined and this will involve added expense. This pump weighs from 1,000 to 1,200 lbs. and undoubtedly is out of date, which fact makes it more expensive to keep in repair.

Fairbanks-Morse state a new pump will cost very little more and they quote on 1 - 2500 gal. per hour Fairbanks-Morse self-oiling Typhoon Pump with 16" pulley for flat belt drive, suction tapped for 2½" pipe - discharge for 2" pipe; speed of pump 215 RPM - Weight 306 lbs. Price F.O.B. Winnipeg $174.00 less 15% - $147.90.

The vertical shaft in the septic tank will break any day and should be renewed. This will cost approximately $15.00.

An immediate reply in connection with these matters will be appreciated.

Yours very truly,

A. G. Hamilton

Dear Sir: Re Pipe Line, Elkhorn Indian Residential School

A leak has occurred in the pipe line running from the school to the Principal's residence. I examined some of the pipe which was being dug up while I was at the school last week and it is rusted through in many places and will need to be renewed. The following is a list of pipe required and the price will be approximately $ 115.00:

350	ft.	Galv.	Iron Pipe 2"
4	only	"	Standard Unions(Female) 2"
4	"	"	Tees, 2"
4	"	"	Square Head Plugs, 2"

I would appreciate having authority to make the necessary purchase in order that the work may be completed at once. I might say that the pipe will be buried almost 2 ft. deeper, which will entail considerable work on the part of the staff.

Yours very truly,

A. G. Hamilton

AUG 26

Dear Sir,

I have had considerable correspondence with Mr. Minchin, principal of the Elkhorn Indian Residential school, concerning the condition of the outside toilets. He is of the opinion that these should be done away with, as it is impossible to keep them in a sanitary condition.

The boys' playroom was at one time equipped with toilets but years ago these were taken out. Mr. Minchin would like to replace these toilets and have partitions installed, as per the enclosed sketch. He estimates the lumber and material at approximately $60.00 and the three closets, plus the necessary attachments, will cost $83.45, F.O.B. Elkhorn.

I am of the opinion that these toilets should be installed and I would appreciate having the necessary authority.

Yours very truly,

A. G. Hamilton

DEC 23 1937
REGISTRY

Dear Sir,

I received a letter from Mr. Minchin, principal of the Anglican Indian School at Elkhorn, in which he points out that they are short of desk and that the children in the primary room are using benches, which did not meet with the Provincial school inspector's approval.

He also points out that a number of mattresses are required. As a matter of fact, mattresses have been needed at this school for some little time, as I recall on the occasion of one of my visits, the matron was filling mattress forms with straw and using this for the beds.

The following is a list of their requirements -

10 school desks, single, for ages 12 to 14, quoted in Christie's catalogue under No.203, at $8.55, described as the "Preston" single desk with open box, non-adjustable - approx. $85.50

30 mattresses, size 4'6" x 2'6" - " 120.00

(Owt) 30 small pillows, 18" x 26" - " 20.00

12 mattresses, 5'0" x 2'6" - " 50.00

Indian Affairs
FEB 15 38

538 Dominion Public Bldg.,
Winnipeg, Manitoba,
February 8th, 1938.

Dear Sir,

I received a letter from Mr. Minchin, principal of the Elkhorn Indian Residential School, in which he reports that one of the large compression tanks started to leak badly and consequently had to be shut off. One of the seams running lengthwise along the tank is also opened and there is evidence of considerable rusting. Although the second tank is now in use, it also shows signs of rusting and it is doubtful how long it will last. The tanks are approximately 4 ft. x 16 ft.

It is, of course, difficult to know how badly these tanks are pitted and I would suggest that Mr. Yates of Brandon be sent to investigate and submit a report. It may be possible to repair the tank but on the other hand, the only solution may be a new one. The situation should receive immediate attention and I think expert advice should be obtained.

I would be glad to know the Department's wishes in the matter.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies
Manitoba.

Mr.A.G.Hamilton.
Inspector of Indian Agencies.
538 Dominion Public Bldge.
Winnipeg.Man.

Dear Sir,

Acting on your letter of Feb 15/38, I proceeded to Elkhorn Residential School,to inspect the Pressure Tank,and beg to report as follows;-

There are two 48" x 16 foot Pressure Tanks installed with 5/16 shell, 3/8 heads, longitudenal seams double rivited, Heads single rivited with 72 rivets in each Head. No Manholes.

Just when these Tanks were installed,I was not able to a ascertain,but it can be assumed they were put in about 1915.

They have not been kept painted,because it would be impossible to get under them,due to the position in which they are placed,and Tanks used for this purpose usually sweat badly, but damage caused by rust,and age,do not show to any great extent on the outside.

The trouble here is a concave head,reversed to a convex, by excess pressure, and a leak along one longitudinal [illegible].

The Head was reversed about Feb 3rd,in the afternoon, while the Pump was running. When this happened it ruptured the caulking,and badly strained the rivets on that end,causing it to leak.

I inspected the Safety Valve and found it stuck tight, and altogether too small for the size of the Pump,so even if it had been working it would not be large enough. In any case it is not the proper type for this kind of work.

A new Pump was installed about Jany 1st this year, and is connected up properly as far as the piping is concerned.

It is a Fairbanks twin cylinder Pump of 2500 gall capacity per hour, 2½" suction and 2" discharge.

This Pump is provided only with a tight Pully, this means that the Pump is running any time the Laundry is

operating unless the belt is off. Had this Pump been provided with a tight and loose Pully,it would not have to have the belt thrown off. This of course can be explained,by the fact that it was originally run by a Gasoline Engine,which was discontinued in favor of Electric current supplied by the Manitoba Power Commission. The whole plant now being run by a 5 H.P Electric Motor.

When the Pump only is operating, this Motor is large for the Pump,but provides the power necessary to produce excess pressure without warming up the Motor. Pressure has been noted up to 100 lbs, but must have been over that to reverse the Head.

Only one pressure Gauge is installed, and it has not been tested in three years. There really should be two Gauges where so much bepends on it.

You could,perhaps,carry on here till Summer with one Tank,but the Fire portection is ddcreased just that much, and pumping has to be done twice as often.

They are operating now on a single Tank,but the Pump must be watched carefully. Had this Pump been supplied with a seperate Motor,and Automatic Control,the trouble would not have happened, even now you could carry on indefinately with the one Tank if this new Pump had been supplied that way.

The Tank can be repaired by Electric Welding, the caulking, and also any rivets that may be sprung, also the side seam, at a cost of;-

ONE HUNDRED & FIFTEEN DOLLARS.....$115.00

It would be necessary to send heavy welding equipment from Brandon. The Tank would have to be disconnected, raised, and move ahead,over the Pump,in order to get room to work at it.

This could possibly be done for less if the roads were open so that a truck could be used.

If this Tank is repaired,pressure would have to be reduced to 75 lbs to conform to Provincial regulations respecting Air Tanks, but this pressure would be adequate for the Schools requirements.

A new Tank installed with Manhole would cost;-

FIVE HUNDRED & FORTY EIGHT DOLLARS & FIFTY CENTS....$548.50

To put in a new Head would cost approximately;-

ONE HUNDRED & NINETY FIVE DOLLARS.....$195.00

Would also recommend that a Mueller Diaphragm 2" Relief Valve could be installed at a cost of;-.....$48.00

Or an 1½" Relief Valve for.....$30.00

And an extra (Gauge) (Pressure) be supplied at a cost of $8.00

Automatic Pressure Control on the present Motor, CONTROL (5. H.P) could be installed for.....$45.00

538 Dominion Public Bldg.,
Winnipeg, Manitoba,
February 23rd, 1938.

Dear Sir,

I wish to refer to your letter 106-0-5 dated February 11th, and enclose herewith letter from Mr. Yates, dealing with the pressure tank at the Elkhorn Indian Residential School.

The Department will note that Mr. Yates states the trouble is 'there is a concave head reversed to convex, by excess pressure, and a leak along one longitudinal seam'. It is also pointed out that the safety valve was found to be stuck tight and altogether too small for the size of the pump.

Mr. Yates gives several options and, taking the lowest, it will cost approximately $200.00 to repair the pressure tank and fit it with a relief valve, pressure guage and pressure control.

I would appreciate your returning Mr. Yates letter together with your instructions as I have forwarded the original, in order to avoid any delay.

Voucher will be forwarded to the Department concerning expense and charges made by Mr. Yates in connection with this investigation.

I would be pleased to be advised of the Department's wish in connection with the above tank.

538 Dominion Public Blg.,
Winnipeg, Manitoba,
June 28th, 1938.

Dear Sir:

Mr. Minchin reports that one of the tubes on the hot water furnace is leaking, and that a new tube is required. This is an old furnace and should be repaired now and put in order for winter.

I understand Yates, Neale & Company, Brandon, installed the furnace, and I would recommend they be instructed to carry out the necessary repairs. There is only one furnace in the school and it would be unwise to delay this very necessary repair work.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies,
Manitoba.

INSPECTOR OF INDIAN AGENCIES

DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

538 Dominion Public Bldg.,
Winnipeg, Manitoba,
October 3rd, 1936.

Dear Sir,

I have just received a letter from Mr. Minchin, principal of the Elkhorn Indian Residential School in which he again points out the necessity for a bath tub in connection with the infirmary. He states a 5ft.6in. tub is required and that if the connections and tub are supplied, the school engineer will install the bath.

There is also a further need for thirty five mattresses (6 ft. length). This school has been short of mattresses for some years and at times have been obliged to substitute straw filled ticks. There is also a shortage of beds, and if a child is sick, it is necessary to bring both the child and the bed to the infirmary. Mr. Minchin requests that he be supplied with a half dozen institutional beds, size 36 x 72.

These requests are all quite reasonable and supplies mentioned are badly needed.

I would recommend, if funds are available, that the purchase be made. I would be pleased to know what action the Department takes in this matter.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies
Manitoba.

Dear Sir,

Mr. Minchin, principal of the Elkhorn school, will be writing requesting a grant of $100.00 or $150.00 to purchase cement for a swimming pool.

He has dug this pool a few feet from one side of the school. It will be quite large and fairly deep at one end. In my opinion, the pool will be a constant source of worry and I am not prepared to recommend any expense. In fact, I do not think the pool should be completed, especially in its present location. The pupils are mostly away during the hot months of July and August, which makes the undertaking less necessary.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies

Dear Sir,

I wish to refer to my letter 209-11 of the 11th instant and now enclose copy of a letter just received from Mr. Minchin and which, I expected, would go direct to the Department.

In a previous letter he requested $150.00, or at least $100.00, to purchase cement. In this letter he gives the size of the pool and location, which you will note is ten feet from the side of the building.

Kindly advise if funds are available and if the construction of the pool is to be completed.

Yours very truly,

A. G. Hamilton

COPY.

Anglican Indian Residential School,
ELKHORN, Manitoba,
April 13, 1939.

Mr. A. G. Hamilton,
536 Dominion Public Bldg.,
WINNIPEG. Man.

Dear Sir,

Thank you for your letter of the 11th instant re suggested swimming pool. We are planning for a pool 50 ft. long and 25 ft. wide. The depth to graduate from 5 ft. in the deep end to 2 ft. in the shallow. The location to be behind the south wing of the main building and parallel to the dining hall. It will thus be enclosed on these two sides, and leave a space of about 22 ft. between the south wing and the end of the pool and about ten ft. between the side of the pool and the building running east and west.

Many of our children come from reserves situated on the banks of a river or the shores of a lake where they can swim during the summer months. Here there is no suitable swimming place within reach; and as so many of our children cannot get home for the holidays, I feel that they should have some safe place where they can swim.

I do hope the Department will sanction this pool and that they will make us a grant towards the cost of material.

Yours very sincerely,

Arthur E. Minchin (signed)

AEM/MP Principal.

Ottawa,
April 24, 1939.

Dear Sir:

I am in receipt of your letter of the 18th instant enclosing copy of letter received from the Rev. Principal of the Elkhorn Indian residential school with reference to his idea of building a swimming pool.

It is considered that a pool of the kind suggested by the Principal would be a constant source of worry. In addition it is extremely doubtful if such a pool should be built owing to the probability that it would be difficult to prevent contamination. Besides, if the water were changed at frequent intervals a very large volume of water would be used. Taking everything into consideration the Department feels that it would be inadvisable for the Principal of the Elkhorn school to construct a swimming pool.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

July 7th, 1939.

Dear Sir,

Mr. Minchin, principal of the Elkhorn Indian Residential School, reports that certain repair work is needed to the steps leading up to the side entrances. The material required, according to estimate supplied by the Manager of the Beaver Lumber Company, would cost approximately $50.00. Mr. Minchin states that he is prepared to carry out the work if the Department will supply the material.

He also points out the need for a quantity of paint. He requests the following -

15 gals. green shingle stain
20 " red paint for barns
25 " white paint for house, etc.

OK P.D.

Again Mr. Minchin states that he will do the work if the Department is prepared to supply the material.

If funds are available, I would recommend these requests be granted.

Dear Sir:

I have your letter 106-0-5, dated July 7th, and note there is $1500.00 allowed for a new heating system at Elkhorn.

The Principal may have certain ideas about this matter, like myself, but I think we should have advice from someone in the business.

Yates, Neale & Company, of Brandon, have before figured on this and I would like to know if I may take them along to obtain advice. Will they be permitted to submit an estimate on the proposed work? I am sure this firm will gladly give their services in submitting plans and making certain recommendations.

Re: Elkhorn Indian Residential School,
Provincial District of Brandon.

Extensive repairs are required to the heating system at the above [redacted] and an amount of $1500.00 was provided in the current year's appropriation for this purpose.

Inspector Hamilton considers that in view of the expenditure that will be necessary it would be advisable to have expert advice before proceeding with the work. Mr. Hamilton suggests that Yates, Neale & Company of Brandon be requested to have one of their expert men visit the school and submit detailed information regarding what is required and an estimate of the cost.

I should appreciate receiving your authority to accept Mr. Hamilton's recommendation.

Director.

Dear Sir, Re. Motor for Elkhorn School.

We are enclosing letter from The Electric Motor Sales Co of Winnipeg which explains itself.

It looks as though a new Motor would be the best buy.

It would also be good insurance to have the Electrician install a time Switch to protect this Motor. This device should not cost over $15.00 installed, and is a great protection to the Motor.

We await instructions.

Yours very truly,
Yates, Neale & Co.,
per Jas. E. Yates

Yates, Neale & Co.
231 Tenth Street,
Brandon, Manitoba.

Dear Sirs:

We have examined your motor sent in by Mr. Rose, to rewind this motor the price would be Forty Dollars . . ($40.00). It also need new bearings which to make and fit would cost Twelve Dollars and Fifty Cents ..($12.50), making a total of Fifty-two Dollars and 50/00,..($52.50).

The actual cause of motor burning out is hard to say, bearing trouble may have caused it but we cannot be sure.

The price of a new motor without base or pulley is Sixty-three Dollars ..($63.00), we have not a 3 hp. motor of the speed or voltage in stock and are unable to locate one second-hand in the city.

We trust this information to be satisfactory and that we may receive your order to proceed with this work.

Yours truly,

THE ELECTRIC MOTOR SALES & REPAIR CO. LTD.

the grates - these grates were cracked at the ends due to the stoppage of circulation. Just what condition the rest of the other fourteen water grates were in was not ascertained, but they must be partly filled up and all should be replaced if this boiler is continued in use. We cannot conscientiously recommend the repairing for use of this boiler as it is entirely inadequate for this job and even if in good condition would not do the work required of it economically.

A stoker of a size to suit the requirements of the building, not sized according to the size of the boiler, would add about 20% to the power of the boiler and during most of the year would enable the use of cheaper coal.

If it is your desire to repair this boiler and add a stoker, you could add about 20% to the efficiency of the boiler and would make a saving in fuel and make more heat for the building. We would strongly recommend installing a new steel locomotive return flue type of boiler with 600 square feet of heating surface. This installation would result in a saving of at least 50% in the cost of fuel used to heat the building. This boiler to be provided with special openings to take the present mains. The most of the heating surface in these boilers is above the fire and is contained in the flue surface. With this type of boiler there is 54 inches of combustion space above the grates. This provides space for complete combustion of the coal before leaving the fire box.

The locomotive return flue type we recommend as being a better boiler because where this boiler has 54 inches of space above the grates, the Simplex Type has but 34 inches and cast iron boilers built for Pennsylvania hard coal have but 24 to 26 inches.

Any hot water system can be improved, both in efficiency of operation and consumption of coal by the addition of mechanical circulation, that is, installing in the return line an electrical driven propeller type of circulating pump. This applies both to the present boiler installation and also to any new boiler installation.

We have found that it is as important to keep the cold out as it is to supply heat to the building, and in our survey of this building we find that there is considerable heat loss due to the construction of the mansted roof - this should be insulated. We also noted that on the first two floors all ventilators are open from the ceiling only, this of course should be from the floor in order to reduce heat loss.

We estimate that the repairs required on the present boiler would cost - $350.00. Make up of $200.00 (Material) and $150.00 (Labour).

A guaranteed stoker for this heating system to burn Lignite or any coal would cost - $1,500.00.

To install complete a 54" x 11-7 Steel Locomotive Return Flue Hot Water Boiler fitted with special openings to suit present piping, the cost would be - $2,128.00. Built to steam specification, less trimmings.

On this particular system, two 3" Circulating Pumps would be installed with By Passes and all Electric Wiring complete, for the sum of $450.00.

Yours very truly,

YATES, MEALE & CO.,
Per "Jas. E. Yates".

Dear Sir:

Re: Elkhorn Indian Residential School,
Electoral District of Brandon.

This will acknowledge receipt of your letter of August 1st asking that an inspection be made of the heating system at the above mentioned school and a report submitted as to the condition of the same and giving an estimate of the cost of the work which should be done to overcome the present unsatisfactory heating situation.

As it was realized that only a specialist on heating could adequately outline the present heating situation at the school and advise as to what was necessary, we arranged with Mr. Yates of Yates, Neale and Company, Brandon, to accompany an engineer from this office on the inspection trip. The services of Mr. Yates were voluntary and gratis to the Government.

I am enclosing a memorandum from Mr. Rose of this office, who accompanied Mr. Yates to the site, and I am also enclosing a report by Mr. Yates regarding the heating situation at the school. You will observe that Mr. Yates estimates that it will cost $350.00 to repair the present boiler. This repair job would enable the institution to carry on for a few years under the unsatisfactory heating that they have experienced.

Mr. Yates also estimates that a guaranteed stoker to be used in conjunction with the repaired boiler would add $1,300.00 to the cost of the work and would enable the school to utilize a much cheaper grade of coal, namely, Souris Lignite, and the result would be a considerable saving on the fuel bill.

Both Mr. Rose and Mr. Yates and the District Boiler Inspector consider that the present boiler should be replaced by a unit more suitable for the heating of this institution. The particular boiler recommended by Mr. Yates would cost $2,128.00 and he recommends that more satisfactory results could be obtained with this new unit if circulating pumps were installed at an additional cost of $450.00. Should it be considered advisable to proceed with the installation of the new boiler with circulating pumps, it would also be very advisable to install either a mechanical stoker or a blower system. If I can remember correctly, a stoker is not provided at the Brandon Indian School but a blower was installed at small cost and added greatly to the efficiency of the heating system at Brandon.

T.S. Mills, Esq.,
Chief Engineer,
Engineering & Construction Service,
Department of Mines and Resources,
Ottawa, Ontario.

You say in your letter that expensive repairs are required to the heating system at the above school and that an amount of $1,500.00 was provided in the current year's appropriation of the Indian Affairs Branch for that purpose. You will, of course, realise that the Indian Affairs Branch were fully aware of the condition at this institution and must have also realised that an amount of $1,500.00 would be entirely inadequate to place the heating system in a satisfactory condition. I think it would be very advisable to refer the situation back to the Indian Affairs Branch to determine as to whether or not an additional advance could be obtained so as to provide this school with an adequate heating system. A new boiler with circulating pumps would cost in the vicinity of $2,500.00. Whether or not a mechanical stoker would be necessary, the writer is not prepared at present to say but if a stoker is not installed it would be necessary to have installed a blower so that low grades of Souris Lignite Coal could be utilized.

It is my intention to make inquiries with respect to the operation of the heating system at Brandon School and also to make inquiries of individuals familiar with heating equipment, and at a later date will advise as to the necessity of the installation of a mechanical stoker. I hope to have this additional information available in about a week's time, but in the meantime I would appreciate learning whether or not the Indian Affairs Branch can find the necessary funds to install a new heating unit.

Should the Indian Affairs Branch not be able to raise the necessary additional funds, you have the recommendation of Messrs. Yates and Neale, that the present boiler be repaired and a mechanical stoker installed. This could probably be done at a cost somewhat higher than the money which is said to be available. It might be pointed out, however, that this outlay would not provide an adequate heating system for this school and would probably enable them to carry on for a few years under the present existing unsatisfactory heating situation.

Yours truly,

(sgd) D.B. Gow

MEMORANDUM: MR. COW:

Re: Elkhorn Indian Residential School - Heating System.

On August 9th the writer, accompanied by Mr. J.E. Yates, Heating Specialist of the firm of Yates, Neale & Company of Brandon, visited the Elkhorn Indian Residential School for the purpose of obtaining information for a report on the heating system.

The school is a three-storey T-shaped structure with the facade or top of T facing southeast. The basement has masonry walls and its floor is only about two feet below ground level. Most of the three-storey superstructure is faced with a veneer of brick except for the third storey. On the sides of the main section of the mansard roofed third storey, the exterior is shingled. The plan shows the area to be 7,027 square feet. The walls show no sign of cracking and except for some loosening of mortar in the foundation, the walls are in good condition. However, the building is exposed to the sweep of winds of the prairie, only partly broken by low tree growths to the northwest. The heating plant is located in the southeast corner of the building.

It was found that radiation and piping of the hot water system was adequate for this type of heating but the present type of boiler was considered unsuitable and not adapted for economical burning of Western coals. The boiler was also in need of repair. The cold weather heating was reported by the Resident Engineer as very difficult in windy weather, when the boiler had to be forced and even then comfortable conditions could not be maintained in the most exposed sections of the building. The engineer reported as much as ten carloads or about $2,800.00 worth of Drumheller coal had been used in a season. Mr. Yates considered this most excessive.

Two main alternatives were considered. Firstly, the boiler could be repaired and a stoker installed to provide for use of cheaper coal and better combustion. Secondly, a new boiler of greater capacity and better efficiency was considered. In addition to either alternatives, Mr. Yates recommends adding circulatory pumps which would provide for better control of distribution of heat and secure better economy. Furthermore, insulation, particularly in the top storey and slight remodelling of the ventilation system, would greatly assist in securing economy.

Mr. Yates estimated the cost as follows:

(1)	Repair to present boiler 350.00	
	Stoker Installation 1300.00	$1,650.00
(2)	Install Steel Locomotive Boiler...	$2,128.00

D.B. Cow, Esq.,
District Chief Engineer,
Dominion Water & Power Bureau,
532 Dominion Public Building,
Winnipeg, Manitoba.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 8)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

(1A) or (11A) Install two circulating pumps ..... $450.00.

The proposal to install circulatory pumps is in line with best practice and economy of operation of the hot water system. While this feature is not essential in this plant, it provides for better control of the hot water flow which is reported as needed in greater volume on the windward side of the building during stormy weather.

The district boiler inspector was consulted and from him it was learned that the present boiler installation was markedly inadequate and on account of its condition he would consider replacement advisable.

The estimate of such economy in fuel as expected should result in a saving in two or three years which would be equivalent to the cost of the new boiler and this is sufficient to warrant the recommendation for its installation. For this reason, besides the additional long life capacity for heating provided for, the installation of the new boiler is recommended by the writer.

(sgd) J.T. Rose

August 10, 1939.

Mr. D.B. Gow,
District Chief Engineer,
532 Dominion Public Bldg.,
Winnipeg, Manitoba.

Dear Sir: Re: - Heating Elkhorn Indian Boarding School.

We have gone carefully over the heating of this school and beg to report the following.

Radiation.

The Radiation consists of 4 column radiators with some box coils and ceiling radiation in basement of a pattern used generally about thirty years ago. This radiation is of sufficient amount and apparently in good condition. There is installed a total of ninety-seven (97) radiators containing 6,890 square feet of direct radiation.

We estimate that the mains would contain about 1,000 square feet of radiation which is partly covered - some of this covering may have to be removed to help heat the basement. We would estimate the complete heating load at 9,000 feet (Hot Water) or a steam load of 5,000.

Piping.

The piping is a good job and shows no sign of deterioration.

Boiler.

This boiler is a cast iron sectional, with headers on top and sides, connected with 5" nipples to each section. All sections except front and back are split in the middle. Make by the Gurney Foundry Company of Toronto - No. 1267-W. Installed we think about twenty to twenty-two years ago and the manufacture of this type discontinued immediately after.

The rating of this boiler is catalogued at 12,000 feet, but in our opinion should not be rated at more than 6,000 feet, because the heating surface is not available. In proof of this, the Engineer informed us that he is unable to raise the temperature above 180 degrees, even when using Drumheller Coal. He also informed us that they use ten cars of this coal during the season, which means 350 tons of coal.

The fact of the matter is that this boiler is not burning the coal but roasting it and sending the gasses to the chimney unburned.

Another factor is the condition of the boiler. The cast iron base is partly eaten through and weakened by the action of smoke condensation, due to the low operating temperature of the diving flues in the rear end of the boiler.

Some of the water grates about five, were renewed last year and were found to be partly filled with an accumulation of scale and dirt, due to the very high temperature over

Memorandum:

Dr. McGill

Attached herewith, for your information, are copies of reports covering the present heating system at the Elkhorn Indian Residential School in the Brandon district.

You will note that while the existing boiler could be repaired to function, at an estimated cost of $350, our Chief Engineer does not consider its age and general condition warrants this expenditure.

The estimated cost of a new boiler is $2,128 and the cost of two circulating pumps, which would appear advisable, is estimated at $450.

Apparently the present heating system is very inefficient, as evidenced by the large amount of coal that is used.

Our recommendation is that a new boiler be installed and if this is decided upon, we would be glad to draw up specifications for you in the expectation that a suitable boiler could be obtained at a lower price than the estimate given by the engineer.

J. W. Waddle

Memorandum:

DEPUTY MINISTER

Re: Alkhorn Indian Residential School,
Electoral District of Brandon.

In my memorandum of July 24, 1939, I advised you that extensive repairs were required to the heating system at the above-mentioned school.

The Surveys & Engineering Branch arranged with Mr. Yates of Yates, Neale and Company to visit Alkhorn with a view to determining what action should be taken toward improving the heating system. A report has now been received from the Surveys & Engineering Branch in which it is stated that a considerable improvement would be effected in the heating system by taking the following action:

Repair present boiler	$ 350.00
Install stoker	1300.00
Total	$1650.00

Funds are available in the current year's appropriation for the expenditure just mentioned and I should appreciate receiving the approval of the Honourable the Minister to proceed with this work immediately.

The Surveys & Engineering Branch mentioned that the efficiency of the heating system could be still further increased by the installation of a new boiler. This would involve an expenditure of $2128.00 and it would be necessary to install two circulating pumps at a cost of $450.00. In addition it might be necessary to install either a blower or a stoker.

AIR MAIL

Dear Sir:

Mr. J.T. Rose from Mr. Gow's office, accompanied by Mr. Yates of Yates, Neale and Company, Brandon, visited the Elkhorn Indian residential school about the middle of August with a view to reporting on the heating system.

As a result of this visit two suggestions were made:

(a)	Repair present boiler	$ 350.00
	Install stoker	1300.00
	Total	$ 1650.00
(b)	Install new boiler	$ 2128.00
	Install two circulating pumps	450.00
	Total	$ 2578.00

(In addition it might be necessary to install either a blower or a stoker)

In the current year's appropriation it was found possible to include an amount of $1500.00 only for repairs to the heating system at this school. It has, therefore, been decided to proceed with proposal (a). You may, therefore, arrange with Yates, Neale and Company to repair the present boiler and to install a stoker. Please communicate at once with the Principal advising him of the action that you are taking as it will necessitate his securing the kind of coal that is required for a stoker.

Yours truly,

R. A. Hoey

Dear Sir:

I would refer to your letter 106-0-5, dated July 24th and now enclose the invoices for the paint purchased by Mr. Bailey, which invoices are certified to by Mr. Minchin.

I have no copy of the order so therefore cannot make up the voucher.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies
Manitoba.

REGISTERED

Dear Sir:

I have just returned from the Elkhorn School and would like to say that the work on the furnace is well under way and will be completed in a few days. In view of the large amount of water to be heated and the distance this must be forced, Mr. Yates is still of the opinion that circulating pumps may be required.

The school has 157 pupils enrolled--every bed is filled. There are no beds in the infirmary and if a child is sick it must be moved with its bed to the infirmary. Six complete hospital beds should be provided. The Department is aware that Dr. J ohnson submits no bills for his work and therefore receives no pay. I would, however, point out he is most kind and considerate to the children. If necessary he takes them to the Virden hospital, operates and brings them back as soon as they can be moved. Some of the operations are for bone conditions--yet no bill is submitted. I think we should at least equip the school infirmary with proper beds and tables.

The school is well operated. The sewing room work has greatly increased and the girls are receiving splendid training. One new sewing machine is needed. If funds are available I hope this will be purchased at once.

The children appeared in good health and were settling down to the regular school work. The three teachers, I understand, are all qualified for the work.

The other departments, both inside and out, are well operated and the children appeared interested in their work and happy.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies
Manitoba.

Ottawa,
September 29, 1939.

Dear Sir:

With reference to your letter of the 25th instant the Purchasing Agent is being requested to secure the 6 hospital beds and sewing machine for the Elkhorn Indian residential school.

It will be impossible to consider purchase of circulating pumps this year. We have already authorized a larger amount for repairs and improvements than was specifically provided in this year's appropriation for this school. The excess has been taken from a small unallotted amount which we have available and no further funds can be secured from this allotment.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Memorandum:

Dr. McGill

Re: Elkhorn Indian
residential school.

With reference to your memorandum of the 14th ultimo, the following specification has been supplied by our Engineers for a motor to drive a pump at the above school:

1 - 3 H.P. 3 phase, 60 cycle 220 volt motor complete with pulley, starter, and base arranged for tightening belt.

The motor will drive a 2,500 gallon per hour Fairbanks Morse Self-oiling Typhoon Pump and its speed shall be such that the pump will be driven at 215 R.P.M. This was formerly accomplished by an 1,800 R.P.M. motor with a pulley 3 inches in diameter and a 6 inch face.

Tenders shall state the speed and make of the motor offered.

Memorandum:

Mr. [redacted]

Re: Elkhorn Indian Residential School

I desire to refer to your memorandum of September 13 (file 29735-15-16 Man.) in connection with our requisition of August 26 for a 3 H.P. motor for the Elkhorn Indian residential school.

In a memorandum dated October 18 the Surveys & Engineering Branch state that the following specification has been supplied by their engineers:

"1 - 3 H.P. 3 phase, 60 cycle 220 volt motor complete with pulley, starter, and base arranged for tightening belt.

"The motor will drive a 2,500 gallon per hour Fairbanks Morse Self-oiling Typhoon Pump and its speed shall be such that the pump will be driven at 215 R.P.M. This was formerly accomplished by an 1,800 R.P.M. motor with a pulley 3 inches in diameter and a 6 inch face.

"Tenders shall state the speed and make of the motor offered."

Dear Sir,

I would refer you to your letter to this office, file 106-0-5, dated August 26th, in which you advised that you were forwarding requisition to the Purchasing Department for a new 3 H.P. motor for the Elkhorn school.

I am advised by Mr. Minchin, principal of the school, that this has not yet been received. This is very necessary and I would appreciate being advised when it may be expected.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies
Manitoba.

Dear Sir:

With reference to your letter of the 3rd instant regarding the 3 H.P. motor for the Elkhorn residential school I may say that there was considerable unavoidable delay due to the fact that the Principal of the school had not supplied sufficient information to permit the Purchasing Branch to place the order.

Tenders have now been called for this motor and it is expected that the order will be placed by the end of this week.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Gentlemen:

The Department is in receipt of your invoice No. E1130-12 of November 20, 1939, covering the cost of 6 Pyrene liquid refills shipped to Rev. A.E. Minchin, Indian Residential School, Elkhorn, Man. This account includes an item of $1.00 for freight charges. The receipt from the railway company was not attached to the account when it was received here and I, therefore, wrote to the Principal of the school in order to ascertain if you forwarded it to him. He has just replied by stating that no receipt was attached to your account.

Please forward a receipt from the railway company in order that payment of the account may be made.

Yours truly,

R.A. Hoey,

DEC 23

December 22, 1939.

Dear Sir:

Re-Department letter 106-0-5, Sept.29th.

Enclosed are invoices from the Singer Sewing Machine showing the shipment of one Sewing Machine to the Indian Residential School at Elkhorn. These invoices have been certified by Mr. Minchin, but as the Machine was not purchased through this office, I am not submitting them in the form of a Voucher.

Yours very truly,

1523

A. G. Hamilton,
Inspector of Indian Agencies,
Winnipeg, Man.

HOW TO PUT OUT FIRES

Pyrene

THE FACTS

STATISTICS taken from Fire Department records show that 85% of all fires occur between 6 a.m. and 10 p.m. — during waking hours. 98% of these fires are discovered before they have become big fires. Therefore, according to these positive facts only 2% of all fires occurring during the daylight hours get beyond the control of a hand fire extinguisher. The most precious moments in combating a fire are those before the flames have time to spread.

It is obvious, therefore, that if [illegible] means are at hand to extinguish the fire before it has had an opportunity to grow large and get beyond control, a great deal of the danger and loss eventually incurred by fire can be eliminated.

The pages of this folder tell why you should protect your home, business, school, farm, motor car, etc., from fire, and recommend the best type of first aid equipment to do so.

ON farms and rural homes, isolated from the protection of an organized City Fire Department, the necessity for first aid fire-fighting appliances is doubly felt. The installation of gas engines and other power equipment on the farm with their oil and grease, has added to the fire hazard.

For general farm protection the Improved Pyrene Fire Extinguisher will be found valuable particularly in the farm house or in outbuildings where gas engines or power machinery [illegible]

[illegible] protection is necessary, the [illegible] of the extinguishers shown over [illegible] page [illegible] the type best to use

A FIRE in your factory may not only cost the lives of your employees, but it may tie up your plant, lose you orders and ruin your property. Common sense dictates that you guard against these contingencies.

Modern factories present such a variety of fire hazards that it is impossible to recommend any one type of extinguisher to give efficient protection for all of them. With electrical fires for example, the Improved Pyrene is the only type of extinguisher safe to use. For oil fires over a large area Phomene Extinguishers are generally recommended. In other hazards, an Accurate Pump Tank may give the best protection.

THE Improved Pyrene Fire Extinguisher is the best protection against fire for your home you can own. Pyrene is small enough for a woman or child to operate and it is effective against any kind of fire — gasoline, oil, grease, or in fact any fire that might start in a house. Pyrene works with a pump action and throws a stream of Pyrene liquid twenty to twenty-five feet forming a gas blanket which, like a magician's command, instantly kills the fire and does not injure anything else it touches.

To make your home fire-safe you should have one Pyrene in the kitchen and one in the upper hallway. These are strategic points and extinguishers placed here will be instantly available in most homes if fire should start.

RECEIVED

538 Dominion Public Bldg.
Winnipeg, Manitoba,
February 2nd, 1940.

Dear Sir,

Mr. Minchin, principal of the Elkhorn Indian Residential School, reports that two of the fire extinguishers are useless and as that type has been obsolete for a number of years, it is impossible to secure the necessary repair parts.

In view of the heavy winter firing, it might be advisable to have Pyrene Fire Gun Extinguishers, (app. 1 qt.) as shown on the marked illustration, purchased and forwarded direct to Mr. Minchin.

Yours very truly,

A.G. Hamilton

The Secretary,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Canada.

Dear Sir:-

On Monday last June 10, I reported to Inspector Hamilton that our jacket heater upon which we depend for our hot water supply has been leaking for some time and gradually getting worse. We have disconnected the jacket twice in order that the leak might if possible be repaired by welding but without effect. It is now quite impossible to use the heater. Inspector Hamilton has instructed me to write to you direct explaining the circumstances and requesting the Department to authorize replacement of the jacket. If the same type of jacket heater can be secured it would only be necessary to replace the jacket itself as the base is still in good condition. The present heater is described as follows -

Ideal Junior. No. 09. Series 18-2-C made by - Dominion Radiator and Boiler Company Ltd., Brantford, Ontario

Inspector Hamilton asked me to send a clipping showing the design, which I am enclosing herewith. He also told me to explain that we are in the meantime without hot water for all domestic purposes.

Yours very truly,

Arthur E. Minchin.
Principal.

Memorandum

[redacted]

I have your requisition of the 19th instant, File 106-0-5 for one Jacket for Jacket Heater required immediately to replace worn-out jacket on heater at present in use in the Elkhorn Indian Residential School, Elkhorn, Man.

To avoid the possible inconvenience occasioned by the delay in calling for tenders from Ottawa, I would suggest that Mr. Hamilton be asked to make the best possible arrangements for local purchase. No doubt a suitable jacket is obtainable from Winnipeg or elsewhere. It is desirable that competition be secured from at least two sources of supply.

When the purchase has been made, kindly forward voucher, invoice, and copies of tenders, if any, for the usual action of this office.

I am returning one copy of the requisition with the clipping showing the design of the Jacket and heater.

AIR MAIL

Dear Sir:

I am in receipt of a letter from the Principal of the Elkhorn Indian Residential School in which he states that the jacket heater is beyond repair and that as a result the school is without hot water for all domestic purposes.

He further states that the base of the heater is in good condition and consequently a new jacket is all that is required. The present heater is described as follows: Ideal Junior. No. 09. Series 18-8-C made by - Dominion Radiator and Boiler Company Ltd., Brantford, Ontario. It was purchased several years ago from Peace Western Foundry, Winnipeg. The attached clipping shows the design of the heater.

In order to avoid delay in supplying the jacket for the heater it would be appreciated if you would arrange for purchasing it either in Winnipeg or elsewhere. If possible the Purchasing Agent would like to have competitive prices secured from at least two sources of supply.

Yours truly,

Philip Phelan,
Chief, Training Division.

Schools

538 Dominion Public Bldg.,
Winnipeg, Manitoba,
July 23rd, 1940.

Dear Sir,

With reference to your letter of the 21st ultimo, file 106-0-5, re jacket heater for the Elkhorn Residential school, some delay was entailed in securing prices, because at first it was the intention only to purchase repair parts. However, when all the information was obtained, it was learned that this would involve more expense than if a complete new unit were purchased.

I then obtained the following prices - all on the same numbered article -

Standard Sanitary & Dom.Radiator Ltd.
$123.00 less 10% tax included - 110.70
Freight Wpg.toElkhorn - wt.
app.950 lbs. @ 59¢ cwt. 5.02
$115.72

Marshall Wells Co. - f.o.b. Elkhorn 115.75
T.H.Ashdowns Co. - " " 102.60

Department of Mines & Resources
Indian Affairs Branch
JUL 25 1940
REGISTERED

on B 32 Mogul Tank Heater, complete. I also wrote Mr.Minchin re installing it and the following is his reply -

"Mr.Searle is away on holidy until the end of this week so that I can not ask him about this. I should think it most probable that he could install the new water tank heater as he has taken down and replaced the old one more than once."

I would recommend that the lowest tender, Ashdowns, be accepted. The school is closed now so a few days more delay is immaterial.

Yours very truly,
A.G.Hamilton,
Inspector of Indian Agencies
Manitoba.

Memorandum:

MR. BAILEY

I desire to refer you to our requisition of June 19 for the jacket heater at the Elkhorn School.

Your memorandum of June 20 authorized local purchase.

I am now informed by Mr. A.O. Hamilton, Inspector of Indian Agencies, that when he had obtained all the information required about the jacket for the jacket heater it was found that to purchase it would involve more expense than if a complete new unit were secured.

Mr. Hamilton then obtained the under-mentioned quotations on a B 32 Mogul Tank Heater:

Standard Sanitary & Dom. Radiator Ltd.		
$123.00 less 10% tax included	- $110.70	
Freight Vpg. to Elkhorn - wt.		
app. 350 lbs. @ 59¢ cwt.	3.02	
		$113.72
Marshall Wells Co. - f.o.b. Elkhorn		115.75
J.H. Ashdowns Co. -		102.60

Mr. Hamilton recommends purchase from the J.H. Ashdown Hardware Company at a cost of $102.60. The new water tank heater can be installed by the school staff without cost to the Department.

Dear Sir:

RE: Boiler - Elkhorn School

Rev. Mr. Minchin reports a leak in one of the sections of the boiler, and states that Yates & Neale of Brandon suggest a new section may be required. I would request authority to instruct Mr. Yates to examine the boiler and submit a recommendation, stating the expense involved.

This work should be started at once so that the boiler will be ready for operation early in September.

Yours very truly,

A/ C. Hamilton,
Inspector of Indian Agencies
Manitoba.

Re: Boiler at Elkhorn School.

EXT. Q.

Dear Sir:

I have for acknowledgment your letter of the 15th instant, relating to the above noted subject.

You are authorized to have Mr. Yates examine the boiler at the Elkhorn School, on the understanding that he will later submit a recommendation with respect to the repairs that may be necessary and the expense involved. It is scarcely necessary to add that the funds at our disposal for repairs of this kind are this year very limited.

Yours truly,

R. A. Hoey,
Supt. of Welfare and Training.

Dear Sir: Re: Elkhorn School Boiler

In reply to your letter dated August 22, File 106-0-5, I enclose copy of a report submitted by Mr. Yates, together with a letter from the Gurney Foundry Co. Limited.

If, as stated by Mr. Yates, this boiler would still be large enough to heat the school even after cutting out one section, I would recommend this action be taken at the price given of $75.00 approximately.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies,
Manitoba.

231 Tenth Street,
Brandon, Manitoba,
September 5th, 1940.

Mr. A. G. Hamilton,
Inspector of Indian Agencies,
539 Dominion Public Bldg.,
Winnipeg, Man.

Dear Sir, Re, Elkhorn School Boiler.

We got in touch with the Gurney Foundry Co. and today we received the enclosed letter, which tells us that they cannot supply a new Section.

The present section is cracked, but it has been cracked for some time.

It is possible to close up a crack of this kind by using a compound called X Liquid. It would take about $15.00 worth of this and the Boiler would have to be run as a steam job for at least 2 days.

A total cost of approximately $65.00

And we cannot guarantee that it will be a 100% job.

We can, however, cut this half section out and plug the Headers, this we have been prepared to do ever since we knew that the Boiler was leaking.

It would lower the Heating Surface of the Boiler about 4 per cent, but the Boiler is still large enough to take care of the Building.

A job of this kind could be done in a comparatively short time, most of the time being taken up in cutting the section loose of Boiler cement and replacing the covering, so as to allow for expansion when the section heats up, which it will do, due to not having water in it.

The total cost of this job would be approximately $75.00.

We might add that there are several of these Boilers in the Country with sections cut out. We carry special Plugs in stock for this purpose all the time.

Yours very truly,
Yates, Neale & Co.,
per Jas.E. Yates.

DOMINION RADIATOR LIMITED

TORONTO, CANADA

Winnipeg, Manitoba,
July 9th, 1940.

Dominion Government, Dept. of Indian Affairs,
5 3 8 Dominion Public Bldg.
Winnipeg, Man.

Dear Sirs:

Attention Inspector Hamilton

In connection with a fire pot to repair the tank heater at Elkhorn, as this is a discontinued product, we could not supply a new fire pot and it would be necessary to replace the entire heater.

We quote you as follows on a new heater together with the freight rate to Elkhorn:

1 - # B 32 Mogul Tank Heater, complete $ 123.00
less 10% at Winnipeg. Tax included.

The freight rate Winnipeg to Elkhorn is Fifty Nine Cents per hundred pounds.

Trusting the above will be satisfactory and that we may be favored with the business, we are,

Yours very truly,

Standard Sanitary & Dominion Radiator Ltd.

Heating Division.

July 12, 1940.

Mr. A. G. Hamilton,
Inspector of Indian Agencies
538 Dominion Public Bldg.,
Winnipeg, Man.

Dear Sir:

Replying to your favor of the 11th inst. we are pleased to quote as follows:

1 only, H-32, Mogul Tank Heater for heating water, $115.75 each

f.o.b. Elkhorn, Man., terms net cash.

It is our impression that this heater is required for heating water to be used in the institution, and not for the purpose of heating the building, and No. H-32 is the heater adapted to this purpose.

Thanking you for the inquiry, we are,

Yours very truly,

MARSHALL-WELLS COMPANY LIMITED

Extract for 106-0-5

Original on 106-0-6

Extract from Inspector Hamilton's report dated Nov. 18, 1940, on the Elkhorn Indian Residential School:

The tables in the children's dining room need recovering with battleship linoleum. Rev. Minchin had the tables rebuilt and rebolted this summer, and they are now in good condition. I would recommend the purchase of new battleship linoleum (medium quality). Rev. Minchin will arrange for putting it on. Angle metal should also be supplied. There are ten tables, each 3 feet x 12 feet. The total amount of linoleum required is 120 feet in length, 3 feet wide.

The girls were busy in the laundry, and the work in this department is heavy. The ironing of sheets, pillow cases, towels and other flat pieces is a big task, and many of the children are small. I would recommend the purchase of an electric mangle. The J.H. Ashdown Hardware Company can supply one which should be suitable for approximately $75.00, f.o.b. Winnipeg.

The water pipes are filling up, especially the small ones, and giving a lot of trouble. The engineer believes this is due to the accumulation of sand in the pressure tanks. There are no manholes in these tanks. Yates, Neale & Company, of Brandon, have offered to install two manholes for $98.00. I am advised that in Winnipeg the usual charge is $50.00 for each manhole. If funds are available this work should be done before some serious damage occurs.

Dear Sir:

With reference to your recent report regarding your inspection of the Elkhorn Indian Residential School you may incur an expenditure of $98.00 for manholes in the pressure tanks provided you consider these are necessary.

You might let me know at what cost you can obtain the linoleum.

More definite information should be supplied in connection with the mangle. Please quote the catalogue number of this machine.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

In ~~reply to~~ your letter 106-0-5 dated November 27th, I enclose quotations on electric ironers as submitted by various firms.

You will note that new imports will be much higher. The "Thor" is certainly an outstanding piece of equipment. However, if funds are not available for such an expense, I am confident that with care the Voss 40X Ironer at $69.15, would give excellent service. If this is to be obtained the order should be placed at once as you will note only one is in stock.

With regard to linoleum, quotations will be forwarded as soon as submitted.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies,
Manitoba.

Dear Sir:-

On Saturday November 9th. the Motor running our furnace stoker began to give trouble and we had to switch it off. I got in touch with Yates Neale & Co. of Brandon who had installed the stoker and they sent down an Electrician with another Motor to take its place. The Electrician found that coal dust must have in some way been drawn in to the motor. The bearing at one end was cut away through an accumulation of coal dust. This was the pulley end. The bearing at the other end was in good condition and well supplied with oil. The electrician took the damaged motor away and I have a report from Yates Neale & Co. saying that the cost of reconditioning the motor would be almost as great as the purchase of a new one. They sent down a new one which our engineer installed, and we have returned to them the supply motor brought down on November 9th.

I reported my action to Inspector Hamilton on Monday Nov.11 explaining the urgency of the matter as the heating of the building depends upon the stoker and the furnace cannot be run without it. Inspector Hamilton advised that I should give you all the above particulars when forwarding the vouchers. As you can understand we had to act immediately.

3 vouchers enclosed.

Yours very truly,
Arthur E. Minchin

Ottawa,
February 6, 1941.

Dear Sir:

With reference to your letter of December 7 last I am advised by the Purchasing Branch that when they endeavoured to place an order for the ironer recommended in your letter it was found that this machine had already been sold and the firm did not have any others of the same type in stock.

In reviewing the correspondence regarding this ironer I am inclined to feel that the size of ironer previously requested would be too small to be of any real value to the school. If an ironer were being supplied we would probably have to purchase what is known as a semi-commercial type of ironer the cost of which would be approximately $250.00. It is doubtful if funds to this amount can be made available during the present fiscal year but at any rate I should appreciate having a letter from you stating if you consider it advisable to supply such expensive machinery at the Elkhorn School.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

Re: Electric Ironer for Elkhorn School

In reply to your letter 106-0-5 dated Feb. 5th, 1941, I agree that a semi-commercial type of ironer would give more lasting service. However, at the present time I would not care to recommend such a large expense.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies,
Manitoba.

Dear Sir:

In reply to your letter of October 16, File 106-0-5, the following is the list of repairs and improvements required at the Elkhorn Indian Residential School, as submitted by the principal, Rev. A. E. Minchin.

New floor and repairs to barn, also kitchen steps,	estimated cost	$ 75.00
Hot Water Boiler, fittings, and work on same,	estimated cost	25.00
Repairs to ceilings,	estimated cost of material	25.00
Repairs to floors,	" " "	25.00
20 new bedsteads,	estimated cost	150.00
20 mattresses for same,	" "	75.00
30 pillows	" "	25.00

Rev. Minchin adds, "We could also use some paint to advantage but I think this might be purchased from any balance left over on the above estimates."

I have discussed the repair work with the principal, and this should be carried out at once. The beds, mattresses and pillows will help. Some now in use certainly should be discarded as the mattresses are worn out and the beds past repairing.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies

Dear Sir:

With reference to your letter of the 12th instant the following expenditures at the Elkhorn Indian Residential School are approved:

1. New floor and repairs to barn and kitchen steps -- cost of material and labour not to exceed $75.00;

2. Hot water boiler fittings -- cost of material and labour not to exceed $25.00;

3. Repairs to ceilings and floors -- cost of material not to exceed $50.00.

Regarding the beds and mattresses, please let me know the length and width of the beds required.

Yours truly,

Mr. A.G. Hamilton,
Inspector of Indian Agencies,
Winnipeg, Man.

R.A. Hoey,
Supt. of Welfare & Training.

ARCHIVES PUBLIQUES
CANADA

Ottawa,
December 1, 1941.

Dear Sir:

With reference to your letter of the 25th ultimo, regarding beds and mattresses for the Elkhorn School, I would point out that as you were advised in my letter of October 16 an amount of $400.00 was provided in the current year's appropriation for repairs, improvements and purchase of new equipment at the Elkhorn School. An expenditure of $150.00 was authorized in official letter of the 13th ultimo leaving a balance of $250.00 available.

The cost of beds and mattresses has increased owing to present conditions and as a result a bed and mattress costs between $18.00 and $20.00. Under these circumstances we can only supply 12 beds and mattresses for this school. I am, therefore, requesting the Purchasing Branch to secure 5 beds, 36" x 72", with mattresses, and 7 beds, 30" x 72", with mattresses.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Gentlemen:

The Department has received your account dated December 29, 1941, amounting to $75.00, for lumber and hardware supplied to the Elkhorn Indian Residential School.

There is included in this account an item of 75¢ for express charges on hinges and a clamp for tubing. Before the account can be passed for payment, it will be necessary to have the express receipt for 75¢. I would request, therefore, that you forward the receipt to this Department at your earliest convenience.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

ACTING DEPARTMENTAL PURCHASING AGENT

I attach account amounting to $75.00 covering the cost of material required for the new floor and repairs to the barn and kitchen steps at the Kitchen Indian Residential School. These repairs were urgent and, as the school supplied the labour without cost to the Department, Inspector Hamilton was authorized to secure the material shown on the attached account from a firm on the approved list. I should appreciate it if you would issue purchase order so that the account may be paid. The coding is as follows: 578-76-10-691.

Reverend Sir:

On December 16 purchase order No. 10407 was forwarded to the Globe Bedding Company, 274 Jarvis Street, Winnipeg, ordering beds and mattresses for the Elkhorn Residential School. A copy of this purchase order was sent to you on December 23. When the order was placed the firm was instructed to forward their account to you in triplicate in order that you could certify it on receipt of the beds. As yet this account has not been received and, as the end of the fiscal year is approaching, it would be appreciated if you could arrange to have it forwarded immediately.

Dear Sir:

With reference to Departmental letter 106-0-5, dated December 1, 1941, I enclose herewith an account for $250.38 from Globe Bedding Company Limited, covering 12 beds and mattresses supplied to the Elkhorn Indian Residential School.

This order was placed by the Purchasing Branch. The account has been certified by the Principal of the school.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies
for Manitoba.

Department of Mines & Resources
Indian Affairs Branch
APR 13 1942
REGISTERED

538 Dominion Public Bldg.,
Winnipeg, Manitoba,
April 10, 1942.

Dear Sir:

I wish to recommend the purchase of the following paint for the Elkhorn Indian Residential School. The colors desired are marked on the enclosed color cards:

5 gals.	Old Colony Green	@ 4.17	gal.	$ 20.85
5 "	Light Pink	4.15	"	20.75
3 "	Dark Oak	4.74		14.22
3 "	Mellow Cream	4.17		12.51
1 "	Boiled oil			1.03
				$ 69.36

These prices are from Ashdown's, and are f.o.b. Winnipeg.

I was at the Elkhorn School on March 23rd, and was very pleased with the appearance of the boys' dormitories. Both large dormitories have recently been painted. The work was carried out by the boys under the supervision of a staff member. Nurse Long, the matron, would like to have the girls' dormitories and the large dining-room painted. Mr. Hicks states the work can be done by the boys and staff, but he would like to proceed at once so that the work can be completed before the spring work starts. The rooms mentioned badly need cleaning, and the boys need this work and training. I would recommend authority be granted for the purchase.

Yours very truly,

A. G. Hamilton,
Inspector of Indian Agencies.

The Secretary,
Indian Affairs Branch,

ANGLICAN INDIAN RESIDENTIAL SCHOOL, ELKHORN

PRINCIPAL: [redacted]

1626

OFFICE TELEPHONE : 27
PRINCIPAL'S RESIDENCE : 19

ELKHORN, MANITOBA September, 8, 1948.

Mr.A.G.Hamilton,
Inspector of Indian Agencies,
538 Dominion Public Building,
Winnipeg,Man.

Dear Mr.Hamilton:

Re Grant of $650.00 for Repairs

After making a careful survey of our buildings and equipment,I have come to the conclusion that this money could best be used by spending it on the remodelling and repairing of the building formerly used as a gymnasium. I understand that the building has not been used for some years,with the result that it is falling into a state of disrepair.

My proposal is to have a basement put under the building, and remodel the building itself to make three class-rooms 36' x 18'. The benefits that the School would derive from this plan are numerous.

1. Our present root-cellar is not satisfactory, and a new one will have to be built. Part of the proposed basement could be made into a root-cellar, thus eliminating the expense of building a new one.

2. We have no recreation room apart from the staff sitting room. The children have to spend there free time either in the class rooms or the dormitories and on the stair-ways. One of our most urgent needs is the provision of recreation rooms for the children. This need would be met quite adequately if the old gymnasium were remodelled to make class-rooms, as the two class-rooms in the main building could then be used as recreation rooms.

3. The building now used as the intermediate class-room could be put to good use as a warehouse.

4. The old gymnasium has been a first class building, but if it is not repaired and put to some use it will soon become worthless.

Indian Affairs. (RG 10, Volume 6262, file 578-5, part 8)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Unfortunately our grant will be insufficient to meet the cost of the proposed alterations;however our need of a new root-cellar and recreation rooms is urgent,and I am hoping that the Department will consider the plan sufficiently worth-while to warrant an increased grant.

I am enclosing herewith an estimate of the cost of the proposed alterations.

Yours sincerely,

C. N. Middleton

Principal.

REGISTERED

Dear Sir,-

The enclosed letter has just been received from the Reverend Mr. Middleton, Principal of the Elkhorn School.

The building referred to as the gymnasium is too good a building to leave neglected. A similar building could not be erected for less than $3,000.00. Remodelled as suggested, it would serve a worth-while purpose.

A root cellar is needed and this could be provided for in part of the basement.

The children at this school have no place to play except as suggested by the Principal, or in a dark and ill-smelling basement.

If this work can be done at the figure given I would urge that the extra $438.00 be provided and that Mr. Middleton be allowed to proceed at once with the work.

Yours very truly,

A.G.Hamilton,
Inspector of Indian Agencies
for Manitoba.

Re: Repairs,
Elkhorn Residential School

Dear Sir:

I have for acknowledgment your letter of the 9th instant and also letter relating to the marginally noted subject received by you from the Principal.

It so happens that the sum of $350.00 was included in the estimates of this year for repairs at the Elkhorn Residential School, and it is extremely difficult to exceed this amount, for the simple reason that repair bills at the majority of our schools this year have been in excess of the appropriations voted for such work. I am disposed to agree with the Principal, however, that the gymnasium building should be rebuilt. In undertaking this construction, the Principal should keep in mind the fact that provision should be made for vocational instruction for boys and perhaps for girls. Our residential schools are constantly under criticism for their failure to provide practical courses for the pupils, and in view of the acute shortage of skilled labour in the Dominion at the present time, this condition should be remedied at every opportunity. It is our intention, therefore, to have Mr. Doucet make a survey of the residential schools in Manitoba toward the end of this calendar year or the beginning of the next.

I am sending forward to the Purchasing Division a list of the supplies requested by the Principal. I have been wondering if you would suggest to him that the item of $150.00 for labour be, if at all possible, borne either by the school or by the Anglican Commission.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Sir:

With regard to the grant of $650.00 available for repairs, improvements etc. this year at our Elkhorn School, as set forth in your letter of June 30th last, #160-2, I beg to state that I have received a copy of the letter forwarded by the Principal of this School to your Inspector Hamilton of Winnipeg, and in which he offers suggestions as to how this money may be expended to the best advantage.

You will know from previous correspondence that our Commission have keenly desired for some time to have detached class-rooms supplied at this school as well as at some of our other schools, especially those at Onion Lake and Lac la Ronge. Principal Middleton's suggestion that the building originally used as a gymnasium be fitted up and used as class-rooms, with a full-sized basement, part of which could be used as a root cellar, has our Commission's approval as a temporary measure. They have found that, as a general rule, buildings erected for one specific purpose cannot be satisfactorily reconditioned for other purposes, and while in this case the gymnasium building might be made to serve temporarily in the way suggested it could not be considered as a permanently satisfactory arrangement.

Yours very truly,

T. B. R. Westgate

Secretary of the Commission.

Dear Doctor Westgate:

Re: Repairs, Elkhorn Residential School.

I desire to acknowledge receipt of your letter of the 11th instant and note with interest your comments on the reconstruction of the gymnasium building at the above-noted school.

I have already written to Inspector Hamilton and intimated to him that we are prepared to proceed with the reconstruction of the building, on the understanding that provision will be made for vocational instruction in either the basement or one of the classrooms of the reconstructed building. This decision is in harmony with the policy of the present Minister, who is seeking earnestly to make the courses at our Indian residential schools increasingly more vocational and practical in character.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir,- Re: Repairs - Elkhorn Residential School.

I acknowledge your letter 106-0-5, dated September 14th, and now quote for your information from a letter just received from the Anglican Commission:-

"With reference to the proposed remodelling and repairing of the former gymnasium building of our Elkhorn Indian Residential School for which purpose the Indian Affairs Branch are willing to provide a grant, this letter will confirm in writing the decision of the Commission to provide the sum of approximately $150.00 for labour.

"We trust that as soon as the Indian Affairs Branch of Government have been advised of this decision they will sanction the purchase of the materials necessary to carry out the remodelling of the above-mentioned building."

You will note they are prepared to pay the labour estimated at $150.00.

Yours very truly,

COPY - for the information of the Secretary, Ottawa.

ANGLICAN INDIAN RESIDENTIAL SCHOOL, KLKHORN

Klkhorn, Manitoba,
November 17th, 1942.

Inspector A.G.Hamilton,
538 Dominion Public Building.
Winnipeg, Man.

Dear Sir:

We have begun work on re-modelling the gymnasium and are at present digging out the basement. I have just learned that the carpenter who made the estimate did not include, cement and timbers for the basement. The following will be required:-

Cement, 125 sacks	$125.00
Lumber - 14- 8" x 8" x 7'	35.00
Lumber - 3- 8" x 8" x 13'	15.00
	$175.00

If it is impossible to procure 8" timbers, 4 boards 2" x 8" might be substituted for each timber.

I suppose it will be necessary to get approval for this expenditure from the Indian Department and to have the supplies ordered through the purchasing agent. However, it would be quicker and easier to obtain these supplies locally, if permission can be obtained to do so.

These materials are essential and we would like to have them as soon as possible.

Yours sincerely,

"C.N.Middleton"

Principal.

Dear Sir,-

At the present time Mr. Hamilton is out of town making an inspection trip covering the Lake Manitoba, Lake St. Martin, Fairford and Little Saskatchewan Reserves, and does not expect to return to Winnipeg until about the 25th instant. In his absence I am forwarding for your attention and advice, the enclosed copy of a letter received from the Rev.C.N.Middleton, Principal of the Elkhorn School, regarding building supplies, since it would appear that this matter is rather urgent.

Yours very truly,

D. Matheson

Memorandum

Mr. R.A.Hoey

With reference to your requisition of the 20th instant, file 106-0-5, for 125 sacks Portland cement for repairs to the Elkhorn Indian Residential School, as stated in telephone conversation of even date, I would suggest that the Indian Agent make the best possible arrangements for local purchase from the Monarch Lumber Company, or elsewhere. It is understood that the local price is $1.00 per sack.

When delivery has been taken, please send voucher and invoices to this office for the usual action.

H.J.Davidson
Departmental Purchasing Agent.

538 Dominion Public Bldg.,
Winnipeg, Manitoba,
May 29th, 1943.

Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA Ontario.

I inspected the Elkhorn Indian Residential School on May 18th and wish to report as follows.

There are 134 pupils enrolled: boys - 55; and girls - 79. There are three teachers and the pupils appear to be making fair progress in their respective grades. All were neatly dressed and clean in appearance.

The dining-room has been painted and now is much brighter. The floors are hardwood, but have no filler or finish I would recommend that these floors be treated with two coats of Tremco penetrain. It will require about five gallons to do this; but the floors will have a good finish and be much easier to keep clean.

The dormitories were well aired and clean. Two have been painted and the walls and ceiling are now bright and clean.

The new class-rooms are not in use yet, but should be ready for the fall term in September. This change will provide a nice playroom and reading-room for both the girls and boys. In digging the basement under the proposed new classrooms provision has been made for a large root cellar. The Principal found to his disappointment that some water appeared so it will now be necessary to fill in the excavation at least one foot, after which a cement floor may be required. This cement floor will involve extra expense and he requested that the Department pay for the cement. In view of the circumstances I think this should be allowed.

The children appear well fed and attached is a copy of the menu followed. You will note the quantities used for one meal are inserted in red. The children receive all the bread

.....

Indian Affairs. (RG 10, Volume 6263, file 578-5, part 9)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

they desire and I found the brown bread very wholesome. Miss Long is a graduate nurse and is the matron. She is greatly interested in the children and gives careful consideration to their food requirements.

The cattle number thirty head and a fair supply of milk is provided. The milk is served to the children to drink or on porridge or in milk puddings.

The sewing-room, laundry, kitchen and bakery are well supervised and the girls receive a good training in the work of these departments.

The Principal's house needs interior decoration badly. To my knowledge no cleaning or decoration has been done for years and the house is dark and dismal. The following is the approximate cost required to do the necessary work:-

5 gals Satin finish Ivory Enamel	$16.50
1 " Gloss White Enamel	5.50
2 gals Semi-gloss White Enamel	11.00
Sanding Floors	15.00
Floor Filler - 3 gallons	12.00
Wall Paper	45.00
Gold-dust for Putty Coat - 2 sacks	2.00
Cost of Paper Hanging and Pastering	75.00
	$182.00

The Rev. Middleton supplied the above figures which I understand he obtained locally. I would recommend that Mr. Middleton be authorised to proceed with the work.

The farm seeding was well along and they also expect to have a large garden in addition to several acres of potatoes.

The Rev. Mr. Middleton has been at Elkhorn for less than one year. He appears greatly interested in his work and I find him willing and anxious to co-operate in every respect.

I hope funds will be made available to carry out the enclosed recommendations.

A.G.Hamilton,
Inspector of Indian Agencies
for Manitoba.

Ottawa,
June 7, 1943.

Mr. A.G. Hamilton, Inspector of Indian Agencies,
Winnipeg, Man.

I am in receipt of your letter of the 29th ultimo, reporting on your recent inspection of the Elkhorn Indian Residential School. The Department approves having the floor in the dining room treated with two coats of Tremco penetrain. It is noted that 5 gallons will be required. It is understood that the work will be done by the school staff, without cost to the Department.

With reference to the new classrooms, please let me know the amount of cement required. In connection with these classrooms it is regretted that no mention was made in your report regarding manual training activities at this school. If you refer to my letter of September 14, 1942, you will note that an amount of $650.00 was provided in the appropriation for the last fiscal year for repairs and improvements at this school and the major portion of this amount was authorized for rebuilding the gymnasium building. In giving this authority it was distinctly provided that provision should be made for vocational instruction for boys and perhaps for girls. Under these circumstances you will realize our disappointment when you made no mention of any provision having been made as directed. For your information I may also say that on March 4 last we wrote a letter to the Principal of the Elkhorn School requesting a report regarding manual training work covered during the past year. As yet he has not replied to our letter.

Re: Cement for Basement Floor -
Elkhorn Residential School.

I acknowledge Departmental letter 106-0-5, dated June 7th. The cement required is estimated at one hundred bags. Mr. Middleton states this can be purchased locally for $1.00 per bag.

In view of the fact that the classrooms had not been completed no manual training classroom was available and so no special course of work has been started. Mr. Middleton hopes to have the new classrooms ready by September 1st, at which time a building will be available for manual training. He has no qualified instructor; but will endeavour to get one. I understand he has written Ottawa direct concerning this matter. If a teacher can be secured some tools will be required.

The re-modelling of the gymnasium entailed much more work than was anticipated and so was not completed last fall. The boys have assisted in all the work and this has been excellent training and will prove helpful. It's a type of work they enjoy. They have also done most of the interior painting in the school - a further worth while training.

I find Mr. Middleton most anxious to co-operate and if he can secure a suitable staff I am sure he will carry out a worth while program of work.

106-0-5

Ottawa,
March 9, 1944.

Mr. A.G. Hamilton, Inspector of Indian Agencies,
Winnipeg, Man.

With reference to your letter of the 7th instant, you may purchase the following items from General Electric, Winnipeg, for the Elkhorn School:

B.X. Cable 14-2, 15 amp. -- 250 ft.	$10.83
Textolite Weatherproof socket -- Cat. No. 60666 -- ½ doz.	12.00
Squeeze Connectors, #7051 -- 1 box 50 ...	9.00
Sphinx Mercury Flush Switch	
#G.E. 3002 -- Single Pole -- 2 ...	2.50
#G.E. 3009 -- Double Pole -- 1 ...	2.05
Sectional Conduit Switch Box #1104 -- 3..	6.90
Bakelite Plates #T10 -- 3	.30
Total	$43.53

We are requesting the Purchasing Branch to secure the paint. I understand from the Principal's letter that the Beaver Lumber Company has quoted $243.81 for the lumber, shiplap and Ten-test. However, this is not exactly plain and I should appreciate confirmation of this order. We would also like to have the unit price for each item. I presume that this amount, if correct, includes both sales tax and delivery to the school.

An immediate reply would be appreciated, in order that purchase may be made from the current year's appropriation.

R.A. Hoey,
Supt. of Welfare & Training.

CONDITIONS

This order is not subject to countermand.

Merchandise returned without our authority will not be accepted.

Enclosed Bill of Lading shows that the goods have been delivered to the Transportation Co. in good order and they are responsible for any loss or damage while in transit.

If shipment does not arrive in good condition or complete, except it promptly and have the freight agent endorse the shortage or damage on the freight bill. Claims for loss or damage must be filed in writing to the Transportation Co. within four months after delivery of shipment and must be accompanied by the paid freight bill bearing agent's notation. If you will send the freight bill to us, we will make claim for your account.

Our responsibility ceases upon delivery of goods to the Transportation Co. and we are not responsible for breakage or leakage due to careless handling of shipment while in transit.

Be on the lookout for this shipment. If it does not arrive within a reasonable length of time, advise us and we will start a tracer for you.

No representations, agreement or promise of the salesman (not appearing on this invoice) whether verbal or in writing, shall be valid, except when confirmed in writing by the Company.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

I attach account amounting to $145.24, covering the cost of wallpaper and cement supplied to the Elkhorn Residential School. With regard to the cement, I would refer you to your memorandum of July 8, 1943, file 45, 666-15-3 M., authorizing Inspector Hamilton to make the purchase. The wallpaper was used for the Principal's living quarters, the labour being supplied by the school staff free of charge. It would be appreciated if you would issue purchase order so that the account may be paid. The coding is as follows: 578-76-10-491.

Department of Mines and Resources,
OTTAWA, Ontario.

Mr. E. Moodie, Inspector, Fire Prevention Branch, Department of Labour, 328 Legislative Building, Winnipeg, has inspected the Elkhorn Indian School, and in closing his report made the following recommendations.

"Life Safety
Recommendations (1) Exit doors from children's dormitories are kept locked. It is herewith recommended that the use of padlocks be discontinued, and if it is necessary to keep exits locked, same to be controlled by master keys in possession of all members of staff.

(2) Exit to fire escapes from girls and boys dormitories on second floor are by push-up windows; these windows to be changed to open on their vertical axis in one piece. If exit windows are covered with storm windows, same to open outward on their vertical axis, and the inside windows to open inward on their vertical axis.

(3) The children's ages in the dormitories on the third floor are from 6 to 11 years of age, and the ages of the children on the second floor are from 12 to 17. Would recommend that the older children be moved to the top floor and the younger ones moved from the top floor to the second floor.
